providing opportunities and promoting
independence for people with visual impairments

Vision Technology and Training Shropshire

- is your eyesight not so good these days?
- are you finding it difficult to read the newspaper or your post?
- do you want to learn something different which can help you read books or write a shopping list?
- would you like to take up a new hobby but don't know where to start?

We can help you

- by supporting you to gain independence through technology
- enable you to gain new skills by using the latest computer programmes.

... Computers are an invaluable tool

Computers are an invaluable tool in helping to level the playing field for people with visual impairments. They can help you to read print, write letters, or even surf the internet and send e-mails, pay your bills and do your shopping online.

At Vision Technology and Training Shropshire, (VTTS) we offer one to one computer training to adults of all ages, using the latest equipment to enable people with sensory and physical difficulties to access a computer. You do not need to have a computer at home or any previous knowledge of using a computer.

Other services available

At Vision Technology and Training Shropshire, (VTTS) we also offer many other services which include:

- advice, support and information on electronic equipment
- assessments for electronic and low vision aids
- a transcription service from standard text - to high quality braille, large print, audio tape and MP3.

We have a fully accessible ICT suite and a range of specialist equipment such as:

- joysticks
- large keyboards
- document magnifiers
- speech and magnification software
- on-screen keyboards and symbol software

Our services are tailor made for you and will help you access your information more easily.
