<u>Committee and date</u> Audit Committee 30 July 2021	<u>Item</u> Public
--	-------------------------------

STATEMENT OF ACCOUNTS 2020/21

Responsible Officer James Walton
 Email: james.walton@shropshire.gov.uk Tel: (01743) 258915

1. **Summary**

The timetable for producing the 2020/21 Statement of Accounts has been amended by the Accounts and Audit Regulations due to the impact of the COVID-19 pandemic, so that all local authorities are required to publish the audited Statement of Accounts by 30th September 2021, with the draft accounts approved by 31st July 2021. Therefore, the Council’s Draft Statement of Accounts for 2020/21 will be certified by the Section 151 Officer as a true and fair view of the financial position by 31st July 2021 and it is intended that the audited Statement of Accounts will be published by the 30th September 2021.

The Draft Statement of Accounts for 2020/21 is appended to this report. This report provides an overview of the Accounts and provides details of the reasons for the most significant changes between the 2019/20 Accounts and the 2020/21 Accounts.

The financial impact of the pandemic has been felt across all local government but despite the 2020/21 financial year being an unprecedented year, the Council’s financial year revenue outturn is an underspend of £0.764m on a gross budget of £575.462m. The final capital outturn shows a spend of £65.738m, representing 96% of the re-profiled budget.

The authority’s Earmarked Reserves and Provisions have increased by £26.123m (includes £22.074m Section 31 Business Rate Relief funding). The general fund balance has increased by £0.580m. Delegated Schools’ balances have increased by £4.104m (This includes the impact of moving the Dedicated Schools Grant deficit of £2.247m to an unusable reserve). Full details of the revenue and capital outturn position and the reserves, provisions and balances held by the authority are set out in a separate report on the Agenda for this meeting.

2. **Recommendations**

It is recommended that Members:

- A. Receive and comment on the draft 2020/21 draft Statement of Accounts.

REPORT

3. Risk Assessment and Opportunities Appraisal

- 3.1. Details of the potential risks affecting the balances and financial health of the Council are detailed within the report.

4. Financial Implications

- 4.1. This report considers the outturn position for the 2020/21 revenue budget and the implications on the level of general fund balances of any underspend or known spending pressures.

5. Background

- 5.1. The external audit by Grant Thornton will begin 2nd August 2021 and it is expected to be completed in September, after which the Statement of Accounts will be formally published, and a final report brought back to Audit Committee for approval. This report will detail any material changes required as a result of the audit as agreed with the External Auditor.
- 5.2. In accordance with the Accounts and Audit (Amendment) Regulations 2021, the statutory deadline for the formal publication of the audited 2020/21 Statement of Accounts is 30th September 2021.

6. Statement of Accounts

- 6.1. The purpose of the Statement of Accounts is to give electors, those subject to locally levied taxes and charges, Members of the Authority, employees and other interested parties clear information about the Authority's finances. The format of the Statement of Accounts is governed by the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 ("the Code") issued by the Chartered Institute of Public Finance and Accountancy. To make the account as useful as possible to its audience and so as to make meaningful comparisons between authorities possible. The Code requires:
- All Statement of Accounts to reflect a common pattern of presentation, although at the same time not requiring them to be identical.
 - Interpretation and explanation of the Statement of Accounts to be provided.
 - The Statement of Accounts and supporting notes to be written in plain language.

- 6.2. All of the above has been taken into consideration when producing the authority's own Draft Statement of Accounts. These accounts comprise various sections and statements, these are all briefly explained below:
- **Narrative Report** – this provides an explanation of the authority's financial position for 2020/21 and details the performance of the Council during the financial year.
 - **The Statement of Responsibilities** – this details the responsibilities of the authority and the Section 151 Officer concerning the authority's financial affairs and the actual Statement of Accounts.
 - **The Audit Opinion and Certificate** – this is provided by the External Auditor following the completion of the annual audit, this document is therefore draft pending the outcome of the audit.
 - **The Core Financial Statements**, which comprises:
 - **The Movement in Reserves Statement** – this shows the movement in the year on the different reserves held by the authority which is analysed into 'usable reserves' and other reserves.
 - **The Comprehensive Income and Expenditure Statement** – this is fundamental to the understanding of a Council's activities. It brings together all the functions of the Council and summarises all of the resources that the Council has generated, consumed or set aside in providing services during the year. As such, it is intended to show the true financial position of the Council, before allowing for the concessions provided by statute to raise council tax according to different rules and for the ability to divert particular expenditure to be met from capital resources. The 2020/21 Comprehensive Income and Expenditure Statement reports a deficit for the year of £202,249m, however, this is not cash as this takes into account a number of significant theoretical amounts for matters relating to pensions and use of assets. The actual movement on the General Fund Balance was an increase of £0.580m which reflects the year end underspend on the revenue budget.
 - **The Balance Sheet** – this is fundamental to the understanding of the authority's financial position as at the 31 March 2021. It shows the balances and reserves at the authority's disposal, long term liabilities and the fixed and net current assets employed in its operations, together with summarised information on the fixed assets held. The authority's total equity amounts to £198,987m, a decrease of £202.249m which is analysed in the Movement in Reserves Statement. Assets have decreased as a result of a decrease in the value of Property, Plant & Equipment which has decreased due to a decrease in valuations of assets held.

The pandemic and the steps taken nationally and globally to respond to the Covid-19 pandemic have and continue to effect global, national and local economies. The current economic climate and property landscape has seen dramatic change over a very short period of time with certain sectors experiencing significant volatility and uncertainty. This has impacted upon market values, insurance values and asset values for many organisations both in the private and public sector.

The Royal Institute of Chartered Surveyors released new Global Standards at the end of January 2020. The Council has transitioned to a reputable national external advisor to provide a report and valuation for the financial year ending March 2021.

The values of the Council's assets have as a result seen some significant variances on previous years values in part due to market changes as set out above but in some areas due to differences in valuation methodology applied by the external valuers to the Council's previous approach, and changes in valuation approach from more widely used traditional methods. The external advisors have adopted changes which have been recognised both nationally and in response to an evolving market which in certain sectors is operating very differently.

These variances have been seen more particularly in relation to the Council's specialised assets where the differences in valuation methodology have seen some significant decreases in value. In addition the Council's external valuers have adopted a different approach to the valuation of schools, which form a significant part of the Council's total assets, than traditionally seen again resulting in significant decreases but bringing the valuations in line with the adopted approach of the Department for Education.

The valuations of the Council's car park assets have also been impacted by a change to valuation approach, with the external valuers employing a notional rent approach that, whilst resulting in decreases in value in the current year, should result in more valuation stability in future years as this would not then be affected by large swings in income received such as seen during the past year.

- **The Cash Flow Statement** - this consolidated statement summarises the authority's inflows and outflows of cash and cash equivalents arising from transactions with third parties for revenue and capital purposes. Cash is defined for the purpose of this statement, as cash in hand and deposits repayable on demand less overdrafts repayable on demand. Cash equivalents are short term,

highly liquid investments that are readily convertible to known amounts of cash.

- **The Notes to the Core Financial Statements**, which provides supporting and explanatory information on the Core Financial Statements and includes the Council's accounting policies.
- **The Group Accounts** – these are prepared to account for the Council's share in IP&E Limited, Shropshire Towns & Rural Housing, West Mercia Energy, West Mercia Supplies Pension, Jersey Property Unit Trust, SSC No.1 Limited and Cornovii Developments Limited.
- **The Pension Fund Accounts** – the Shropshire County Pension Fund is administered by this Authority, however, the pension fund has to be completely separate from the Authority's own finances. The statement and supporting notes are an extract from the pension fund annual report and summarises the financial position of the Shropshire County Pension Fund, including all income and expenditure for 2020/21 and assets and liabilities as at 31 March 2021.
- **The Housing Revenue Account** – the authority is required to account separately for local authority housing provision, as defined in the Local Government and Housing Act 1989 as amended. The account details the income and expenditure relating to the local authority housing provision and details of the movement on the Housing Revenue Account Balance for the year.
- **The Collection Fund Account** – this account shows the transactions of the billing authority in relation to non-domestic rates and the council tax and illustrates how these have been distributed to preceptors and the General Fund.

The Draft Statement of Accounts for the year ended 31 March 2021 has been prepared in accordance with the Accounts and Audit Regulations 2015 and the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 ("the Code") issued by the Chartered Institute of Public Finance and Accountancy.

7. Accounting Policies

- 7.1. The accounting policies that the Council uses to determine the treatment of items within the Statement of Accounts are detailed in Note 1 to the Core Financial Statements.
- 7.2. The Council has not adopted any other new accounting standards or amendments with a significant impact on the Council's position. At the balance sheet date, the following new standards and amendments to existing standards have been published but not yet adopted by the Code of Practice of Local Authority in the United Kingdom.

- Interest Rate Benchmark Reform amendments to IFRS 9, IAS 39 and IFRS 7 have an impact on hedge accounting if interest rates change. The amendments will not have an impact on the council, as the council’s debt is fixed rate and all the council’s investments are in sterling and low risk.
- Interest Rate Benchmark Reform – Phase 2 amendments to IFRS 9, IAS 39, IFRS 7, IFRS 4 and IFRS 16 relate to issues that arise if an existing interest rate is replaced by an alternative one. This is unlikely to have an impact as interest rate benchmark reform is rarely applied. In addition, financial instruments are valued in the accounts at amortised cost rather than fair value.

8. Analytical Review

- 8.1. An analytical review has been carried out on each element of the Draft Statement of Accounts, this is a final check that provides assurance that the Statement of Accounts is free of material errors and misstatements. The analytical review focuses on figures within the Statement of Accounts that have changed materially when compared with the previous year’s accounts. For 2020/21 the materiality threshold (i.e. the level of change between 2019/20 and 2020/21) used was 10% or £8m, which is used to ensure that all questions that the external auditors are likely to raise have been reviewed and explanations are readily available. Details of the significant changes between the two years are shown in Appendix 1.

All

Appendices

1. Draft Statement of Accounts 2020/21 (Unaudited)
2. Analytical Review of Statement of Accounts

Analytical Review of Shropshire Council's Statement of Accounts for 2020/21

1. The analytical review for 2020/21 highlighted a number of areas where there were material changes (Variances over £8m or over 10%), the most significant are detailed below along with an explanation of why these changes have occurred:

- **Comprehensive Income and Expenditure Statement, Expenditure on Continuing Services – Adult Services**

	2020/21	2019/20	Increase (Value)	Increase
	£000	£000	£000	%
Expenditure	191,718	177,619	14,099	8
Income	(72,664)	(64,931)	(7,733)	12

The increase within the Adults Services expenditure and income has been mainly as a result of the Council response to the Covid-19 global pandemic. The Covid-19 grants from the Government totalling £3.388m received in 2020/21 for infection control, rapid testing, workforce capacity and test and trace was met with corresponding increase in expenditure. Expenditure within purchasing increased by £9.833m and income increased by £2.259m.

- **Comprehensive Income and Expenditure Statement, Expenditure on Continuing Services – Local Authority Housing**

	2020/21	2019/20	Decrease (Value)	(Decrease)
	£000	£000	£000	%
Expenditure	8,521	10,380	(1,858)	(18)

The decreased in expenditure is mainly due to a revaluation gain in 2020/21 compared to 2019/20.

- **Comprehensive Income and Expenditure Statement, Expenditure on Continuing Services – Legal & Democratic Services**

	2020/21	2019/20	Decrease (Value)	(Decrease)
	£000	£000	£000	%
Expenditure	660	1,703	(1,043)	(61)
Income	(119)	(1,027)	908	(88)

Within the Legal & Democratic Services, both the expenditure and income has decreased compared to 2019/20. In 2019/20 costs were incurred and corresponding income received in relation to the General and European Elections.

- **Comprehensive Income and Expenditure Statement, Expenditure on Continuing Services – Place**

	2020/21	2019/20	Decrease (Value)	(Decrease)
	£000	£000	£000	%
Income	(39,288)	(45,499)	6,211	(14)

The decrease in income for the Place Service area is mainly as a result of the reduction in income received from Car parks, Culture and Leisure due to the Covid-19 pandemic and global lockdown. Some of this reduction has been partially offset by the Covid-19 loss of fees and charges grant awarded by Central Government of which £3.380m has been allocated to Place.

- **Comprehensive Income and Expenditure Statement, Expenditure on Continuing Services – Workforce and Transformation**

	2020/21	2019/20	Decrease/ Increase (Value)	(Decrease)/ Increase
	£000	£000	£000	%
Expenditure	3,414	5,743	(2,328)	(41)
Income	(486)	(61)	(426)	701

The reduction in expenditure in the Workforce and Transformation service area is as a result of reduction in project costs for specific IT projects such as the ERP project and the Social Care Project following implementation of the systems and intangible amortisation. The main reason for the increase in income is the receipt of the Covid-19 Food and Essential Supplies grant.

- **Comprehensive Income and Expenditure Statement, Expenditure on Continuing Services – Corporate**

	2020/21	2019/20	Increase (Value)	Increase
	£000	£000	£000	(%)
Expenditure	38,197	14,654	23,542	161
Income	(37,412)	(10,121)	(27,291)	270

Expenditure within Corporate Services increased due to the Covid-19 related expenditure and an increase in past service costs, settlements and curtailments within the pension fund. The increase in income is main as a result of Covid-19 grants and discretionary Business grants from Central Government.

- **Comprehensive Income and Expenditure Statement - Other Operating Expenditure**

2020/21	2019/20	Decrease (Value)	(Decrease)
£000	£000	£000	(%)
15,624	27,542	(11,918)	(43)

The main reason for the decrease relates to losses on disposal of non-current assets. In 2019/20 the Council had 3 Schools transferred to academy status, however in 2020/21, only one School (Partly owned by Shropshire Council) transferred to academy status.

- **Comprehensive Income and Expenditure Statement – Financing and Investment Income and Expenditure**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
43,663	39,556	4,106	10

(Income) and expenditure in relation to investment properties and changes in their fair value increased from a loss of £2.62m in 2019/20 to a gain of £1.05m in 2020/21. The net income from investment properties has increased from £0.966m to £1.534m, reflecting the acquisition of new investment properties. The movement in valuation, which has gone from a £3.59m loss in 2019/20 to a £0.172 loss in 2020/21 relates to specific movements in the value of assets in this category, reflecting the assets in this category at the balance sheet date and their valuation.

- **Comprehensive Income and Expenditure Statement – Taxation and Non Specific Grant Income**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
(319,838)	(292,441)	(27,397)	9

Income from non-domestic rates has reduced by £19.668m in 2020/21. This is due to the awarding of expanded retail, nursery and newspaper reliefs by Central Government. The impact of this is that less rates are available for collection in 2020/21. Central Government reimbursed local authorities for this via Section 31 grant which is included within non ringfenced government grants. Non ringfenced government grants have increased by £28.557m due to the Section 31 grant in relation to expanded business rate reliefs and non ringfenced Covid-19 grants such as the LA Support grant.

- **Comprehensive Income and Expenditure Statement, Surplus or Deficit on Revaluation of Property, Plant and Equipment Assets**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
136,187	(92,765)	228,952	(247)

This figure is the value of upward or downward revaluations that are debited/credited directly to the Revaluation Reserve, rather than to service revenue accounts. In 2019/20 the surplus was £92.765m but in 2020/21 this was a loss of £136.187m. This was mainly in relation to a significant decrease in the assets on which a revaluation gain was recognised in 2020/21 and a significant increase in assets on which a revaluation loss was recognised.

- **Impairment Losses on Non Current Assets Charged to the Revaluation Reserve**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
281	-	281	100

This figure is the value of impairment losses charged directly to the Revaluation Reserve. The £0.281m in 2020/21 is in relation to a small holding which requires capital expenditure and in relation to some HRA garages declared unlettable.

- **Comprehensive Income and Expenditure Statement, Remeasurement of the Net Defined Benefit Liability**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
22,416	(28,057)	50,473	(180)

Remeasurement of the Net Defined Benefit Liability has changed from a gain of £28.057m in 2019/20 to a loss of £22.416m in 2021. The total swing of £50.473m is due to a change in liabilities as a result of a change in financial assumptions used by the actuary. This has resulted in a remeasurement loss of £170.311m in 2020/21 compared to a remeasurement gain of £80.311m in 2019/20. The decrease in liabilities is due to a decrease in the CPI inflation. The assets element has moved from a remeasurement loss of £52.865m in 2019/20 to a gain of £147.895m due to positive returns on investments.

- **Balance Sheet Non-Current Assets – Property, Plant and Equipment**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
980,046	1,138,479	(158,433)	(14)

This reflects the overall movement in property, plant and equipment. The movement consists of additions, disposals, revaluations (upwards and downwards), depreciation charges and impairments. There has been a net revaluation decrease in 2020/21 which is predominantly due to the current economic climate and the dramatic change in property landscape as a result of the global pandemic. The global economic climate and the change in valuation approach and methodology has led to the valuation decreases on assets revalued.

The areas of significant movement are in Transfers and Disposals/Derecognition. Following the onshoring of the shopping centres, these assets are now accounted for as Property, Plant and Equipment rather than a long-term Investment. The transfer of Schools to Academy status and the associated writing out of the assets. In 2019/20 three Schools transferred to Academies, one of which was a Secondary School, compared to 2020/21 only one school transferred to Academy.

- **Balance Sheet Non-Current Assets – Investment Property**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
59,261	47,652	11,609	24

The value of Investment properties has increased by £11.61m in 2020/21 mainly as a result of additions of new Investment properties, in terms of the acquisition of the Pride Hill Shopping Centre - Gap Site and the Former Morrison's Supermarket Site, Oswestry and completion of the Tannery site in Shrewsbury. The net movement on valuations has been a net gain of £0.08m, although at the individual asset level, there have been some significant revaluation gains and losses.

- **Balance Sheet Non-Current Assets – Intangible Assets**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
6,393	7,376	(983)	(13)

Intangible assets are subject to a relatively short asset life, the annual amortisation charge leads to a significant reduction in the net book value annually. Therefore, the reduction in the balance sheet value of intangible assets in 2020/21 reflects the reduction in expenditure under the Digital Transformation Programme which had resulted in a higher level of expenditure on intangible assets in previous years.

- **Balance Sheet Long Term Assets – Long Term Investment**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
400	20,206	(19,806)	(98)

In 2020/21 the onshoring of the shopping centres required the assets that were previously accounted for as a Long-Term Investment to be transferred to Property, Plant and Equipment, debtors and creditors.

- **Balance Sheet Long Term Assets – Long Term Debtors**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
22,628	19,857	2,771	14

The increase in long term debtors is due to a new drawdown of £3.250m from the loan facility by Cornovii.

- **Balance Sheet Current Assets – Current Held for Sale Investment Properties**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
250	740	(490)	(66)

In 2019/20 one Investment Property fell into the category of Current Held for Sale Investment Properties based on the agreement in place to sell the site at the year end. That disposal did not complete in 2019/20 as expected, but is still expected to complete in 2020/21, but for a reduced amount based on the new agreement now in place.

- **Balance Sheet Current Assets – Current Assets Held for Sale**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
767	3,102	(2,335)	(75)

The balance sheet value of assets in this classification reflects the position the Council are at with regards disposing of assets and whether they meet the criteria to be classified as Asset Held for Sale at the balance sheet date. Of the asset within the category in 2019/20, the Lacon Childe School Caretaker's House, the site at the Wharf Ellesmere, Westgate in Bridgnorth and the two HRA new build development disposals have all completed. There have also been falls in the estimates on the two school sites, most significantly Ifton Heath and the only assets to transfer into this category in 2020/21 are two HRA New Build Purchased Properties for shared ownership sale, one of which the disposal has been completed.

- **Balance Sheet Current Assets – Inventories**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
697	572	125	22

There has been an increase in the value of stock held mainly due to increase in Salt stock for the roads. The level of salt stock at the year end will fluctuate depending on the level of salt having to be used to treat the roads at various points of the year. Purchases were made to replenish the level of stock held following on from high use in 2019/20 and less salt was used in 2020/21 as a result of a less severe winter.

- **Balance Sheet Current Assets – Short Term Debtors**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
99,834	67,373	32,461	48

There have been a number of increases across a range of debtors balances that supports the increase in the debtors total. This includes an increase in the grant debtor in relation to Housing Benefit payments of £1.343m, £1.625m for Covid-19 grants and £7.266m in relation to capital projects which spent significantly at the end of the financial year with the funding due to be received in 2021/22. Debtors in relation to Council Tax and Business Rates due from preceptors has moved from a creditor of £7.804m to a debtor of £15.050m. This is due to the reduction in Business Rates due to the expanded reliefs awarded by Central Government.

- **Balance Sheet Current Assets – Cash & Cash Equivalents**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
78,438	93,007	(14,569)	(16)

- **Balance Sheet Current Liabilities – Bank Overdraft**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
(14,902)	(14,644)	(258)	2

The net increase in cash and cash equivalents and the bank overdraft needs to be considered together to explain the true difference in cash balance during the two years.

There are four elements that detail the difference in cash:

- Movement in General Fund Balance (increase in cash)
- Revenue and Capital Grants received (increase in cash)

- iii. Movement in debtors/creditors (reduction in cash)
- iv. New loans provided/repaid (reduction in cash)

i. There was a £0.580m increase in the General Fund Balance in 2020/21 which reflects the underspend position of £0.655m in the revenue budget.

ii. The Council received a number of grants in 2020/21 which can be carried forward to be utilised in 2021/22 or repaid to government which are accounted for within the cash balance.

iii. Debtors have increased by £32.461m during 2020/21 thereby increasing the amount of money owed to the authority and reducing the potential cash balance held.

iv. Cash will also have reduced due to the repayment of borrowing that the Council has undertaken of £4.000m and the provision the loan to Cornovii."

- **Balance Sheet Current Liabilities – Short Term Borrowing**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
(13,893)	(6,013)	(7,880)	131

The increase in short term borrowing of £7.880m is due to 2 loans totalling £12m which are due for repayment within the next 12 months and have therefore been transferred from long term to short term less the repayment of one loan of £4m.

- **Balance Sheet Current Liabilities – Grants Receipts In Advance – Revenue**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
(35,951)	(10,447)	(25,504)	244

Whilst there are always some minor changes between grant balances held at the year end, the most significant change relates to grants specifically provided to aid recovery from the Covid-19 pandemic from a variety of government departments. These include £6.844m from DHSC for contain outbreak management fund, £3.814m from the department for BEIS for a variety of Covid-19 recovery grants, £0.992m from the DfT for Bus Service Support Grant (CBSSG Restart), £0.465m from Sport England for National Leisure Recovery Fund and £0.361m from the DoH for the track and trace service; all of which are expected to be required to fund expenditure in 2021/22.

- **Balance Sheet Current Liabilities – Grants Receipts In Advance - Capital**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
(11,773)	(4,893)	(6,881)	141

The increase in capital grant receipts in advance relates to £4.877m of grants from the Department for Transport, for Challenge Fund, Highways and Emergency Active Travel which will be spent in 2021/22 as part of the Capital programme. A further £1.174m related to grants from the Department of Education for Schools 2019/20 for Schools Rural Gigabit Connectivity Programme and Condition Capital Grant, which will be spent in 2021/22 as part of the Council's Capital Programme.

- **Balance Sheet Long Term Liabilities – Long Term Borrowing**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
(291,568)	(303,568)	12,000	(4)

The reduction in long term borrowing of £12m is due to 2 loans which are due for repayment within the next 12 months and are now classed as short term.

- **Balance Sheet Long Term Liabilities – Pensions Liability**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
(531,883)	(495,700)	(36,183)	7

The Pensions Liability has increased by £36.183m in 2020/21. The discount rate has reduced by 0.3% and the CPI inflation assumption has increased by 0.6%, the combined effect of this is a significant increase in the pension liabilities. An increase in pension assets due to generally positive investment returns has reduced the impact of the increase in liabilities on the net liability.

- **Balance Sheet Long Term Liabilities – Pensions Liability - Provision**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
(8,673)	(11,079)	2,407	(22)

Long Term Provisions have reduced by £2.407m due to a reduction in the NDR Appeals provision. The estimated value of losses as a result of Business Rates appeals has reduced in 2020/21.

- **Balance Sheet Financing – Usable Reserves**

2020/21	2019/20	Increase (Value)	Increase
£000	£000	£000	(%)
170,127	138,121	32,005	23

The majority of this increase is due to the Section 31 grant received by Central Government to compensate for the expanded retail, nursery and newspaper reliefs awarded as part of the Covid-19 recovery programme. The impact on the general fund of these reliefs will be in 2021/22 therefore the grant has been transferred to an earmarked reserve to be drawn down in 2021/22.

- **Balance Sheet Financing – Unusable Reserves**

2020/21	2019/20	Decrease (Value)	Decrease
£000	£000	£000	(%)
28,860	263,115	(234,255)	(89)

The decrease in Unusable Reserves is due mainly to the reduction in the Revaluation Reserve by £146.92m in 2020/21 which reflects the movement in asset values and disposals. The most significant area of change was increase in downward valuations due to changes in valuation approach. The Capital Adjustment Account has decreased by £19.05m in 2020/21 compared to movement of £39.44m in 2019/20. This movement reflects the movement in asset values, disposals and capital expenditure financing in 2020/21. The most significant areas of change were the revaluation loss on Property, Plant and Equipment, a reduced loss on the Long Term Investment in the Shopping Centres recognised in 2020/21 compared to 2019/20, reduced level of assets written off on disposal and an increased level of capital grant applied in 2020/21. The deficit on the Pensions Reserve has increased by £41.947m in 2020/21. An increase in pension assets due to generally positive investment returns has reduced the impact of the increase in liabilities on the net liability. The Collection Fund Adjustment Account has moved from a surplus position of £3.503m at the end of 2019/20 to a deficit position of £20.227m at the end of 2020/21. This is mainly due to the additional reliefs awarded to businesses by government in response to the Covid-19 pandemic.

2. The analytical review will be part of the papers to be considered by the external auditors during the annual audit and will be used in forming their opinion on the Statement of Accounts that will be reported in the Audit Opinion and Certificate.

Draft Statement of Accounts (Audit Committee Version) 2020-2021

The Statement of Accounts is the formal financial report on the Council's activities as required by the Accounts and Audit Regulations 2015, and other statutory provisions.

The statement includes:

1. Narrative Report (pages 1 to 15)
2. The Statement of Responsibilities (page 16)
3. The Audit Opinion and Certificate (pages 17 to 21)
4. The Core Financial Statements comprising:-
 - The Comprehensive Income and Expenditure Statement (page 22)
 - The Movement in Reserves Statement (pages 23 to 24)
 - The Balance Sheet (page 25)
 - The Cash Flow Statement (page 26)
5. The Notes to the Core Financial Statements (pages 27 to 114)
6. Group Accounts:
 - Introduction (pages 115 to 117)
 - The Group Comprehensive Income and Expenditure Statement (pages 118 to 119)
 - The Group Movement in Reserves Statement (pages 120 to 122)
 - The Group Balance Sheet (page 123)
 - The Group Cash Flow Statement (page 122)
 - The Group Account Notes (pages 125 to 133)
7. The Housing Revenue Account (pages 133 to 136)
8. The Collection Fund (pages 137 to 139)
9. The Pension Fund Accounts (pages 140 to 181)
10. Glossary (pages 182 to 195)

Further information about the Council's Accounts can be obtained from the Finance Department.

The Statement of Accounts

The purpose of the Statement of Accounts is to give electors, those subject to locally levied taxes and charges, Members of the Council, employees and other interested parties clear information about the Council's finances. The format of the Statement of Accounts is governed by The Code of Practice on Local Authority Accounting in the United Kingdom, published by CIPFA (the Code). To make the document as useful as possible to its audience and so as to make meaningful comparisons between authorities possible the Code requires:

- All Statement of Accounts to reflect a common pattern of presentation, although this does not necessarily require them to be in an identical format.
- Interpretation and explanation of the Statement of Accounts to be provided.
- The Statement of Accounts and supporting notes to be written in plain language.

The section on accounting policies describes the basis on which the financial information within the statements is prepared. The accounts have been prepared to give a true and fair view of the financial position of the Council and with the underlying assumption of the going concern concept. Information is included within the statements having regard to the concepts of relevance, reliability, comparability and understandability together with a consideration of materiality.

This statement of accounts comprises various sections and statements, which are briefly explained below:

- **A Narrative Report** – this provides an effective guide to the most significant matters reported in the accounts, including an explanation of the Council's financial position and details the performance of the Council during the financial year.
- **The Statement of Responsibilities** – this details the responsibilities of the Council and the Chief Financial Officer concerning the Council's financial affairs and the actual Statement of Accounts.
- **The Audit Opinion and Certificate** – this is provided by the external auditor following the completion of the annual audit.
- **The Core Financial Statements**, comprising:
 - **The Comprehensive Income and Expenditure Statement** – this is fundamental to the understanding of a Council's activities. It brings together all of the functions of the Council and summarises all of the resources the Council has generated, consumed or set aside in providing services during the year. As such, it is intended to show the true financial position of the Council, before allowing for the concessions provided by statute to raise council tax according to different rules and for the ability to divert particular expenditure to be met from capital resources.
 - **The Movement in Reserves Statement** – this shows the movement in the year on the different reserves held by the Council which is analysed into 'usable reserves' and other reserves.

Narrative Report

- **The Balance Sheet** – like the Income and Expenditure Statement this is also fundamental to the understanding of the Council’s financial position as at 31 March 2021. It shows the balances and reserves at the Council’s disposal, long term liabilities and the fixed and net current assets employed in its operations, together with summarised information on the non current assets held.
- **The Cash Flow Statement** – this consolidated statement summarises the Council’s inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes. Cash is defined for the purpose of this statement, as cash in hand and cash equivalents.
- **The Notes to the Core Financial Statements** provide supporting and explanatory information on the Core Financial Statements and include the Council’s accounting policies.
- **Group Accounts** – group financial statements are required in order to reflect the variety of undertakings that local authorities conduct under the ultimate control of the parent undertaking of that group. The group accounts should also include any interests where the Council is partly accountable for the activities because of the closeness of its involvements i.e. in associates and joint ventures.
- **The Housing Revenue Account** – There is a statutory duty to account separately for local authority housing provision.
- **The Collection Fund** – This account reflects the statutory requirement for billing authorities to maintain a separate Collection Fund, which shows the transactions of the billing authority in relation to Non-Domestic Rates and the Council Tax, and illustrates the way in which these have been distributed to preceptors and the General Fund.
- **The Pension Fund Accounts and Disclosure Notes** – the Shropshire County Pension Fund is administered by this Council, however, the pension fund has to be completely separate from the Council’s own finances. The accounts summarise the financial position of the Shropshire County Pension Fund, including all income and expenditure for 2020/21 and assets and liabilities as at 31 March 2021.

A glossary to the Statement of Accounts is also included to help to make, what is ultimately a very technical accounting document, more understandable to the reader.

Financial Report

Revenue Outturn for 2020/21

The revenue budget for 2020/21 was agreed by Council in February 2020. During the course of the year, budgets can move between service areas in line with the Council’s approval process, however the Net Budget remains the same, to reflect the funding that the Council receives. Revenue budgets are monitored and reported regularly to Cabinet in order that service areas can identify any problem areas and take the necessary action to deal with the issues arising.

Narrative Report

The final outturn position for each Service Area is shown in the table below which compares actual net expenditure with the approved budget. Further details of the outturn position for each directorate is shown in the Revenue Outturn report which is presented to Cabinet and Council in June and July respectively.

	Final Budget £000	Actual Outturn £000	Controllable Over/ (Under) £000
Service Expenditure			
Adult Services	118,610	116,739	(1,871)
Children's Services	53,030	55,726	2,696
Finance, Governance & Assurance	2,629	2,304	(325)
Legal & Democratic Services	457	615	158
Place	59,904	62,208	2,304
Strategic Management Board	4	373	369
Workforce & Transformation	(231)	224	455
Corporate	(8,881)	(13,322)	(4,441)
Net Budget	225,522	224,867	(655)
Funded By:			
Revenue Support Grant	(6,219)	(6,219)	
Top Up grant	(10,031)	(10,031)	
Business Rates	(41,689)	(41,689)	
Collection Fund Surplus	(3,649)	(3,649)	
Council Tax	(163,934)	(163,934)	
Total Funding	(225,522)	(225,522)	

Budget monitoring reports during the course of the year have shown the following position:

Year End Projected Over/(Under)spend	Quarter 1 £000	Quarter 2 £000	Quarter 3 £000	Outturn £000
Adult Services	(1,538)	(1,736)	(1,338)	(1,871)
Children's Services	8,538	6,652	7,276	2,696
Finance, Governance & Assurance	448	1,625	718	(325)
Legal & Democratic Services	26	60	46	158
Place	8,594	5,121	3,279	2,304
Strategic Management Board	(115)	(123)	349	369
Workforce & Transformation	2,852	1,076	1,060	455
Corporate	(16,880)	(9,904)	(10,552)	(4,441)
TOTAL	1,925	2,771	838	(655)

The Council was projecting a significant overspend at quarter 1 and then again at quarter 2 this was reduced at quarter 3 and by quarter 4 an underspend was delivered.

Narrative Report

Throughout the year the Council experienced significant increases in the cost of Looked After Children as more and more children required support. This not only impacted on the financial position of Childrens Services but also Legal services where caseloads correspondingly increased. Additionally, increases in the costs of homelessness resulted in a shortfall in Housing Subsidy creating pressure on Council budgets during the year.

In the latter half of the year the availability of Covid-19 funding from government, coupled with greater certainty over its application, meant that some of these pressures could be offset and the overall pressures on Council budgets reduced. By the end of 2020/21 the identifiable costs of the Covid-19 pandemic had been fully covered by the various sources of Government funding provided.

The financial impact of Covid-19 in 2020/21, including grants administered by schools and grants passported to third parties, totalled £174.780m.

Covid-19 Funding 2020/21	£000
Unringfenced MHCLG grant to support direct Local Authority expenditure and loss of income	22,023
Income from Coronavirus Job Retention Scheme (for furlough costs) plus	3,635
Funding for eligible Sales Fees & Charges losses	1,188
Other specific funding streams deployed against specific activity or passported directly to third parties (including schools funds)	147,934
TOTAL	174,780

A total of £26.8m of direct adverse cost impact occurred within Council budgets and was funded as shown below.

