WEST MERCIA ENERGY JOINT COMMITTEE

FINANCIAL SUMMARY **FOR THE YEAR 2025/26**

Introduction

This document is the Statement of Accounts for West Mercia Energy Joint Committee. It covers the financial year 1 April 2025 to 31 March 2026 and shows the organisation's financial position at the year end together with the trading income and expenditure figures that have been produced throughout the period.

The Statements

Narrative Report

This provides an effective guide to the most significant matters reported in the accounts, including an explanation of the financial position and details the performance during the financial year.

Statement of Responsibilities and Joint Committee Approval

This section deals with the financial responsibilities of the Joint Committee and the Treasurer to the Joint Committee and confirms the date when the Joint Committee approved the accounts.

Movement in Reserves Statement

This statement shows the movement in the year on the different reserves held by the Joint Committee.

Comprehensive Income and Expenditure Statement

This account summarises the annual income and expenditure of the trading operations to show the organisation's net surplus for the year.

Balance Sheet

This sets out the financial position of the Joint Committee as at the year end 31 March 2026.

The Cash Flow Statement

This summarises the inflows and outflows of cash arising from the day to day transactions of the organisation.

Narrative report 2025/26

Organisational Overview

West Mercia Energy Joint Committee is a purchasing consortium established as a Joint Committee under s.101 of the Local Government Act 1972 and comprises of four Member Authorities:

- Herefordshire Council
- Shropshire Council
- Telford & Wrekin Council
- Worcestershire County Council

Each Member Authority appoints two of their Elected Members to serve on the Joint Committee, each with voting rights. The Joint Committee is delegated with the operation and management of the organisation and is responsible for the discharge of the functions of the Member Authorities.

Governance

Certain professional services are provided for Joint Committee including:

- Financial Advice
The Member Authorities have appointed Shropshire Council as Treasurer.
- Legal Advice
The Member Authorities have appointed Shropshire Council as Secretary.

The Treasurer and the Secretary liaise with officers of Member Authorities so that they comply with their responsibilities under s.5 of the Local Government and Housing Act 1989 and s.151 of the Local Government Act 1972.

The review of the effectiveness of the system of internal control is informed by the work of the internal auditors and the officers within the organisation who have responsibility for the development and maintenance of the internal control environment. On the basis of the work undertaken and management responses received the Head of Policy & Governance at Shropshire Council was able to deliver a substantial year end opinion on West Mercia Energy's internal control environment for 2025/26 confirming that the organisation's governance, risk management and internal control processes were sound and working effectively.

Risks and Opportunities

The WME Risk Management Strategy is approved annually by the Joint Committee and a detailed risk register is maintained. The risk register is kept under constant review and all risks which have been classified as medium or high are reported to the Joint Committee at each meeting.

Performance and Outlook

Effective management of the WME trading strategy resulted in rates for 2025/26 being lower than the previous year, supporting customers to balance their budgets. This was the main reason for the 10% decline in sales, with the unusually warm weather within the year further reducing demand, particularly for gas. Furthermore, through this effective management of trading within the year at levels below the sales cap, this allowed £1m in credits to be returned to customers in June.

Looking ahead to 2026/27, gas rates issued were again lower, while electricity prices saw only modest increases. The rise in electricity prices was driven by continued growth in non-commodity costs as the UK Government advanced its Clean Power 2030 agenda. Geopolitical events, particularly in the Middle East, were the main market driver during the year, especially in March, and continued to influence the market after the year end.

Customer retention remained strong, with all major external contracts retained during the year and exceptionally high retention across smaller contracts. Growth also continued in the education sector, with several Multi-Academy Trusts joining the WME portfolio. In addition, Liverpool City Council joined WME on 1st April 2026, further expanding the WME customer base.

During the year, several system enhancements were introduced to benefit both WME internally and clients. These enhancements included a new trading platform, benchmarking for schools within the myWME customer portal, and improved KPI reporting for key customers. In addition, 2025/26 was the second year of delivering the new Social Value Strategy, through which more than 100 projects were supported, with contributions totalling approximately £95k over the two year period.

The net operating surplus of £2.192 million, was slightly above the 2024/25 result of £1.969 million and ahead of budget for the year. Overall, this was an excellent outcome for the business while still offering competitive rates to customers.

With regards the levels of short-term debtors and creditors held at the year end, these have fallen broadly in line with the turnover levels. Positive bank balances have been held through the financial year which reflects the continued excellent financial stewardship within the business.

