

Knowing what services are available

This is an area that we are still developing in Shropshire and we know that there needs to be a lot more work to give people good information about what is available and what it costs. We are looking into how this might be done using the internet, building on all the information that is available already.

But we are aware that lots of people don't use the internet, so we are also looking at how we can work with other organisations and services to make sure that there is good information for people in lots of different formats.

There is some helpful information over the page but if you need further help in this area please ask your Care Manager or the person helping you with your support plan.