Covid-19 Cost impact on Council Budgets 2020/21	£000	£000
Adult Social Care	3,720	
Children's Social Care	2,910	
Homelessness	1,415	
Furlough and other staff costs	1,368	
Leisure Services	848	
PPE	558	
Communications and ICT Services	427	
Lockdown Compliance and Reopening Costs (including Reopening of High Streets)	325	
Delivery of Food Parcels and Essential Supplies, and Grants to Community Groups	276	
Public Health	222	
Legal Services (Child Care)	84	
Transport	80	
Learning and Skills	60	
Waste Management	60	
Finance	30	
Contribution to WMCA Covid-19 Hub	20	
Outdoor Partnerships (Rights of Way)	17	

Narrative Report

Arts Grants	13
Risk Management and Insurance	1
Additional Expenditure Incurred (including staff time and furlough)	12,434
Loss of Income	10,419
Unachieved savings	3,993

Active Travel Grant	32	
Eat Out to Help Out	4	
Total Funds administered by the Council		147,189
Covid-19 Catch Up Premium	504	
Coronavirus (Covid-19) Schools Fund	241	
Total Funds administered by Schools		745
Total		147,934

Narrative Report

The overall controllable underspend at the end of 2020/21 of £0.655m against service area's budgets represents 0.11% of the gross budget of £575.462m.

In addition, School balances held under a scheme of delegation, including invested sums, have increased by £4.104m from the previous year. (This includes the impact of removing the Dedicated Schools Grant deficit which has now been moved to an unuseable reserve.) Schools' balances have to be ring-fenced for use by schools, and schools have the right to spend those balances at their discretion. One school converted to an academy during the year.

Further detail on the Council's service expenditure can be found within the Comprehensive Income & Expenditure Statement and Notes 6 and 7 to the Accounts.

The chart below demonstrates which services the Council has spent its net budget on. It should be noted that this excludes any expenditure on schools which is funded separately through the Dedicated Schools Grant.

The gross expenditure for the Council, including expenditure for schools was £872.355m and this was spent on the following types of expenditure:

Narrative Report

Capital Outturn for 2020/21

The Capital Budget is monitored throughout the year to identify any pressures and re-profile budgets based on revised expenditure projections. The budget changes as a result of slippage from the previous financial years capital programme, new capital allocations received or reductions in existing allocations and re-profiling of capital allocations between financial years.

The table below provides a summary of the revised capital budget and expenditure for 2020/21 as at outturn and slippage into the next financial year. Further details of the outturn position are provided in the Capital Outturn report presented to Cabinet and Full Council.

Service Area	Revised Budget 2020/21 £000	Actual Spend 2020/21 £000	Variance 2020/21 £000
General Fund			
Place	52.012	53.864	(1.852)
Adult Services	2.601	2.447	0.154
Children's Services	7.176	4.430	2.746
Workforce & Transformation	0.645	0.451	0.194
Total General Fund			
Housing Revenue Account	6.133	4.547	1.586
Total Capital Programme	68.567	65.739	2.828

The table below provides a summary of the capital financing for the actual capital expenditure for 2020/21.

Financing	2020/21 £000
Capital Grants & Contributions	56.142

Narrative Report

Revenue Contributions	0.443
Major Repairs Allowance	2.638
Self Financing Prudential Borrowing	4.369
Corporate Resources (Prudential Borrowing/Capital Receipts)	2.147

65.739

The areas of most significant expenditure for schemes undertaken in 2020/21 are as follows:

	Expenditure 2020/21 £000
Place	
Highways and Transport	27,902
North West Relief Road	3,343
Broadband	1,412
Economic Development	10,138
Corporate Landlord	5,584
Adult Services	
Disabled Facilities Grants	1,401
Supported Living	993
Resources & Support	
Digital Transformation Project	451
Children's Services	
Schools Condition Schemes	1,380
Devolved Formula Capital	494
School Future Place Planning	1,916
Housing Revenue Account	
Housing Major Repairs Programme	3,018
House Repurchases	1,323
New Build Programme - Phase 4-6	206

Reserves

The general fund balance has increased by £0.580m in 2020/21 to a total of £14.091m. This is due to the underspend within the revenue account during 2020/21. This balance lies below the risk assessed level of balances calculated for 2020/21.

Earmarked reserves have increased by £26.123m during 2020/21, which includes an increase in schools delegated balances of £4.104m. Total earmarked reserves are held at £93.658m including school balances of £5.995m.

The most significant earmarked reserve held is the COVID Government Funding Reserve at £23.093m. This holds funds related to Covid-19 and in particular the S.31 Business Rates Additional Reliefs funding of £22.074m. Another significant reserve is the Financial Strategy Reserve at £20.599m. This is held in accordance with the financial strategy where the Council will be using one off funding to close the funding gap. It is intended that this balance will be used to fund the funding gap arising in the 2021/22 and to fund some of the gap arising in 2022/23 after which this fund will be exhausted.

Assets

For 2020/21 all General Fund Valuations were undertaken by External Valuations, where previously the majority had been undertaken by the internal Estates Department. The external Valuers adopted a different valuation approach to that the Council's Valuers took previously, adopting differing assumptions in the valuation approach. This resulted in significant swings in valuations when compared to previous valuations. As this is just a change in accounting estimates, no prior period adjustment is required and to ensure all assets are valued on a consistent basis, additional asset valuations were commissioned.

During 2020/21, facilities at one school was written out of the Council balance sheet because of the school transferring to Academy School status and the transfer of the buildings and

Narrative Report

hardstanding areas to the Diocese was completed, prior to the school transferring to Academy School status. In accordance with the Council's accounting policies, these are now valued at nil value in the Council's balance sheet and as a result of the transfers assets of £3.85m were written out of the balance sheet, accounted for as a loss on disposal.

Borrowing

The Council undertakes long-term borrowing, for periods in excess of one year, in order to finance capital spending. The Council satisfies its borrowing requirement for this purpose by securing external loans. However, the Council is able to temporarily defer the need to borrow externally by using the cash it has set aside for longer term purposes; this practice means that there is no immediate link between the need to borrow to pay for capital spend and the level of external borrowing. The effect of using the cash set aside for longer term purposes to temporarily defer external borrowing is to reduce the level of cash that the Council has available for investment.

Due to the slippage within the capital programme, there has been no additional borrowing required for current schemes.

Cashflow

Cashflow forecasts are prepared for the current and future financial years and are monitored on a daily basis. The cashflow forecast is regularly updated to take account of future changes so the cash position of the Council can be managed appropriately. We are satisfied that cashflow levels are sustainable in the short to medium term based on the information we currently have. This is the case despite the increase in costs and reduction in income levels taken over the period of the pandemic.

Local Government Pension Scheme

The Council accounts for retirement benefits when it is committed to give them, even if the actual giving will be many years into the future. This means that:

- The financial statements reflect the liabilities arising from the Council's retirement obligations.
- The costs of providing retirement benefits to employees are recognised in the accounting period in which the benefits are earned by employees, and the related finance costs and any other changes in value of assets and liabilities are recognised in the accounting periods in which they arise.
- The financial statements disclose the cost of providing retirement benefits and related gains, losses, assets and liabilities.

As at 1 April 2020, the Council's net pensions liability amounted to £495.7m. In comparison, the deficit amounts to £562.3m at 31 March 2021 due to minor changes in financial assumptions impacting on the asset and liability figures. Statutory requirements for funding the deficit means the financial position of the Council remains healthy, as the deficit will be met by increased contributions over the remaining working life of employees.

2020/21 represented the last year of the 3 year actuarial valuation of the pension fund and a new actuarial valuation has been undertaken for the period 2020 – 2024. The Council has again decided to make an early payment of the Local Government Pension Scheme deficit

lump sum for a period of 3 years in 2021/22 in order to deliver a revenue saving as a result of lower interest costs from repaying the deficit.

Further details on the basis on which the Council accounts for retirement benefits are provided within the Accounting Policies in note 1 on page 27, and the change to the pension liability in 2019/20 is analysed in note 42 to the accounts.

Shropshire County Pension Fund continued to work with eight other Funds in the Midlands region during the year. LGPS Central Ltd has been established to manage investment assets on behalf of its eight Local Government Pension Scheme (LGPS) funds across the Midlands region. It is a multi-asset manager, investing up to potentially £48.9 billion of assets (£23.0 billion as at March 2021), on behalf of 900,000 LGPS members and 2,500 employers. LGPS Central Ltd is jointly owned on an equal share basis by eight Pension Funds and is a Collective Portfolio Management Investment Firm (CPMI) regulated by the Financial Conduct Authority (FCA). The key objectives of LGPS Central will be to deliver cost savings and improve risk adjusted investment returns after cost, enable access to a wider range of asset classes for the participating pension funds, and to ensure good governance. LGPS Central will manage a wide range of asset classes, employing a mix of internal and external investment management. The company is a private company limited by shares and was incorporated on 13 October 2016.

Performance in 2020/21

The Council adopted its new Corporate Plan in December 2018 for the period 2019/20 to 2021/22. The Plan sets out high-level outcomes and a range of medium-term outcomes and objectives for the coming 12 to 24 months. The medium-term outcomes and objectives are the basis for the Council's Strategic Action Plans which are thematic and cross cutting.

The Council's corporate performance management framework is structured around the high-level outcomes listed below and incorporates the measures and project delivery milestones from the strategic action plans.

- **A Healthy Environment**
- **A Good Place to do Business**
- **Sustainable Place and Communities**
- **More People with a Suitable Home**
- **Embrace our Rurality**
- **Care for those in Need at any Age**
- **Your Council**

The delivery of the outcomes for Shropshire is monitored on a quarterly basis. It is presented using a performance portal, which enables a drill down into the measure. The information is reported to Cabinet with the report identifying specific measures by exception. The full information for each measure is published on the performance portal when the report is presented to Cabinet and this provides Overview and Scrutiny the opportunity to identify any measures which stand out that they would like to understand in greater detail. They can request additional information and receive it to inform whether they would want to add it to their work programme.

It should be noted that this year's performance has been affected by the impact of the COVID-19 pandemic, which has impacted on "business as usual" provision, and saw a redirection of resources to emergency response and provision of essential services only, for a significant proportion of the year.

A Healthy Environment

Cultural and leisure activities provided by Shropshire Council were severely impacted by the COVID 19 pandemic. With restrictions and closures of facilities the visitor numbers are significantly lower than in preceding years. On a positive note more people have visited outdoor recreation sites where restrictions were less limited. Take-up of e-resources from the library service has seen an increased take-up.

Shropshire Council is committed to achieve carbon neutral status by 2030. Shropshire Council's estate of solar panel arrays generated 818,177 kwh of electricity during the year. This produced a carbon saving of 189 tonnes of CO2 emissions. Shropshire Council's Community Tree Scheme saw 10,000 trees on offer to residents of Shropshire snapped up in just 24 hours.

A positive impact of lockdown periods due to the pandemic has been the reduction in the number of road accidents. Subsequently the rate of people killed or seriously injured has also reduced. The long-term impact of COVID 19 on commuting patterns may affect future accident profiles.

Residential waste collections were maintained throughout the year. The tonnage of waste collected from the kerbside increased with the biggest factor being the increase in people at home, (working or furloughed). Household Recycling Centres were closed during the first lockdown but have since reopened. Recycling, reuse and composting rates have held up well during the year and remain above target.

A Good Place to do Business

Historically, employment rates in Shropshire have been higher than national or regional averages. This is still the case, but levels of employment have fallen in 2020 as a result of the Covid-19 pandemic and unemployment has risen. The number claiming Universal Credit has more than doubled since the onset of the pandemic and remains at an unprecedentedly high level. The claimant count (the main measure of people claiming benefits because they are unemployed) also doubled between March 2020 and June 2020, although rates have since started to decline. More than 50,000 Shropshire residents have been furloughed at some point since the scheme began, and while numbers have fallen significantly since the third national lockdown ended, there were still 9,800 on the scheme as of 31st May 2021. Levels of self-employment have also fallen, despite 45,300 Government Self-employment Income Support Scheme (SEISS) grants being awarded since Spring 2020.

Businesses in Shropshire continue to be impacted by Covid-19 – many have had to close for extended periods of time or change how they trade, and others continue to run at reduced capacity. A series of grants and other finance options have been made available by the Government, with grants schemes being administered by the Council according to their eligibility criteria. The Council has also implemented social distancing measures in many of

Shropshire's key towns to support businesses and to protect the public, which has involved the work of Highways and Regulatory Services, amongst others. The long-term impact on the business economy remains to be seen but the Council is doing all it can to support businesses back to recovery. A 15-year programme to invest £50 million in new and existing business parks has been approved by Council, and work is underway to refresh the Economic Growth Strategy, which will underpin economic recovery initiatives.

The second phase of the Tern Valley business park in Market Drayton welcomed new businesses to the site during the year. Phase two of the park comprises a mixture of small office and workshop space for start-up and expanding businesses, with units ranging from 1,000 to 6,000 square feet. Developed in partnership by Shropshire Council and construction partner Redstart. All 24 units from the second phase purchased within a few weeks of launch.

Sustainable Places and Communities

Volunteering provides social benefits to both volunteers and the communities they support. Shropshire has a strong volunteer sector, which provided invaluable support to vulnerable communities throughout the pandemic. However, due to lockdown restriction the number of volunteer hours supporting Council services such as archives, museums and outdoor recreation were reduced in comparison to previous years.

Adult Social Care teams worked tirelessly throughout the year in response to the demand on services. The service improved the rate of discharge from hospital to home and reduced the waiting times for those patients who required support from social care. The rate of permanent admissions of adults for age groups 18 – 64 and 65+ into residential or nursing homes are both lower than the profile. This may in part be due to the COVID 19 situation and remains to be seen what the impact will be on future demand for residential and nursing care facilities. The service also confirms that it assesses the needs of each person to ensure that the right service is provided at the right time ensuring that residential and nursing care is provided at the most appropriate time.

More People with a Suitable Home

The Council's housing development company, Cornovii Developments Limited, started construction on its Firth development at Crowmoor. Houses at the site are now available with Ellesmere and St Martins developments now in the planning stages. Cornovii was formed to address unmet housing needs within the county.

The new Housing Strategy for Shropshire 2020 – 2025 was adopted during the year. This strategy aims to address barriers that present residents from being able to access a suitable home. With the aspiration of Right Home Right Place the first applications for community led initiatives have submitted plans for affordable home developments at Prees, Whittington and Weston Rhyn.

Embrace our Rurality

The Covid-19 pandemic has highlighted the need for an effective and reliable digital infrastructure with hugely increased numbers of people working from home and using technology to keep in touch with colleagues, partners, clients and suppliers. 98.2% of Shropshire premises can now access superfast broadband. In addition, the Government's UK Gigabit Voucher Scheme can help rural communities to get access to a gigabit-capable broadband connection.

Plans to develop the next Local Transport Plan for Shropshire are progressing. This will include enhancing links to economic growth and the local plan review for each area but also incorporate Shropshire Council's aspirations to tackle carbon emissions and climate change.

Care for those in Need at any Age

Special Educational Needs and/or Disabilities (SEND) services provided in Shropshire by the Council and Clinical Commissioning Group were inspected in Jan 2020. They were required to develop a joint Written Statement of Action to address areas of weakness. This was submitted to Ofsted in September 2020. Joint working groups are now working through the project plans to deliver improved services, greater accountability across all partners and increased scrutiny of performance.

The Council's Children's Services has seen an increased demand for support across its services. The complexity of cases for Children's Social Care has increased as is evidenced by the number Children who are Looked After by the Council which continued to increase throughout the year. Pressures on the court system, due to the pandemic, has delayed some children leaving care.

During the pandemic, carers have faced added pressures. To help address this Shropshire Council has been working with and commissioning extra support for carers. Services include; a range of free online support for carers, including an email course, virtual cuppa's, 1 to 1 chat's, lockdown weekly planners, digital support and peer support.

Your Council

The number of staff employed by the Council has increased by 56 staff over the course of the year. The increase in headcount is due to continued recruitment drives to recruit Social Workers and also a recruitment drive to recruit START workers within our Adult Services area. In addition to the recruitment campaigns two leisure centres transferred into the authority from April 2020.

Approximately 1600 colleagues continue to work from home with staff also re-deployed to some areas to support the delivery of the vaccination programme and respond to the demands of the pandemic. As services have gradually returned to their substantive delivery the number of staff on furlough has been reducing over the period.

It should be noted that whilst the COVID-19 pandemic has had a significant impact on service provision, the ability to continue to deliver essential services in a different and more efficient

way has provided the Council with the opportunity to consider how services will be delivered by the Council in the future.

Current and Future Prospects

The Council produced a Medium Term Financial Strategy for the period 2021/22 – 2025/26, and whilst the plan had managed to identify a balanced budget for 2021/22 through the use of one off grant balances and reserves, the future financial plan does not yet deliver a balanced and sustainable budget for the long-term future.

The COVID-19 pandemic will continue to impact the delivery of the 2021/22 budget. To date the Government has provided sufficient funding to help support local authorities to fund all costs and income losses arising as a result of Covid-19. It is expected that this support will continue and some funding allocations have been announced for 2021/22.

The impact of the COVID-19 pandemic has also meant that the introduction of 75% business rates retention alongside the fair funding review has been further delayed back to the 2023/24 financial year. The uncertainty over the detail of these proposals makes it extremely difficult for the Council to formulate any long term plans to deliver a sustainable budget and future for the Council.

Next year we will be investing over £150 million of capital funding into local projects. The capital programme remains priority led, reflecting the need for growth in the Shropshire economy, investment in infrastructure and roads, and significant funding to deliver superfast broadband across much of Shropshire in the coming years.

The bottom line is, of course, that we have a statutory duty to set a legal budget. This is becoming increasingly difficult as each year progresses. The emergency event of COVID-19 has demonstrated the need to hold sufficient balances in reserve to assist with balancing the books should these be required, however the delivery of continual savings on the budget is becoming more and more difficult. The authority needs to understand the longer term financial funding position from the Government as soon as possible so that it can make sustainable decisions that will deliver a long term financial plan for the authority.

Brexit

The UK formally left the EU on 31 January 2020 and entered a period of transition which ended on 31 December 2020. To date the Council has received £0.315m in Government funding in order to prepare for Brexit. So far the Council has spent £0.096m, £0.219m remains available for use in 2021/22.

Section 2

Statement of Responsibilities

Statement of Responsibilities

The Council's Responsibilities

The Council is required to:

- Make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this Council, that officer is the Director of Finance, Governance & Assurance;
- Manage its affairs to secure economic, efficient and effective use of resources and safeguard its assets;
- Approve the Statement of Accounts.

Approved by Council

The Council's Statement of Accounts for 2020/21 was formally approved at a meeting of the Audit Committee on xx September 2021

Brian Williams
Chair of the Audit Committee
xx September 2021

Responsibilities of Executive Director of Resources

The Executive Director of Resources is responsible for the preparation of the Council's Statement of Accounts in accordance with proper practices as set out in the CIPFA/LASAAC *Code of Practice on Local Authority Accounting in the United Kingdom* ("the Code").

In preparing this Statement of Accounts, the Executive Director of Resources has:

- Selected suitable accounting policies and then applied them consistently;
- Made judgements and estimates that were reasonable and prudent;
- Complied with the local authority Code.

The Executive Director of Resources has also:

- Kept proper accounting records which were up to date;
- Taken reasonable steps for the prevention and detection of fraud and other irregularities.

Certificate of the Executive Director of Resources

I hereby certify that the Statement of Accounts present a true and fair view of the financial position and the income and expenditure of the Council for the year ended 31 March 2021.

James Walton
Executive Director of Resources

Section 4

Core Financial Statements

Comprehensive Income and Expenditure Statement

This statement shows the accounting cost in the year of providing services in accordance with generally accepted accounting practices, rather than the amount to be funded from taxation. Authorities raise taxation to cover expenditure in accordance with statutory regulations; this may be different from the accounting cost. The taxation position is shown in both the Expenditure and Funding Analysis and the Movement in Reserves Statement.

2019/20			2020/21			
Gross Expenditure £000	Income £000	Net Expenditure £000		Gross Expenditure £000	Income £000	Net Expenditure £000

Movement In Reserves Statement

This statement shows the movement in the year on the different reserves held by the Council, analysed into 'usable reserves' (i.e. those that can be applied to fund expenditure or reduce local taxation) and other 'unusable reserves'.

The Surplus or (Deficit) on the Provision of Services line shows the true economic cost of providing the Council's services, more details of which are shown in the Comprehensive Income and Expenditure Statement. This is different from the statutory amounts required to be charged to the General Fund Balance and the Housing Revenue Account for council tax setting and dwellings rent setting purposes.

The Net Increase/(Decrease) before Transfers to Earmarked Reserves line shows the statutory General Fund Balance and Housing Revenue Account Balance before any discretionary transfers to or from earmarked reserves undertaken by the council.

2019/20	General Fund Balance £000	Earmarked General Fund Reserves £000	Total General Fund Balance £000	Housing Revenue Account £000	Major Repairs Reserve £000	Capital Grants Unapplied Account £000	Total Usable Reserves £000	Unusable Reserves £000	Total Authority Reserves £000

Balance Sheet

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Council. The net assets of the Council are matched by the reserves held by the Council. Reserves are reported in two categories. The first category are usable reserves, i.e. those reserves that the Council may use to provide services, subject to the need to maintain a prudent level of reserves and any statutory limitations on their use. The second category is those that the Council is not able to use to provide services. This category of reserves includes reserves that hold unrealised gains and losses, where amounts would only become available to provide services if the assets are sold; and reserves that hold timing differences shown in the Movement in Reserves Statement line 'Adjustments between accounting basis and funding basis under regulations'.

2019/20 £000		2020/21 £000	£000

401,236	Total Reserves		198,987

Cash Flow Statement

The Cash Flow Statement shows the changes in cash and cash equivalents of the Council during the reporting period. The statement shows how the Council generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. The amount of net cash flows arising from operating activities is a key indicator of the extent to which the operations of the Council are funded by way of taxation and grant income or from the recipients of services provided by the Council. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Council's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital to the Council.

2019/20 £000	Revenue Activities	2020/21 £000	£000
73,056	Net (surplus) or deficit on the provision of services	43,365	
(152,807)	Adjust net surplus or deficit on the provision of services for non cash movements	(120,052)	
55,113	Adjust for items in the net surplus or deficit on the provision of services that are investing and financing activities	70,353	
(24,638)	Net cash flows from Operating Activities (Note 30)		(6,334)
(5,390)	Investing Activities (Note 31)	(9,073)	
8,720	Financing Activities (Note 32)	30,234	
(21,308)	Net (increase) or decrease in cash and cash equivalents		14,827
57,055	Cash and cash equivalents at the beginning of the reporting period		78,362
78,363	Cash and cash equivalents at the end of the reporting period (Note 25)		63,535

Section 5

Notes to the Core Financial Statements

1. Accounting Policies

1.1 General

The Statement of Accounts summarises the Council's transactions for the 2020/21 financial year and its position at the year end of 31 March 2021. The Council is required to prepare an annual Statement of Accounts by the Accounts and Audit (England) Regulations 2015, which require them to be prepared in accordance with proper accounting practices. These practices under Section 21 of the Local Government Act 2003 Act primarily comprise the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 supported by International Financial Reporting Standards (IFRS).

The accounting convention adopted by the Statement of Accounts is principally historical cost, modified by the revaluation of certain categories of non-current assets and financial instruments.

The accounts have been prepared on the assumption that the Council will continue to operate for the foreseeable future. This assumption is made because the Council carries out functions essential to the local community and are themselves revenue-raising bodies. If the Council were in financial difficulty alternative arrangements might be made by central government either for the continuation of the services it provides or for assistance with the recovery of a deficit over more than one financial year.

1.2 Accruals of Expenditure and Income

Revenue transactions are recorded on an accruals basis in accordance with proper accounting practices. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed – where there is a gap between the date supplies are received and their consumption, they are carried as inventories on the Balance Sheet.
- Expenses in relation to services received are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract.
- Where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

1.3. Cash and Cash Equivalents

Cash is defined for the purpose of this statement, as cash in hand and deposits with financial institutions repayable on demand without penalty on notice. Cash equivalents are short term,

highly liquid investments, normally with a maturity of 90 days or less, that are readily convertible to known amounts of cash.

In the Cash Flow Statement, cash and cash equivalents are shown net of bank overdrafts that are repayable on demand and form an integral part of the Council's cash management.

1.4. Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policies or to correct a material error. Changes in accounting estimates are accounted for prospectively, i.e. in the current and future years affected by the change do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the change provides more reliable or relevant information about the effect of transactions, other events and conditions on the Council's financial position or financial performance. Where a change is made, it is applied retrospectively by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparative amounts for the prior period.

1.5. Non-Current Assets - Intangible

An intangible asset is an identifiable non-monetary asset without physical substance. It must be controlled by the Council as a result of past events, and future economic or service benefits must be expected to flow from the intangible asset to the Council (e.g. computer software licences).

Intangible assets are recognised based on cost and are amortised over the economic life of the intangible asset to reflect the pattern of consumption of benefits. Only intangible assets included in the capital programme are capitalised. Each intangible asset is assessed in terms of economic life, usually between five and seven years.

1.6. Non-Current Assets – Property, Plant and Equipment

Property, plant and equipment are assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year.

Recognition

The cost of an item of property, plant and equipment shall only be recognised (and hence capitalised) as an asset on the balance sheet if, and only if:

- It is probable that the future economic benefits or service potential associated with the item will flow to the entity, and
- The cost of the item can be measured reliably.

Notes to the Core Financial Statements

Costs that meet the recognition principle include initial costs of acquisition, production or construction of assets for use by, or disposal to, a person other than the local authority; and costs incurred subsequently to enhance, replace part of, or service the asset. Subsequent costs arising from day-to-day servicing of an asset (i.e. labour costs and consumables), commonly referred to as ‘repairs and maintenance’, should not be capitalised if they do not meet the recognition principle because the expenditure does not add to the future economic benefits or service potential of the asset and are charged to revenue.

Initial Measurement

An item of property, plant and equipment that qualifies for recognition as an asset is measured at its cost and capitalised on an accruals basis. Accruals are made for capital works with a value of £75,000 or more undertaken but not paid for by the end of the financial year.

Measurement after recognition

Property, plant and equipment assets are subsequently valued at current value on the basis recommended by the Code of Practice on Local Authority Accounting and in accordance with The Royal Institution of Chartered Surveyors (RICS) Valuation Standards. Property, plant and equipment assets are classified into the groupings required by the Code of Practice on Local Authority Accounting and valued on the following bases:

Category	Valuation Method (Fair Value definition)
<u>Operational</u>	
Council Dwellings	Existing Use Value – Social Housing (EUV-SH)
Land & Buildings	Existing Use Value (EUV) – determined as the amount that would be paid for the asset in its existing use.
	Depreciated Replacement Cost (DRC) – for specialist properties where there is no market-based evidence of current value because of the specialist nature of the asset and the asset is rarely sold.
Vehicles, Plant & Equipment	Depreciated Historic Cost (HC)
Infrastructure	Historic Cost (HC)
Community Assets	Historic Cost (HC)
<u>Non-operational</u>	
Surplus Assets	Market Value (MV) fair value measurement estimated at highest and best use from a market participant’s perspective.
Assets Under Construction	Historic Cost (HC)

Assets included in the Balance Sheet at current value are subject to a full revaluation with sufficient regularity to ensure that their carrying amount is not materially different from their current value at the year-end, but as a minimum every five years. In the intervening years the valuations are subject to an annual desktop review to update the valuation to the balance sheet date.

When new material assets are acquired/constructed or assets substantially enhanced or there is a change in use of the asset; the asset will be valued in the financial year in which the asset becomes operational. Where there is a change in use of the asset, the impact of this will be considered to determine if a revaluation is required.

Notes to the Core Financial Statements

The Housing Revenue Account Council Dwellings are subject a full valuation every five years and to an annual desktop review to update the valuation to the balance sheet date; undertaken by the Valuation Office Agency.

When an asset is revalued, any accumulated depreciation and impairment at the date of valuation shall be eliminated against the gross carrying amount of the asset and the net amount restated to the revalued amount of the asset. Where the carrying amount of property, plant and equipment is increased as a result of a revaluation, the increase shall be recognised in the Revaluation Reserve, unless the increase is reversing a previous impairment loss charged to Surplus or Deficit on the Provision of Services on the same asset or reversing a previous revaluation decrease charged to Surplus or Deficit on the Provision of Services on the same asset.

Where the carrying amount of an item of property, plant and equipment is decreased as a result of a revaluation, i.e. a significant decline in an asset's carrying amount during the period that is not specific to the asset (as opposed to an impairment, see 1.9), the decrease shall be recognised in the Revaluation Reserve up to the credit balance existing in respect of the asset (i.e. up to its historical cost) and thereafter in the Surplus or Deficit on the Provision of Services.

Componentisation

Where components of an asset are significant in value in relation to the total value of the asset and they have substantially different economic lives, they are recognised and depreciated separately. The requirement for componentisation for depreciation purposes is applicable to enhancement and acquisition expenditure and revaluations carried out from 1 April 2010. Significant assets for this purpose are properties with a capital value of £2.5m or over, where depreciation is £100,000 per annum or over, or any component that represents 25% of the total capital value.

Derecognition

The carrying amount of an item of property, plant and equipment shall be derecognised:

- On disposal, or
- When no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from derecognition of an asset shall be the difference between the net disposal proceeds, if any, and the carrying amount of the asset. The gain or loss arising from derecognition of an asset shall be included in the Surplus or Deficit on the Provision of Services when the item is derecognised.

If the asset derecognised was carried at a revalued amount, an additional entry is required; the balance on the Revaluation Reserve in respect of the asset derecognised is written off to the Capital Adjustment Account and reported in the Movement in Reserves Statement.

A proportion (based on Agreement – Section 11(6) of the Local Government Act 2003) of receipts relating to dwellings disposed of under the Right to Buy Scheme are payable to the Government through the pooling system. The proportion that is required to be paid over to central government as a 'housing pooled capital receipt' is charged to Surplus or Deficit on the Provision of Services and the same amount appropriated from the Capital Receipts Reserve and credited to the General Fund Balance in the Movement in Reserves Statement.

Where a component of an asset is replaced or restored, the carrying amount of the old component is derecognised, based on the cost of the new component indexed back to the last valuation date. Where the new expenditure is deemed to also enhance the component of the original asset e.g. energy efficiency schemes the carrying amount of the old component is reduced further based on an assessment of the level of enhancement.

1.7. Investment Properties

An investment property is a property held solely to earn rentals or for capital appreciation or both, rather than for use in the production or supply of goods or services or for administrative purposes, or sale in the ordinary course of operations.

Investment properties shall be initially measured at cost and thereafter at fair value, which is interpreted as the amount that would be paid for the asset in its highest and best use, i.e. market value (MV).

Investment properties held at fair value are not depreciated. The fair value of investment properties shall reflect market conditions at the Balance Sheet date; this means the periodic (5-yearly) revaluation approach may only be used where the carrying amount does not differ materially from that which would be determined using fair value at Balance Sheet date. As such Investment Properties are subject to an annual review to ensure their valuation reflects fair value at the balance sheet date. Gains and losses on revaluation are posted to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement. The same treatment is applied to gains and losses on disposal.

1.8. Non-Current Assets Held for Sale

A non-current asset is classified as held for sale if its carrying amount will be recovered principally through a sale transaction rather than through continued use. The following criteria have to be met before an asset can be classified as held for sale under this section of the Code:

- The asset must be available for immediate sale in its present condition.
- The sale must be highly probable; with an active programme to dispose of the asset.
- The asset must be actively marketed for sale at a price that is reasonable in relation to its current fair value.
- The sale should be expected to complete within one year of the date of classification.

Assets Held for Sale are valued at the lower of their carrying amount and fair value (market value) less costs to sell at initial reclassification and at the end of each reporting date, and are not subject to depreciation. Investment Properties that are to be disposed of are not reclassified as an Asset Held for Sale and remain as Investment Properties until disposed of, reclassified to short terms investment properties where they are expected to be disposed of within a year of the balance sheet date.

1.9. Impairment

At the end of each reporting period an assessment takes place as to whether there is any indication that an asset may be impaired. Examples of events and changes in circumstances that indicate an impairment may have incurred include:

- A significant decline (i.e. more than expected as a result of the passage of time or normal use) in an asset's carrying amount during the period, that is specific to the asset;
- Evidence of obsolescence or physical damage of an asset;
- A commitment by the Council to undertake a significant reorganisation; or
- A significant adverse change in the statutory or other regulatory environment in which the Council operates.

An impairment loss on a revalued asset is recognised in the Revaluation Reserve (to the extent that the impairment does not exceed the amount in the Revaluation Reserve for the same asset) and thereafter in the Surplus or Deficit on the Provision of Services.

Where an impairment loss is reversed subsequently, the reversal is credited to the relevant service line(s) in the Comprehensive Income and Expenditure Statement, up to the amount of the original loss, adjusted for depreciation that would have been charged if the loss had not been recognised.

1.10. Depreciation

Land and buildings are separate assets and are accounted for separately, even when they are acquired together. Depreciation applies to all property, plant and equipment, whether held at historical cost or revalued amount, with the exception of:

- Investment properties carried at fair value;
- Assets Held for Sale; and
- Land where it can be demonstrated that the asset has an unlimited useful life (excluding land subject to depletion, i.e. quarries and landfill sites).

An asset is not depreciated until it is available for use and depreciation ceases at the earlier of: the date the asset is classified as held for sale and the date the asset is derecognised.

The finite useful life of an asset is determined at the time of acquisition or revaluation. Each part of an item of property, plant and equipment with a cost that is significant in relation to the total cost of the item is depreciated separately. Depreciation is calculated using the straight-line method. For Council Dwellings the depreciation charge is calculated on a componentised depreciation basis, using the Planned Programme Approach. The depreciation charge is calculated based on the stock data at 1st April, using the stock data of the major components at that date, from the housing condition data. The components are depreciated on a straightline basis over their useful life (10-80 years) for Decent Homes Standard; with the residual amount (excluding land) depreciated over 150 years.

On a revalued asset, a transfer between the Revaluation Reserve and Capital Adjustment Account shall be carried out which represents the difference between depreciation based on the revalued carrying amount of the asset and the depreciation based on the asset's historical cost.

1.11. Charges to Revenue for Non-Current Assets

Service revenue accounts, support services and trading accounts are debited with the following amounts to record the real cost of holding non-current assets during the year:

- Depreciation attributable to the assets used by the relevant service.
- Revaluation and Impairment losses used on assets used by the service in excess of any balance on the Revaluation Reserve for the asset.
- Amortisation of intangible assets attributable to the service.

Depreciation, amortisation, impairments, revaluation gains or losses charged to the Surplus or Deficit on the Provision of Services are not proper charges to the General Fund or Housing Revenue Account. Such amounts are transferred to the Capital Adjustment Account and reported in the Movement in Reserves Statement. The only exception is depreciation charges for HRA dwellings and other properties, which are real charges to the HRA.

This ensures the Council is not required to raise Council Tax to cover depreciation, amortisation or revaluation/impairment losses. However, it is required to make an annual provision from revenue to contribute towards the reduction in its overall borrowing requirement; further details are provided at Accounting Policy 1.15 (The Redemption of Debt). Depreciation, amortisation and revaluation/impairment losses are therefore replaced by revenue provision transferred from the Capital Adjustment Account and reported in the Movement in Reserves Statement.

