

Parish Registers

Shropshire Archives holds copies of most of the parish registers for the county. This list will tell you in which format the registers are held for each parish.

How to Use this List

1st Column

The name of the **parish** appears in the first column.

2nd Column

The second column lists the **microfiche** or **microfilm** copies that are available. These are photographic copies of the original records. You will need to book a microfiche or microfilm reader to view these. In the case of microfiche, the numbers in brackets refer to individual fiche numbers. For example CB 1690-1812 (23-37) shows that christenings and burials for those dates will be found on fiches numbered 23 to 37 in that particular parish. Entries in *italics* in this column indicate that the registers are on microfilm.

3rd Column

The third column gives the dates of those registers which have been **printed**. All of these volumes have name and place indexes. They are available on the Reading Room shelves.

4th Column

The fourth column lists all the **transcripts** which are available. Where there is an index to the transcript this is indicated by (I) after the covering dates. These are also available on the Reading Room shelves.

5th Column

The fifth column lists which years are available as **original** registers only. You will need a Readers Ticket to order these in the Search Room.
