

CABINET 7 JUNE 2023

PUBLIC QUESTIONS

Dr Alison Caffyn

How will the Council, its Planning and Regulatory Services Departments and Ecologist take into account the recent ruling of the Planning Inspector into the Footbridge Farm intensive poultry unit (IPU) planning appeal at Tasley, Bridgnorth (APP/L3245/W/21/3289216, 5 May 2023)?

In particular, how will they respond to the inspector's conclusion that the odour and air quality modelling by AS Modelling and Data, which has been and continues to be used to support many IPU applications across the county, cannot be relied upon?

Victoria Moore

I would like to submit a question regarding the play park on the Sutton grange estate in Shrewsbury.

I am running for local councillor for Sutton area in the next local election, I am also a former resident of Sutton grange estate for almost 4 years moving in June last year. When we moved in in 2018 to Sutton grange the site plan showed a play park at the end of Murrell way near the pump station.

It has been 5 years now since we were told there would be one and 3years prior for other residents before me, but still no play park.

The area for the park has been marked out, but no work has started and the builders have now left the site, as all other work is now complete. Is anyone due back to install the park ??

I have attached of the site plan which shows the park and also the area marked out which I took last night (Tuesday 30th May)