Interest payable is reported within Net Operating cost within the Income and Expenditure Account and depreciation, calculated in accordance with Accounting Policy 1.10 (Depreciation), is charged directly to service revenue accounts.

Amounts set aside from revenue for the repayment of external loans, to finance capital expenditure or as transfers to other earmarked reserves are disclosed separately on the Movement in Reserves Statement.

1.12. Revenue Expenditure Funded from Capital under Statute

Legislation allows some expenditure to be classified as capital for funding purposes when it does not result in the expenditure being carried on the Balance Sheet as a non-current asset. The purpose of this is to enable it to be funded from capital resources rather than be charged to the General Fund and impact on that year's council tax. These items are generally grants and expenditure on property not owned by the Council, and amounts directed under section 16(2) of Part 1 of the Local Government Act 2003.

Such expenditure is charged to the Surplus or Deficit on the Provision of Services in accordance with the general provisions of the Code. Any statutory provision that allows capital resources to meet the expenditure shall be accounted for by debiting the Capital Adjustment Account and crediting the General Fund Balance and shown as a reconciling item in the Movement in Reserves Statement.

1.13. Heritage Assets

Tangible Heritage Assets are tangible assets with historical, artistic, scientific, technological, geophysical or environmental qualities that are held and maintained by the Council principally for their contribution to knowledge and culture. Intangible heritage assets are intangible assets with cultural, environmental, or historical significance.

Heritage Assets are recognised and measured (including the treatment of revaluation gains and losses) in accordance with the Council's accounting policies on property, plant and equipment. However, due to the unique nature of Heritage Assets, some of the measurement rules are relaxed in relation to the categories of Heritage Assets held as detailed below. This is due to the lack of valuation information and the disproportionate cost of obtaining the information in comparison to the benefits to the users of the Council's financial statements.

▪ **Outdoor Statues/Monuments/Historic Building Remains**

The Council has a small number of assets relating to Outdoor Statues/ Monuments/ Historic Building Remains. These assets are reported on the balance sheet, but valuation of these assets is not practical due to the unique nature and lack of comparable market values. These assets are held on the balance sheet at depreciated historic cost, where this is available. Where historic cost information is not available due to the age of the asset, the assets are held at nil value.

The Council's Historical Environment Team, including the Shropshire Archaeology Service manage the Council's historic environment and archaeological sites. The Council does not consider that reliable cost or valuation information can be obtained for the assets held under the Historic Environment and Archaeology Service and the majority would fall into the de-minimus category. This is because of the unique nature of the assets held and lack of comparable market values. It is also recognised that the cost of obtaining this information outweighs any benefits. Consequently, the Council does not recognise these assets on the balance sheet, other than those included under Statues/Monuments/Historic Building Remains.

▪ **Museum and Archives artefacts**

Museum Service

The Shropshire Museum Service runs a countywide service which collects, documents, preserves, exhibits and interprets the material remains of Shropshire's natural and human history for public benefit. The service operates six museums and a museum resource centre.

Principal collections held by the Museum Service include:

- Agricultural
- Archaeology (including Prehistory, Roman, Medieval, Post-Medieval and Foreign)
- Archives
- Biology
- Costume & Textiles
- Decorative & Applied Arts

- Ethnography
- Fine Art
- Geological
- Numismatics
- Social History

The acquisition priorities vary between the principal collections based on existing gaps in the collection and the capabilities and resources available to the service to adequately store, conserve and display collections.

The Museum Service exercises due diligence and makes every effort not to acquire, whether by purchase, gift, bequest or exchange, any object or specimen unless the governing body can acquire a valid title to the item.

By definition, the Museum Service has a long-term purpose and should possess permanent collections in relation to its stated objectives. As a consequence there is a strong presumption against the disposal of any items in the museum's collection. In the event of the Museum Service closing the collections would be offered to other museum authorities and neither the collections nor individual items within them would be sold to generate income.

Complete holdings are not valued, as items are generally unique and full valuation would be extremely expensive; however, some significant items have a market valuation at purchase or insurance valuation. As a consequence only those items for which the Museum Service holds an existing valuation (above a de-minimus threshold of £5,000) are recognised in the balance sheet. These principally consist of fine art paintings and items of decorative art. These assets are deemed to have indeterminate lives and a high residual value; hence the Council does not consider it appropriate to charge depreciation. Any new acquisitions will be recognised at purchase price valuation. Assets are not subject to a revaluation cycle, with revaluations only undertaken where required by the Museum Service.

Archives

The Shropshire archives and local studies service preserves and make accessible documents, books, maps, photographs, plans and drawings relating to Shropshire past and present. Not all material is owned by the Council, with a significant proportion on deposit from record owners. No reliable cost or valuation information is held for holdings, with items generally unique and valuation would be considered to be extremely expensive. Consequently the Council does not recognise these assets on the balance sheet.

Shropshire Archives has an Acquisition and Disposal policy. Shropshire Archives will acquire material for the study of all aspects of Shropshire past and present. Material will be acquired by transfer, gift, purchase or deposit. Shropshire Archives will only acquire material if the responsible officer is satisfied that the vendor, donor or depositor has a valid title to the material and will not acquire material if it cannot provide adequate storage or professional care for it. There is a strong presumption against the disposal by sale of any material in Shropshire Archives ownership. If materials are to be sold they should first be offered to other appropriate public collecting institutions. All monies received by Shropshire Archives from the sale of material shall be used for the benefit of the Service's collections.

Heritage Assets – Impairment

The carrying amounts of heritage assets are reviewed where there is evidence of impairment for heritage assets, e.g. where an item has suffered physical deterioration or breakage or doubts arise as to its authenticity. Any impairment is recognised and measured in accordance with the Council's general policy on impairment.

1.14. Capital Receipts

Capital receipts from the disposal of assets are held in the Usable Capital Receipts Reserve until such time as they are used to finance capital expenditure, used to finance expenditure under the new flexibilities around the use of Capital Receipts for transformational revenue purposes over the 4 year period 2019/20 to 2022/23 or are used to repay debt. At the balance sheet date, the Council may opt to set aside capital receipts in-hand within the Capital Adjustment Account to reduce the Capital Financing Requirement and the Minimum Revenue Provision (MRP) charge for the following financial year.

1.15. The Redemption of Debt

The Council makes provision for the repayment of debt in accordance with the statutory "Minimum Revenue Provision" (MRP) requirements. For supported borrowing MRP is calculated based on a 45 year annuity basis and utilises Adjustment A (the variance between the credit ceiling and the Capital Financing Requirement (CFR) as at 1st April 2004) to reduce the supported borrowing CFR for MRP purposes. For unsupported borrowing MRP is calculated based on an annuity basis over the expected life of the asset for which the borrowing was undertaken. These amounts are transferred from the Capital Adjustment Account and reported in the Movement in Reserves Statement.

For HRA debt there is no mandatory requirement to make provision in the HRA for annual MRP payments. However, the Council will make annual voluntary provision for debt repayment in the HRA based on affordable levels in the HRA against the need for investment and delivering services in the HRA.

For assets under on-balance sheet PFI contracts and finance leases, the annual principal payment amount in the PFI or finance lease model is used as the MRP payment amount, with no additional charges above those within the contract.

Where the Council has made capital loans to third parties financed from the Council's balances, the annual repayments of principal amounts are treated as capital receipts and set aside in the Capital Adjustment Account in place of a revenue MRP charge.

1.16. Leases

Leases are classified as finance leases when substantially all the risks and rewards of ownership are transferred to the lessee. All other leases are classified as operating leases.

Whether a lease is a finance lease or an operating lease depends on the substance of the transaction rather than the form of the contract. Examples of situations that individually or in combination would normally lead to a lease being classified as a finance lease are:

- 1) the lease transfers ownership of the asset to the lessee by the end of the lease term;
- 2) the lessee has the option to purchase the asset at a price that is expected to be sufficiently lower than the fair value so as to make it reasonably certain the option will be exercised;
- 3) the lease term is for the major part of the economic life of the asset;
- 4) the present value of the minimum lease payments amounts to at least substantially all of the fair value of the leased asset; and
- 5) the leased assets are of such a specialised nature that only the lessee can use them without major modifications.

Should a yes response be given to two or more of the above questions, then consideration is given to treating the lease as a finance lease.

The Council as Lessee

Property, plant and equipment held under finance leases are initially recognised, at the inception of the lease, at fair value or, if lower, at the present value of the minimum lease payments, with a matching liability for the lease obligation to the lessor. Lease payments are apportioned between finance charges and reduction of the lease obligation so as to achieve a constant rate of interest on the remaining balance of the liability. Finance charges are recognised in calculating the Council's Revenue Account balance.

Operating lease payments are recognised as an expense on a straight-line basis over the lease term. Lease incentives are recognised initially as a liability and subsequently as a reduction of rentals on a straight-line basis over the lease term.

Contingent rentals are recognised as an expense in the period in which they are incurred.

Where a lease is for land and buildings, the land and building components are separated. Leased land and buildings are assessed as to whether they are operating or finance leases.

The Council as Lessor

Amounts due from lessees under finance leases are recorded as receivables at the amount of the Council's net investment in the leases. Finance lease income is allocated to accounting periods so as to reflect a constant periodic rate of return on the council's net investment outstanding in respect of the leases.

Rental income from operating leases is recognised on a straight-line basis over the term of the lease. Initial direct costs incurred in negotiating and arranging an operating lease are added to the carrying amount of the leased asset and recognised on a straight-line basis over the lease term.

1.17. Government Grants and Contributions

Revenue Grants

Whether paid on account, by instalments or in arrears, government grants and third party contributions and donations are recognised as income at the date that the Council satisfies the conditions of entitlement to the grant/contribution and there is reasonable assurance that the monies will be received. If there are outstanding conditions on the grant income the income is held on the Balance Sheet as a Government debtor/creditor. Revenue grants are matched in service revenue accounts with the service expenditure to which they relate. Grants to cover general expenditure (e.g. Revenue Support Grant and New Homes Bonus) are credited to the foot of the Comprehensive Income and Expenditure Statement after Net Operating Expenditure.

Capital Grants

Grants and contributions relating to capital expenditure shall be accounted for on an accruals basis, and recognised immediately in the Comprehensive Income and Expenditure Statement as income, except to the extent that the grant or contribution has a condition(s) (as opposed to restrictions) that the Council has not satisfied.

Where a capital grant or contribution (or part thereof) has been recognised as income in the Comprehensive Income and Expenditure Statement, and the expenditure to be financed from that grant or contribution has been incurred at the Balance Sheet date, the grant or contribution shall be transferred from the General Fund (or Housing Revenue Account) to the Capital Adjustment Account, reflecting the application of capital resources to finance expenditure. This transfer shall be reported in the Movement in Reserves Statement.

Community Infrastructure Levy

The Council has elected to charge Community Infrastructure Levy (CIL) with effect from 1 January 2012. The levy applies to planning applications for the following types of development:

- The formation of one or more new dwellings, (including holiday lets), either through conversion or new build, regardless of size (unless it is 'affordable housing'); or
- The establishment of new residential floor space (including extensions and replacements) of 100sqm or above.

The Council charges for and collects the levy, which is a planning charge. The income from the levy will be used to fund infrastructure projects. This will largely be capital expenditure and includes roads and other transport schemes, flood defences, schools and other education facilities, medical facilities, sporting and recreation facilities and open spaces. Five percent of CIL charges will be used to meet the administrative costs of operating the levy.

CIL is received without outstanding conditions; it is therefore recognised in the Comprehensive Income and Expenditure Statement in accordance with the Council CIL instalment policy, following commencement date of the chargeable development in accordance with the accounting policy for government grants and contributions set out above.

The only exception for this is CIL monies received on developments where the CIL Liability Notice has been issued after 25th April 2013. On these receipts 15% of gross receipt or 25% in areas with a statutory Neighbourhood Plan in place; is treated as the Neighbourhood Fund element. The Neighbourhood Fund is the portion of CIL provided directly to Town and Parish Councils to be used for the provision, improvement, replacement, operation or maintenance of infrastructure or anything else which is concerned with addressing the demands that development places on an area.

1.18. Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. There are three main classes of financial assets measured at:

- amortised cost
- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI)

The Council's business model is to hold investments to collect contractual cash flows i.e. payments of interest and principal. Most of the Council's financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest i.e. where the cash flows do not take the form of a basic debt instrument.

Financial Assets Measured at Fair Value through Profit of Loss

The Council holds financial assets in the form of loans and receivables. These are assets that have fixed or determinable payments but are not quoted in an active market. The loans and receivables are initially measured at fair value and carried at their amortised cost. Annual credits to the Comprehensive Income and Expenditure Statement for interest receivable are based on the carrying amount of the asset multiplied by the effective rate of interest for the instrument. For most of the loans that the Council has made, this means that the amount presented in the Balance Sheet is the outstanding principal receivable, adjusted for accrued interest receivable at the year end. Interest credited to the Comprehensive Income and Expenditure Statement is the amount receivable for the year in the loan agreement.

However, the Council has made a number of loans to individuals at less than market rates (soft loans). Ordinarily when soft loans are made, a loss is recorded in the Comprehensive Income and Expenditure Statement for the present value of the interest that will be foregone over the life of the instrument, resulting in a lower amortised cost than the outstanding principal. Interest would then be credited at a marginally higher effective rate of interest than the rate receivable from the individual, with the difference serving to increase the amortised cost of the loan in the Balance Sheet. Statutory provisions require that the impact of soft loans on the General Fund Balance is the interest receivable for the financial year – the reconciliation of amounts debited and credited to the Comprehensive Income and Expenditure Statement to the net gain required against the General Fund Balance would be managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement. However, the soft loans that the Council has made are not material to the accounts so the impact has not been incorporated into the Core Financial Statements, instead Note 21 to the Core Financial Statements provides details about these soft loans.

Financial Assets Measured at Fair Value through Profit of Loss

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the authority becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

- instruments with quoted market prices – the market price
- other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the authority can access at the measurement date.

Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Expected Credit Loss Model

The Council recognises expected credit losses on all of its financial assets held at amortised cost (or where relevant FVOCI), either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Council.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses.

1.19. Financial Liabilities

Financial liabilities are initially measured at fair value and carried at their amortised cost. Annual charges to the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument. For the borrowings that the Council has, this means the amount presented in the Balance Sheet is the outstanding principal repayable, adjusted for accrued interest payable at the year end. Interest charged to the Comprehensive Income and Expenditure Statement is the amount payable for the year in the loan agreement.

Gains and losses on the repurchase or early settlement of borrowing are credited and debited to Financing and Investment Income and Expenditure in the Comprehensive Income and Expenditure Statement in the year of repurchase/settlement.

However, where repurchase has taken place as part of a restructuring of the loan portfolio that involves the modification or exchange of existing instruments, the premium or discount is respectively deducted from or added to the amortised cost of the new or modified loan and the write-down to the Comprehensive Income and Expenditure Statement is spread over the life of the loan by an adjustment to the effective interest rate.

Where premiums and discounts have been charged to the Comprehensive Income and Expenditure Statement, regulations allow the impact on the General Fund Balance to be spread over future years. The Council has a policy of spreading the gain/loss over the term remaining on the loan against which the premium was payable or discount receivable when it was repaid. The reconciliation of amounts charged to the Comprehensive Income and Expenditure Statement to the net charge required against the General Fund Balance is managed by a transfer to or from the Financial Instruments Adjustment Account in the Movement in Reserves Statement.

1.20. Reserves

The Council sets aside specific amounts as reserves for future policy purposes or to cover contingencies. Reserves are created by appropriating amounts out of the General Fund Balance in the Movement in Reserves Statement. When expenditure to be financed from a reserve is incurred, it is charged to the appropriate service in that year. The reserve is then appropriated back into the Movement in Reserves Statement so that there is no net charge against council tax for the expenditure.

1.21. Provisions, Contingent Liabilities and Contingent Assets

Provisions

Provisions are made where an event has taken place that gives the Council a legal or constructive obligation that probably requires settlement by the transfer of economic benefits, and a reliable estimate can be made of the amount of the obligation.

Provisions are charged as an expense to the appropriate service line in the Comprehensive Income and Expenditure Statement in the year that the Council becomes aware of the obligation, and are measured at the best estimate at the balance sheet date of the expenditure required to settle the obligation.

When payments are eventually made, they are charged to the provision carried in the Balance Sheet. Estimated settlements are reviewed at the end of each financial year. Where it becomes apparent that a transfer of economic benefits is not required, the provision is reversed and credited back to the relevant service.

Contingent Liabilities

A contingent liability arises where an event has taken place that gives the Council a possible obligation whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the council. Contingent liabilities also arise in circumstances where a provision would otherwise be made but either it is not probable that an outflow of resources will be required or the amount of the obligation cannot be measured reliably.

Contingent liabilities are not recognised in the Balance Sheet but any material liabilities will be disclosed in a separate note to the accounts.

Contingent Assets

A contingent asset arises where an event has taken place that gives the Council a possible asset whose existence will only be confirmed by the occurrence or otherwise of uncertain future events not wholly within the control of the council.

Contingent assets are not recognised in the Balance Sheet but disclosed in a note to the accounts if it is probable that there will be an inflow of economic benefits or service potential and the sum is material to the accounts.

1.22. Inventories

Inventories and stock are valued at the lower of cost price or net realisable value.

1.23. Overheads and Support Services

The costs of overheads and support services are charged to those that benefit from the supply or service in accordance with the costing principles of the CIPFA Service Reporting Code of Practice 2020/21. The total absorption costing principle is used - the full cost of overheads and support services are shared between users in proportion to the benefits received, with the exception of:

- Corporate and Democratic Core – costs relating to the Council's status as a multi-functional, democratic organisation.
- Non Distributed Costs – the cost of discretionary benefits awarded to employees retiring early and any depreciation and impairment losses chargeable on non-operational properties.

1.24. Group Accounts

The Council has financial relationships with a number of entities and partnerships and, therefore, is required to prepare Group Accounts, in addition to its main financial statements. All of the financial relationships within the scope of Group Accounts have been assessed.

The Council has accounted for Group Accounts in accordance with IFRS 3 - Business Combination, IFRS10 – Consolidated Financial Statements, IFRS 11 - Joint Arrangements, IFRS12 – Disclosure of Interest in Other Entities, IAS 27 - Separate Financial Statements, IAS28 - Investments in Associates and Joint Ventures except where interpretations or adaptations to fit the public sector have been detailed in the Code of Practice on Local Authority Accounting. Subsidiaries and joint

ventures have been consolidated within the Council's accounts on a cost basis or market value for property, plant and equipment. Accounting policies have been aligned between the Council and the companies consolidated in the Group.

1.25. Value Added Tax (VAT)

Only irrecoverable VAT is included in revenue and capital expenditure. All VAT receivable is excluded from income.

1.26. Employee Benefits

The Council accounts for employee benefits in accordance with the requirements of IAS 19 – Employee Benefits. This covers short-term employee benefits such as salaries, annual leave and flexi leave, termination benefits and post-employment benefits such as pension costs.

In accounting for annual leave the Council has categorised the staff into teachers and other staff. Teaching staff have been accounted for on the basis that working during term time entitles them to paid leave during the holidays e.g. working the Spring Term entitles them to paid Easter holidays. An accrual has been calculated based on the untaken holiday entitlement relating to the Spring Term. An accrual has been calculated for other staff based on the amount of untaken leave as at 31 March.

Termination benefits are amounts payable as a result of a decision by the Council to terminate an officer's employment before the normal retirement date or an officer's decision to accept voluntary redundancy in exchange for those benefits. The cost of these are charged on an accruals basis to the appropriate service line in the Comprehensive Income and Expenditure statement.

Employees of the Council are members of three separate pension schemes:

- The Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education (DfE);
- The NHS Pensions Scheme, administered by NHS Pensions;
- The Local Government Pensions Scheme, administered by Shropshire Council.

All schemes provide defined benefits to members (retirement lump sums and pensions), earned as employees work for the Council. However, the arrangements for the Teachers' scheme and the NHS scheme mean that liabilities for these benefits cannot ordinarily be identified specifically to the Council. The schemes are therefore accounted for as if they were defined contribution schemes and no liability for future payments of benefits is recognised in the Balance Sheet. The relevant service lines in the Comprehensive Income and Expenditure Statement are charged with the employer's contributions payable to the two schemes in the year.

The Local Government Scheme is accounted for as a defined benefits scheme:

- The liabilities of the Shropshire County Pension Fund attributable to the Council are included in the Balance Sheet on an actuarial basis using the projected unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates, etc. and projections of projected earnings for current employees.

Notes to the Core Financial Statements

- Liabilities are discounted to their value at current prices, using a discount rate of 2.6% (based on the indicative rate of return on high quality corporate bonds of appropriate duration)
- The assets of the Shropshire County Pension Fund attributable to the Council are included in the Balance Sheet at their fair value:
 - quoted securities – current bid price
 - unquoted securities – professional estimate
 - unitised securities – current bid price
 - property – market value.

The change in the net pensions liability is analysed into the following components:

- Service cost comprising:
 - current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the services for which the employees worked
 - past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement as part of Non Distributed Costs
 - net interest on the net defined benefit liability (asset), i.e. net interest expense for the Council – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
- Remeasurements comprising:
 - the return on plan assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
 - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
- Contributions paid to the Shropshire County Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, statutory provisions require the General Fund Balance to be charged with the amount payable by the Council to the pension fund or directly to pensioners in

the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

1.28. Foreign Currency Transactions

Foreign currency transactions are accounted for on the basis of the equivalent sterling value of the underlying transaction, by applying the spot exchange rate at the date of the transaction.

1.29. Private Finance Initiative (PFI) Schemes

PFI contracts are agreements to receive services, where the PFI contractor has responsibility for making available the assets needed to provide the services. The Council pays the contractor a payment, which is called a unitary charge, for the services delivered under the contract.

The Council has two PFI projects: the Quality in Community Services (QICS) PFI and the Waste Services PFI. Further details of these PFI projects are set out later in the document. The Council is deemed to control the services provided under these two PFI schemes, and as ownership of property, plant and equipment will pass to the Council at the end of the contracts for no additional charge, the Council carries the operational assets used under the contracts on its balance sheet as part of Property, Plant and Equipment.

The original recognition of these assets at fair value (based on the cost to purchase the property, plant and equipment) was balanced by the recognition of a liability for amounts due to the scheme operator to pay for the capital investment. For the QICS scheme, the liability was written down by an initial capital contribution of £2.5m. At the commencement of the Waste contract the Council made various existing waste infrastructure assets available to the contractor. Under the Waste scheme, not all property, plant and equipment scheduled to be provided in the initial years of the contract has been provided and as a result part of the payments made to the scheme operator have been accounted for as a prepayment, with a corresponding entry also made to set aside the prepayment element of the unitary payment in the Capital Adjustment Account.

Non-current assets recognised on the Balance Sheet are revalued and depreciated in the same way as property, plant and equipment owned by the Council.

The amounts payable to the PFI operators each year are analysed into five elements:

- **Fair value of the services received during the year** – debited to the relevant service in the Comprehensive Income and Expenditure Statement
- **Finance cost** – an interest charge as a percentage (based on the Internal Rate of Return of the scheme) of the outstanding Balance Sheet liability, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement

- **Contingent rent** – increases in the amount to be paid for the property arising during the contract, debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement
- **Payment towards liability** – applied to write down the Balance Sheet liability towards the PFI operator (the profile of write-downs is calculated using the same principles as for a finance lease)
- **Lifecycle replacement costs** – proportion of amounts payable is posted to the Balance Sheet as a prepayment and then recognised as additions to Property, Plant and Equipment when the relevant works are eventually carried out. On recognising the prepayment for lifecycle replacement costs a corresponding entry is also made to set aside the prepayment element of the unitary payment in the Capital Adjustment Account. Where works are carried out earlier than planned they are recognised as additions to Property, Plant and Equipment balanced by a temporary increase in the finance lease liability. When the programmed payment takes place the liability is written down.

1.30. Accounting for Council Tax and Non Domestic Rates

The Council Tax income included in the Comprehensive Income & Expenditure Statement is the accrued income for the year, and not the amount required under regulation to be transferred from the Collection Fund to the General Fund (the Collection Fund Demand). The difference is taken to the Collection Fund Adjustment Account through the Movement in Reserves Statement.

As the collection of Council Tax for preceptors (the West Mercia Police and Crime Commissioner, and Shropshire & Wrekin Fire & Rescue Authority) is an agency arrangement, the cash collected belongs proportionately to Shropshire Council as the billing authority and to the preceptors. This gives rise to a debtor or creditor position for the difference between cash collected from tax-payers and cash paid to preceptors under regulation. The Balance Sheet also includes the authority's share of the year end balances relating to arrears, impairment allowances for doubtful debts and prepayments.

In relation to Non-Domestic Rates, Shropshire Council collects income due as an agency arrangement. As with council tax, the cash collected belongs proportionately to Shropshire Council as the billing authority, and to Central Government and Shropshire & Wrekin Fire & Rescue Authority as preceptors. This gives rise to a debtor or creditor position for the difference between cash collected from tax-payers and cash paid to preceptors under regulation. The Balance Sheet also includes the authority's share of the year end balances relating to arrears, impairment allowances for doubtful debts, appeals and prepayments.

1.31. Accounting for Local Authority Maintained Schools

All Local Authority Maintained Schools in the Council area are considered to be entities controlled by the Council. In order to simplify the consolidation process and avoid consolidating in Group Accounts a considerable number of separate, relatively small entities; the Council's single entity financial statements include all the transactions of Local Authority Maintained Schools i.e. income, expenditure, assets, liabilities, reserves and cash flows of the schools.

The Council has the following types of maintained schools under its control:

- Community

- Voluntary Aided
- Voluntary Controlled
- Foundation

The Council recognises on balance sheet the non-current assets of schools where the Council legally owns the assets or where the school is in the legal ownership of a non religious body, on the basis that they are the assets of the school and need to be consolidated in to the Council's accounts.

Community schools are owned by the Council and therefore recognised on the balance sheet.

The majority of Voluntary Aided and Voluntary Controlled schools in the Council area are owned by the respective Diocese. There is currently no legal arrangement in place for the School/Council to use the Diocese owned schools. The School/Council uses the school building to provide education under the provisions of the School Standards and Framework Act 1998. On this basis the school assets are used under "mere" licences and the assets are not recognised on the Council's balance sheet. The only exception to this is there are a small number of schools/part of schools that should have transferred to Diocese under Education Legislation; but the legal transfer has not been completed. These are still recognised in the Council balance sheet with an additional note disclosing that they are due to transfer.

Foundation schools owned by the Diocese are not recognised on the Council balance sheet as the position is the same as Voluntary Aided and Voluntary Controlled. Where ownership lies with the school or the school's Governing Body the School is recognised on the Council's Balance Sheet. There are a small number of schools who have recently changed their status to Foundation as part of local area Education Trusts. As yet no legal transfers have taken place of school land and buildings. On the assumption that these trusts will constitute the Governing Bodies of these schools, the schools are to remain on-balance sheet. This will be reviewed when the legal transfers are agreed in case the position is different.

Academy schools are not maintained schools controlled by the Council and as such are not accounted for in the Council's Accounts. Schools in Council ownership (Community Schools) which become Academies are provided to the Academy on a 125 year peppercorn lease. When schools transfer to Academy status the assets are written out of the balance sheet as at the date that the asset transfers. Additional notes are included in the accounts disclosing details of any schools where approval by the Department for Education to transfer the School to Academy has been granted, but the school has not transferred by the balance sheet date.

1.32. Fair Value Measurement

The authority measures some of its non-financial assets such as surplus assets and investment properties and some of its financial instruments at fair value at each reporting date. Fair value is the price that would be received to sell an asset or paid to transfer a liability in an orderly transaction between market participants at the measurement date. The fair value measurement assumes that the transaction to sell the asset or transfer the liability takes place either:

- a) in the principal market for the asset or liability, or
- b) in the absence of a principal market, in the most advantageous market for the asset or liability.

The authority measures the fair value of an asset or liability using the assumptions that market participants would use when pricing the asset or liability, assuming that market participants act in their economic best interest.

When measuring the fair value of a non-financial asset, the authority takes into account a market participant's ability to generate economic benefits by using the asset in its highest and best use or by selling it to another market participant that would use the asset in its highest and best use.

The authority uses valuation techniques that are appropriate in the circumstances and for which sufficient data is available, maximising the use of relevant observable inputs and minimising the use of unobservable inputs.

Inputs to the valuation techniques in respect of assets and liabilities for which fair value is measured or disclosed in the authority's financial statements are categorised within the fair value hierarchy, as follows:

- Level 1 – quoted prices (unadjusted) in active markets for identical assets or liabilities that the authority can access at the measurement date
- Level 2 – inputs other than quoted prices included within Level 1 that are observable for the asset or liability, either directly or indirectly
- Level 3 – unobservable inputs for the asset or liability.

1.33. Unquoted Equity Investments

The Council held a majority share of the units in a Jersey Property Unit Trust. The minority share was held by wholly owned subsidiary of the Council - SSC NO.1 LTD a company registered in England and Wales. The asset was held on the Balance Sheet at fair value through profit and loss and valued annually. The Council and SSC NO.1 LTD were the beneficial owners of the property, through the trust, the nature of the trust is such that the Council has overall control of the trust through reserved matters. The trustees, who have to be resident in Jersey, make all day to day decisions affecting the trust in the best interests of the unit holders. The trust deeds set out that income and expenditure accrues to the unitholders as it arises and it is presented as such within these financial statements.

2. ACCOUNTING STANDARDS THAT HAVE BEEN ISSUED BUT HAVE NOT YET BEEN ADOPTED

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. This applies to the adoption of the following new or amended standards within the 2021/22 Code:

- Amendments to IFRS 3 Business Combinations – Definition of a Business
- Amendments to IFRS 9, IAS 39 and IFRS 7 – Interest Rate Benchmark Reform
- Amendments to IFRS 9, IAS 39 and IFRS 7 – Interest Rate Benchmark Reform Phase 2

These changes are not expected to have a material impact on the Council's accounts.

3. CRITICAL JUDGEMENTS IN APPLYING ACCOUNTING POLICIES

In applying the accounting policies set out in Note 1, the Council has had to make certain judgements about complex transactions or those involving uncertainty about future events.

The critical judgements made in the Statement of Accounts are:

- There is a high degree of uncertainty regarding future levels of funding for local government. The Council has undertaken the rigorous challenge of reviewing its spending and as a result has ensured appropriate savings are built into its medium term financial plans. The Council has determined that this uncertainty regarding future funding levels is not known in sufficient enough detail to provide an indication that its assets would be impaired or services reduced significantly. Any action to reduce spending would be taken in a planned and systematic way to reduce the impact on service delivery.
- The Council takes judgements over the element of control in terms of deciding which assets should be on our balance sheet. One such judgement has been taken around Local Authority Maintained schools and particularly Voluntary Aided, Voluntary Controlled and Foundation schools that are not owned by the Council. The Council recognises the land and buildings used by schools in line with the provisions of the Code of Practice. It states that property used by local authority maintained schools should be recognised in accordance with the asset recognition tests relevant to the arrangements that prevail for the property. The Council recognises the school's land and buildings on its Balance Sheet where it legally owns the assets or the school Governing Body own the school. Where the land and building assets used by the school are owned by an entity other than the Council, school or school Governing Body then they are not included on the Council's Balance Sheet.

The Council has completed an assessment of the different types of schools it controls within the Shropshire Council area to determine how these should be accounted for. The accounting treatment is detailed in the accounting policies (see 1.31).

- The Council has taken a judgement on the control of the Jersey Property Unit Trusts and has determined that through the Council's power as a unit holder the Council has the rights to variable returns and has the ability to affect those returns. The Council has therefore accounted for the Council's share in the Jersey Property Unit Trust as an investment.
- During 2020/21 the Council received a number of grants relating to the covid-19 pandemic. The Council has made a judgement as to whether it is acting as an agent for the Government in relation to the distribution of these grants or as the principal. Details of the covid-19 grants where the Council has deemed it is acting as an agent are included in note xx
- The Council is part of the Marches Local Enterprise Partnership (LEP) along with Herefordshire and Telford & Wrekin. The Council acts as accountable body for the LEP

Notes to the Core Financial Statements

and therefore receives grant income on behalf of the LEP and processes expenditure in line with the grant schemes. The Council has concluded that the role of accountable body is to be deemed as an agent, and therefore the net grant held should not be accounted within the Council's accounts. Further details are provided at Note 45.

4. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER MAJOR SOURCES OF ESTIMATION UNCERTAINTY

The Statement of Accounts contains estimated figures that are based on assumptions made by the Council about the future or that are otherwise uncertain. Estimates are made taking into account historical experience, current trends and other relevant factors. However, because balances cannot be determined with certainty, actual results could be materially different from the assumptions and estimates.