The organisation has been considered as a going concern with a strong Business Plan in place for 2026/27, continued positive cash positions held with both supplier and customer contracts in place beyond March 2027.

STATEMENT OF RESPONSIBILITIES AND JOINT COMMITTEE APPROVAL

Responsibilities of West Mercia Energy Joint Committee

West Mercia Energy Joint Committee is required:

- to make arrangements for the proper administration of its financial affairs and to secure that one of its officers has the responsibility for the administration of those affairs. In this organisation, that officer is the Treasurer to the Joint Committee. Day to day financial management is the responsibility of the Director. The Director is also responsible for:
 - i. keeping proper accounting records, which are up to date.
 - ii. taking reasonable steps for the prevention and detection of fraud and other irregularities.
- to manage its affairs to secure economic, efficient and effective use of resources and to safeguard its assets.
- to approve the Statement of Accounts.

Responsibilities of the Treasurer to the Joint Committee

The Treasurer to the Joint Committee, with support from the Director, is responsible for the preparation of West Mercia Energy Joint Committee Statement of Accounts which, in terms of the CIPFA Code of Practice on Local Authority Accounting in the United Kingdom ('the Code'), is required to provide a true and fair view of the financial position of the organisation at the accounting date and its income and expenditure for the year ended 31 March 2026.

In preparing this Statement of Accounts the Treasurer to the Joint Committee has:

- selected suitable accounting policies and then applied them consistently;
- made judgements and estimates that were reasonable and prudent;
- complied with the Code;
- applied the concept of 'going concern' by assuming that Joint Committee's services will continue to operate for the foreseeable future.

The Treasurer to the Joint Committee has also to:

- ensure proper accounting records are kept, which are up to date;
- take reasonable steps for the prevention and detection of fraud and other irregularities.

APPROVAL OF THE STATEMENT OF ACCOUNTS

Treasurer to the Joint Committee

I certify that the Committee's Statement of Accounts provides a true and fair view of the financial position of the West Mercia Energy Joint Committee at 31 March 2026 and its income and expenditure for the year ended 31 March 2026.

Duncan Whitfield
Treasurer to West Mercia Energy Joint Committee

Joint Committee Approval

I certify that the West Mercia Energy Joint Committee approved the Statement of Accounts for the year ended 31 March 2026.

Cllr Peter Stoddart
Chairman of the
West Mercia Energy Joint Committee

Date:

MOVEMENT IN RESERVES STATEMENT

AS AT 31 MARCH 2026

This statement shows the movement in the year on the different reserves held by the Joint Committee. The gain or (loss) for the year shows the true economic cost of the Joint Committee's services, more details of which are shown in the Comprehensive Income and Expenditure Statement.

	General fund	Pensions reserve	Joint Committee capital adjustment account	Total reserves
	£000	Note 21 £000	Note 22 £000	£000
Balance at 31 March 2025	3,885	98	5	3,988
Total comprehensive income & expenditure	-6	-	-	-6
Transfer to/from Reserves	-	-98	98	-
Minimum Revenue Provision charged on finance lease	-2	-	2	-
Increase/decrease in year	-8	-98	100	-6
Balance at 31 March 2026	3,877	-	105	3,982

Pensions Reserve

The Pensions Reserve represents the difference between the actuarially calculated value of the pension fund assets and the present value of the scheme liabilities.

Joint Committee Capital Adjustment Account

The Joint Committee Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets as if in accordance with statutory provisions.

The notes to the Core Financial Statements are on Pages 12 onwards.

MOVEMENT IN RESERVES STATEMENT (CONTINUED)

AS AT 31 MARCH 2025

BALANCE SHEET

AS AT 31 MARCH 2026

The Balance Sheet shows the value as at the Balance Sheet date of the assets and liabilities recognised by the Joint Committee. The net assets of the Joint Committee (assets less liabilities) are matched by the reserves held by the Joint Committee.

31 March 2025		31 March 2026	Notes
£000		£000	
5	Right of use assets - property	90	12,13
-	Plant & equipment	13	12
5	Long term assets	103	12
36,245	Short term debtors	31,319	16
16,520	Cash and cash equivalents	15,723	17
52,765	Current assets	47,042

98	Pensions reserve	-	
5	Joint committee capital adjustment account	105	
3,988	Total Reserves	3,982	20

The notes to the Core Financial Statements are on Pages 12 onwards.

