

CENSUS RETURNS

Listed below are the holdings of census returns for each parish between 1841 and 1901. Copies are also held in some libraries in Shropshire as well as the Shropshire Archives. Copies are on microfiche so you are advised to contact the relevant libraries to ensure that a microfiche reader will be available for you to look at the microfiche.

The returns have been listed alphabetically by parish showing where copies are held for particular years. Places outside Shropshire have also been listed where copies have been acquired to complete Shropshire holdings.