There is a risk of material adjustment in the forthcoming financial year for the following items in the council's Balance Sheet at 31 March 2021:

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Property, Plant & Equipment	<p>Full valuation is carried out a minimum of every 5 years. A desktop valuation review is carried out to update all valuations annually to the Balance Sheet date.</p> <p>Estimates of remaining useful economic life are provided as part of the valuation and are used to calculate the depreciation charge on a straightline basis.</p>	<p>There is a risk of material adjustment in the year when the property is revalued. A 1% increase in property valuations would result in a £2.050m increase in the valuation of Council dwellings and a £3.809m increase in the value of other land and buildings.</p> <p>There is a risk that annual depreciation charges are over or under stated and also correspondingly the NBV of the asset. This could also result in a risk of material adjustment in the year when the property is revalued.</p>
Investment Properties	<p>As they are are valued on a Market Value basis and can be more susceptible to valuation swings, linked to underlying market conditions and other asset specific changes; Investment Properties are subject to an annual valuation review and update to ensure the carrying amount does not differ materially from that which would be determined using fair value at the Balance Sheet date.</p>	<p>A 1% movement in Investment Property valuations would result in a £0.595m movement in the valuation of Investment Properties.</p>
NDR Appeals Provision	<p>The provision set aside for Non Domestic Rate appeals is estimated based on the number of outstanding appeals as per the Valuation Office and then the percentage rateable value change of successful appeals is applied. An estimate is then calculated for unlodged appeals on the new rating list.</p>	<p>There is a risk that successful appeals will be significantly more than the estimate leading to an increased demand on the NDR collection fund in the year.</p>

Notes to the Core Financial Statements

Item	Uncertainties	Effect if Actual Results Differ from Assumptions
Pensions Liability	<p>Estimation of the net liability to pay pensions depends on a number of complex judgements relating to the discount rate used, the rate at which salaries are projected to increase, changes in retirement ages, mortality rates and expected returns on pension fund assets. A firm of consulting actuaries is engaged to provide the Council with expert advice about the assumptions to be applied.</p>	<p>The effects on the net pension liability of changes in individual assumptions can be measured. For instance a 0.1% increase in the discount rate assumption would result in a decrease in the pension liability of £23.192m.</p>
Fair value measurements	<p>When the fair values of financial assets and financial liabilities cannot be measured or based on quoted prices in active markets (i.e. level 1 inputs), their fair value is measured using valuation techniques. Where possible, the inputs to these valuation techniques are based on observable data, but where this is not possible judgement is required in establishing fair values. These judgements typically include considerations such as uncertainty and risk. However, changes in the assumptions used could affect the fair value of the Council's assets and liabilities. Where level 1 inputs are not available, the Council employs relevant experts to identify the most appropriate valuation techniques to determine fair value (for example for investment properties, the authority's chief valuation officer). Information about the valuation techniques and inputs used in determining the fair value of the Council's assets and liabilities is disclosed in notes to below.</p>	<p>The authority uses the discounted cash flow model to measure the fair value of some of its investment properties and financial assets. The significant unobservable inputs used in the fair value measurement include management assumptions regarding rent growth, vacancy levels (for investment properties) and discount rates – adjusted for regional factors (for both investment properties and some financial assets). Significant changes in any of the unobservable inputs would result in a significantly lower or higher fair value measurement for the investment properties and financial assets.</p>
Accruals	<p>Estimates of known future expenses or income where amounts are not yet certain are accrued in the year that they relate to. The proportion of estimates within the accruals processed for debtors and creditors are:</p> <ul style="list-style-type: none"> • Debtors 22% • Creditors 17% 	<p>The expense or the income could be either higher or lower than expected. A 10% increase in the estimates for debtors would result in an additional debtor of £0.140m. A 10% increase from the estimate for creditors would result in an additional creditor of £0.218m.</p>
Debt Impairment	<p>The balance of outstanding debtors, including Council Tax and Business Rates debtors, is assessed annually and a bad debt provision calculated to estimate the potential liability from non collection of the outstanding debts. The ongoing impact of COVID-19 has created uncertainty around future collection rates. The estimated impact of this has been included in the calculation however the long-term impact of this is currently unknown.</p>	<p>There is a risk that if collection rates were to deteriorate then the allowance for the impairment of bad debts would need to increase.</p>

5. EVENTS AFTER THE REPORTING PERIOD

The Statement of Accounts was authorised for issue by the Executive Director of Resources on **xx July 2021**. Events taking place after this date are not reflected in the financial statement or notes.

At balance sheet date, Department of Education approval had been granted to two schools to convert to Academy status. One of which has converted to Academy School status in early 2021/22 financial year, this school was in part Council freehold ownership and a lease to the Academy school on a 125 year peppercorn rent has been completed as part of the transfer. The value of the school and associated facilities in the 2020/21 accounts is £3.85m. The remaining school is in Diocese ownership. This is considered as a non-adjusting event after the reporting date.

Notes to the Core Financial Statements

6. EXPENDITURE AND FUNDING ANALYSIS

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources (government grants, rents, council tax and business rates) by local authorities in comparison with those resources consumed or earned by authorities in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes between the council's service areas. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

Note 1) For resource management purposes, the authority includes depreciation, pension charges in relation to IAS19 debits and credits in its directorate reporting, however this needs to be removed as it is not included in the net expenditure chargeable to the general fund and HRA balances.

Notes to the Core Financial Statements

Note 2) The authority includes income and expenditure in relation to investment properties, interest payable and receivable, levies and trading accounts within the Directorates however this is reported in the financial statements below the cost of services line and therefore the above table shows these items being reallocated. The income and expenditure for Corporate Landlord and Passenger Transport is also adjusted within the amendments for trading/internal recharges.

Note 3) Corporate Funding and Housing Revenue Account are not reported to management as part of the Service Area reporting therefore these items have been included as adjustments in the above table.

Adjustments for Capital Purposes

- 1) Adjustments for capital purposes – this column adds in depreciation and impairment and revaluation gains and losses in the services line, and for:
 - Other operating expenditure – adjusts for capital disposals with a transfer of income on disposal of assets and the amounts written off for those assets.
 - Financing and investment income and expenditure – the statutory charges for capital financing i.e. Minimum Revenue Provision and other revenue contributions are deducted from other income and expenditure as these are not chargeable under generally accepted accounting practices.
 - Taxation and non-specific grant income and expenditure – capital grants are adjusted for income not chargeable under generally accepted accounting practices. Revenue grants are adjusted from those receivable in the year to those receivable without conditions or for which conditions were satisfied in the year.

Net Change for the Pensions Adjustments

- 2) Net change for the removal of pension contributions and the addition of IAS 19 Employee Benefits pension related expenditure and income:
 - For services this represents the removal of the employer pension contributions made by the authority as allowed by statute and the replacement with current service costs and past service costs.
 - For Financing and investment income and expenditure – the net interest in the defined benefit liability is charged to the CIES.

Other Differences

- 3) Other differences between amounts debited/credited to the Comprehensive Income and Expenditure Statement and amounts payable/receivable to be recognised under statute:
 - For Financing and investment income and expenditure the other differences column recognises adjustments to the General Fund for the timing differences for premiums and discounts.
 - The transfer of any deficit arising on the Dedicated Schools Grant to the Dedicated Schools grant adjustment account
 - The charge under Taxation and non-specific grant income and expenditure represents the difference between what is chargeable under statutory regulations for council tax and NDR that was projected to be received at the start of the year and the income recognised under generally accepted

Notes to the Core Financial Statements

accounting practices in the Code. This is a timing difference as any difference will be brought forward in future Surpluses or Deficits on the Collection Fund.

Notes to the Core Financial Statements

8. EXPENDITURE AND INCOME ANALYSED BY NATURE

The Council's expenditure and income is analysed as follows:

Expenditure/Income	2020/21 £000	2019/20 £000
Expenditure		
Employee benefits expenses	187,329	196,150
Other service expenses	421,957	395,127
Support service recharges	32,906	32,314
Depreciation, amortisation, impairment	78,028	68,574
Interest payments	26,179	25,916
Precepts and levies	9,072	8,339
Payments to Housing Capital Receipts Pool	560	584
(Gain)/Loss on the disposal of assets	5,992	18,532
Total Expenditure	762,023	745,536
Income		
Fees, charges and other service income	(156,368)	(165,491)
Interest and investment income	(1,450)	(2,129)
Income from council tax, non-domestic rates	(204,513)	(216,514)
Government grants and contributions	(356,327)	(288,346)
Total Income	(718,658)	(672,480)
Surplus or Deficit on the Provision of Services	43,365	73,056

9. REVENUE CONTRACTS WITH CUSTOMERS

The Council's income from revenue contracts with customers is analysed by Service Area as follows:

Fees, charges and other service income	2020/21 £000	2019/20 £000
Adult Services	(48,620)	(42,698)
Local Authority Housing	(18,442)	(18,389)
Children's Services	(8,493)	(12,722)
Finance, Governance and Assurance	(8,882)	(8,669)
Legal and Democratic Services	(4,473)	(4,960)
Place	(44,378)	(59,116)
Strategic Management Board	(913)	(1,034)
Workforce and Transformation	(19,549)	(17,337)
Corporate	(2,618)	(566)
Total Income	(156,368)	(165,491)

Notes to the Core Financial Statements

10. ADJUSTMENTS BETWEEN ACCOUNTING BASIS AND FUNDING BASIS UNDER REGULATIONS

This note details the adjustments that are made to the total comprehensive income and expenditure recognised by the Council in the year in accordance with proper accounting practice to the resources that are specified by statutory provisions as being available to the Council to meet future capital and revenue expenditure.

2020/21						
	General Fund Balance £000	Housing Revenue Account £000	Major Repairs Reserve £000	Capital Receipts Reserves £000	Capital Grants Unapplied £000	Movement in Unusable Reserves £000
Adjustments to the Revenue Resources:						
<i>Amounts by which income and expenditure included in the Comprehensive Income and Expenditure Statement are different from revenue for the year calculated in accordance with statutory requirements:</i>						
Pension costs	19,531	0	0	0	0	(19,531)

Notes to the Core Financial Statements

RESERVES

Sums set aside for major schemes, such as capital developments, or to fund major reorganisations – includes redundancy reserve, and specific reserves to fund capital and major projects including service transformation within the Council.

Insurance Reserves – includes fire liability and motor insurance reserves to fund the Council's future self insurance liabilities.

Reserves of trading and business units – includes any balance carried forward in relation to Shire Services to help smooth trading profits and losses over future years.

Reserves retained for service departmental use – includes a number of specific earmarked reserves for known service expenditure in future years. Significant balances include the Covid Government Funding Reserve, Financial Strategy reserve, a savings management for highways reserve, a severe weather reserve and a reserve including unringfenced revenue grants that have not been spent.

School Balances – includes unspent balances of budgets delegated to individual schools.

A breakdown of all specific earmarked reserve balances is shown in the 2020/21 Revenue Outturn report.

12. OTHER OPERATING EXPENDITURE

	2020/21 £000	2019/20 £000
Parish Council Precepts	8,940	8,211
Levies	132	128
Payments to the Government Housing Capital Receipts Pool	560	584
(Gains)/losses on the disposal of non-current assets*	5,454	18,279
(Gains)/losses on change in valuation of non-current assets	538	340
	15,624	27,542

13. FINANCING AND INVESTMENT INCOME AND EXPENDITURE

	2020/21 £000	2019/20 £000
Interest payable and similar charges	26,179	25,916
Pensions interest cost and expected return on pensions assets	11,267	11,565
Interest receivable and similar income	(1,450)	(2,128)
Income and expenditure in relation to investment properties and changes in their fair value	(1,328)	2,625
Revenue Impairment Losses	1,133	461
(Surpluses)/deficits on Trading Activities	7,862	1,117
	43,663	39,556

Notes to the Core Financial Statements

14. TAXATION AND NON SPECIFIC GRANT INCOMES

	2020/21 £000	2019/20 £000
Council tax income	(172,667)	(165,000)
Non domestic rates	(31,846)	(51,514)
Non ringfenced government grants	(66,559)	(38,002)
Capital grants and contributions	(48,766)	(37,925)
	(319,838)	(292,441)

Local Authority Maintained Schools

Included in the above balances for other land and buildings are all or a significant part of 5 primary schools for which plans are being finalised with the Diocese or for which instructions have been issued, but full ownership has not yet transferred to the Diocese. This detailed work is necessary because in many circumstances the schools are now physically different and it is necessary to ensure that the transfers relate purely to the school function and no other uses which may now be on site. There is a legal obligation to transfer ownership under Education legislation (Education Act 1946 or Schools Standards and Framework 1998).

Work commenced on the first transfers in 2008/09, and further schools were identified in 2011/12, mainly as a result of Primary School Amalgamations, which resulted in the change of the category of a number of schools. These schools will be removed from the Council's balance sheet on completion of the legal transfer. The total net book value for these schools still included as at the balance sheet date is £8.80m.

In addition there are a number of primary schools where a small part of the site is required to transfer from the Council to the Diocese, these are mainly as a result of extensions to schools which have been built across land still in Shropshire Council ownership (e.g. former playing field land). Work is ongoing to legally transfer these further sections and they are not included in the Council's balance sheet.

Academy Schools

In 2020/21 one further school became Academy status. This school was in part ownership of the Council, with the remaining part required to be transferred to the Diocese, following a school amalgamation. Where the School land and premises are in the freehold ownership of the Council, these are now leased by the Council to the Academy school on a 125 year peppercorn rent. Where they relate to Schools that should have transferred to the Diocese, this transfer is completed prior to Academy conversion. On this basis the schools are now listed in the Council's fixed asset register at nil value. The value written out of the Council balance sheet in 2020/21 for the school transferring was £3.85m.

At balance sheet date, Department of Education approval had been granted to two schools to convert to Academy status. One of which has converted to Academy School status in early 2021/22 financial year, this school was in part Council freehold ownership and a lease to the Academy school on a 125 year peppercorn rent has been completed as part of the transfer. The value of the school and associated facilities in the 2020/21 accounts is £3.85m. This is considered as a non-adjusting event after the reporting date.

Depreciation

The following useful lives have been used in the calculation of depreciation:

- Council Dwelling – componentised depreciation basis, using the Planned Programme Approach. The components are depreciated on a straightline basis over their useful

life (10-0 years) for Decent Homes Standard; with the residual amount (excluding land) depreciated over 150 years.

- Other Land and Buildings – average 10 to 60 years range.
- Vehicles, Plant, Furniture & Equipment – average 5 years.
- Infrastructure – 5 to 40 years.

Capital Commitments

At 31 March 2021, the Council has entered into a number of contracts for the purchase, construction or enhancement of Property, Plant and Equipment or to provide grant funding to other bodies for a capital purpose in 2020/21 and future years budgeted to cost £38.091m. Similar commitments at 31 March 2020 were £20.817m. The major commitments were:

- School Future Place Planning Programme - £9.281m.
- Highways & Transport schemes - £21.143m.
- Rural Broadband - £2.614m
- Business Park Regeneration - £4.145m

Revaluations

The Council carries out a rolling programme that ensures that all Property, Plant and Equipment required to be measured at current value is revalued at least every five years but are subject to an annual desktop review. All valuations are undertaken by External Valuers for General Fund assets and Valuation Office Agency for HRA assets. Valuations of land and buildings were carried out in accordance with the methodologies and bases for estimation set out in the professional standards of the Royal Institution of Chartered Surveyors. Vehicles, plant, furniture and equipment are held on historic cost basis.

The pandemic and the measures taken to tackle COVID-19 continue to affect economies and real estate markets globally. Nevertheless, as at the valuation date property markets are mostly functioning again, with transaction volumes and other relevant evidence at levels where an adequate quantum of market evidence exists upon which to base opinions of value. Accordingly, and for the avoidance of doubt, valuations are not reported as being subject to 'material valuation uncertainty' as defined by VPS 3 and VPGA 10 of the RICS Valuation – Global Standards.

The significant assumptions applied in estimating the fair values are:

- For all assets valued on a DRC or EUV basis an apportionment of each valuation has been made between land and buildings. The apportionment is provided only for the financial purposes, but this does not necessarily reflect how each asset would be treated in the open market.
- Valuation is based on the continuation of the existing uses for all of those properties that are owner occupied by Shropshire Council. Assumed that the properties are all occupied and/or operated in accordance with a valid planning permission. Valuers have not carried out any enquiries into highways or other statutory matters and have assumed there is nothing that would affect value.

Notes to the Core Financial Statements

- In accordance with instructions from Shropshire Council, Valuers have not undertaken any Building Surveys, test of services or site investigations and have prepared valuations on the basis that all properties (sites and buildings) are:
 - Free of any matters (including deleterious materials or contamination) that could otherwise affect value;
 - None of the properties are prone to flooding or other infrequent or regularly occurring natural events that could affect value;
 - All necessary mains services are connected to the properties.
- All valuations undertaken are reported on a gross basis before deduction of purchaser's costs, including stamp duty at prevailing rates. No allowance has been made for any expenses of realisation, nor taxation (including VAT) which might arise in the event of a disposal, and the property has been considered free and clear of all mortgages or other charges which may be secured thereon.
- All of the assets are held on an unencumbered freehold basis with the Title being good and marketable, based on the Report on Title provided.
- Where relevant, Valuers have carried out informal enquiries only of statutory undertakers. This information has been obtained from verbal discussions or the internet, and is provided without liability on behalf of the statutory bodies.
- Opinion of the remaining lives of property assets has been provided. This may not necessarily be the useful life of the asset to Shropshire Council. Estimates of the properties remaining lives are based upon information provided together with Valuers understanding of any recent capital expenditure which has been incurred in replacing or refurbishing individual buildings and the use of the buildings (if any) at the date of valuation. All buildings are assumed to have a maximum life expectancy from new of 60 years.
- For those assets valued on a Market Value approach, the valuation will reflect the highest and best use of the asset which may include an alternative use or redevelopment of the property on the expectation that such a change or redevelopment can be reasonably assumed to be capable of achieving an appropriate planning permission.

Valuations of Non-Current Assets carried at Current Value

The following statement shows the progress of the Council's rolling programme for the revaluation of Property, Plant and Equipment. The valuations are carried out by the Council's internal valuation unit or commissioned from External Valuers. The basis of valuation is set out in the Statement of Accounting Policies. All values are stated on a net present value basis.

Notes to the Core Financial Statements

	Council Dwellings £000	Other Land and Buildings £000	Vehicles, Plant, Furniture & Equipment £000	Surplus Assets £000	Total £000
Carried at Historical Cost	0	0	11,140	0	11,140
Valued at Fair Value as at: 31-Mar-21	204,772	380,926	0	1,246	586,944
Total Cost or Valuation	204,772	380,926	11,140	1,246	598,084

All assets were subject to a Full or Desktop Valuations as at 31/03/21 to ensure the carrying amount reflected Fair Value as at the balance sheet date.

In order to perform this exercise the other land and building category was split into the sub-categories with the relevant values detailed in the table below:

	2020/21 £000	2019/20 £000
Schools, Children's Services and other Education Facilities	71,369	124,392
Culture & Heritage Buildings	44,880	80,495
Leisure & Recreation	42,978	63,509
Highways & Car Parks	25,784	69,233
Social Care	35,071	43,236
Administrative Offices	16,977	21,994
Waste Management Site	96,573	112,102
Business / Commercial Sites (including Markets)	28,328	17,565
Housing Services (including Gypsy Sites)	9,678	11,563
Smallholdings	8,234	9,125
Other	1,054	1,826
Total	380,926	555,040

16. INVESTMENT PROPERTIES

The following items of income and expense have been accounted for in the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

	2020/21 £000	2019/20 £000
Rental income & service charges from investment property	(1,815)	(1,316)
Direct operating expenses arising from investment property	315	350
Net (gain)/loss	(1,500)	(966)

There are no restrictions on the Council's ability to realise the value inherent in its investment property or on the Council's right to the remittance of income and the proceeds of disposal. The Council has no contractual obligations to purchase, construct or develop investment property or repairs, maintenance or enhancement.

Notes to the Core Financial Statements

The following table summarises the movement in the fair value of investment properties over the year:

	Long term		Current	
	2020/21 £000	2019/20 £000	2020/21 £000	2019/20 £000
Balance at start of the year	47,652	50,884	740	3,822
Additions:				
- Purchases	6,698	1,975	0	0
- Construction	1,308	0	0	0
- Subsequent expenditure	116	24	0	0
Disposals	(116)	(25)	0	(3,822)
Net gains/(losses) from fair value adjustments	318	(2,456)	(490)	(1,135)
Transfers:				
- To/(from) Property, Plant and Equipment	3,285	(875)	0	0
- To/(from) Current/Long term	0	(1,875)	0	1,875
Balance at end of the year	59,261	47,652	250	740

Fair Value Hierarchy

Details of the Council's investment properties and information about the fair value hierarchy as at 31 March 2021 are as follows:

2020/21	Quoted prices in active markets for identical assets (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair value as at 31 March 2020
Recurring fair value measurements using:	£000	£000	£000	£000
Residential (market rental) properties	0	3,883	0	3,883
Land	0	37,977	0	37,977
Commercial units	0	17,651	0	17,651
Total	0	59,511		59,511

2018/19 comparatives	Quoted prices in active markets for identical assets (Level 1)	Other significant observable inputs (Level 2)	Significant unobservable inputs (Level 3)	Fair value as at 31 March 2019
Recurring fair value measurements using:	£000	£000	£000	£000
Residential (market rental) properties	0	5,621	0	5,621
Land	0	33,502	0	33,502
Commercial units	0	9,269	0	9,269
Total	0	48,392	0	48,392

Valuation Techniques used to Determine Level 2 and 3 Fair Values for Investment Properties

Significant Observable Inputs – Level 2

The market approach and the income approach have been used as the valuation techniques to measure the fair value of Investment Properties.

The fair value of properties has been based on the market approach using current market conditions and recent sales prices and other relevant information for similar assets in the local authority area. Market conditions are such that similar properties are actively purchased and sold and the level of observable inputs are significant, leading to the properties being categorised at Level 2 in the fair value hierarchy.

The Income approach has been used mainly in relation to Investment Properties leased on a commercial basis. The income approach is calculated by means of the discounted cash flow method, where the expected cash flows from the properties are discounted to establish the present value of the net income stream. This approach is based on the authorities lease data and data on the local rental market.

Highest and Best Use of Investment Properties

In estimating the fair value of the authority's Investment Properties, the valuations have been on the basis of the highest and best use of the asset. In a small number of instances this differs to their current use, mainly where sites would have a higher value if use for residential development, and it is expected planning permission for these sites would be granted based on existing planning policy. The authority is actively working to bring these sites forward for development, but this process can take a number of years.

Valuation Process for Investment Properties

The fair value of the authority's investment properties are subject to revaluations in accordance with the authority's policy on revaluing non-current assets, undertaken by the authority's internal Estates Department for General Fund assets and Valuation Office Agency for HRA assets. As Investment Properties are valued on a market value basis and hence more volatile to changes in valuation, they are also subject to annual desktop review, to ensure the valuation reflects current value at the balance sheet date.

17. LONG TERM UNQUOTED EQUITY INVESTMENT

The Council held the following unquoted equity investments:

	2020/21 £000	2019/20 £000
Balance at start of the year	19,806	40,520
Purchases		
Shrewsbury Retail Unit Trusts	3,482	2,856
Disposals		
Shrewsbury Retail Unit Trusts	0	(64)

Notes to the Core Financial Statements

	2020/21 £000	2019/20 £000
Revaluation		
Shrewsbury Retail Unit Trusts	(8,577)	(23,506)
Transfer of investment 31/01/2021	(14,711)	0
Balance at 31 March	0	19,806

All of the units in the trusts were previously owned by Standard Life Aberdeen and were sold to the Council on the 24th January 2018. The trust is a registered trust in Jersey and is regulated by the Jersey financial services authority and is also approved by the UK Government as a “Baker trust” for tax purposes.

In order to comply with the rules of the trust a percentage of the units were held by the Council directly and the remaining units were held by SSC NO.1 LTD, a wholly owned subsidiary of the Council. The units previously held by SSC No.1 LTD were surrendered to the Council on 30th January 2021.

On 31st January 2021 the shopping centres were returned to the UK financial market. As a result of this the value that was previously accounted for as an unquoted equity investment is now accounted for within the Council’s Balance Sheet under the specific headings i.e. debtors, creditors and property, plant and equipment.

The wholly owned subsidiary SSC NO.1 LTD is a company incorporated in England and Wales and was incorporated on the 19th January 2018. It has been consolidated in the group accounts. Its issued share capital at the 31st March 2020 was £1 and holds £0.020m in cash.

18. CAPITAL EXPENDITURE AND FINANCING

The total amount of capital expenditure incurred in the year is shown in the table below (including the value of assets acquired under finance leases and PFI contracts), together with the resources that have been used to finance it. Where capital expenditure is to be financed in future years by charges to revenue as assets are used by the Council, the expenditure results in an increase in the Capital Financing Requirement (CFR), a measure of the capital expenditure incurred historically by the Council that has yet to be financed. The CFR is analysed in the second part of this note.

	2020/21 £000	2019/20 £000
Opening Capital Financing Requirement (including PFI & Finance Lease)	480,053	474,213
Capital investment		
Property, Plant and Equipment	44,340	40,440
Investment Properties	8,122	1,999
Long Term Investment	721	2,792
Intangible Assets	449	2,841
Revenue Expenditure Funded from Capital under Statute	14,424	18,561
Capital Loans	3,250	750
Sources of finance		

Notes to the Core Financial Statements

	2020/21 £000	2019/20 £000
Capital receipts	(5,869)	(5,135)
Capital grants and other contributions	(56,543)	(40,756)
Direct Revenue Financing (Including MRA)	(3,081)	(8,662)
Minimum Revenue Provision	(8,312)	(6,990)
Closing Capital Financing Requirement (including PFI & Finance Lease)	477,554	480,053
Closing Capital Financing Requirement – Supported & Unsupported Borrowing – General Fund	293,638	293,721
Closing Capital Financing Requirement – Supported & Unsupported Borrowing – HRA	85,130	84,805
Closing Capital Financing Requirement – PFI & Finance Lease	98,786	101,527
	477,554	480,053
Explanation of movements in year		
Increase/(decrease) in underlying need to borrow (supported by Government financial assistance)	(4,925)	(2,441)
Increase/(decrease) in underlying need to borrow (unsupported by Government financial assistance)	5,167	9,947
Assets acquired under finance leases		0
Assets acquired under PFI contracts	(2,741)	(1,666)
Increase/(decrease) in Capital Financing Requirement	(2,499)	5,840

19. PRIVATE FINANCE INITIATIVE SCHEMES

The Council has two Private Finance Initiative (PFI) schemes: The Quality in Community Services (QICS) PFI, signed on 21 May 2005, and the Waste Services PFI contract, signed on 29 September 2007.

a. The Quality in Community Services PFI Project

On 21 May 2005 the Council entered into a 30 year contract with Integrated Care Solutions (ICS) to supply and maintain six buildings:

- Three Resource Centres
- A Nursing Home
- A Joint Service Centre
- An Intermediate Care Hub

The contract was a Private Finance Initiative under the Capital Finance Regulations. The Council was awarded a PFI credit of £20.400m.

b. The Waste Services PFI Project

On 29 September 2007, the former Shropshire County Council, in its capacity as Contracting Authority for the former Shropshire Waste Partnership, entered into a 27 year waste contract with Veolia ES Shropshire Limited. Services under the contract commenced on 1 October 2007. On 20 October 2008 Shrewsbury & Atcham Borough Council joined the Partnership and the contract with Veolia for the remaining 26 years.

Notes to the Core Financial Statements

The contract is a Private Finance Initiative (PFI) contract and is part funded by £40.800m of PFI credits which are paid as an annual PFI grant.

There are two separable elements to the contract: a collection and recycling element and a waste treatment services element.

The collection and recycling element comprises the kerbside collections of recycling and waste, the operation of the Integrated Waste Management Facilities (comprising the household recycling centres and transfer stations) and waste treatment and disposal other than the operation of the Energy Recovery Facility. The contract is an output based contract but proposed waste infrastructure that will be used to deliver services under this element of the contract includes upgrades of the existing Craven Arms and Whitchurch recycling facilities, the development of Integrated Waste Management Facilities to service the Oswestry and Bridgnorth areas and the development of an In Vessel Composting Facility.

Two broad groups of assets are being provided under the Waste Services PFI contract:

- Vehicles and waste receptacles used to deliver the day to day waste service.
- Assets to be constructed under the contract to deliver improved recycling and diversion performance.

The value of assets held and liabilities resulting from the QICS and Waste PFI contract at each balance sheet date since the commencement of the contract and an analysis of the movements are shown below:

	QICS PFI		Waste PFI	
	Year Ended 31/03/21 £000	Year Ended 31/03/20 £000	Year Ended 31/03/21 £000	Year Ended 31/03/20 £000

20. LEASES

Authority as a Lessee

Finance Leases

The Council has two PFI projects: the Quality in Community Services (QICS) PFI and the Waste Services PFI. The Council pays an annual unitary charge (in monthly instalments) to the contractor for the assets and services provided under each PFI contract. This annual unitary charge is comprised of two basic elements: a service element, which is expensed as incurred, and a construction element, which is accounted for as if it were a finance lease.

The assets acquired under these leases are carried as Buildings and Vehicles, Plant and Equipment in the Balance Sheet at the following amounts:

	31 March 2021 £000	31 March 2020 £000
Buildings	106,679	127,947
Vehicles, Plant and Equipment (PFI)	7,563	8,972
Total	114,242	136,919

The Council is committed to making minimum payments under these leases comprising settlement of the long term liability for the interest in the property acquired by the Council and

Notes to the Core Financial Statements

finance costs that will be payable by the Council in future years while the liability remains outstanding. The minimum lease payments are made up of the following amounts:

	31 March 2021 £000	31 March 2020 £000
Finance lease liabilities (NPV of minimum lease payments)	114,673	117,045
Finance costs payable in future years	158,738	170,557
Minimum lease payments	273,410	287,602

The minimum lease payments will be payable over the following periods:

	Minimum Lease Payments		Finance Lease Liabilities	
	31 March	31 March	31 March	31 March
	2021 £000	2020 £000	2021 £000	2020 £000
Not later than one year	16,116	16,465	5,281	4,356
Later than one year and not later than five years	59,906	60,930	18,581	18,793
Later than five years	197,388	210,207	90,811	93,896
Total	273,410	287,602	114,673	117,045

The finance lease liabilities recognised on the balance sheet as “Deferred Liabilities” totals £108.899m. The analysis of the deferred liability is detailed below. Further details of the QICS and Waste PFI lease values are detailed in Note 19 Private Finance Initiative Schemes.

	QICS £000	Waste £000	Total £000
Lease liability (due within 1 year)	(371)	(4,910)	(5,281)
Lease liability (due after 1 year)	(11,027)	(92,591)	(103,618)
Total	(11,398)	(97,501)	(108,899)

Operating Leases

The Council has acquired vehicles and equipment by entering into operating leases, with typical lease lengths of three to seven years. The Council also has a number of land and buildings that are held under operating leases.

The minimum lease payments due for the following financial year under non-cancellable leases committed at 31 March under operating leases years are:

	31 March 2021 £000	31 March 2020 £000
Expiring not later than one year	80	329
Expiring later than one year and not later than five years	325	115
Expiring later than five years	402	445
Total	807	889

The expenditure charged in the Comprehensive Income and Expenditure Statement during the year in relation to these leases was:

Notes to the Core Financial Statements

	31 March 2021 £000	31 March 2020 £000
Lease payments	874	1,149
Sub Lease receivable	0	0
Total	874	1,149

Authority as Lessor

Operating Leases

The Council leases out property under operating leases for a variety of purposes, including:

- For the provision of community services.
- For economic development purposes to provide suitable affordable accommodation for local businesses.
- For income generation as Investment Properties.

The minimum lease payments due under non-cancellable leases committed at 31 March under operating leases years are:

	31 March 2021 £000	31 March 2020 £000
Expiring not later than one year	743	1,034
Expiring later than one year and not later than five years	962	501
Expiring later than five years	1,565	941
Total	3,270	2,476

21. FINANCIAL INSTRUMENTS

Categories of Financial Instruments

The following categories of financial instruments are carried in the Balance Sheet.

Financial Assets	Long term				Current				Total	
	Investments		Debtors		Investments		Debtors		31-Mar- 21 £000	31-Mar- 20 £000

Financial liabilities carried at contract amount as per Financial Instruments	(92,920)	(85,939)
Creditors that are not financial instruments	(12,790)	(21,052)
Total Creditors as per Balance Sheet	(105,710)	(106,991)

Soft Loans

Small Business Loans

Shropshire Council has entered into two legal contracts with MRRT Ltd to provide funding to MRRT Ltd to be used to provide small business loans. As at the balance sheet date a total of £0.750m has been loaned to MRRT Ltd.

Valuation Assumptions

The interest rate at which the fair value of this soft loan has been made is based on the PWLB rate at point at which the loan payment is made to MRRT Ltd plus 0.5% for the Council's transactional costs.

Other Soft Loans

Following a review in this area it has been identified that interest free loans with a nominal value of £2.092m are advanced to clients receiving residential/nursing care, who following assessment, are required to pay the full cost of their care. As all of the clients funds are tied up in the property they own, a legal charge is made against the property and when the property is sold the outstanding debts are cleared and the legal charge removed.

In addition, clients who are required to make adaptations to their homes to maintain their independence are also given interest free loans, the nominal value of these loans is £0.297m. A legal charge is again placed against the property and when the property is sold the amount of the loan is repaid and the legal charge removed.

The deferred charges loans are part of the Charging Residential Accommodation Guide (CRAG) assessment and the adaptation loans are part of Disabled Facilities Grant legislation, which means they are part of national agreements. These loans are not part of the Councils internal policies and therefore are not classified as soft loans.

Income, Expense, Gains and Losses

	2020/21		2019/20	
	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000
Net gains/losses on:				

Notes to the Core Financial Statements

	2020/21		2019/20	
	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000	Surplus or Deficit on the Provision of Services £000	Other Comprehensive Income and Expenditure £000
Financial assets measured at fair value through profit or loss	(8,577)	0	(23,506)	0
Financial assets measured at amortised cost	0	0	0	0
Investments in equity instruments designated at fair value through other comprehensive income	0	0	0	0
Financial assets measured at fair value through profit or loss	0	0	0	0
Financial liabilities measured at fair value through profit or loss	0	0	0	0
Financial liabilities measured at amortised cost	0	0	0	0
Total net gains/losses	(8,577)	0	(23,506)	0
Interest revenue:				
Financial assets measured at amortised cost	(1,450)	0	(2,129)	0
Other financial assets measured at fair value through other comprehensive income			0	0
Total interest revenue	(1,450)	0	(2,129)	0
Interest expense				
Interest Expense	26,179	0	25,916	0

The Fair Values of Financial Assets and Financial Liabilities that are not Measured at Fair Value (but for which Fair Value Disclosures are Required)

Except for the financial assets carried at fair value, all other financial liabilities and financial assets held by the Council are carried in the Balance Sheets at amortised cost. The fair values calculated are as follows.

Financial Liabilities	31 March 2021		31 March 2020	
	Carrying amount £000	Fair value £000	Carrying amount £000	Fair value £000
Financial liabilities held at amortised cost				
- Loans/Borrowings	303,568	421,941	307,568	405,490
- PFI and finance lease liabilities	108,899	203,186	111,271	224,610

The fair value of borrowings is higher than the carrying amount because the Council's portfolio of loans includes a number of fixed rate loans where the interest rate payable is higher than the prevailing rates at the Balance Sheet date. This shows a notional future loss arising from a commitment to pay interest to lenders above current market rates.

Notes to the Core Financial Statements

Financial Assets	31 March 2021		31 March 2020	
	Carrying amount £000	Fair value £000	Carrying amount £000	Fair value £000
Financial assets held at amortised cost				
Loans and receivables:				
Cash	32,800	32,800	35,500	35,514
Fixed Term Deposits	115,000	115,173	104,500	104,979
Money Market Funds	0	0	17,060	17,071
Short term investments	0	0	0	0
Long term debtors	22,628	22,628	19,857	19,857
Long term investments	400	400	20,206	20,206

The fair value of the assets is higher than the carrying amount because the Council's portfolio of investments includes a number of fixed rate loans where the interest rate receivable is higher than the rates available for similar loans at the Balance Sheet date. This shows a notional future gain (based on economic conditions at 31 March 2021) attributable to the commitment to receive interest above current market rates.

