

Health and Wellbeing Board

Meeting Date: 14th November 2019

HWBB Joint Commissioning Report – Health & Wellbeing Board ‘Place Based Working and Priority Setting’ Workshop

Responsible Officer: Val Cross, Health and Wellbeing Officer/Healthy Lives Co-ordinator

Email: val.cross@shropshire.gov.uk

1.0 Summary

- 1.1 A half-day Health & Wellbeing Board (HWBB) workshop was held on the 22nd October 2019, for which the focus was ‘Place Based Working and Priority Setting’. The workshop was well attended by HWBB members across the system, and excellent discussions took place. Everyone present agreed however, that a further workshop to discuss, agree and conclude the interventions and outcomes as a system was necessary.
- 1.2 A final workshop has been arranged for the 5th December and the outcome of this will be reported back to the HWBB.
- 1.3 This brief report describes the format of the workshop and a summary of key discussion points.

2.0 Recommendations

- 2.1 That the Board notes this report.

REPORT

3.0

- 3.1 The aims of the workshop were:
 - To discuss and agree the role of the Health & Wellbeing Board in place based care/working, drawing in the 10 areas of the STP, Long Term Plan and cross-pollinating good practice happening across both
 - Use intelligence from the JSNA to agree ongoing priorities
 - Embed agreed priorities from the workshop in the refreshed Health & Wellbeing Strategy
- 3.2 The outcome of the workshop was that the role of the Board in place based care/working and priorities would be agreed, and embedded in the refreshed Health & Wellbeing Strategy
- 3.3 The workshop had preliminary presentations which included:
 - Health & Wellbeing Board responsibilities, current priorities and strategy
 - Joint Strategic Needs Assessment (JSNA)
 - Healthy Lives
 - Shropshire Integrated Place Based Working model

- 3.4 Large group discussion followed and general opinion was that it was difficult to hone in on specific health areas, as they are generally interlinked. However key themes emerged (but were not finalised as final priorities) which were;
- 3.2.1 *Workforce*: including elements such as: a healthy informed workforce, who have an awareness of prevention and looking at embedding behaviour change (a technique which help to put people back in control of their own lives, through making positive choices around their own health and wellbeing).
- 3.2.2 *Children and young people*: Adverse Childhood Experiences (ACE); starting early and building ambition.
- 3.2.3 *Weight Management/Diabetes*: The increase in adults who are overweight/obese is rising.
- 3.2.4 Other points raised and discussed included: the role of the VCSE as a core element of our system; the wider determinants of health, which are broader than just health and social care to make a difference, such as the use of green spaces, planning policy and housing; the importance of meeting the needs of seldom heard groups and those of the nine protected characteristics; and how Place Based Working and Priority Setting is part of developing our integrated working, trusting, developing and designing collectively.

4.0 Risk Assessment and Opportunities Appraisal

(NB This will include the following: Risk Management, Human Rights, Equalities, Community, Environmental consequences and other Consultation)

There are no Human Rights, Environmental Consequences, Community or Equality issues identified with the provision of these updates.
