Shropshire Council Early Help Parenting Team

We are a small team of trainers and practitioners who come from backgrounds which include safeguarding, health and education and between us have years of experience and expertise in supporting families in understanding and managing their children's behaviours.

As well as our training offer for professionals who work with families, we offer a targeted early intervention service, providing direct one-to-one and group support to parents. We also support the wider provision of universal and targeted 'Understanding Your Child' and 'Understanding Your Teen' groups and workshops across Shropshire.

This brochure provides an overview of some of the range of training offered by the Parenting Team. It is illustrative and doesn't include all that we can offer. Please contact us to discuss your requirements, we would be happy to tailor our training to meet your needs.

Solihull Approach - Foundation Training Target audience: Professionals who work with families, infants, children and young people. The Solihull Approach is a highly practical way of working with families within a robust theoretical structure. It explores the quality of the parent-child relationship and how this is crucial to the way the brain wires itself, impacting upon the child's ability to regulate their own emotions and behaviours. It has a major contribution to make to the ways in which practitioners can work with families to ensure that children have a good emotional start and support throughout childhood. NEW - Understanding Attachment Target audience: Professionals who work with families, infants, children and young people. This training will provide an overview of attachment theory. It will apply attachment theory to practice and improve your understanding of relationships within families, which might provide an explanation for some behaviour that you see. It aims to provide fuller understanding of what a child is experiencing, what a family needs, and help you to structure your thinking. The training will NOT equip you to provide a definitive diagnosis of an attachment disorder. This requires specialist training.	X	Nadine Last	FD	15/10/19 Or 21/11/19	Shrewsbury	£60	1.5