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

Fair value hierarchy for financial assets and financial liabilities that are not measured at fair value

	31-Mar-21			Total
	Quoted prices in active markets for identical assets (Level 1) £000	Other significant observable inputs (Level 2) £000	Significant unobservable inputs (Level 3) £000	
Recurring fair value measurements using:				
Financial liabilities				
Financial liabilities held at amortised cost:				
Loans/borrowings	0	421,941	0	421,941
PFI and finance lease liabilities	0	203,186	0	203,186
Total	0	625,127	0	625,127
Financial assets				
Loans and receivables:				
Soft loans to third parties	0	0	750	750
Other loans and receivables	0	147,973	0	147,973
Total	0	147,973	750	148,723

Notes to the Core Financial Statements

	Quoted prices in active markets for identical assets (Level 1)	31-Mar-20 Other significant observable inputs (Level 2)	Comparative Year Significant unobservable inputs (Level 3)	Total
Recurring fair value measurements using:	£000	£000	£000	£000
Financial liabilities				
Financial liabilities held at amortised cost:				
Loans/borrowings	0	405,490	0	405,490
PFI and finance lease liabilities	0	224,610	0	224,610
Total	0	630,100	0	630,100
Financial assets				
Loans and receivables:				
Soft loans to third parties	0	0	750	750
Other loans and receivables	0	157,564	0	157,564
Total	0	157,564	750	158,314

The fair value for financial liabilities and financial assets that are not measured at fair value included in levels 2 and 3 in the table above have been arrived at using a discounted cash flow analysis with the most significant inputs being the discount rate.

The fair value for financial liabilities and financial assets that are not measured at fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions.

Financial Assets	Financial Liabilities
No early repayment or impairment is recognised	No early repayment is recognised
Estimated ranges of interest rates at 31 March 2021 of - 0.01% to 0.15% for loans receivable, based on new lending rates for equivalent loans at that date	Estimated ranges of interest rates at 31 March 2021 of 0.79% to 2.19% for loans payable, based on new lending rates for equivalent loans at that date
The fair value of trade and other receivables is taken to be the invoiced or billed amount	

22. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

The identification, understanding and management of risk are, by necessity, a major part of the Council's treasury management activities. The Council's overall risk management procedures focus on the unpredictability of financial markets, and are structured to implement suitable controls to minimise these risks. The procedures for risk management require the Council to manage risk in the following ways:

- By formally adopting the requirements of the CIPFA Treasury Management Code of Practice;
- By the adoption of a Treasury Policy Statement and treasury management clauses;
- By approving annually in advance prudential and treasury indicators for the following three years;

Notes to the Core Financial Statements

- By approving an investment strategy for the forthcoming year.

To avoid the Council suffering loss as a result of its treasury management activities a number of risk management procedures have been put in place.

These procedures are based on the concept that firstly security of principal is paramount, secondly that there is a need to maintain liquidity and finally earning a rate of return commensurate with the first two concepts.

Credit Risk Exposure

Credit and counterparty risk is the failure by a third party to meet its contractual obligations under an investment, loan or other commitment, especially due to deterioration in its creditworthiness.

As a holder of public funds, Shropshire Council regards it a prime objective of its treasury management activities to be the security of the principal sums it invests. The enhancement of returns is a secondary consideration to the reduction or minimisation of risk. Accordingly, the Council ensures that its counterparty lists and limits reflect a prudent attitude towards organisations with whom funds may be deposited.

The main criteria for determining the suitability of investment counterparties is outlined in the Council's creditworthiness policy which is approved as part of the Annual Investment Strategy. The Council's lending list is reviewed continuously in conjunction with its treasury advisor and formally updated monthly. Additions to, and deletions from, the list are approved by the Section 151 Officer.

The total permitted investment in any one organisation at any one time varies with the strength of the individual credit rating. For the highest rating the maximum amount is currently limited to £20.000m.

The analysis below summarises the Council's potential maximum exposure to credit risk, based on the experience of default, adjusted to reflect current market conditions.

	Amount deposited at 31 March 2021	Historical experience of default	Historical experience adjusted for market conditions at 31 March 2021	Estimated maximum exposure to default and uncollectability at 31 March 2021	Estimated maximum exposure at 31 March 2021
	£000	%	%	%	£000
	A	B	C	(AxC)	
Loans and receivables held with counterparties having a default rating of:					
AAA	0	0.00	0.00	0.00	0
AA	13,900	0.02	0.00	0.00	0
A	60,900	0.05	0.09	0.00	0
BBB	0	0.14	0.00	0.00	0
Other Local Authorities Debtors (Customers)	73,000	0.00	0.00	0.00	0
	30,796	Local Experience	Local Experience	Local Experience	Local Experience

Notes to the Core Financial Statements

No credit limits were exceeded during the reporting period and the Council does not expect any losses from non-performance by any of its counterparties in relation to deposits.

The Council generally allows its customers 30 days credit. Of the £30.796m outstanding from customers £19.847m is past its due date for payment. This amount past due date is analysed by age as follows:

Age of Debt	2020/21 £000	2019/20 £000
Less than 3 months overdue	4,997	4,584
3 to 6 months overdue	4,278	2,262
6 months to 1 year overdue	2,084	2,679
More than 1 year overdue	8,487	7,576
	19,847	17,101

Liquidity Risk Exposure

Liquidity risk is the risk that cash is not available when required. This can jeopardise the ability of the Council to carry out its functions or disrupt those functions being carried out in the most cost effective manner. The Council therefore has sufficient standby facilities to ensure that there is always sufficient liquidity to deal with unexpected circumstances.

As the Council has ready access to borrowings from the money markets to cover any day to day cash flow need, and the Public Works Loan Board and money markets for access to longer term funds, there is no significant risk that it will be unable to raise finance to meet its commitments under financial instruments. Instead, the risk is that the Council will be bound to replenish a significant proportion of its borrowings at a time of unfavourably high interest rates. The Council's strategy therefore is to ensure that no more than 15% of loans mature in any one financial year.

In addition, all of the Council's short term liquidity requirements can be satisfied through short term borrowing and bank overdraft facilities.

The maturity analysis of financial liabilities is as follows:

Age of Debt	2020/21 £000	2019/20 £000
Less than 1 year	12,000	4,000
Between 1 and 2 years	0	12,000
Between 2 and 5 years	6,600	6,600
Between 5 and 10 years	28,487	28,487
More than ten years	256,481	256,481
	303,568	307,568

Interest Rate Risk

Interest rate risk is the risk that unexpected changes in interest rates expose the Council to greater costs or a shortfall in income than have been budgeted for. The Council minimises this risk by seeking expert advice on forecasts on interest rates from its Treasury Management

Notes to the Core Financial Statements

consultants, and agreeing with them the strategy for the forthcoming year for the investment and debt portfolios. Movement of actual interest rates against these expectations is monitored continuously with advice from our treasury advisor.

The Annual Treasury Management Strategy draws together the Council's prudential and treasury indicators and its expected treasury operations, including an expectation of interest rate movements. Interest rate exposure limits and other prudential limits are set through this Strategy. The limit for variable rate debt is 50% of the total debt portfolio however the Council works to a more prudent level and maximises its exposure to 25%. As borrowings are not carried at fair value, nominal gains and losses on fixed rate borrowings do not impact on the Surplus or Deficit on the Provision of Services or other Comprehensive Income and Expenditure.

As at 31 March 2021 the Council's total outstanding debt (excluding accrued interest) amounted to £303.594m of which none of these loans were at stepped interest rates. Out of this balance £254.368m relates to fixed rate Public Works Loan Board (PWLB) loans, £32.200m relates to Lenders Option Borrower Option (LOBO) market loans, £17.000m relates to Market Loans and £0.026m relates to temporary loans for voluntary groups. As the LOBO loans have a call option where the lender can increase the rate of the loan at predetermined dates these loans are classified as variable rate loans. If the lender increases the interest rate on the LOBO loans at the predetermined date then the Council has the option to repay the loan in full thereby offering the potential for the Council to avoid this increase in interest payable.

The majority of the Council's investments are fixed rate deposits however, investments in Call Accounts are classified as variable rate investments. As at the end of March 2021, £17.800m was held in a Call Account.

Price Risk

The Council, excluding the pension fund, does not invest in equity shares or bonds, therefore is not exposed to losses arising from movements in share/bond prices.

Foreign Exchange Risk

The Council has no financial assets or liabilities denominated in foreign currencies therefore the exposure to loss arising from movements in exchange rates is zero.

23. DEBTORS

These are sums of money due to the Council but unpaid at 31 March 2020.

	2020/21	2019/20
	£000	£000
Debtors:		
Central Government Bodies	35,214	12,001

Pensions Reserve	(537,647)	(495,700)
Collection Fund Adjustment Account	(20,227)	3,503
Accumulated Absences Account	(3,026)	(2,328)
Dedicated Schools Grant Adjustment Account	(659)	0
Total Unusable Reserves	28,860	263,116

Revaluation Reserve

The Revaluation Reserve contains the gains made by the authority arising from increases in the value of its property, plant and equipment. The balance is reduced when assets with accumulated gains are:

- revalued downwards or impaired and the gains are lost
- used in the provision of services and the gains are consumed through depreciation, or
- disposed of and the gains are realised.

The reserve contains only revaluation gains accumulated since 1 April 2007, the date that the reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.

	2020/21 £000	2019/20 £000
Balance at 1 April	245,600	164,812
Upward revaluation of assets	13,108	97,077
Downward revaluation of assets and impairment losses not charged to the Surplus/Deficit on the Provision of Services	(149,576)	(4,312)
Surplus or deficit on revaluation of non-current assets not posted to the Surplus or Deficit on the Provision of Services	(136,468)	92,765
Difference between fair value depreciation and historical depreciation	(8,067)	(7,004)
Accumulated gains on assets sold or scrapped	(2,382)	(4,973)
Other transfers to the Capital Adjustment Account	0	0
Amount written off to the Capital Adjustment Account	(10,449)	(11,977)
Balance at 31 March	98,683	245,600

Capital Adjustment Account

The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the

Notes to the Core Financial Statements

acquisition, construction or additions to those assets under statutory provisions. The account is debited with the cost of acquisition, construction or subsequent costs as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement (with reconciling postings from the Revaluation Reserve to convert current and fair value figures to a historical cost basis). The account is credited with the amounts set aside by the authority as finance for the costs of acquisition, construction and subsequent costs.

The Account contains accumulated gains and losses on investment properties and gains recognised on donated assets that have yet to be consumed by the authority.

The Account also contains revaluation gains accumulated on property, plant and equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.

Note 10 provides details of the source of all the transactions posted to the account, apart from those involving the Revaluation Reserve.

	2020/21 £000	2019/20 £000
Balance at 1 April	513,890	553,330
Reversal of items relating to capital expenditure debited or credited to the Comprehensive Income and Expenditure Statement:		
- Charges for depreciation and impairment of non-current assets	(42,534)	(40,593)
- Revaluation losses on Property, Plant and Equipment	(25,847)	138
- Revaluation loss on Long Term Investment	(8,577)	(23,506)
- Amortisation of intangible assets	(1,437)	(1,362)
- Revenue expenditure funded from capital under statute	(14,424)	(18,561)
- Amounts of non current assets written off on disposal or sale as part of the gain/loss of disposal to the Comprehensive Income and Expenditure Statement	(10,316)	(25,485)
	(103,135)	(109,369)
Adjusting amounts written out of the Revaluation Reserve	10,449	11,977
Net written out amount of the cost of non current assets consumed in the year	(92,686)	(97,392)
Capital financing applied in the year:		
- Use of the Capital Receipts Reserve to finance new capital expenditure	5,869	5,135
- Use of the Major Repairs Reserve to finance new capital expenditure	2,638	3,700
- Capital grants and contributions credited to the Comprehensive Income and Expenditure Statement that have been applied to capital financing	50,966	34,115
- Application of grants to capital financing from the Capital Grants Unapplied Account	5,577	6,641
- Statutory provision for the financing of capital investment charged against the General Fund and HRA balances	8,312	6,990
- Capital expenditure charged against the General Fund and HRA balances	443	4,962
	73,805	61,543
Movements in the market value of Investment Properties debited or credited to the Comprehensive Income and Expenditure Statement	(172)	(3,591)

Notes to the Core Financial Statements

	2020/21 £000	2019/20 £000
Balance at 31 March	494,837	513,890

Financial Instruments Adjustment Account

The Financial Instruments Adjustment Account absorbs the timing difference arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefitting from gains per statutory provisions. The authority uses the account to manage premiums paid on the early redemption of loans. Premiums are debited to the Comprehensive Income and Expenditure Statement when they are incurred, but reversed out of the General Fund Balance to the account in the Movement in Reserves Statement. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax. In the authority's case, this period is the unexpired term that was outstanding on the loans when they were redeemed.

	2020/21 £000	2019/20 £000
Balance at 1 April	(3,998)	(4,317)
Proportion of premiums incurred in previous financial years to be charged against the General Fund Balance in accordance with statutory requirements.	315	315
Amount by which finance costs charged to the Comprehensive Income and Expenditure Statement are different from finance costs chargeable in the year in accordance with statutory requirements	2	4
Balance at 31 March	(3,682)	(3,998)

Deferred Capital Receipts Reserve

The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the authority does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts. When the deferred cash settlement eventually takes place, amounts are transferred to the Capital Receipts Reserve.

	2020/21 £000	2019/20 £000
Balance at 1 April	2,149	661
Transfer of deferred sale proceeds credited as part of the gain/loss on disposal to the Comprehensive Income and Expenditure Statement	0	1,529
Transfer to the Capital Receipts Reserve upon receipt of cash	(1,568)	(41)
Balance at 31 March	581	2,149

Notes to the Core Financial Statements

Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits in accordance with statutory provisions. The authority accounts for post-employment benefits in the Comprehensive Income and Expenditure Statement as the benefits are earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. However, statutory arrangements require benefits earned to be financed as the authority makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the authority has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.

	2020/21 £000	2019/20 £000
Balance at 1 April	(495,700)	(497,935)
Remeasurements of the net defined benefit liability/(asset)	(22,416)	28,057
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income and Expenditure Statement	(40,957)	(49,202)
Employer's pension contributions and direct payments to pensioners payable in the year	21,426	23,380
Balance at 31 March	(537,647)	(495,700)

Collection Fund Adjustment Account

The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers and business rates payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.

	2020/21 £000	2019/20 £000
Balance at 1 April	3,503	3,091
Amount by which council tax and non-domestic rates income credited to the Comprehensive Income and Expenditure Statement is different from council tax and non-domestic rates income calculated for the year in accordance with statutory requirements	(23,730)	412
Balance at 31 March	(20,227)	3,503

Accumulated Absences Account

The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the account.

Notes to the Core Financial Statements

	2020/21 £000	2019/20 £000
Balance at 1 April	(2,328)	(1,887)
Settlement or cancellation of accrual made at the end of the preceding year	2,328	1,887
Amounts accrued at the end of the current year	(3,026)	(2,328)
Amount by which officer remuneration charged to the Comprehensive Income and Expenditure Statement on an accruals basis is different from remuneration chargeable in the year in accordance with statutory requirements	(698)	(441)
Balance at 31 March	(3,026)	(2,328)

Dedicated Schools Grant Adjustment Account

On the 6 November 2020, the secretary of State for Ministry of Housing, Communities and Local Government laid before Parliament a statutory instrument to amend the Local Authorities (Capital Finance and Accounting) Regulations (the 2003 Regulations). The provisions came into effect from 29 November 2020.

The instrument amends the 2003 Regulations by establishing new accounting practices in relation to the treatment of local authorities' schools budget deficits such that where a local authority has a deficit on its schools budget relating to its accounts for a financial year beginning on 1 April 2020, 1 April 2021 or 1 April 2022, it must not charge the amount of that deficit to a revenue account. The local authority must record any such deficit in a separate account established solely for the purpose of recording deficits relating to its school's budget. The new accounting practice has the effect of separating schools budget deficits from the local authorities' general fund for a period of three financial years.

	2020/21 £000	2019/20 £000
Balance at 1 April	0	0
Dedicated Schools Grant Adjustment Account Transfer of Opening Balance	(2,247)	0
Restated Opening Balance	(2,247)	0
In year Dedicated Schools Grant over/(under)spend	1,588	0
Balance at 31 March	(659)	0

30. CASH FLOW STATEMENT – OPERATING ACTIVITIES

The cash flows for operating activities include the following items:

	2020/21 £000	2019/20 £000
Interest received	(1,641)	(2,249)
Interest paid	26,299	25,940
Dividends received	0	0

Notes to the Core Financial Statements

The surplus or deficit on the provision of services has been adjusted for the following non-cash movements.

	2020/21 £000	2019/20 £000
Depreciation	42,534	40,593
Impairment and downward valuations	25,847	(138)
Amortisation	1,437	1,362
Impairment losses on Loans & advances debited to surplus or deficit on the provision of services in year	443	0
Impairment losses on Investments debited to surplus or deficit on the provision of services in year	8,577	23,506
Increase/Decrease in Interest Creditors	(120)	(24)
Increase/Decrease in Creditors	30,820	34,353
Increase/Decrease in Interest and Dividend Debtors	191	121
Increase/Decrease in Debtors	(10,508)	(10,886)
Increase/Decrease in Inventories	(125)	130
Pension Liability	13,767	33,136
Contributions to/(from) Provisions	(2,071)	2,244
Carrying amount of non-current assets sold	9,088	24,819
Movement in Investment Property Values	172	3,591
	120,052	152,807

The Surplus or Deficit on the Provision of Services has been adjusted for the following items that are investing and financing activities:

	2020/21 £000	2019/20 £000
Carrying amount of short and long term investment sold	5,801	523
Capital Grants credited to surplus or deficit on the provision of services	(59,644)	(48,343)
Proceeds from the sale of property plant and equipment, investment property and intangible assets	(4,908)	(7,293)
Non cash adjustments	(70,353)	(55,113)

31. CASH FLOW STATEMENT – INVESTING ACTIVITIES

	2020/21 £000	2019/20 £000
Purchase of property, plant and equipment, investment property and intangible assets	53,124	48,698
Purchase of short term and long term investments	3,482	2,856
Other payments for investing activities	3,884	1,542
Proceeds from the sale of property, plant and equipment, investment property and intangible assets	(1,525)	(50)
Other receipts from investing activities*	(68,038)	(58,436)
Net cash flows from investing activities	(90,73)	(5,390)

* This includes capital grants received in year.

Notes to the Core Financial Statements

32. CASH FLOW STATEMENT – FINANCING ACTIVITIES

	2020/21 £000	2019/20 £000
Cash receipts of short and long-term borrowing	0	0
Cash payments for the reduction of the outstanding liabilities relating to finance leases and on balance sheet PFI contracts	3,288	1,334
Repayments of short and long term borrowing	4,012	8,852
Other payments for financing activities*	22,934	(1,466)
Net cash flows from financing activities	30,234	8,720

* Represents change in value of NNDR debtor/creditor

33. RECONCILIATION OF LIABILITIES ARISING FROM FINANCING ACTIVITIES

	2020/21 1 April £000	Financing cash flows £000	Non-cash changes Acquisition £000	Other non- cash changes £000	2020/21 31 March £000

Total liabilities from financing activities	430,847	(10,195)	0	200	420,852

34. TRADING OPERATIONS

The Council has a number of trading units where the service manager is required to operate in a commercial environment and balance their budget by generating income from other parts of the Council or other organisations. Details of these units with a turnover of greater than £5m in 2020/21 are as follows:

	2020/21 £000	2019/20 £000
Shire Services operates as a trading organisation within the Council, delivering catering and cleaning services. Shire Services	Turnover (12,990)	(16,171)

Notes to the Core Financial Statements

provides catering services to schools in Shropshire, Worcestershire, Herefordshire, Telford and North Wales, as well as to a range of non-school sites in Shropshire. Cleaning services are provided to schools and other Council premises in Shropshire, including the Area Headquarters.	Expenditure	14,373	17,018	
	(Surplus)/ Deficit		1,383	847
The consolidated results of the other Council's trading units are:	Turnover	(41,374)	(38,284)	
	Expenditure	47,852	38,554	
	(Surplus)/ Deficit		6,478	270
Net Surplus on Trading Activities			7,862	1,117

35. MEMBERS' ALLOWANCES

The Council paid the following amounts to members of the Council during the year.

	2020/21 £000	2019/20 £000
Basic Allowances	849	848
Special Responsibility Allowances	271	278
Expenses	4	43
Total	1,124	1,169

36. OFFICERS' REMUNERATION

The remuneration paid to the Council's senior employees is as follows:

Post Holder Information (Post Title & Name)		Salary	Expense Allowances	Total excl. pension contributions	Employers Pension contributions	Total incl. pension contributions
Chief Executive – Clive Wright (left post on 15 th April 2020) [^]	2020/21	£6,375	£0	£6,375	£1,109	£7,484

	2019/20	£112,200	£0	£112,200	£16,606	£128,806
Director of Workforce & Transformation (left post on 31 st October 2020) [*]	2020/21	£72,557	£0	£72,557	£11,701	£84,258
	2019/20	£112,200	£0	£112,200	£16,606	£128,806

^o An element of the total remuneration paid to the Director of Finance, Governance & Assurance/Interim Executive Director of Resources is recharged to Shropshire County Pension Fund (£16,530), Shropshire & Wrekin Fire Authority (£7,220), the Marches LEP (£12,842), West Mercia Energy (£14,670) and West Mercia Supplies (£2,282) to reflect the various treasurer roles undertaken within those organisations.

[^] The Chief Executive also received a payment of £124,036 during 2020/21 in accordance with the Council's policy

^{*} The Director of Workforce & Transformation also received a payment of £121,687 during 2020/21 in accordance with the Council's policy

The numbers of officers whose remuneration exceeded £50,000 is analysed into bands of £5,000 as follows. The senior officers included in Note 36 above are not included within this analysis. The remuneration disclosed below includes salary costs and expense allowances:

Salaried Remuneration Band £	2020/21 No. of Employees	2019/20 No. of Employees
50,000 – 54,999	75	66
55,000 – 59,999	39	35
60,000 – 64,999	27	16
65,000 – 69,999	18	30
70,000 – 74,999	23	9

Notes to the Core Financial Statements

Salaried Remuneration Band £	2020/21 No. of Employees	2019/20 No. of Employees
75,000 – 79,999	8	2
80,000 – 84,999	2	13
85,000 – 89,999	16	3
90,000 – 94,999	3	1
95,000 – 99,999	1	3
100,000 – 104,999	1	0
105,000 and above	1	1

The numbers of exit packages with total cost per band and total cost of the exit packages, including redundancy payments, pension strain and unpaid leave are set out in the table below. The figures disclosed include exit packages for schools and the Council.

	No. of compulsory redundancies		No. of other departures agreed		Total no of exit packages by cost band		Total cost of exit packages in each band £000	
	2020/21	2019/20	2020/21	2019/20	2020/21	2019/20	2020/21	2019/20
£0 - £40,000	27	40	18	72	45	112	367	1,012
£40,001 - £150,000	2	9	2	12	4	21	407	1,548
£150,001 +	0	0	2	2	2	2	980	384
	29	49	22	86	51	135	1,754	2,944

37. EXTERNAL AUDIT COSTS

The Council has incurred the following costs in relation to the audit of the Statement of Accounts, certification of grant claims and statutory inspections provided by the Council's external auditors:

	2020/21 £000	2019/20 £000
Fees payable to external audit with regard to external audit services carried out by the appointed auditor	167	127
Fees payable to external audit for the certification of grant claims and returns	14	13
Fees payable in respect of other services provided by the external audit during the year	8	8
Total	189	148

38. DEDICATED SCHOOLS GRANT

The Council's expenditure on schools is funded primarily by grant monies provided by the Department for Education (DfE), the Dedicated Schools Grant (DSG). DSG is ringfenced and can only be applied to meet expenditure properly included in the Schools' Budget. The Schools' Budget includes elements for a range of educational services provided on a Council-wide basis and for the Individual Schools' Budget (ISB), which is divided into a budget share for each school.

Details of the deployment of DSG for 2020/21 are as follows:

Notes to the Core Financial Statements

	Central Expenditure £000	ISB £000	Total £000
Final DSG for 2020/21 before academy recoupment	44,812	171,271	216,083
Academy and high needs figure recouped for 2020/21	(5,136)	(113,792)	(118,927)
Central provision with schools and de-delegated budgets	3,137	(3,137)	0
Early years maintained settings included in ISB on S251	(966)	966	0
Re-allocation of high needs to ISB	842	(842)	0
Total DSG after academy recoupment for 2020/21	42,690	54,466	97,156
Brought forward from 2019/20	(2,247)	0	(2,247)
Agreed initial budget distribution in 2020/21	40,443	54,466	94,909
In year adjustments	537	0	537
Final budget distribution in 2020/21	40,980	54,466	95,446
Actual central expenditure	(40,094)	0	(40,094)
Actual ISB deployed to schools	0	(55,046)	(55,046)
Early years maintained settings included in ISB on S251	0	(966)	(966)
Final expenditure in 2020/21	(40,094)	(56,012)	(96,105)
Carry forward to 2021/22	886	(1,546)	(659)

The deficit arising on the DSG has been transferred to the Dedicated Schools Grant Adjustment as detailed in Note 29.

39. GRANT INCOME

The Council credited the following grants and contributions to the Comprehensive Income and Expenditure Statement in 2020/21:

	2020/21 £000	2019/20 £000
Credited to Taxation and Non Specific Grant Income		
Revenue Support Grant	(6,219)	(6,119)
Local Services Support Grant	(266)	(243)
New Homes Bonus	(8,367)	(7,754)
Business Rates Relief Grant	(30,694)	(8,090)
Rural Service Support Grant	(6,614)	(6,614)
Brexit Grant	0	(210)
Covid-19 LA Support Grant	(13,438)	(8,972)
Other Grants	(961)	0
Capital Grants & contributions	(48,767)	(37,925)
Total	(115,325)	(75,927)

Notes to the Core Financial Statements

	2020/21 £000	2019/20 £000
Credited to Services

Total		31,188		28,426

41. PENSION SCHEMES ACCOUNTED FOR AS DEFINED CONTRIBUTION SCHEMES

Teachers employed by the Council are members of the Teachers' Pension Scheme, administered by Capita Teachers' Pensions on behalf of the Department for Education. The scheme is technically a defined benefits scheme. However the Scheme is unfunded and the Department of Education uses a notional fund as the basis for calculating the employers' contribution rate paid by local authorities. The scheme has in excess of 3,700 participating employers and consequently the Council is not able to identify its share of the underlying financial position and performance of the Scheme with sufficient reliability for accounting purposes. For the purposes of this Statement of Accounts, it is therefore accounted for on the same basis as a defined contribution scheme.

In 2020/21, the Council paid £6.605m to Teachers' Pensions in respect of teachers' retirement benefits. The contribution rate for April 2020 to March 2021 was 23.68%. The amount paid for 2019/20 were £6.435m and the contribution rate for April 2019 to August 2019 was 16.48% and

Notes to the Core Financial Statements

23.68% for September 2019 to March 2020. There were no contributions remaining payable at the year end.

Public Health employees previously employed by the NHS are covered by the provisions of the NHS Pensions Scheme. The scheme is an unfunded, defined benefit scheme that covers NHS employers, GP practices and other bodies, allowed under the direction of the Secretary of State, in England and Wales. The scheme is not designed to be run in a way that would enable NHS bodies to identify their share of the underlying scheme assets and liabilities. Therefore, the scheme is accounted for as if it were a defined contribution scheme.

In 2020/21, the Council paid £0.026m to the NHS Pensions Scheme in respect of public health employee retirement benefits, representing 14.4% of pensionable pay. The figures for 2019/20 were £0.046m and 14.4%.

42. DEFINED BENEFIT PENSION SCHEMES

As part of the terms and conditions of employment of its officers, the Council makes contributions towards the cost of post employment benefits. Although these benefits will not actually be payable until employees retire, the Council has a commitment to make the payments and to disclose them at the time that employees earn their future entitlement.

The Local Government Pension Scheme, administered by Shropshire Council is a funded defined benefit scheme. This means that the Council and employees pay contributions into a fund, which is invested in accordance with the Local Government Pension Scheme Regulations.

We recognise the cost of retirement benefits in the reported Cost of Services when they are earned by employees, rather than when the benefits are eventually paid as pensions. However, the charge we are required to make against council tax is based on the cash payable in the year, so the real cost of retirement benefits is reversed out of the General Fund via the Movement in Reserves Statement. The following transactions have been made in the Comprehensive Income and Expenditure Statement and the General Fund/HRA Balance via the Movement in Reserves Statement during the year.

	Local Government Pension Scheme	
	2020/21	2019/20
	£000	£000
Comprehensive Income and Expenditure Statement		
Cost of Services:		
- current service cost	(29,197)	(30,763)

Property Debt	27,402	12,688

Notes to the Core Financial Statements

	2020/21 £000	2019/20 £000
Insurance Linked Securities	15,659	13,533
Sub-total alternatives	258,307	186,931
Total assets	999,151	845,840

Basis for Estimating Assets and Liabilities

Liabilities have been assessed on an actuarial basis using the projected unit credit method, an estimate of the pensions that will be payable in future years is dependent on assumptions about mortality rate, salary levels and other variables.

The Council element of the Fund liabilities has been assessed by Mercer Limited, an independent firm of actuaries. Estimates for the Council element of the Fund are based on the latest full valuation of the scheme as at 31 March 2020.

The significant assumptions used by the actuary have been:

	Local Government Pension Scheme	
	2020/21	2019/20
Mortality assumptions:		
Longevity at 65 for current pensioners:		
Men	23.0yrs	22.9yrs
Women	25.1yrs	25.0yrs
Longevity at 65 for future pensioners:		
Men	24.3yrs	24.2yrs
Women	26.7yrs	26.6yrs
Rate of inflation	2.70%	2.10%
Rate of increase in salaries	3.95%	3.35%
Rate of increase in pensions	2.80%	2.20%
Rate for discounting scheme liabilities	2.10%	2.40%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, i.e. on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Notes to the Core Financial Statements

	Impact on the Defined Benefit Obligation in the Scheme	
	Increase in Assumption £000	Decrease in Assumption £000
Longevity (increase or decrease in 1 year)	1,583,779	1,489,817
Rate of inflation (increase or decrease by 0.1%)	1,560,344	1,513,252
Rate of increase in salaries (increase or decrease by 0.1%)	1,538,885	1,534,711
Rate for discounting scheme liabilities (increase or decrease by 0.1%)	1,513,606	1,559,990

Techniques Employed to Manage Risk

The Shropshire County Pension Fund does not hold an Asset & Liability Matching Strategy however does use other techniques to manage risks within the Fund. The Fund's primary long term risk is that the Fund's assets will fall short of its liabilities (i.e. promised benefits to pay members). Therefore the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk (price, currency and interest rate risk) and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure there is sufficient liquidity to meet the Fund's forecast cash flows. Further details of the market, credit and liquidity risk management are detailed in Note 16 of the Shropshire County Pension Fund Annual Report.

Impact on the Council's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 19 years. Funding levels are monitored on an annual basis. A triennial valuation was completed as at 31 March 2019 with the next one due to be completed as at 31 March 2022. Revised contribution rates from the 2019 actuarial valuation took effect on 1st April 2020.

The Government announced in 2019 that the "McCloud judgment" needs to be remedied for all schemes including the LGPS. The "McCloud judgment" refers to a legal challenge in relation to historic benefit changes for all public sector schemes being age discriminatory. As part of the 2019 actuarial valuation, the actuary estimated that the cost of the judgment could be an increase in past service liabilities of broadly £12m (at a Fund level) and an increase in Primary Contribution rate of 0.8% of Pensionable pay per annum. Shropshire Council chose to pay this additional 0.8% and it is included within the revised contribution rates.

The Council anticipated to pay £21.002m expected contributions to the scheme in 2021/22.

The weighted average duration of the defined benefit obligation for scheme members is 15 years for 2020/21 (15 years 2019/20).

Early Payment of 3 years LGPS deficit lump sum in April 2020

Notes to the Core Financial Statements

Every three years the pension scheme undertakes a valuation process which establishes each employer's deficit in respect of previous years and the period over which this is to be repaid. As the full amount is due now each employer (e.g. Shropshire Council) pays the Pension Fund a rate of "interest" for allowing payment over a longer period to compensate the Fund for investment opportunities which it has foregone. At the time of calculating the deficit lump sum amounts (as part of the 2019 valuation) the Council had a total deficit repayment value of £52m, with an agreed 19 year deficit recovery period. Paying in advance of this schedule enables a gross saving to be taken due to the avoidance of these "interest" payments. This saving has been used to assist with the Council's corporate savings targets within the budget. As a result of the early payment there is a difference between the value of the Pensions Reserve and the Pensions Liability held on the Balance Sheet as per the below table.

	31 st March 2021 £000
Balance on Pensions Reserve	(537,647)
2021/22 Lump Sum Deficit Repayment	2,887
2022/23 Lump Sum Deficit Repayment	2,877
Balance on Pensions Liability	(531,883)

43. RELATED PARTIES

The Council is required to disclose material transactions with related parties – bodies or individuals that have the potential to control or influence the council or to be controlled or influenced by the council. Disclosure of these transactions allows readers to assess the extent to which the council might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the Council.

Central Government

Central Government has significant influence over the general operations of the Council, being responsible for the statutory framework within which the Council operates, provides the majority of its funding through the payment of grants and prescribes the terms of many of the transactions that the Council has with other parties. Details of transactions with Government departments appear in other parts of the Statement of Accounts.

Members and Officers

Members of the Council have direct control over the Council's financial and operating policies. Certain senior officers may also be in a position to influence policies, particularly those who form the Council's management team. All Council members and senior officers have been contacted, advising them of their obligations and asking for any declarations of related party transactions to be disclosed. Members are also asked to confirm that their entries in their Disclosure of Pecuniary Interests are correct.

Notes to the Core Financial Statements

The Council has made payments to a number of outside organisations on which it is represented by members. The total amount of payments to these bodies in 2020/21 was £21.462m compared with £27.971m for 2019/20.

Councillors are often members of other public or charitable organisations in their own capacity, or are employed by organisations that we process transactions with. These relationships are declared within the Members' register. The Council has made payments of £6.097m to organisations where members and senior officers are employed and £0.788m to organisations where members and senior officers occupy positions in their own capacity.

Entities Controlled or Significantly Influenced by the Council

As administrator for the pension fund, the Council has control of the fund within the overall statutory framework. The Council received £1.476m from the pension fund for the costs of administration it provided in 2020/21 compared with £1.324m for 2019/20.

The Council also has group relationships with West Mercia Energy, West Mercia Supplies Pension, Shropshire Towns & Rural Housing, Cornovii Developments Ltd and IP&E Ltd. Further detail on the type of relationship held with each company is considered in more detail under the Group Accounts section which begins on page 115.

During 2020/21 expenditure of £12.944m and income of £0.790m was incurred between Shropshire Council and Shropshire Towns & Rural Housing Limited. There was a creditor balance of £1.316m and a debtor balance of £0.317m as at 31st March 2021.

There was no income or expenditure incurred between Shropshire Council and IP&E Ltd during 2020/21. There were no creditor or debtor balances as at 31st March 2021.

During 2020/21 income of £0.594m was incurred between Shropshire Council and Cornovii Developments Ltd.

During 2020/21 Shropshire Council paid West Mercia Energy £3.747m and received a distribution of £0.275m.

Shropshire Council have accounted for expenditure of £2.215m and income of £2.744m in relation to the Jersey Property Unit Trusts.

44. SCHOOLS

Transactions of Shropshire Council maintained schools are consolidated in the single entity financial statements.

Expenditure and income relating to these schools is detailed below:

	Expenditure £000	Income £000	Total £000
Primary	56,165	(61,240)	(5,075)
Secondary	2,855	(2,417)	438

Notes to the Core Financial Statements

Special	2,943	(3,531)	(588)
Total	61,963	(67,189)	(5,226)

The number of Shropshire Council maintained schools in 2020/21 was:

	31st March 2021	31st March 2020
Primary	84	85
Secondary	1	1
Special	1	2
Total	86	88

45. MARCHES LOCAL ENTERPRISE PARTNERSHIP

The Marches Local Enterprise Partnership was launched in 2010 to create conditions for economic vitality and sustainable employment across the regions represented by the 3 Councils.

The Marches Local Enterprise Partnership Limited was incorporated on 12th February 2019 however the grant funding is still received by Shropshire Council as the accountable body for the Marches LEP. All funding and transactions in relation to this funding are processed through Shropshire Council's accounts. Shropshire Council's role within these transactions is deemed to be an agent, acting as an intermediary, therefore Shropshire Council accounts do not include the total income and expenditure for the Marches LEP. Instead, each Council within the Marches LEP will include any funding received from the Marches LEP and expenditure incurred in relation to LEP projects within their accounts. Accordingly any cash balances held by Shropshire Council in relation to the LEP is represented by a creditor within the Council's accounts.

Detailed below are the total funding received and expenditure paid out (cash) by Shropshire Council by 31st March in relation to the Marches LEP including the net creditor within Shropshire Council's balance sheet.

	2020/21		2019/20	
	£000	£000	£000	£000

		30,360		7,304
Marches LEP Creditor		(29,828)		(38,417)

46. BETTER CARE FUND

Shropshire Council and Shropshire Clinical Commissioning Group are partners in the provision of a range of services including hospital admission avoidance, hospital discharge planning, carers' support and reablement. Joint arrangements of this type are permitted under section 75 of the National Health Service Act 2006, which enables health and social care authorities to work together for a common objective, creating a pooled fund, with the aims as below. In Shropshire, the Council acts as the host authority for the pooled fund.

The aims of, and benefits to, the partners in entering into this agreement are to:

- ◆ improve the quality and efficiency of the services;
- ◆ meet the national conditions and local objectives as set out in the Better Care Fund plan;
- ◆ make more effective use of resources through the establishment and maintenance of an aligned fund for expenditure on the services

Financing	2020/21	2019/20
	£000	£000
Pooled Fund		
Funding provided to the Better Care Fund:		
Shropshire Council	0	0
Shropshire CCG	12,960	7,779
	12,960	7,779

	31,207	33,195
Expenditure met from the Better Care Fund:		
Shropshire Council	14,747	18,438
Shropshire CCG	14,220	13,839
	28,967	32,277
Total Better Care Fund		
Total funding provided to the Better Care Fund:	44,167	40,974
Total expenditure met from the Better Care Fund:	41,927	40,056
Net Underspend Arising on the Better Care Fund During the Year	2,240	918

The Pooled Fund has increased significantly during 2020/21, following a variation to the section 75 agreement as a result of the Covid-19 pandemic. The Government mandated that the NHS would fully fund new or additional 'out of hospital' health and social care support packages during the pandemic. The Council has put in place the resulting support packages and the costs have been met by the Clinical Commissioning Group.

The underspend that has arisen during 2020/21 relates to Disabled Facilities Grants. The remaining balance will be carried forward into 2021/22.

47. TRUST ACCOUNTS

Funds held in Trust Accounts are not available for the Council's use. The Council supports the work of a number of trusts including:

Trust	Purpose	Income £	Expenditure £	Assets £	Liabilities £
Shropshire Youth Foundation	Supports the development of under 25 year old residents in Shropshire through their leisure time activities.	(9,024)	(27,251)	276,162	(4,050)
Shropshire Schools Jubilee Trust	General fund to support the learning needs of children and young people either living or studying in Shropshire.	(4,715)	(16,766)	158,621	-
Rosalie Inskip Music Trust	Supports excellence in music for young people living in Shropshire.	(8,700)	(40,897)	351,619	-
Priory Educational Trust	Charitable trust to support ex-pupils of Priory Boys School.	(1,311)	(7,396)	59,375	-

Notes to the Core Financial Statements

Trust	Purpose	Income £	Expenditure £	Assets £	Liabilities £
Lyneal Trust	A charity that offers canal and canal side holidays for people with disabilities, their family and friends.	(59,800)	46,969	633,536	(12,058)
Sight Loss Shropshire	A charity that helps and supports blind and visually impaired people in Shropshire and Telford & Wrekin	(24,173)	(56,539)	606,639	-

Accounts are prepared and published for these organisations by Shropshire Council in our role of administering the trusts.

Trusts deliver great benefit into the local community and make a valuable contribution but the Council itself does not derive benefit from them.

48. CONTINGENT LIABILITIES

At 31 March 2021 Council had the identified the following contingent liabilities:

There are a number of legal cases outstanding that may result in future costs for the Council. These include:

- Employment tribunal appeal
- Planning Inquiries
- Potential planning enforcement cases where there is the possibility that we will need to do the works and try to recover the costs.
- Planning litigation

The Council's usual practice when outsourcing a service that requires continued pension provision for employees is to require the contractor to put a Bond in place to reduce the Council's risk regarding picking up outstanding pension liabilities on termination of the admission agreement. The Council has provided additional guarantees, above those covered automatically by the Local Government Pension Scheme Regulations, to a number of Bodies that have been admitted to the Shropshire County Pension Fund. The bodies with additional guarantees who currently have employees who are active members of the scheme are listed below. The Bodies listed as being grouped with Shropshire Council means all Pension assets and liabilities stay with the Council and they contribute the consolidated Council Employer pension contribution rate unless stated otherwise.

Bodies that have additional pension liability guarantee

Employer	Active Members	Deferred Members	Pensioners Members	Dependant Members	Surplus/(Deficit) as at 31/03/2020 Valuation
Age UK Telford & Wrekin	4	11	23	0	(£0.132m)
Association of Local Councils	2	0	1	0	(£0.037m)

Notes to the Core Financial Statements

Employer	Active Members	Deferred Members	Pensioners Members	Dependant Members	Surplus/(Deficit) as at 31/03/2020 Valuation
Coverage Care from 1/3/1997	7	29	126	11	£1.111m
Coverage Care from 13/1/2013	13	21	11	2	£0.448m
Livability	1	0	0	0	£0.000m
Perthyn	5	11	5	0	£0.007m
Shropshire Towns & Rural Housing	127	47	15	1	(£0.007m)
Connexus Housing One Ltd	3	2	16	1	£0.727m

Bodies that have additional pension liability guarantee and are Grouped with the Council

Employer	Active Members	Deferred Members	Pensioners Members	Dependant Members
Bethphage from 8/12/2016	15	2	0	0
Bethphage from 1/7/2017	9	1	1	0
Energize Shropshire Telford & Wrekin	1	0	0	0
Enterprise South West Shropshire	1	1	0	0
South Shropshire Leisure Ltd *	14	27	3	0
The Strettons Mayfair Trust	2	0	0	0

* South Shropshire Leisure Ltd Employer contribution rate is capped by the Council to 5%.

The Council has entered into six “Funding and Development Agreements” with a Development Trust for construction of supported living properties. Under these agreements the Development Trust has provided the Council with funding totalling £2.696m for the construction of a supported living property at each site. The contributions will be repayable if the properties cease to be used as supported living properties or the Council fails to conform to the stipulated conditions of the contract within a period of 30 years from when the properties are first occupied.

49. CONTINGENT ASSETS

The Council currently has a number of appeals lodged with HMRC with regard to VAT treatment, which may result in a reimbursement to the Council of VAT paid over to the Government. The specific cases include claims for postal services and waste sent for landfill.

These claims for reimbursement are subject to legal cases being pursued nationally and if successful will provide legal precedent to be applied. Therefore the values involved with each claim cannot be reliably estimated. Timescales on these cases are uncertain but should be progressed in the next 12-24 months.

Section 6

Group Accounts

Introduction

This document presents the statutory financial statements for the Shropshire Council Group for the period from 1 April 2020 to 31 March 2021. The financial statements have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2019/20 (The Code) published by the Chartered Institute of Public Finance and Accountancy (CIPFA). The aim of the Group Accounts is to provide the reader with an overall view of the material economic activities of the Council.

In common with many other local authorities, the Council uses different forms of service delivery, where this is appropriate. In some cases it has created separate companies with its partners to deliver those services. The use of separate companies mean that the Council's single entity financial statements on their own do not fully reflect the assets and liabilities or income and expenditure associated with all of its activities. The Group Accounts more fully reflect the overall financial picture. A review of all of the Council's relationships with other bodies has been carried out to consider whether it is appropriate to prepare full group accounts. The transactions involved are not considered material to the Council's accounts however the Council has decided to provide a full disclosure in terms of bodies that it has a relationship with.

The pages which follow contain the Group's Financial Statements for the year ended 31 March 2021, with comparative figures for the previous financial year.

IP&E LIMITED

ip&e Ltd is a trading company wholly owned by Shropshire Council. It was established to provide public services on the council's behalf and also to trade with other organisations. The company was incorporated on 30 May 2012. On 17 February 2016, Cabinet agreed to bring the Council's relationship with ip&e Ltd to an end and terminate the strategic contract between the two parties. It was also agreed to terminate the service contracts between the Council and ip&e Ltd with effect from 31 March 2016. In its role as sole shareholder, the Cabinet agreed that ip&e Ltd should cease trading as soon as possible and take necessary actions to remove the company from the companies register. In 2019/20 the final financial transactions were undertaken enabling the company to be dissolved and removed from the companies register in 2020/21.

SHROPSHIRE TOWNS & RURAL HOUSING LIMITED

Shropshire Towns and Rural Housing Limited (the Company) is a private company limited by guarantee wholly owned by Shropshire Council (the Council). The Company was formed as an Arm's Length Management Organisation under Section 27 of the Housing Act 1985 to undertake the management and maintenance of Shropshire Council's retained housing stock from 1st April 2013.

For 2020/21 Shropshire Towns and Rural Housing Limited had total income of £12.771m, total expenditure of £12.335m, assets of £7.933m and liabilities of £11.279m.

WEST MERCIA ENERGY

West Mercia Energy (WME) is a Purchasing Consortium that was established as a Joint Committee under s101 of the Local Government Act 1972. Shropshire Council is one of four constituent

Group Accounts

Authorities, the other three Councils are Worcestershire County Council, Herefordshire Council and the Telford & Wrekin Council.

Shropshire Council has reviewed in detail the accounting treatment that should be applied to WME within this Council. The Council considers that WME should be accounted for as a Joint Venture (under IFRS11 – Joint Arrangements and IAS 28 – Investments in Associates and Joint Ventures) with specific regard to the independence that West Mercia Energy has to pursue its own commercial strategy in buying and selling and has access to the market in its own right for its main inputs and outputs.

For 2020/21 West Mercia Energy had total income of £61.313m, total expenditure of £54.817m, assets of £12.241m and liabilities of £11.088m.

WEST MERCIA SUPPLIES (PENSIONS)

West Mercia Supplies (Pensions) Joint Committee pursuant to section 101(5) of the Local Government Act 1972, was set up from 1st April 2020 by the Executives of the four Member Authorities, Herefordshire Council, Shropshire Council, Telford & Wrekin Council and Worcestershire County Council. The Executives of the four Member Authorities of West Mercia Energy (WME) agreed to remove the responsibility for the discharge of their functions in relation to the pension deficit liability in relation to former West Mercia Supplies (WMS) employees (including added years Benefits) from the business of the WME Joint Committee with effect from 1 April 2020. This is to enable any pension deficit to be separately identified, separately valued and monitored.

WMS Pensions has been accounted for as a Joint Venture (under IFRS11 – Joint Arrangements and IAS 28 – Investments in Associates and Joint Ventures).

For 2020/21 West Mercia Supplies (Pensions) had total income of £0.217m, total expenditure of £7.102, assets of £0.109m and liabilities of £7.535m.

JERSEY PROPERTY UNIT TRUST

On 24th January 2018 Shropshire Council purchased units in a Jersey Property Unit Trust. The Trust is responsible for appointing managing agents for the Shrewsbury Shopping Centres and any other day to day decisions affecting the trust.

For 2020/21 the Jersey Property Unit Trust had total income of £2.744m, total operating expenditure of £2.216m, assets of £0.516m and liabilities of £0.002m.

SSC No.1 LIMITED

SSC No.1 Limited is a limited company wholly owned by Shropshire Council. The Company's principal activity is to hold an investment in a Jersey Property Unit Trust.

For 2020/21 the amounts incorporated into the group accounts for SSC No. Limited are income of £0.004m, total expenditure of £0.006m, assets of £0.020m and liabilities of £0.018m.

CORNOVII DEVELOPMENTS LIMITED

Cornovii Developments Limited is a limited company wholly owned by Shropshire Council. The Company's principal activity and reason for it being established is to address unmet housing need in the county of Shropshire.

For 2020/21 the amounts incorporated into the group accounts for Cornovii Developments Limited are total expenditure of £0.438m, assets of £4.080m and liabilities of £4.762m.

Notes to Group Accounts

G1. Accounting Policies

G1.1 General

The single entity accounting policies detailed on pages 27-48 have been adopted and applied for group account purposes.

G1.2 Reason for Consolidation

The organisations included within Group Accounts have been assessed to establish whether Shropshire Council controls the entity, has significant influence over the entity or has joint control of the arrangement. If the organisation does not meet one of these criteria then it is not included within the Group Accounts.

ip&e Ltd, Shropshire Towns and Rural Housing Limited, Cornovii Developments Limited and SSC No.1 Limited are all wholly owned by Shropshire Council. Shropshire Council controls each of the organisations therefore they have been consolidated into the Group Accounts as subsidiaries.

Shropshire Council has reviewed in detail the accounting treatment that should be applied to WME and WMS (Pensions) within this Council. Shropshire Council is one of four constituent Authorities, the other three Councils are Worcestershire County Council, Herefordshire Council and Telford & Wrekin Council. The Council has joint control over the arrangement and has rights to share the net assets. The Council considers that WME should be accounted for as a Joint Venture (under IFRS11 – Joint Arrangements and IAS 28 – Investments in Associates and Joint Ventures) with specific regard to the independence that West Mercia Energy has to pursue its own commercial strategy in buying and selling and has access to the market in its own right for its main inputs and outputs.

The Council has control over the Jersey Property Unit Trusts as it is exposed to risk and variable returns and has the ability to affect those returns through approval of key strategic decisions. The Jersey Property Unit Trusts have therefore been included within Group Accounts as a subsidiary.

G1.3 Basis for Consolidation

ip&e Ltd has been included within the accounts as a subsidiary under the requirements of IFRS 10 (Consolidated Financial Statements) and IAS 27 (Separate Financial Statements) by means of a line-by-line consolidation of the Comprehensive Income and Expenditure Statement and the Balance Sheet.

Shropshire Towns and Rural Housing Limited has been included within the accounts as a subsidiary under the requirements of IFRS 10 (Consolidated Financial Statements) and IAS 27 (Separate Financial Statements) by means of a line-by-line consolidation of the Comprehensive Income and Expenditure Statement and the Balance Sheet.

WME has been accounted for as a Joint Venture (under IFRS11 – Joint Arrangements and IAS 28 – Investments in Associates and Joint Ventures). Shropshire Council’s share of West Mercia Energy’ balances is 24.7%. The company has been incorporated into the Group Accounts using the Equity method. Figures have been consolidated based on draft statement of accounts for 31st March 2021.

WMS Pensions has been accounted for as a Joint Venture (under IFRS11 – Joint Arrangements and IAS 28 – Investments in Associates and Joint Ventures). Shropshire Council’s share of West Mercia Energy’ balances is 25%. The company has been incorporated into the Group Accounts using the Equity method. Figures have been consolidated based on draft statement of accounts for 31st March 2021.

The Jersey Property Unit Trust has been included within the accounts as a subsidiary under the requirements of IFRS 10 (Consolidated Financial Statements) and IAS 27 (Separate Financial Statements) by means of a line-by-line consolidation of the Comprehensive Income and Expenditure Statement and the Balance Sheet. The accounts have been consolidated as a Business Combination under IFRS 3.

SSC No.1 Limited has been included within the accounts as a subsidiary under the requirements of IFRS 10 (Consolidated Financial Statements) and IAS 27 (Separate Financial Statements) by means of a line-by-line consolidation of the Comprehensive Income and Expenditure Statement and the Balance Sheet. The accounts have been consolidated as a Business Combination under IFRS 3 with the accounts for the Jersey Property Unit Trust.

Cornovii Developments Limited has been included within the accounts as a subsidiary under the requirements of IFRS 10 (Consolidated Financial Statements) and IAS 27 (Separate Financial Statements) by means of a line-by-line consolidation of the Comprehensive Income and Expenditure Statement and the Balance Sheet.

G1.4 Non-Current Assets – Property, Plant and Equipment

Property, plant and equipment are assets that have physical substance and are held for use in the production or supply of goods or services, for rental to others, or for administrative purposes and that are expected to be used during more than one financial year.

Recognition

The cost of an item of property, plant and equipment shall only be recognised (and hence capitalised) as an asset on the balance sheet if, and only if:

- It is probable that the future economic benefits or service potential associated with the item will flow to the entity, and
- The cost of the item can be measured reliably.

Costs that meet the recognition principle include initial costs of acquisition, production or construction of assets for use by, or disposal to, a person other than the local authority; and costs incurred subsequently to enhance, replace part of, or service the asset. Subsequent costs arising from day-to-day servicing of an asset (i.e. labour costs and consumables), commonly referred to as ‘repairs and maintenance’, should not be capitalised if they do not meet the

Group Accounts

recognition principle because the expenditure does not add to the future economic benefits or service potential of the asset and are charged to revenue.

The Shopping Centre has been consolidated into property, plant and equipment in the Balance Sheet based on the market value.

Measurement after recognition

Property, plant and equipment assets are subsequently valued at current value on the basis recommended by the Code of Practice on Local Authority Accounting and in accordance with The Royal Institution of Chartered Surveyors (RICS) Valuation Standards. Property, plant and equipment assets are classified into the groupings required by the Code of Practice on Local Authority Accounting and valued on the following bases:

Category	Valuation Method (Fair Value definition)
<u>Operational</u>	
Land & Buildings	Existing Use Value (EUV) – determined as the amount that would be paid for the asset in its existing use

Where the carrying amount of property, plant and equipment is increased as a result of a revaluation, the increase shall be recognised in the Revaluation Reserve, unless the increase is reversing a previous impairment loss charged to Surplus or Deficit on the Provision of Services on the same asset or reversing a previous revaluation decrease charged to Surplus or Deficit on the Provision of Services on the same asset.

Where the carrying amount of an item of property, plant and equipment is decreased as a result of a revaluation the decrease shall be recognised in the Revaluation Reserve up to the credit balance existing in respect of the asset (i.e. up to its historical cost) and thereafter in Surplus or Deficit on the Provision of Services.

G2. Consolidation of West Mercia Energy

Figures in respect of West Mercia Energy have been consolidated using the equity method. The amounts included in the Group Comprehensive Income and Expenditure Statement are:

	WME	SC Share (24.7%)
	£000	£000
Turnover	(61,313)	(15,170)
Cost of Goods Sold and Operating Expenses	53,737	13,295
Interest and Investment Income	(31)	(8)
Net Operating Surplus	(7,607)	(1,882)
Distribution of Surplus to Member Authorities	1,111	275
Net Surplus for the year	(6,496)	(1,607)

G4. Consolidation of West Mercia Supplies (Pensions)

Figures in respect of West Mercia Supplies (Pension) have been consolidated using the equity method. The amounts included in the Group Comprehensive Income and Expenditure Statement are:

	WMS(P) £000	SC Share (25%) £000
Turnover	(217)	(54)
Cost of Goods Sold and Operating Expenses	6,938	1,734
Interest and Investment Income	164	41
Net deficit for the year	6,885	1,721

G4. Consolidation of Shropshire Towns & Rural Housing Limited

The operating income (£12.771m) and expenditure (£12.188m) of Shropshire Towns & Rural Housing Limited, giving a net income of £0.583m has been included within Local Authority Housing (HRA) in the Net Cost of Services. The inter-company transactions with Shropshire Council have been excluded from Local Authority Housing (HRA) (Income/Expenditure £12.154m).

G5. Consolidation of ip&e Ltd

There was no operating expenditure or income for ip&e Ltd in 2020/21.

G6. Consolidation of Jersey Property Unit Trust

The operating income (£2.744m) and expenditure (£2.216m) of the Jersey Property Unit Trust, giving a net income of £0.528m has been included within Place in the Net Cost of Services. The revaluation loss has been charged to expenditure within Place in Net Cost of Services.

G7. Consolidation of SSC No.1 Ltd

The operating income (£0.004m) and expenditure (£0.006m) of SSC No1. Ltd, giving a net expenditure of £0.002m has been included within Place in the Net Cost of Services. 100% of the income and expenditure of the Jersey Property Unit Trust has been consolidated into the Income and Expenditure account as detailed above therefore this has been excluded when consolidating SSC No1. Ltd.

G8. Consolidation of Cornovii Developments Ltd

The operating expenditure (£0.341m) of Cornovii Developments Ltd has been included within Place in the Net Cost of Services.

G11. Contingent Assets and Liabilities

On the acquisition of the Jersey Property Unit Trusts a rental guarantees Escrow account was set up. This account is distributed to Shropshire Council and SSC No.1 Ltd or the previous owners Standard Life Aberdeen based on the level of occupancy of units within the Shrewsbury Shopping Centres. The funds held within the escrow as at 31st March 2019 were all distributed in 2019/20.

Section 7

Housing Revenue Account

Housing Revenue Account

The Housing Revenue Account Income and Expenditure Statement shows the economic cost in the year of providing housing services in accordance with generally accepted accounting practices, rather than the amount to be funded from rents and government grants. Authorities charge rents to cover expenditure in accordance with regulations; this may be different from the accounting cost. The increase or decrease in the year, on the basis of which rents are raised, is shown in the Movement in the HRA Statement. **Error! Bookmark not defined.**

Housing Revenue Account

As at 31 March 2020 200,025,500 1,025,000 208,558 27,904 201,286,962 263,750 500,481 202,051,193

There is a difference of £305.328m between the tenanted valuation and the District Valuer's Vacant Possession Value of £508.880m at 1 April 2020.

The Vacant Possession Value is an estimate of the total sum that would be received if all of the assets were sold on the open market. The tenanted value declared on the balance sheet is less in recognition of the fact that the properties are occupied by tenants on secure rent less than would be obtainable on the open market.

The difference represents the economic cost of the Government providing council housing at less than market rents.

4. CAPITAL EXPENDITURE FINANCING

Capital expenditure in the year on Council Housing Stock and Infrastructure was financed as follows.

	2020/21 £	2019/20 £
Usable Capital Receipts	1,360,367	390,919
Revenue Contributions utilised in year	430,537	1,668,063
Major Repairs Allowance	2,638,117	3,700,356
Government Supported borrowing	0	0
Government Grants and Contributions	117,998	209,574
Total Capital Expenditure on Housing Stock	4,547,019	5,968,912

5. CAPITAL RECEIPTS

Capital receipts from the disposal of Housing Revenue Account Assets are shown below. 75% of Capital Receipts arising from Right to Buy disposals are subject to National Pooling arrangements payable to CLG.

	2020/21 £	2019/20 £
Sale of Council Houses under Right to Buy (RTB)	1,134,000	2,402,760
RTB Discounts Repaid	0	0
Other Land & Buildings	0	157,965
Total Capital Receipts from HRA Asset Disposals	1,134,000	2,560,725
Less Capital Receipts subject to Pooling requirement	(561,054)	(583,690)
Net Capital Receipts from HRA Asset Disposals	572,946	1,977,035

NOTES TO THE COLLECTION FUND

1. GENERAL

In 2020/21 businesses were awarded expanded retail, nursery and newspaper reliefs as part of the Governments response to the COVID-19 pandemic. This decision was made post the setting of the precepts for 2020/21. The additional reliefs reduce the net amount the Council can collect from businesses and therefore has created a deficit on the Collection Fund. These reliefs are funded by Government via section 31 grants which have been received in 2020/21 and transferred to an earmarked reserve. This reserve will be used to offset the collection fund deficit when it is charged to the Council's General Fund in 2021/22.

As a result of the impact of Covid-19 on the Collection Fund Central Government announced that authorities would be allowed to spread the in year estimated deficit on the 2020/21 Collection Fund over three years, 2021/22 to 2023/24. The phasing of the deficit excludes any amounts funded by section 31 grants or any brought forward surplus or deficit.

2. COUNCIL TAX BASE

The council tax base consists of the number of chargeable dwellings in each valuation band adjusted to reflect discounts and other variations. The total tax base is calculated by converting each band to its band D equivalent and providing for losses and variations during the year of collection. The tax base for 2020/21 was as follows:-

Council Tax Band	Net Dwellings	Ratio	Band D Equivalents
A1	28.87	5/9	16.04
A	17,523.90	6/9	11,682.60
B	29,476.77	7/9	22,926.37
C	26,156.86	8/9	23,250.54
D	18,989.14	9/9	18,989.14
E	15,159.79	11/9	18,528.64
F	8,112.19	13/9	11,717.61
G	4,340.48	15/9	7,234.13
H	278.27	18/9	556.54
			114,901.61
Adjustment for MoD Properties (619.68 Band D Equivalents) and Collection Rate (98.3%)			(1,344.18)
			113,557.43

3. NON-DOMESTIC RATES (BUSINESS RATES)

Shropshire Council is the billing authority for NDR and retains 49% share of the total collected and distributes the remaining balance to Central Government (50%) and Shropshire & Wrekin Fire Authority (1%).

Collection Fund

At 31 March 2021, the total non-domestic rateable value for all business premises in Shropshire was £235,338,571. The multiplier set by Government to calculate rate bills in 2020/21 was 49.9p for small businesses and 51.2p for all other businesses.

Section 9

Pension Fund Accounts

Introduction

The Shropshire Fund increased in value by £363 million in 2020/21 to be valued at £2.194 billion at the end of the year. The Fund increased in value by 20.1% over the year and outperformed against its benchmark by 5.8%. The impact of COVID-19, in the last quarter of the 2019/20 financial year, had a major impact on financial markets across the world but they bounced back strongly during 2020/21 resulting in the significant increase in the Fund value during the year.

The reason fund performance was above benchmark for this year was largely due to the strong rebound in equity markets with both active equity managers producing significant returns. The Infrastructure portfolio continued to be impacted by COVID-19 therefore produced negative below benchmark returns during the year.

The Shropshire Fund had positive investment returns in a number of asset classes. The strongest returns were generated in active global equity significantly increasing in value by 47.9%. The Private Equity portfolio also generated strong returns of 41.7%. The Fund's UK equity manager produced strong returns of 33.1% and the global passive equity portfolio increased in value by 21.1%. Property delivered returns of 3.7% but the Fund's Infrastructure manager produced negative returns of 11.3% due to the impact of COVID-19 on valuations with airports and freight rail particularly impacted.

The Pensions Committee determine the strategic asset allocation for the fund. This outlines the proportion of assets that the fund invests in equities, bonds and alternative assets such as property and infrastructure. This is the most important decision that the Committee makes because it has the biggest impact on the long term returns of the fund. The Committee undertook a series of Investment Strategy training workshops during the year before agreeing a revised strategic asset allocation in March 2021. The revised investment strategy will be implemented over the next 6-12 months.

The Pensions Committee undertakes thorough monitoring of the fund's investment managers and is prepared to make changes in response to investment underperformance or new investment opportunities.

The fund undergoes an independent actuarial valuation every 3 years. The last actuarial valuation was conducted at the end of March 2019, identifying that the fund had a funding level (the relationship between estimated future pension payments and the funds held to pay for these pensions) of 94% which was an increase from 84% at the previous valuation in March 2016. As a local government pension scheme the fund is able to take a long-term view to the recovery of any funding deficit and is able to phase in any changes in the employer contribution rate in a manageable way, the latest results were very positive for the fund where the funding level increased by 10% over the valuation period. The next valuation will be undertaken on 31 March 2022, with results communicated in November 2022 and agreed with employers for the next three financial years commencing from 2022/23.

The fund is a Tier 1 signatory to the Stewardship Code, the highest rating given by the Financial Reporting Council, which is very positive news. This confirms how seriously the fund continues to take Responsible Investment and Environmental, Social and Governance issues. In 2020 the Fund commissioned its pooling company, LGPS Central Limited, to undertake an in-depth review of the Fund's exposure to financially material climate-related risks and opportunities. The

Pension Fund Accounts

Climate Risk Report included both climate scenario analysis and carbon risk metrics. The Fund also published its first Task Force on Climate-related Financial Disclosures (TCFD) aligned report in November 2020. The Fund was one of the first LGPS funds in the UK to publish its public TCFD report, this included a number of recommendations which the Fund will be continuing to implement over the next 6-12 months. Further details relating to this and the significant progress which has been made during the year with regards climate risk monitoring, responsible investment, climate risk training and the Fund's carbon footprint are included within the Corporate Governance section of the annual report.

The Shropshire Fund continued to work with eight other funds in the Midlands region during the year. LGPS Central Ltd has been established to manage investment assets on behalf of its eight Local Government Pension Scheme (LGPS) funds across the Midlands region. It is a multi-asset manager, investing up to potentially £48.9 billion of assets (£23 billion invested as at March 2021), on behalf of 900,000 LGPS members and 2,500 employers.

LGPS Central Ltd is jointly owned on an equal share basis by eight pension funds and is a Collective Portfolio Management Investment Firm (CPMI) regulated by the Financial Conduct Authority (FCA). The participating pension funds are Cheshire, Derbyshire, Leicestershire, Nottinghamshire, Shropshire, Staffordshire, West Midlands and Worcestershire. West Midlands Integrated Transport Authority (ITA) Pension fund will also be an investor, but not a shareholder, with its shareholder rights represented by West Midlands.

The key objectives of LGPS Central will be to deliver cost savings and improve risk adjusted investment returns after cost, enable access to a wider range of asset classes for the participating pension funds, and to ensure good governance. LGPS Central manage a wide range of asset classes, employing a mix of internal and external investment management. The majority of assets under management are structured in an Authorised Contractual Scheme (ACS), itself regulated by the FCA, in addition to other pooled investments held in alternative structures. The company has been formed to act as an Alternative Investment Fund Manager (AIFM) to allow the participating LGPS administering authorities to pool their respective investments.

The governance structure for LGPS Central has been agreed by all partner funds. The LGPS Central Board and Executive Committee are in place. There are currently 65 permanent staff and a number of additional senior appointments were made during the year, including the Investment Director for Private Markets and the Director of Responsible Investment. In addition, a second graduate recruitment programme has just been launched in 2021 following on from the success of the first programme.

Regular investment pooling meetings continue to be held with representatives from each of the eight LGPS funds. The Practitioners Advisory Forum, which is made up of s151 Officers and Pension Managers from each fund, are updated regularly on the progress made and key developments of LGPS Central. Meetings of the Shareholders Forum, which is made up of one elected member from each fund, have been held during the year to approve key decisions. The Joint Committee, which is also made up of one elected member from each fund, has also met twice during the year to discuss any client related investors issues. The current Chair of the Joint Committee, which rotates between all 8 partner funds, is also the current Chair of the Shropshire County Pension Fund.

Pension Fund Accounts

LGPS Central Ltd is responsible for a number of advisory and discretionary mandates on behalf of its partner funds. Working with our partners to develop and implement our revised investment strategy will continue to be a major strategic focus for the fund over the next year. The first assets transferred from Shropshire County Pension Fund in March 2019 when £237 million was transitioned into their active global equity sub-fund. Assets in this sub fund have increased to £318 million as at 31 March 2021. Further assets are expected to transfer during 2021/22 into Infrastructure, Private Debt, Targeted Return and Sustainable Equity funds once launched.

Over the last 12 months The Pensions Administration Team have ensured the benefits it looks after for scheme members are paid accurately and on time, despite the impact of Covid-19 lockdowns and the enforced working from home.

During 2020/21, the team had to work from home and quickly adapted to new ways of remote working ensuring all administrative work continued and members could contact us if they needed to. The team were agile in their working practices which ensured all pensioners received their monthly payments on time and all retirements were processed in good time. Scheme members were still able to contact all members of the team throughout the year and the helpdesk remained fully functional dealing with member queries over the phone and via email. Although, the team have not been able to see members face to face, the team have still offered the facility to video call if members needed a consultation. Improvements in technology were implemented with a new telephony system procured. This will provide better statistics and information on when our customers are contacting us to help shape the service we offer.

Processes were changed to ensure members could return forms and documents electronically and scheme members and employers were provided with regular updates on the team's new ways of working. All regulatory deadlines were met, including issuing Annual Benefit Statements, P60 documents and Pensions Savings Statements by the statutory deadlines and reporting to Pensions Committee and Board continued. During the year the team worked hard to ensure the GMP reconciliation project was completed.

The information above and other developments are all covered in more detail on the following pages. We hope you find the report interesting and informative. As always, we welcome your feedback on the report and indeed, on any aspect of the scheme's activities.

The Fund's financial statements do not take account of liabilities to pay pensions and other benefits after the period end. The actuarial present value of promised retirement benefits is disclosed in the Statement by the Consulting Actuary.

Pension Fund Accounts

NOTES TO THE SHROPSHIRE COUNTY PENSION FUND ACCOUNTS FOR THE YEAR ENDED 31 MARCH 2021

1. DESCRIPTION OF FUND

The Shropshire County Pension Fund is part of the Local Government Pension Scheme and is administered by Shropshire Council. The Council is the reporting entity for this Pension Fund.

The Fund is governed by the Public Service Pensions Act 2013. The Fund is administered in accordance with the following secondary legislation:

- The Local Government Pension Scheme Regulations 2013 (as amended)
- The Local Government Pension Scheme (Transitional Provisions, Savings and Amendment) Regulations 2014 (as amended)
- The Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016.

It is a contributory defined benefit pension scheme administered by Shropshire Council to provide pensions and other benefits for pensionable employees of Shropshire Council and a range of other scheduled and admitted bodies within the county area. Teachers, police officers and firefighters are not included as they come within other national pension schemes. The Fund is overseen by the Shropshire County Pension Fund Committee, which is a committee of Shropshire Council.

Membership of the LGPS is voluntary and employees are free to choose whether to join the scheme, remain in the scheme or make their own personal arrangements outside the scheme.

Organisations participating in the Shropshire County Pension Fund include:

- Scheduled bodies, which are automatically entitled to be members of the Fund.
- Admitted bodies, which participate in the Fund under the terms of an admission agreement between the Fund and the employer. Admitted bodies include voluntary, charitable and similar not-for-profit organisations, or private contractors undertaking a local authority function following outsourcing to the private sector.

There are 207 employers within the Shropshire County Pension Fund including Shropshire Council itself, as detailed below.

Shropshire County Pension Fund	31 March 2021	31 March 2020
Number of employers with active members	146	148
Number of employees in the scheme		
Shropshire Council	5,771	5,916
Other employers	10,749	10,718
Total	16,520	16,634
Number of pensioners in the scheme		
Shropshire Council	5,626	5,431
Other employers	5,945	5,664
Total	11,571	11,095

Pension Fund Accounts

Shropshire County Pension Fund	31 March 2021	31 March 2020
Number of deferred pensioners in the scheme		
Shropshire Council	8,591	8,644
Other employers	9,497	9,447
Total	18,088	18,091

Benefits are funded by contributions and investment earnings. Contributions are made by active members of the fund in accordance with the LGPS Regulations 2013 and ranged from 5.5% to 12.5% of pensionable pay for the financial year ending 31 March 2021. Employers' contributions are set based on triennial actuarial funding valuations. The last such valuation was as at 31 March 2019. Currently, employer contribution rates range from 5.8% to 27.6% of pensionable pay.

Prior to 1 April 2014, pension benefits under the LGPS were based on final pensionable pay and length of pensionable service. From 1 April 2014, the scheme became a career average scheme, whereby members accrue benefits based on their pensionable pay in that year at an accrual rate of 1/49th. Accrued pension is uprated annually in line with the Consumer Prices Index.

A range of other benefits are also provided including early retirement, ill-health pensions and death benefits.

2. BASIS OF PREPARATION

The statement of accounts summarises the Fund's transactions for the 2020/21 financial year and its financial position at 31 March 2021. The accounts have been prepared in accordance with the Code of Practice on Local Authority Accounting in the United Kingdom 2020/21 (the Code) which is based upon International Financial Reporting Standards (IFRS), as amended for the UK public sector. The accounts have been prepared on a going concern basis.

IFRS9 requires the investment assets to be accounted for at fair value within the accounts. The adoption of IFRS9 had little impact on the accounts for pension funds as the investment assets were already held at fair value through profit and loss as directed by the code. As a consequence, there was no requirement to change the measurement or classification of these assets.

Paragraph 3.3.1.2 of the Code requires disclosure of any accounting standards issued but not yet adopted. No such accounting standards have been identified for 2020/21

The accounts report on the net assets available to pay pension benefits. They do not take account of obligations to pay pensions and benefits that fall due after the end of the financial year nor do they take into account the actuarial present value of promised retirement benefits. The Code gives administering authorities the option to disclose this information in the net assets statement, in the notes to the accounts or by appending an actuarial report prepared for this purpose. The Pension Fund has opted to disclose this information within the statement by the consulting actuary.

3. SUMMARY OF SIGNIFICANT ACCOUNTING POLICIES

Fund Account – revenue recognition

Pension Fund Accounts

Contribution income

Normal contributions are accounted for on an accruals basis as follows:

- Employee contribution rates are set in accordance with LGPS regulations, using common percentage rates for all schemes that rise according to pensionable pay.
- Employer contributions are set at the percentage rate recommended by the fund actuary for the period to which they relate. Contributions received earlier than the due date are accounted for on receipt and are recognised as contributions received within the pension fund account statement.
- Employer deficit funding contributions are accounted for on the due dates on which they are payable under the schedule of contributions set by the scheme actuary or on receipt if earlier than due date.

Transfers to and from other schemes

Transfers in and out relate to members who have either joined or left the Fund.

Individual transfers in/out are accounted for when received or paid. Transfers in from members wishing to use the proceeds of their additional voluntary contributions (see below) to purchase scheme benefits are accounted for on a receipts basis and are included in Transfers In (see note 7). Bulk (group) transfers are accounted for in accordance with the terms of the transfer agreement.

Investment Income

Dividend income is recognised on the date the shares are quoted ex-dividend. Any amount not received by the end of the reporting period is disclosed in the net assets statement as a current financial asset.

Distributions from pooled funds are recognised at the date of issue. Any amount not received by the end of the reporting period is also disclosed in the net assets statement as a current financial asset.

Changes in the value of investments are recognised as income and comprise all realised and unrealised profit/losses during the year.

Fund account – expense items

Benefits payable

Pensions and lump sum benefits payable include all amounts known to be due as at the end of the financial year. Any amounts due but unpaid are disclosed in the net assets statement as current liabilities, provided that payment has been approved.

Taxation

The Fund is a registered public service scheme under section 1 (1) of Schedule 36 of the Finance Act 2004 and as such is exempt from UK income tax on interest received and from capital gains tax on the proceeds of investments sold. Income from overseas investments suffers withholding tax in the country of origin, unless exemption is permitted. Irrecoverable tax is accounted for as a Fund expense as it arises.

Management expenses

The Fund discloses its pension fund management expenses in accordance with CIPFA guidance Accounting for Local Government Pension Scheme Management Expenses (2016), as shown below. All items of expenditure are charged to the Fund on an accruals basis as follows:

Administrative expenses	All staff costs of the pensions administration team are charged direct to the Fund. Associated management, accommodation and other overheads are apportioned to this activity and charged as expenses to the Fund.
--------------------------------	--

Pension Fund Accounts

Oversight and governance

All staff costs associated with governance and oversight are charged direct to the Fund. Associated management, accommodation and other overheads are apportioned to this activity and charged as expenses to the Fund.

Investment management expenses

Investment management expenses are charged directly to the Fund as part of management expenses and are not included in, or netted off from, the reported return on investments. Where fees are netted off quarterly valuations by investment managers, these expenses are shown separately in Note 8 and grossed up to increase the change in value of investments.

Fees of the external investment managers and custodian are agreed in the respective mandates governing their appointments. Broadly, these are based on the market value of the investments under their management and therefore increase or reduce as the value of these investments change.

In addition, the Fund has negotiated with Majedie Asset Management, Pimco Europe Ltd and BlackRock (Hedge Fund) that an element of their fee will be performance related.

Total performance related fees for all managers in 2020/21 £1.271m (2019/20 £0.225m).

Where an investment manager's fee note has not been received by the year-end date, an estimate based upon the market value of their mandate as at the end of the year is used for inclusion in the fund account. In 2020/21, £0.077m of fees is based on such estimates (2019/20 £0.122m).

Net Assets Statement

Financial assets

The Share Capital investment in LGPS Central Limited is valued at transaction price i.e. cost. LGPS Central Limited began to trade on 3 April 2018 and consequently there are only limited trading results available. The Pension Fund's view is that the market value of this investment at 31 March 2021 cannot be reasonably assessed and that cost is therefore an appropriate estimate of fair value.

All other investment assets are included in the financial statements on a fair value basis as at the reporting date. A financial asset is recognised in the net assets statement on the date the Fund becomes party to the contractual acquisition of the asset. Any amounts due or payable in respect of trades entered into but not yet complete at 31 March each year are accounted for as financial instruments held at amortised cost and reflected in the reconciliation of movements in investments and derivatives in Note 11a. Any gains or losses on investment sales arising from changes in the fair value of the asset are recognised in the fund account

The values of investments as shown in the net assets statement have been determined at fair value in accordance with the requirements of the Code and IFRS13 (see note 14).

Foreign Currency transactions

Dividends, interest and purchases and sales of investments in foreign currencies have been accounted for at the spot market rates at the date of transaction. End of year spot market exchange rates are used to value cash balances held in foreign currency bank accounts, overseas investments and purchases and sales outstanding at the end of the reporting period.

Cash and cash equivalents

Cash comprises cash in hand and demand deposits and includes amounts held by the Fund's external managers. Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and that are subject to minimal risk of changes in value.

Loans and receivables

Financial assets classed as amortised cost are carried in the net asset statement at the value of outstanding principal receivable at the year-end date plus accrued interest.

Financial liabilities

A financial liability is recognised in the net asset statement on the date the Fund becomes legally responsible for that liability. The Fund recognises financial liabilities relating to investment trading at fair value and any gains or losses arising from changes in the fair value of the liability between contract date, the year-end date and the eventual settlement date are recognised in the fund account as part of the change in value of investments.

Other financial liabilities classed as amortised cost are carried in the net asset statement at the value of the outstanding principal at 31 March each year. Any interest due not yet paid is accounted for on an accruals basis and included in administration costs.

Additional voluntary contributions

Shropshire County Pension Fund provides an additional voluntary contribution (AVC) scheme for its members, the assets of which are invested separately from those of the pension fund. Please see note 20 for further information.

4. CRITICAL JUDGMENTS IN APPLYING ACCOUNTING POLICIES

Pension Fund liability

The net pension fund liability is recalculated every three years by the Fund Actuary. The methodology used is in line with accepted guidelines. This estimate is subject to significant variances based on changes to the underlying assumptions which are agreed with the Actuary and have been summarised in note 17.

The McCloud Judgment

The "McCloud judgment" refers to a legal challenge in relation to historic benefit changes for all public sector schemes being age discriminatory. The Government announced in 2019 that this needs to be remedied for all public sector schemes including the LGPS. This is likely to result in increased costs for some employers. This remedy is still to be legislated for with an expected date of 1st April 2022

Investment in LGPS Central

The Share Capital investment has been valued at cost on the basis that fair value as at 31 March 2021 cannot be reliably estimated. Management have made this judgment because:

- LGPS Central Limited did not commence trading until 3 April 2018
- No dividend to shareholders has as yet been declared

Pension Fund Accounts

- Published trading results are only available for two years, which in the Fund's opinion does not give sufficient information to allow fair value to be accurately calculated on a net asset basis.

5. ASSUMPTIONS MADE ABOUT THE FUTURE AND OTHER SOURCES OF ESTIMATION UNCERTAINTY

The preparation of financial statements requires management to make judgments, estimates and assumptions that affect the reported amounts. Estimates and assumptions take account of historical experience, current trends and future expectations. However, actual outcomes could be different from the assumptions and estimates made. The items in the net asset statement for which there is a significant risk of material adjustment the following year are as follows:

Item	Uncertainties	Effect if actual results differ from assumptions
Private Equity	Private equity investments are valued at fair value in accordance with International Private Equity and Venture Capital Valuation Guidelines (December 2018) and the Special Guidance issued March 2020 concerning the impact of COVID-19 on valuations. Investments are not publicly listed and as such there is a degree of estimation involved in the valuation.	<p>The total private equity investments in the financial statements are £180.4 million. There is a risk that this investment may be under or overstated in the accounts.</p> <p>A 5% movement in the valuation would equate to a £9.0m adjustment to the value of these assets</p>
Hedge Funds	Some hedge fund investments are not regularly traded and as such there is a degree of estimation involved in the valuation.	<p>The total hedge fund value in the financial statements is £137.3 million. There is a risk that this investment may be under or overstated in the accounts.</p> <p>A 5% movement in the valuation would equate to a £6.9m adjustment to the value of these assets</p>

6. EVENTS AFTER THE REPORTING DATE

These are events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the financial statements are authorised for issue. There have been no events between 31 March 2021, and when these accounts were authorised, that require any adjustments to be made.

Global financial markets were particularly volatile during 2019/20 because of Brexit, COVID-19 and other significant political and geographical changes. This adversely affected the value of the Fund's investments during this period despite careful management. However, this downward trend did not continue during 2020/21 resulting in a £363 million increase in the Fund value and the Fund value has continued to increase until 31 July 21.

Pension Fund Accounts

Guaranteed minimum pensions (GMP) equalisation remedy in LGPS is still to be legislated on. GMP reconciliation has ensured that data is up to date for when any changes required are known.

The McCloud remedy in LGPS is still to be legislated for, with an expected date of 1st April 2022. The Fund is not aware of any cases affected by the Goodwin test cases.

7. ANALYSIS OF THE MAIN REVENUE ACCOUNT TRANSACTIONS

The following table provides further analysis of contributions received and benefits paid between the Administering Authority (Shropshire Council), Designated Bodies and Scheme Employers (Unitary, Town and Parish Councils) and Admission Bodies (Private bodies carrying out former Local Government functions or bodies providing a public service on a non-profit making basis).

2020/21	Administering Authority	Admission Bodies	Designation Bodies/Scheme Employers	Total
	£000	£000	£000	£000
<u>Contributions Received</u>				
Employees	5,864	2,030	8,577	16,471

*2020/21 Transfer Out figure includes a £15.120m bulk transfer out.

Pension Fund Accounts

This table shows a breakdown of the employers contributions above:

	2020/21 £000	2019/2020 £000
Employers normal contributions	**54,083	36,630
Employers deficit contributions	***14,263	8,177
Employers augmentation contributions	1,659	1,819
	70,005	46,626

** Employers normal contributions figure for 2020/21 includes upfront payment of 2021/22 normal contributions for Telford & Wrekin Council

*** Employers deficit contributions figure for 2020/21 includes upfront deficit payments covering three years for Shropshire Council

8. MANAGEMENT EXPENSES

This analysis of the costs of managing the Shropshire County Pension Fund during the period has been prepared in accordance with CIPFA's Accounting for Local Government Pension Scheme Management Expenses (2016).

Management Expenses	2020/21 £000	2019/20 £000
Administrative costs	1,135	1,050
Investment management expenses	15,231	15,283
Oversight and governance costs	1,460	1,379
	17,826	17,712

Each external Investment Manager receives a fee for their services based on the market value of the assets they manage on the Fund's behalf. Active managers are required to produce a specific target return in excess of their benchmark return and are paid a performance related fee (over and above a basic fee) for reaching required levels of outperformance. The management fees disclosed also include all investment management fees directly incurred by the Fund by pooled fund investments.

The investment management expenses shown below includes £1.271m (2019/20 £0.225m) in respect of performance related fees paid/payable to the Fund's investment managers.

It also includes £3.028m in respect of transaction costs (2019/20 £2.561m).

In addition to these costs, indirect costs are incurred through the bid-offer spread on investment sales and purchases. These are reflected in the cost of investment acquisitions and in the proceeds from the sales of Investments (see note 11a).

Investment Expenses	2020/21 £000	2019/20 £000
Management Fees	8,901	9,052
Performance Fees	1,271	225
Other Fees	1,989	3,414

Pension Fund Accounts

Transaction Costs	3,028	2,561
Custody Fees	42	31
	15,231	15,283

The costs incurred by the Council in administering the Fund totalled £1.135m for the year ended 31 March 2021 (2019/20 £1.050m).

Administrative Costs	2020/21	2019/20
	£000	£000
Employee Costs	753	682
IT	218	210
Consultants	75	32
Printing, Postage & Design	39	61
Office Accommodation	21	20
Subscriptions	14	16
Other Costs	15	29
	1,135	1,050

The costs incurred by the Council in Oversight and Governance totalled £1.460m for the year ended 31 March 2021 (2019/20 £1.379m).

Oversight & Governance costs	2020/21	2019/20
	£000	£000
Investment advice	427	386
Employee costs (pensions investment)	234	190
Actuarial advice	74	154
LGPS Central Pooling costs	582	475

* Within the Pooled Investment Vehicles - other managed funds total of £1,726.527m are £306.361m of level 3 investments as at 31 March 2020. Within the Equities figure of £79.061m are £1.315m of level 3 investments as at 31 March 2020. The value of the level 3 investments was £274.472m as at 1st April 2019 which increased to £307.676m as at 31 March 2020. The increase in value is due to purchases of £47.266m, sales of £14.796m and change in market value of £0.734m.

Pension Fund Accounts

** The total change in market value for 2019/20 as per the table above is -£97.122m. This figure is made up of profit on sales of £7.988m and also the difference between book cost and market value for the whole Fund which for 2019/20 was -£105.110m.

12. STOCK LENDING

The Fund participates in a stock lending programme with its Custodian, Northern Trust to lend eligible securities from within its portfolio of stocks to third parties in return for collateral. Collateral is restricted to AAA Sovereign debt (the highest rated collateral available).

Collateralised lending generated income of £0.003m in 2020/21 and this is included within investment income in the Pension Fund Account. At 31 March 2021 £2.841m worth of stock (via the Custodian) was on loan, for which the Fund was in receipt (via the Custodian) of £3.055m worth of collateral representing 108% of stock on loan.

Although stock lending involves the transfer of title of those securities to the borrower, the lender's rights to the normal benefits and corporate actions that would have arisen had the asset not been lent are protected. The lender thus retains an economic interest in the securities transferred. During the period stock is on loan, the voting rights of the loaned stock pass to the borrower.

There are no liabilities associated with the loaned assets.

13. ANALYSIS OF DERIVATIVES

Currently, Legal & General, who manage the global equity passive portfolio, hedge 100% of their foreign currency exposure back to sterling. The global equity passive portfolio also has an equity protection strategy in place.

14. FAIR VALUE – BASIS OF VALUATION

Unquoted equities in LGPS Central are valued using the cost approach / considering Fair Value at Initial Recognition approach as these methodologies provide viable approaches to valuing this shareholding, and they both generate consistent valuations at historic cost less any adjustment for impairment. This will be the approach used for valuing this holding until any change in circumstances creates an alternative approach.

All other investment assets are valued using fair value techniques based on the characteristics of each instrument, where possible using market-based information. There has been no change in the valuation techniques used during the year.

The valuation basis for each category of investment asset is set out below.

Description of asset	Valuation hierarchy	Basis of valuation	Observable and unobservable inputs	Key sensitivities affecting the valuations provided
Quoted equities and pooled fund investments	Level 1	The published bid market price on the final	Not required	Not required

Pension Fund Accounts

Description of asset	Valuation hierarchy	Basis of valuation	Observable and unobservable inputs	Key sensitivities affecting the valuations provided
Quoted fixed income bonds and unit trusts	Level 1	day of the accounting period Quoted market value based on current yields	Not required	Not required
Cash and cash equivalents	Level 1	Carrying value is deemed to be fair value because of the short-term nature of these financial instruments	Not required	Not required
Pooled property funds	Level 2	Closing bid price where bid and offer prices are published. Closing single price where single price published	NAV based pricing set on a forward pricing basis	Not required
Infrastructure	Level 2	Valued at the net asset value or a single price advised by the fund manager	EBITDA multiple, revenue multiple, discount for lack of marketability, control premium	Valuations could be affected by post balance sheet events, changes to expected cashflows, or by any differences between audited and unaudited accounts
Shares in LGPS Central asset pool	Level 3	Valued using cost approach and considering fair value at initial recognition approach	No market for shares in LGPS Central and no immediate plans to pay dividends. Cost approach generates a figure similar to the original cost of investment when LGPS Central was created	Valuation reviewed on an annual basis to ascertain if there is any reason that this valuation may have been impaired
Private Equity and other unquoted	Level 3	Comparable valuation of similar companies in accordance with International Private Equity and Venture Capital Valuation Guidelines 2018 and the IPEV Board's Special Valuation Guidance (March 2020) or other appropriate guidelines	EBITDA multiple, revenue multiple, discount for lack of marketability, control premium	Valuations could be affected by changes to expected cashflows or by differences between audited and unaudited accounts
Insurance linked securities	Level 3	Closing single price. Investments are fair valued using earned net assets value method	NAV based pricing set on a forward pricing basis. NAV based pricing based upon either 3rd party broker marks or independent Milliman valuations using available industry loss assumptions and 3rd party reports.	Valuations could be affected by any changes to underlying values of the invested portfolio. Value appreciation/depreciation is typically dependent on and contingent on

Sensitivity of assets valued at level 3

The Fund has determined that the valuation methods described above for level 3 investments are likely to be accurate to within the following ranges, and has set out below the consequent potential impact on the closing value of investments held at 31 March 2021 and 31 March 2020.

Asset	Potential variation in fair value (+/-)	Value as at 31-Mar-21	Potential value on increase	Potential value on decrease
		£000	£000	£000
Private Equity	5%	180,438	189,460	171,416
Hedge Funds	5%	137,333	144,200	130,466
Insurance Linked	5%	32,509	34,134	30,884
Property Debt	5%	57,777	60,666	54,888

Pension Fund Accounts

14a. FAIR VALUE HIERARCHY

Assets and liabilities have been classified into three levels, according to the quality and reliability of information used to determine fair values.

Level 1 - where the fair values are derived from unadjusted quoted prices in active markets for identical assets or liabilities. Comprise quoted equities, quoted bonds and unit trusts.

Level 2 - where quoted market prices are not available, or where valuation techniques are used to determine fair value based on observable data.

Level 3 - where at least one input that could have a significant effect on the instrument's valuation is not based on observable market data.

The values of the investment in private equity are based on valuations provided by the general partners to the private equity funds in which Shropshire County Pension Fund has invested.

These valuations are prepared in accordance with the International Private Equity and Venture Capital Valuation Guidelines, which follow the valuation principles of IFRS and US GAAP. Valuations are undertaken quarterly, however, lag a quarter behind so the valuation in the accounts is as at 30th September 2020. Cash flow adjustments are used to roll forward the valuations to 31 March as appropriate.

The values of the investment in hedge funds are based on the net asset value provided by the fund manager. Assurances over the valuation are gained from the independent audit of the value.

The following table provides an analysis of the assets and liabilities of the pension fund grouped into levels 1 to 3, based on the level at which the fair value is observable.

Asset type	Investment Manager	Investment Type	Market Value	Quoted market price	Using observable inputs	With significant evaluation inputs

16. NATURE AND EXTENT OF RISKS ARISING FROM FINANCIAL INSTRUMENTS

Risk and Risk Management

The Fund's primary long-term risk is that its assets will fall short of its liabilities (i.e. promised benefits to pay members). The aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk (price risk, currency risk and interest rate risk) and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure there is sufficient liquidity to meet the Fund's forecast cash flows. The Fund manages these investment risks as part of its overall pension fund risk management programme.

Responsibility for the Fund's risk management strategy rests with the Pension Fund committee. Risk management policies are established to identify and analyse the risks faced by the Pension Fund's operations. Policies are reviewed regularly to reflect changes in activity and in market conditions.

Market risk

Market risk is the risk of loss from fluctuations in equity and commodity prices, interest and foreign exchange rates and credit spreads. The Fund is exposed to market risk from its investment activities, particularly through its equity holdings. The level of risk exposure depends on market conditions, expectations of future price and yield movements and the assets mix. The objective of the Fund's risk management strategy is to identify, manage and control market risk exposure within acceptable parameters, whilst optimising investment return.

In general, excessive volatility in market risk is managed through the diversification of the portfolio in terms of geographical and industry sectors and individual securities. To mitigate market risk, the Pension Fund and its investment advisors undertake appropriate monitoring of market conditions and benchmark analysis and manage any identified risk in two ways:

- The exposure of the Fund to market risk is monitored through a factor risk analysis, to ensure that risk remains within tolerable levels
- Specific risk exposure is limited by applying risk-weighted maximum exposures to individual investments.

Other price risk

Other price risk represents the risk that the value of a financial instrument will fluctuate as a result of changes in market prices (other than those arising from interest rate risk or foreign exchange risk), whether those changes are caused by factors specific to the individual instrument or by factors affecting all such instruments in the market.

Pension Fund Accounts

The Fund is exposed to share and derivative price risk. The Fund's investment managers mitigate this price risk through diversification and the selection of securities and other financial instruments is monitored to ensure it is within limits specified in the Fund investment strategy.

Other price risk – sensitivity analysis

In consultation with its investment advisors, the Fund has determined that the following movements in market price risk are reasonably possible for the 2021/22 reporting period, assuming that all other variables, in particular foreign exchange rates and interest rates, remain the same.

Asset Type	Potential market movements (+/-)
UK Equities	19.0%
Global Unconstrained Equities	21.1%
Global Equities (passive)	20.0%
Unconstrained bonds	5.7%
Property	12.5%
Private Equity	28.3%
Hedge Funds	9.3%
Infrastructure	19.3%
Property Debt	7.2%
Insurance Linked Securities	4.5%
LDI	24.1%

Had the market price of the Fund investments increased/decreased in line with the above, the change in the net assets available to pay benefits in the market price would have been as follows.

Asset type	Value as at 31 March 2021 £000	Potential market movement £000	Value on increase £000	Value on decrease £000
2020/21				
Net Assets including Cash and Other	26,071	0	26,071	26,071

Property Debt	36,928	3,139	40,067	33,789
Insurance Linked Securities	31,596	1,422	33,018	30,174
LDI	66,806	20,576	87,382	46,230
Total assets available to pay benefits	1,831,323	296,157	2,127,480	1,535,166

Interest rate risk

The Fund recognises that interest rates can vary and can affect both income to the Fund and the carrying value of fund assets, both of which affect the value of the net assets available to pay benefits. A 1% movement in interest rates is consistent with the level of sensitivity applied as part of the Fund's risk management strategy.

The Fund's direct exposure to interest rate movements as at 31 March 2021 and 31 March 2020 is set out below.

Asset Type	As at 31 March 2021 £000	As at 31 March 2020 £000
Cash and cash equivalents	16,950	9,692
Cash balances	245	397
Bonds	444,379	410,876
Total change in assets available	461,574	420,965

The following analysis shows the effect in the year on the net assets available to pay benefits of a +/- 1% change in interest rates assuming all variables, in particular exchange rates, remain constant. This analysis demonstrates that a 1% increase in interest rates will not affect the interest received on fixed interest assets but will reduce their fair value, and vice versa. Changes in interest rates do not impact on the value of cash and cash equivalent balances but they will affect the interest income received on those balances.

Assets exposed to interest rate risk	Value as at 31 March £000	Potential movement on 1% change in interest rates £000	Value on increase £000	Value on decrease £000
As at 31 March 2021				
Cash and cash equivalents	16,950	0	16,950	16,950
Cash balances	245	0	397	397
Bonds	444,379	4,444	448,823	439,935
Total	461,574	4,444	466,170	457,282

Pension Fund Accounts

Assets exposed to interest rate risk	Value as at 31 March	Potential movement on 1% change in interest rates	Value on increase	Value on decrease
	£000	£000	£000	£000
As at 31 March 2020				
Cash and cash equivalents	9,692	0	9,692	9,692
Cash balances	397	0	397	397
Bonds	410,876	4,109	414,985	406,767
Total	420,965	4,109	425,074	416,856

During 2020/21 the Fund received £0.003m in interest from surplus pension fund revenue cash. This was either invested in call accounts which are classified as a variable rate investment or a fixed term deposit. If interest rates throughout the year had been 1% higher this would have increased the amount of interest earned on these investments by £0.026m. The impact of a 1% fall in interest rates would imply a negative interest rate and therefore it is assumed no interest would have been received or charged on these investments. In addition, the Fund earned £0.032m in interest on its loan to LGPS Central Ltd. The impact of a 1% change in interest rates would have increased or decreased interest earned on this loan by £0.007m

Currency risk

Currency risk represents the risk that future cash flows will fluctuate because of changes in foreign exchange rates. The Fund is exposed to currency risk on any cash balances and investments assets not denominated in UK sterling. Following analysis of historical data in consultation with the Fund investment advisors, the Fund considers the likely volatility associated with foreign exchange rate movements to be not more than 10%. A 10% strengthening/weakening of the pound against the various currencies in which the Fund holds investments would increase/decrease the net assets available to pay benefits as follows:

Currency risk – sensitivity analysis

Following analysis of historical data in consultation with the Fund investment advisors, the Fund considers the likely volatility associated with foreign exchange rate movements to be not more than 10%. An 10% strengthening/weakening of the pound against the various currencies in which the Fund holds investments would increase/decrease the net assets available to pay benefits as follows:

Assets exposed to currency risk	Value as at 31 March	Potential market movement	Value on increase	Value on decrease

Credit Risk

Credit risk represents the risk that the counterparty to a financial transaction will fail to discharge an obligation and cause the Fund to incur a financial loss. Assets potentially affected by this risk are investment assets, cash deposits and third-party loans. The selection of high-quality counterparties, brokers and financial institutions minimises credit risk and the market values of investments generally reflect an assessment of credit risk.

Credit risk may also occur if an employing body not supported by central government does not pay contributions promptly, or defaults on its obligations. The Pension Fund has not experienced any actual defaults in recent years and the current practice is to obtain a guarantee before admitting new employers so that all pension obligations are covered in the event of that employer facing financial difficulties. All contributions due at 31 March 2021 and 31 March 2020 were received in the first two months of the financial year.

In January 2018 the Fund advanced a loan of £0.685m to LGPS Central asset pool on commercial rates, repayable in 2027. LGPS Central have not defaulted on any annual loan interest repayments to date. The credit risk at 31 March 2021 is therefore not considered to be significant and no credit loss adjustment has been made.

The Fund has set limits on the maximum sum placed on deposit with individual financial institutions.

The investment priorities for the management of the pension fund revenue cash held for day to day transactions are the security of the principal sums it invests. The enhancement of returns is a secondary consideration to the minimisation of risk. Accordingly, the Administering Authority ensures that its counterparty lists and limits reflect a prudent attitude towards organisations with whom funds may be deposited.

The main criteria for determining the suitability of investment counterparties is outlined in the Administering Authority's creditworthiness policy which the Pension Fund has also adopted and approved as part of the annual Pension Fund Treasury strategy.

The Fund's lending list is reviewed continuously in conjunction with the Administering Authority's treasury advisor. The total permitted investment in any one organisation at any one time varies with the strength of the individual credit rating. The maximum amount is currently limited to £4,000,000. With security of capital being the main priority, lending continues to be

Pension Fund Accounts

restricted to highly credit rated institutions, part nationalised institutions and other Local Authorities. In addition to credit ratings the Administering Authority continually monitors the financial press and removes institutions from its approved lending list immediately if appropriate.

The Pension Fund has had no experience of default or uncollectable deposits over the past five financial years.

Asset type	Rating	As at 31 March 2021 £000	As at 31 March 2020 £000
Handelsbanken Instant Access Account	AA	2,000	2,000
Nat West Instant Access Account	A+	1,500	
Total		3,500	2,000

Liquidity risk

Liquidity risk represents the risk that the Fund will not be able to meet its financial obligations as they fall due i.e. that cash is not available when required. The Pension Fund therefore takes steps to ensure that it always has adequate cash resources to meet its commitments. The Fund's cash holding under its treasury management arrangements at 31 March 2021 was £3.5m (31 March 2020 £2.0m).

The Fund has immediate access to cash through two instant access accounts which at any one time could have up to £6 million available in total. The Fund also has the ability to access immediate cash held by Northern Trust which as at 31 March 2021 was £7.756m. The Fund does not have access to an overdraft facility.

Officers prepare a daily cash flow forecast to understand and manage the timing of the Fund's cash flows. The appropriate strategic level of cash balances to be held forms part of the investment strategy.

17. FUNDING ARRANGEMENTS

In line with the Local Government Pension Scheme Regulations 2013, the Fund's actuary undertakes a funding valuation every three years for the purpose of setting employer contribution rates for the forthcoming triennial period. The last such valuation took place as at 31 March 2019 and the next valuation will take place as at 31 March 2022.

The key elements of the funding policy are:

- To ensure the long-term solvency of the Fund, i.e. that sufficient funds are available to meet all pension liabilities as they fall due for payment
- To ensure that employer contribution rates are as stable as possible
- To minimise the long-term cost of the scheme by recognising the link between assets and liabilities and adopting an investment strategy that balances risk and return
- To reflect the different characteristics of employing bodies in determining contribution rates where it considers it reasonable to do so

Pension Fund Accounts

- To use reasonable measures to reduce the risk to other employers and ultimately to the council tax payer from an employer defaulting on its pension obligations

The aim is to achieve 100% solvency over a period of 19 years and to provide stability in employer contribution rates by spreading any increases in rates over a period of time. For each individual employer, the funding objective, method and assumptions depend on a particular employer's circumstances and different approaches have been adopted where applicable, in accordance with the Funding Strategy Statement.

At the 2019 actuarial valuation, the Fund was assessed as 94% funded (84% at the March 2016 valuation). This corresponded to a deficit of £132 million (2016 valuation was £278 million) at that time. Revised contributions set by the 2019 valuation were introduced in 2020/21 and the common contribution rate (i.e. the average employer contribution rate in respect of future service only) is 16.6% of pensionable pay (14.9% at the March 2016 valuation).

The valuation of the Fund has been undertaken using the projected unit method under which the salary increase for each member is assumed to increase until they leave active service by death, retirement or withdrawal from service. The principal assumptions were as follows:

Financial assumptions	31 March 2019	31 March 2016
Discount rate	4.25% p.a.	4.55% p.a.
Assumed long term CPI inflation	2.4% p.a.	2.2% p.a.
Salary increases – long term	3.65% p.a.	3.7% p.a.
Salary increases – short term	No allowance	1% p.a. for 4 years
Pension increases in payment	2.4% p.a.	2.2% p.a.

The assumed life expectancy from age 65 is as follows:

Demographic assumptions		31 March 2019	31 March 2016
Current pensioners (at age 65)	Males	22.8	22.9
	Females	24.9	26.1
Future pensioners (assumed current age 45)	Males	24.1	25.1
	Females	26.6	28.4

It is assumed that, on average, retiring members will take 80% of the maximum tax-free cash available at retirement.

18. ANALYSIS OF DEBTORS

Provision has been made for debtors known to be outstanding as at 31 March 2021. An analysis of debtors outstanding as at 31 March 2021 is shown below:

	2020/21 £000	2019/20 £000
Contributions due - employees	1,260	1,186
Contributions due - employers	3,062	4,019

Pension Fund Accounts

	2020/21 £000	2019/20 £000
Other entities and individuals	2,443	1,708
Total	6,765	6,913

19. ANALYSIS OF CREDITORS

Provision has also been made for creditors known to be outstanding at 31 March 2021. An analysis of creditors outstanding as at 31 March 2021 is shown below:

	2020/21 £000	2019/20 £000
Central Government bodies	(670)	(615)
Other Local Authorities	(1,441)	(1,309)
Other entities and individuals	(1,278)	(986)
Total	(3,389)	(2,910)

20. ADDITIONAL VOLUNTARY CONTRIBUTIONS

Scheme members have the option to make Additional Voluntary Contributions (AVCs) to enhance their pension benefits. These contributions are invested with an appropriate provider and used to purchase an annuity at retirement. Contributions are paid directly from scheme members to the AVC provider and are therefore not represented in these accounts in accordance with regulation 4 (1) (b) of the Local Government Pension Scheme (Management and Investment of Funds) Regulations 2016.

Contributions are invested in with-profit, unit linked or deposit funds of the scheme member. These policies are held either by Utmost or Prudential.

During 2020/21 contributions to policies held with Utmost amounted to £360. The value of the Utmost AVC funds as at 31 March 2021 was £0.157m.

There is a delay in the issue of Prudential year end statements and therefore figures for contributions paid and value of Prudential AVC funds as at 31st March 2021 are not currently available.

21. RELATED PARTY TRANSACTIONS

Shropshire Council

The Shropshire County Pension Fund is administered by Shropshire Council. Shropshire Council incurred costs of £1.475m (2019/20 £1.339m) in relation to the administration and management of the Fund and all these costs were recharged to the Pension Fund.

Shropshire Council is also the single largest employer of members of the Pension Fund. At the year end, a balance of £1.421m was due to the Fund from the Council relating to contributions which became due in March but were paid in April and other payments due.

Pension Fund Accounts

Several employees of Shropshire Council hold key positions in the financial management of the Shropshire County Pension Fund. The Director of Finance, Governance & Assurance (s151 Officer & Scheme Administrator), the Head of Treasury and Pensions, the Treasury Accountant, the Investment Officer and the Pensions Administration Manager are all active members of the Fund.

Under the Local Government Pension Scheme 1997 Regulations, Councillors were entitled to join the scheme. Legislation which came into force on 1 April 2014 meant the LGPS was only available to councillors and elected mayors of an English County Council or District Council who elected to join before 31 March 2014. From 1 April 2014 access to the LGPS for councillors was removed and those councillor members who were in the Scheme on the 31 March 2014 could only remain in the Scheme until the end of their current term of office. The remaining active councillor members were removed from the Scheme in May 2017 at the end of their individual office. All councillor members who sit on the Pension Fund Committee who joined the LGPS before 31 March 2014 are now either deferred or pensioner members of the Fund.

LGPS Central

LGPS Central (LGPSC) has been established to manage investment assets on behalf of nine Local Government Pension Scheme (LGPS) funds across the Midlands. It is jointly owned in equal shares by the eight administering authorities participating in the LGPSC Pool.

The Fund invested £1.315m in share capital and £0.685m in a loan to LGPSC in 2017/18. These remain the balances at 31 March 2021. The Fund was owed interest of £0.032m on the loan to LGPSC at 31 March 2021.

In addition, in March 2019, the Fund invested in the LGPSC Global Equity sub-fund. The Fund incurred direct costs totalling £1.294m in respect of this investment of which £0.007 was payable to LGPSC at 31 March 2021.

The Fund incurred costs totalling £0.562m in respect of Governance, Operator Running and Product Development in connection with LGPSC in 2020/21 of which £0.105m was payable to LGPSC at 31 March 2021.

21.a KEY MANAGEMENT PERSONNEL

The posts of Executive Director of Resources (s151 Officer and Scheme Administrator) and Head of Treasury and Pensions are deemed to be key management personnel with regards to the fund. The financial value of their relationship with the fund (in accordance with IAS24) is set out below:

	2020/21 £000	2019/20 £000
Short-term benefits*	111	108
Post employment benefits**	47	63
Total	158	171

* This is the Pension Fund's element of short term remuneration for key management personnel, i.e. annual salary, benefits in kind and employer contributions

** This is the change in value of accrued pension benefits, expressed as cash equivalent transfer value

22. CONTRACTUAL COMMITMENTS

The Fund has a 6% (£128 million) strategic asset allocation to Private Equity, and a 6.5% (£139 million) strategic asset allocation to Infrastructure. It is necessary to over commit the strategic asset allocation because some private equity and infrastructure investments will mature and be repaid before the committed capital is fully invested.

As at 31 March 2021 £267m has been committed to investment in private equity via a fund of funds manager, HarbourVest Partners. Investment in this asset class will be made as opportunities arise over the next 2-3 years. As at 31 March 2021 the fund's Private Equity investments totalled £180.438m.

As at 31 March 2021 £127m has been committed to investment in Infrastructure via Global Infrastructure Partners. Investment in this asset class will be made as opportunities arise over the next 2-3 years. As at 31 March 2021 the fund's Infrastructure investments totalled £69.301m.

The revised strategic asset allocation has only just been agreed by committee and this is the reason why the amount committed to investment in infrastructure is lower than the estimate based on strategic asset allocation.

23. CONTINGENT ASSETS

12 admitted body employers in the Shropshire County Pension Fund hold bonds to guard against the possibility of being unable to meet their pension obligations. These bonds are drawn in favour of the Pension Fund and payment will only be triggered in the event of employer default.

24. VALUE ADDED TAX

The Fund is reimbursed VAT by HM Revenue and Customs. The accounts are shown exclusive of VAT.

25. CUSTODY OF INVESTMENTS

Custodial Services are provided to the Fund by Northern Trust. This includes the safekeeping of assets, the collection of income, the exercise of voting rights and the monitoring and execution of corporate actions in conjunction with investment managers. The Custodian also provides independent confirmation of the assets and their value held by the Fund. Securities are held on a segregated basis via a nominee account and are clearly separated from the Custodian's own assets.

26. FUND AUDITORS

Grant Thornton has completed its audit in accordance with the Local Audit and Accountability Act 2014 and International Standards on Auditing (UK and Ireland) issued by the Auditing Practice Board. The Audit Certificate is published within this report.

27. PENSION FUND BANK ACCOUNT

Since April 2010 all income received for the Pension Fund has been paid into a separate pension fund bank account. The balance on this account is monitored daily and surplus cash balances invested and as at 31 March 2021 £3.5 million was invested. The cash balance in the Pension Fund account as at the same date was £0.245m.

28. FUND STRUCTURE UPDATE

In September 2017, an equity protection strategy was implemented with Legal & General, one of the Fund's existing managers. The strategy is currently being used to reduce equity risk while the Fund considers making allocations to other investments with £280 million of equities being protected at this time. The equity protection strategy was increased during 2018/19 to £580 million for a further period of 12-18 months expiring in 2020. This was funded by reducing the Fund's active global equity allocation. During March 2020, due to the fall in equity markets due to the global pandemic, a further £70 million of equity protection was implemented with Legal and General which expires in June 2021. Due to the strong bounce back in equity markets during 2020/21, a decision was made to reduce the options expiring in December 2020 from £300 million to £215 million and to just protect US equities where valuations were still very high. In May 2021, the £140 million options expiring in June 2021 were terminated again because of the strong bounce back in equity markets and because of the approval of the revised strategic asset allocations in March 2021. The remaining equity protection expires in September & December 2021 and a decision will be made later in the year on these.

In March 2019, the first assets transferred from the Shropshire Fund to LGPS Central, the mandates with MFS, Harris & Investec were terminated and funds of £237 million transitioned into the active global equity sub-fund with LGPS Central. The value of these assets as at 31 March 2021 was £318 million. Further assets are expected to transfer during 2021/22 when new funds are launched, these include Infrastructure, targeted return, private debt, private equity and sustainable equities.

In May 2020, the Fund committed to the next HarbourVest fund, HIPEP Fund IX. The total Fund commitment over the life of HIPEP IX is \$20 million. The fund is still in the early capital commitment stage and no funds have been drawn down to date.

During the financial year, the Fund invested \$5 million into the new Global Infrastructure Partners IV fund. The total Fund commitment over the life of GIP IV is \$75 million.

In May 2020, following agreement with the Chair and Scheme Administrator a redemption request was submitted to PIMCO. Funds from the PIMCO PARS IV fund were repaid in full and invested in the PIMCO Global Libor Plus Bond Fund in October 2020.

Pension Fund Accounts

SHROPSHIRE COUNTY PENSION FUND

Accounts for the year ended 31 March 2021 Statement by the Consulting Actuary

This statement has been provided to meet the requirements under Regulation 57(1)(d) of The Local Government Pension Scheme Regulations 2013.

An actuarial valuation of the Shropshire County Pension Fund was carried out as at 31 March 2019 to determine the contribution rates with effect from 1 April 2020 to 31 March 2023.

On the basis of the assumptions adopted, the Fund's assets of £1,915 million represented 94% of the Fund's past service liabilities of £2,047 million (the "Solvency Funding Target") at the valuation date. The deficit at the valuation was therefore £132 million.

The valuation also showed that a Primary contribution rate of 16.6% of pensionable pay per annum was required from employers. The Primary rate is calculated as being sufficient, together with contributions paid by members, to meet all liabilities arising in respect of service after the valuation date.

The funding objective as set out in the FSS is to achieve and maintain a solvency funding level of 100% of liabilities (the solvency funding target). In line with the FSS, where a shortfall exists at the effective date of the valuation a deficit recovery plan will be put in place which requires additional contributions to correct the shortfall.

The FSS sets out the process for determining the recovery plan in respect of each employer. At this actuarial valuation the average recovery period adopted is 19 years, and the total initial recovery payment (the "Secondary rate" for 2021-2022) is an addition of approximately £10m per annum on average in £ terms (which allows for the contribution plans which have been set for individual employers under the provisions of the FSS), although this varies year on year.

Pension Fund Accounts

Further details regarding the results of the valuation are contained in the formal report on the actuarial valuation dated 31 March 2020.

In practice, each individual employer's position is assessed separately and the contributions required are set out in the report. In addition to the certified contribution rates, payments to cover additional liabilities arising from early retirements (other than ill-health retirements) will be made to the Fund by the employers.

The funding plan adopted in assessing the contributions for each individual employer is in accordance with the Funding Strategy Statement (FSS). Any different approaches adopted, e.g. with regard to the implementation of contribution increases and deficit recovery periods, are as determined through the FSS consultation process.

The valuation was carried out using the projected unit actuarial method and the main actuarial assumptions used for assessing the Solvency Funding Target and the Primary rate of contribution were as follows:

	For past service liabilities (Solvency Funding Target)	For future service liabilities (Primary rate of contribution)
Rate of return on investments (discount rate)	4.25% per annum	4.65% per annum
Rate of pay increases (long term)	3.65% per annum	3.65% per annum
Rate of increases in pensions in payment (in excess of GMP)	2.4% per annum	2.4% per annum

The assets were assessed at market value.

The next triennial actuarial valuation of the Fund is due as at 31 March 2022, following which the contribution rates payable by the individual employers will be revised with effect from 1 April 2023.

The McCloud Judgment

The "McCloud judgment" refers to a legal challenge in relation to historic benefit changes for all public sector schemes being age discriminatory. The Government has accepted that remedies are required for all public sector pension schemes and a consultation was issued in July 2020 including a proposed remedy for the LGPS. The key feature of the proposed remedy was to extend the final salary underpin to a wider group of members for service up to 31 March 2022. This applies to all members who were active on or before 31 March 2012 and who either remain active or left service after 1 April 2014 .

In line with guidance issued by the LGPS Scheme Advisory Board, the above funding level and Primary contribution rate do not include an allowance for the estimated cost of the McCloud judgment (other than where the employer has elected to include a provision in their contributions, in which case this is included within the secondary rate). At the overall Fund level we estimate that the cost of the judgment could be an increase in past service liabilities of

Pension Fund Accounts

broadly £12 million and an increase in the Primary Contribution rate of 0.8% of Pensionable Pay per annum.

Impact of COVID-19

The valuation results and employer contributions above were assessed as at 31 March 2019. In 2020 and 2021 we have so far seen significant volatility and uncertainty in markets around the world in relation to the COVID-19 pandemic. This potentially has far-reaching consequences in terms of funding and risk, which will need to be kept under review. We believe that it is important to take stock of the situation as opposed to make immediate decisions in what is an unprecedented set of events. Our view is that employer contributions should not be revisited as a general rule but the Administering Authority is consulting on updates to the Funding Strategy Statement which will allow the Fund to review contributions between valuations where there is a material change in employer covenant or liabilities, in line with the new regulations on contribution flexibilities introduced in September 2020. The position will be kept under review by the Administering Authority who will monitor the development of the situation and keep all stakeholders informed of any potential implications so that the outcome can be managed effectively.

Actuarial Present Value of Promised Retirement Benefits for the Purposes of IAS 26

IAS 26 requires the present value of the Fund's promised retirement benefits to be disclosed, and for this purpose the actuarial assumptions and methodology used should be based on IAS 19 rather than the assumptions and methodology used for funding purposes.

To assess the value of the benefits on this basis, we have used the following financial assumptions as at 31 March 2021 (the 31 March 2020 assumptions are included for comparison):

	31 March 2020	31 March 2021
Rate of return on investments (discount rate)	2.4% per annum	2.1% per annum
Rate of CPI Inflation / CARE benefit revaluation	2.1% per annum	2.7% per annum
Rate of pay increases	3.35% per annum	3.95% per annum
Rate of increases in pensions in payment (in excess of GMP) / Deferred revaluation	2.2% per annum	2.8% per annum

The demographic assumptions are the same as those used for funding purposes. Full details of these assumptions are set out in the formal report on the actuarial valuation dated March 2020. During the year corporate bond yields decreased, resulting in a lower discount rate being used for IAS26 purposes at the year-end than at the beginning of the year (2.1% p.a. vs 2.4% p.a.). In addition, the expected long-term rate of CPI inflation increased during the year, from 2.1% p.a. to 2.7% p.a. Both of these factors served to increase the liabilities over the year.

The value of the Fund's promised retirement benefits for the purposes of IAS 26 as at 31 March 2020 was estimated as £2,922 million including the potential impact of the McCloud Judgment. Interest over the year increased the liabilities by c£69 million, and allowing for net benefits accrued/paid over the period also increased the liabilities by c£9 million (this includes any

Pension Fund Accounts

increase in liabilities arising as a result of early retirements/augmentations). There was also an increase in liabilities of £408 million due to “actuarial losses” (i.e. the effects of the changes in the actuarial assumptions used, referred to above, offset to a small extent by the fact that the 2021 pension increase award was less than assumed).

The net effect of all the above is that the estimated total value of the Fund’s promised retirement benefits as at 31 March 2021 is therefore £3,408 million.

GMP Indexation

The public service schemes were previously required to provide full CPI pension increases on GMP benefits for members who reach State Pension Age between 6 April 2016 and 5 April 2021. The UK Government has recently confirmed that it will extend this to include members reaching State Pension Age from 6 April 2021 onwards. This will give rise to a further cost to the LGPS and its employers, and an estimation of this cost was included within the IAS26 liabilities calculated last year and is again included in the overall liability figure above.

Pension Fund Accounts

Independent auditor's report to the members of Shropshire Council on the pension fund financial statements of Shropshire Pension Fund – Report awaited

Section 10
Glossary

Glossary

Accountable Body	An accountable body receives external funding and is responsible for the financial management of these funds, therefore the accountable body must ensure that robust accounting and performance management arrangements are in place with regard to the distribution and spending of these funds.
Accounting Concepts	The basis on which an organisation's financial statements are based to ensure that those statements 'present fairly' the financial position and transactions of that organisation. Accounting concepts include 'materiality', 'accruals', 'going concern' and 'primacy of legislative requirements'.
Accounting Policies	The principles, bases, conventions, rules and practices applied by an organisation that specify how the effects of transactions and other events are to be reflected in its financial statements.
Accumulated Absences Account	The Accumulated Absences Account absorbs the differences that would otherwise arise on the General Fund Balance from accruing for compensated absences earned but not taken in the year, e.g. annual leave entitlement carried forward at 31 March. Statutory arrangements require that the impact on the General Fund Balance is neutralised by transfers to or from the Account.
Accruals	The accruals accounting concept requires the non-cash effect of transactions to be included in the financial statement for the year in which they occur, not in the period in which the cash is paid or received.
Actuarial Basis	The estimation technique applied when estimating the liabilities to be recognised for defined benefit pension schemes in the financial statements of an organisation.
Actuarial Gain	This may arise on defined benefit pension scheme liabilities and assets. A gain represents a positive difference between the actuarial assumptions and actual experience (e.g. liabilities during the period were lower than estimated).
Actuarial Loss	These may arise on defined benefit pension scheme liabilities and assets. A loss represents a negative difference between the actuarial assumptions and actual experience (e.g. liabilities during the period were higher than estimated).

Glossary

Adjusted Capital Financing Requirement	The value of the Capital Financing Requirement after it has been adjusted by the value of Adjustment A.
Adjustment A	The difference between the Council's Credit Ceiling and Capital Financing Requirement to ensure that the impact of the Prudential Code (effective from 1 April 2004) is neutral on the Council's revenue budget. Once calculated the figure is fixed.
Appropriation	The transfer of sums to and from reserves, provisions and balances.
Assets	These are economic resources that can include anything tangible or intangible that is capable of being owned or controlled to produce value and that is held to have positive economic value.
Associated Company	<p>An organisation in which the Council has a participating interest and over which it can exercise significant influence without support from other participants in that organisation (e.g. other board members etc.).</p> <p>The exercise of significant influence occurs when one organisation is actively involved and is influential in the direction of another organisation through its participation in policy decisions including decisions on strategic issues. A holding of 20% or more of the voting rights of an organisation is generally recognised as being a significant influence.</p>
Balances	Amounts set aside to meet future expenditure but not set aside for a specific purpose.
Balance Sheet	The financial statement that reports the financial position of an organisation at a point in time, for Shropshire Council this is the 31 st March. It shows the balances and reserves at the Council's disposal, long term liabilities and the fixed and net current assets employed in its operations, together with summarised information on the non-current assets held.
Below the Line Items	Items that are notionally allocated to services to arrive at the "Net Cost of Service". Below the line items include depreciation and IAS19 pension costs.
Bonds	Investment in certificates of debts issued by a Government or company. These certificates represent loans which are repayable at a future date with interest.

Glossary

Borrowing	Loans from the Public Works Loans Board and the money markets which finance the capital programme of the Council.
Budget	The financial plan reflecting the Council's policies and priorities over a period of time i.e. what the Council is going to spend to provide services. This is the end product of a budget strategy.
Budget Strategy	A plan of how the Council is going to meet its policies and priorities, taking account of the resources available to the Council. This will include proposals for efficiency savings and possibly service changes and/or cuts, which may free resources to spend on other policies and priorities.
Cabinet	The group of members (local councillors) that provide the executive function of the Council within the policy parameters set by Council. This group of members is able to exercise considerable control over the Council. Its decision-making powers are set out in the Council's Constitution.
Capital Adjustment Account	<p>The Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets under statutory provision.</p> <p>The Account contains accumulated gains and losses on Investment Properties and gains recognised on donated assets that have yet to be consumed by the Council.</p> <p>The Account also contains revaluation gains accumulated on Property, Plant and Equipment before 1 April 2007, the date that the Revaluation Reserve was created to hold such gains.</p>
Capital Expenditure	Expenditure on items that have a life of more than one year, such as buildings, land, major equipment.
Capital Financing Requirement (CFR)	This sum represents the Council's underlying need to borrow for capital purposes. It is calculated by summing all items on the balance sheet that relate to capital expenditure, e.g. non-current assets, financing leases, Government grants deferred etc. The CFR will be different to the actual borrowing of the Council as actual borrowing will relate to both capital and revenue activities and it is not possible to separate these sums. This figure is then used to calculate the Council's Minimum Revenue Provision.

Glossary

Capital Grants Unapplied	The Capital Grants Unapplied Account holds the grants and contributions received towards capital projects for which the Council has met the conditions that would otherwise require repayment of the monies but which have yet to be applied to meet expenditure. The balance is restricted by grant terms as to the capital expenditure against which it can be applied and/or the financial year in which this can take place.
Capital Receipts	The proceeds from the sale of non-current assets such as land and buildings. These sums can be used to finance new capital expenditure.
Capital Receipts Reserve	The Capital Receipts Reserve holds the proceeds from the disposal of land or other assets, which are restricted by statute from being used other than to fund new capital expenditure or to be set aside to finance historical capital expenditure. The balance on the reserve shows the resources that have yet to be applied for these purposes at the year end.
Capitalised Expenditure	Represents expenditure on assets. This expenditure is reflected in the value of assets that are reported in the Balance Sheet and will result in increased depreciation costs to the Income and Expenditure Account.
Cash Equivalents	Cash equivalents are short-term, highly liquid investments that are readily convertible to known amounts of cash and which are subject to an insignificant risk of changes in value.
Cash Flow Statement	The financial statement that summarises the Council's inflows and outflows of cash arising from transactions with third parties for revenue and capital purposes.
Code of Practice on Local Authority Accounting (Code)	A publication produced by CIPFA that provides comprehensive guidance on the content of a Council's Statement of Accounts.
Collection Fund	A separate statutory fund which records Council Tax and Non-Domestic Rates collected, together with payments to precepting authorities (e.g. Police Authorities, Fire Authorities etc.), NDR distribution to Central Government and the billing Council's own General Fund.

Glossary

Collection Fund Adjustment Account	The Collection Fund Adjustment Account manages the differences arising from the recognition of council tax and non-domestic rates income in the Comprehensive Income and Expenditure Statement as it falls due from council tax payers compared with the statutory arrangements for paying across amounts to the General Fund from the Collection Fund.
Comprehensive Income and Expenditure Statement	This is fundamental to the understanding of a Council's activities. It brings together all of the functions of the Council and summarises all of the resources that the Council has generated, consumed or set aside in providing services during the year. As such, it is intended to show the true financial position of the Council, before allowing for the concessions provided by statute to raise Council Tax according to different rules and for the ability to divert particular expenditure to be met from capital resources.
Constitution	The document that sets out how the Council operates, how decisions are made and the procedures which are followed to ensure that the Council is efficient, transparent and accountable to local people.
Contingent Liability	Potential costs that the Council may incur in the future because of something that happened in the past.
Corporate Bonds	Investments in certificates of debt issued by a company. These certificates represent loans which are repayable at a future date with interest.
Council	The Council comprises all of the democratically elected Councillors who represent the various electoral divisions.
Council Tax	A local taxation that is levied on dwellings within the local Council area. The actual level of taxation is based on the capital value of the property, which is split into 8 bands from A to H, and the number of people living in the dwelling.
Council Tax Base	To set the Council Tax for each property a Council has to first of all calculate the council tax base. This is a figure that is expressed as the total of band D equivalent properties. The total amount to be raised from Council Tax is divided by this figure to determine the level of tax for a band D property. The level of tax for the other bands of property are calculated by applying a predetermined ratio to the band D figure.

Glossary

Council Tax Precept	The amount of income due to the Council in respect of the total Council Tax collected.
Credit	A credit represents income to an account.
Credit Ceiling	A term from the old Local Authority capital expenditure system, the credit ceiling represented the Council's total debt outstanding after taking account of sums set aside to repay borrowing.
Creditors	Represents the amount that the Council owes other parties.
Debit	A debit represents expenditure against an account.
Debt Charges	This represents the interest payable on outstanding debt.
Debtors	Represents the amounts owed to the Council.
Dedicated Schools Grant (DSG)	A specific grant paid to Local Authorities to fund the cost of running its schools.
Dedicated Schools Grant (DSG) Adjustment Account	The Dedicated Schools Grant (DSG) Adjustment Account holds any DSG deficit separately from the Council's General Fund.
Deferred Capital Receipts Reserve	The Deferred Capital Receipts Reserve holds the gains recognised on the disposal of non-current assets but for which cash settlement has yet to take place. Under statutory arrangements, the Council does not treat these gains as usable for financing new capital expenditure until they are backed by cash receipts.
Deficit	Arises when expenditure exceeds income or when expenditure exceeds available budget.
Depreciation	The accounting term used to describe the charge made representing the cost of using tangible non-current assets. The depreciation charge for the year will represent the amount of economic benefits consumed in the period, e.g. due to wear and tear over time.
Direct Revenue Financing	The cost of capital projects that is charged against revenue budgets.

Glossary

Equities	Ordinary shares in UK and overseas companies traded on a stock exchange. Shareholders have an interest in the profits of the company and are entitled to vote at shareholder's meetings.
Estimation Techniques	The methods adopted by an organisation to arrive at estimated monetary amounts, corresponding to the measurement bases selected for assets, liabilities, gains, losses and changes in reserves.
Exceptional Item	Material Items which derive from events or transactions that fall within the ordinary activities of the council and which need to be disclosed separately by virtue of their size or incidence to give fair presentation of the accounts.
Finance Lease	A lease that transfers substantially all of the risks and rewards of ownership of a non-current asset to the lessee. The payments usually cover the full cost of the asset, together with a return for the cost of finance.
Financial Instruments	Financial instruments are formally defined in the Code as contracts that give rise to a financial asset of one entity and a financial liability or equity instrument of another entity. The definition is a wide one, it covers the treasury management activity of the Council, including the borrowing and lending of money and the making of investments. However, it also extends to include such things as receivables and payables and financial guarantees.
Financial Instruments Adjustment Account	The Financial Instruments Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for income and expenses relating to certain financial instruments and for bearing losses or benefitting from gains per statutory provisions. The Council uses the Account to manage premiums paid on the early redemption of loans. Over time, the expense is posted back to the General Fund Balance in accordance with statutory arrangements for spreading the burden on council tax.
Fixed Interest Securities	Investments in mainly Government but also company stocks, which guarantee a fixed rate of interest. The securities represent loans which are repayable at a future date but which can be traded on a recognised stock exchange before the repayment date.

Glossary

Futures	A contract made to purchase or sell an asset at an agreed price on a specified future date.
General Fund Balance	<p>The General Fund is the statutory fund into which all the receipts of a Council are required to be paid and out of which all liabilities of the Council are to be met, except to the extent that statutory rules might provide otherwise.</p> <p>The General Fund Balance is the reserve held by the Council for general purposes, i.e. against which there are no specific commitments. That said it is prudent and sensible for these sums to be treated as a contingency to protect the Council's financial standing should there be any financial issues in the year.</p>
Going Concern	The going concern accounting concept assumes that the organisation will not significantly curtail the scale of its operation in the foreseeable future.
Group Accounts	Where a Council has an interest in another organisation (e.g. a subsidiary organisation) group accounts have to be produced. These accounts report the financial position of the Council and all organisations in which it has an interest.
Hedge Funds	An investment fund that uses sophisticated investment strategies to profit from opportunities on financial markets around the world. These strategies include borrowing money to make investment, borrowing shares in order to sell them and profiting from company mergers.
Heritage Assets	These are tangible assets with historical, artistic, scientific, technological, geophysical or environmental qualities that are held and maintained by the Council principally for their contribution to knowledge and culture.
Housing Revenue Account	The Housing Revenue Account reflects the statutory obligation to maintain a revenue account for the local authority council housing provision in accordance with Part VI of the Local Government and Housing Act 1989. This account includes the revenue costs of providing, maintaining and managing Council dwellings are charged. These costs are financed by tenants' rents and government housing subsidy.

Glossary

Impairment	Impairment of an asset is caused either by a consumption of economic benefits e.g. physical damage (e.g. fire at a school) or a deterioration in the quality of the service provided by the asset (e.g. a library closing and becoming a storage facility), or by a general fall in prices of that particular asset or type of asset.
Index Linked Securities	Investments in Government stock that guarantee a rate of interest linked to the rate of inflation. These securities represent loans to Government which can be traded on recognised stock exchanges.
Inflow	This represents cash coming into the Council.
International Financial Reporting Standards (IFRS)	International Financial Reporting Standards are issued by the International Accounting Standards Board (IASB) to develop a single set of financial reporting standards for general purpose financial statements.
Investments	An asset which is purchased with a view to making money by providing income, capital appreciation or both.
Joint Venture	An organisation in which the Council is involved where decisions require the consent of all participants.
JPUT	A Jersey Property Unit Trust is a specific type of Jersey Trust which is commonly used to acquire and hold interest in UK real estate. The assets of the JPUT are held by its trustees on trust for the unitholders of the JPUT.
LDI	Liability driven investment (LDI) strategies aim to enable pension funds to reduce risk and improve funding levels by reducing volatility over time. Because the value of future pension payments is directly linked to inflation, interest rates and the longevity of Fund members, Funds have sought investments linked to such factors.
Leases	A method of funding expenditure by payment over a defined period of time. An operating lease is similar to renting, the ownership of the asset remains with the lessor and the transaction does not fall within the capital control system. Finance leases are more akin to borrowing and do fall within the capital system.

Glossary

Liabilities	An obligation to transfer economic benefits. Current liabilities are usually payable within one year.
Liquid Resources	These are resources that the Council can easily access and use, e.g. cash or investments of less than 365 days.
Major Repairs Reserve	The Council is required to maintain the Major Repairs Reserve, which controls an element of the capital resources limited to being used on capital expenditure on HRA assets or the financing of historical capital expenditure by the HRA. The balance shows the capital resources that have yet to be applied at the year end.
Managed Funds	A type of investment where a number of investors pool their money into a fund which is then invested by a fund manager.
Materiality	Materiality is an expression of the relative significance or importance of a particular matter in the context of the financial statements as a whole. A matter is material if its omission would reasonably influence the reader of the accounts. Materiality has both quantitative and qualitative aspects.
Minimum Revenue Provision (MRP)	A minimum amount, set by law, which the Council must charge to the income and expenditure account, for debt redemption or for the discharge of other credit liabilities (e.g. finance lease).
Movement in Reserves Statement	This provides a reconciliation showing how the balance of resources generated/consumed in the year links in with statutory requirements for raising Council Tax.
Non Domestic Rates (NDR)	Taxation that is levied on business properties. This is collected by billing authorities and then distributed to preceptors and Central Government.
Net Book Value	The amount at which non-current assets are included in the balance sheet. It represents historical cost or current value less the cumulative amounts provided for Depreciation or Impairment.
Net Expenditure	The actual cost of a service to an organisation after taking account of all income charged for services provided.

Glossary

Net Cost of Service	The actual cost of a service to an organisation after taking account of all income charged for services provided. The net cost of service includes the cost of depreciation relating to non-current assets.
Non-Current Assets	Tangible assets that yield benefits to the Council for a period of more than one year, examples include land, buildings and vehicles.
Operating Lease	A lease where the asset concerned is returned to the lessor at the end of the period of the lease.
Outflow	This represents cash going out of the Council.
Outturn	Actual expenditure within a particular year. In the Explanatory Foreword this expenditure is stated before taking into account Depreciation and other Below the Line Items.
Pension Reserve	The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post employment benefits and for funding benefits in accordance with statutory provisions. Statutory arrangements require benefits earned to be financed as the Council makes employer's contributions to pension funds or eventually pays any pensions for which it is directly responsible. The debit balance on the Pensions Reserve therefore shows a substantial shortfall in the benefits earned by past and current employees and the resources the Council has set aside to meet them. The statutory arrangements will ensure that funding will have been set aside by the time the benefits come to be paid.
Post Balance Sheet Event	Those events both favourable and unfavourable, that occur between the Balance Sheet date and the date on which the Statement of Accounts is signed by the Responsible Financial Officer.
Precept	The amount levied by the various joint authorities (e.g. police and fire authorities) which is collected by the council on their behalf. A body which can set a precept is called a preceptor.
Primacy of Legislation	The accounting concept primacy of legislation applies when accounting principles and legislative requirements are in conflict, in such an instance the latter shall apply.

Glossary

Prior Period Adjustments	These are material adjustments relating to prior year accounts that are reported in subsequent years and arise from changes in accounting policies or from the correction of fundamental errors.
Private Finance Initiative (PFI)	A Government initiative that enables, through the provision of financial support, Authorities to carry out capital projects through partnership with the private sector.
PFI Credits	The financial support provided to Local Authorities to part fund PFI capital projects.
Provisions	Provisions represent sums set aside to meet specific future expenses which are likely or certain to be incurred, as a result of past events, where a reliable estimate can be made of the amount of the obligation.
Prudence	This accounting concept requires that revenue is not anticipated until realisation can be assessed with reasonable certainty. Provision is made for all known liabilities whether the amount is certain or can only be estimated in light of the information available.
Prudential Borrowing	The amount of borrowing undertaken by the Council to fund capital expenditure, in line with affordable levels calculated under the Prudential Code.
Prudential Code	The Government removed the extensive capital controls on borrowing and credit arrangements from 2004/05 and replaced them with a Prudential Code under which each Council determines its own affordable level of borrowing. The Prudential Code requires authorities to set specific prudential indicators e.g. affordable borrowing limit on an annual basis.
Public Works Loans Board (PWLB)	A Government agency providing long and short term loans to local authorities at interest rates only slightly higher than those at which Government itself can borrow.
Public Sector Bonds	Investments in certificates of debt issued by Government. These represent loans to Governments which are tradable on recognised stock exchanges.

Glossary

Revaluation Reserve	<p>The Revaluation Reserve contains the gains made by the Council arising from increases in the value of its Property, Plant and Equipment. The balance is reduced when assets with accumulated gains are revalued downwards or impaired and the gains are lost, used in the provision of services and the gains are consumed through depreciation, or disposed of and the gains are realised.</p> <p>The Reserve contains only revaluation gains accumulated since April 2007, the date that the Reserve was created. Accumulated gains arising before that date are consolidated into the balance on the Capital Adjustment Account.</p>
Revenue Expenditure	<p>Expenditure on the day to day running costs of the Council, such as salaries, wages, utility costs, repairs and maintenance.</p>
Revenue Expenditure Funded By Capital Under Statute	<p>Expenditure incurred during the year that may be capitalised under statutory provisions and does not result in the creation of non-current assets.</p>
Revenue Support Grant (RSG)	<p>An amount of money that Central Government makes available to Local Authorities to provide the services that it is responsible for delivering.</p>
Reserves	<p>Sums are set aside in reserves for specific future purposes rather than to fund past events.</p>
Service Reporting Code of Practice (SERCOP)	<p>Provides guidance to local authorities on financial reporting to stakeholders. It establishes 'proper practice' with regard to consistent financial reporting, which allows direct comparisons to be made with the financial information published by other local authorities.</p>
Soft Loan	<p>This is a loan which is provided with a below-market rate of interest.</p>
Specific Grant	<p>A grant awarded to a Council for a specific purpose or service that cannot be spent on anything else.</p>
Subsidiary	<p>An organisation that is under the control of the Council (e.g. where the Council controls the majority of voting rights, etc.)</p>
Surplus	<p>Arises when income exceeds expenditure or when expenditure is less than available budget.</p>

Glossary

Trading Service/Organisation	A service run in a commercial style and environment, providing services that are mainly funded from fees and charges levied on customers.
Treasury Strategy	A plan outlining the Council's approach to treasury management activities. This includes setting borrowing and investment limits to be followed for the following year.
Unit Trusts	A pooled Fund in which small investors can buy and sell units. The pooled Fund then purchases investments, the returns on which are passed on to the unit holders. It enables a broader spread of investments than investors could achieve individually.
Unquoted Equity Investment	Investments in unquoted securities such as shares, debentures or unit trusts which are not quoted or traded on a stock market.
Usable Capital Receipts Reserve	Represents the resources held by the Council that have arisen from the sale of non-current assets that are yet to be spent on other capital projects.
Usable Reserves	Reserves that can be applied to fund expenditure or reduce local taxation, all other reserves retained on the balance sheet cannot.
Variation	The difference between budgeted expenditure and actual outturn, also referred to as an over or under spend.
Virement	The transfer of resources between two budgets, such transfers are governed by financial rules contained within the Constitution.