CASH FLOW STATEMENT

FOR THE YEAR ENDED 31 MARCH 2026

The Cash Flow Statement shows the changes in cash and cash equivalents of the Joint Committee during the reporting period. The statement shows how the Joint Committee generates and uses cash and cash equivalents by classifying cash flows as operating, investing and financing activities. Investing activities represent the extent to which cash outflows have been made for resources which are intended to contribute to the Joint Committee's future service delivery. Cash flows arising from financing activities are useful in predicting claims on future cash flows by providers of capital (ie borrowing) to the Joint

2024/25		2025/26	
£000		£000	£000 Notes
Operating activities			
<u>Cash outflows</u>			
930	Cash paid to and on behalf of employees	1,020

17,963	Cash and cash equivalents at 1st April		16,520
16,520	Cash and cash equivalents at 31st March	15,723	23.4

The notes to the Core Financial Statements are on Pages 12 onwards.

NOTES TO THE CORE FINANCIAL STATEMENTS

1. Accounting Policies

1.1 General Principles

This Statement of Accounts for 2025/26 summarises the Joint Committee's transactions for the 2025/26 financial year and its position at 31 March 2026. The accounts have been prepared in accordance with Code of Practice on Local Authority Accounting in the United Kingdom (the Code) issued by the Chartered Institute of Public Finance and Accountancy (CIPFA) Code Board, as far as it is practicable and applicable to the Joint Committee, supported by International Financial Reporting Standards (IFRS). The nature of the Joint Committee as a purchasing consortium means that full compliance is not always possible. The only departure relates to the the Comprehensive Income and Expenditure Statement layout which shows the income first and then all the expenditure grouped by type of expense. This differs from Local Authority Accounting, but this layout does allow a reader to interpret the statement in relation to the industry the Joint Committee operates in.

1.2 Concepts

The Statement of Accounts have been prepared in accordance with all prevailing concepts of accrual and going concern together with relevance, reliability and comparability. The going concern concept assumes that the organisation will continue in operational existence for a minimum of 12 months from the date of the approval of the financial statements. The management of WME are of this view due to the Joint Agreement that is in place and both supplier and customer contracts are in place beyond 30th September 2027.

1.3 Legislation

Where specific legislative requirements regarding accounting treatment conflict with the Joint Committee's own accounting policies, legislative requirements shall apply.

1.4 Prior Period Adjustments, Changes in Accounting Policies and Estimates and Errors

Prior period adjustments may arise as a result of a change in accounting policy or to correct a material error. Changes in accounting estimates are accounted for prospectively i.e. in the current and future years affected by the change and do not give rise to a prior period adjustment.

Changes in accounting policies are only made when required by proper accounting practices or the changes provide more reliable or relevant information about the effect of transactions, other events and conditions on the organisations' financial position or financial performance.

Where a change is made it is made retrospectively (unless stated otherwise) by adjusting opening balances and comparative amounts for the prior period as if the new policy had always been applied.

Material errors discovered in prior period figures are corrected retrospectively by amending opening balances and comparable amounts for the prior period.

1.5 Accruals of Expenditure and Income

Revenue and capital transactions are accounted for on an accruals basis in accordance with proper accounting practices. In particular:

- Revenue from contracts with service recipients, whether for services or the provision of goods is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the performance obligations in the contract.
- Supplies are recorded as expenditure when they are consumed.
- Expenses in relation to services received are recorded as expenditure when the services are received rather than when payments are made.
- Interest receivable on investments and payable on borrowings is accounted for respectively as income and expenditure on the basis of the effective interest rate for the relevant financial instrument rather than the cash flows fixed or determined by the contract

Sums owed to the Joint Committee as at 31 March are included as debtors. Sums still owed by the Joint Committee at 31 March are included as creditors.

1.6 Property, Plant and Equipment and Motor Vehicles

Under s102 of the Local Government Act 1972, a Joint Committee does not have sufficient corporate status to acquire assets. However, given that the Joint Committee both accrues the economic benefits from and assumes liabilities for its building assets, the “substance over form” policy justifies the inclusion of the assets in the organisation’s accounts.

Plant and equipment and motor vehicles are tangible assets (ie assets with physical substance) that are held for use in the production or supply of goods and services, or for administrative purposes, and are expected to be used during more than one period.

Property is a right of use asset.

Recognition

The cost of an item of plant and equipment and motor vehicles is recognised (and hence capitalised) as an asset on the Balance Sheet if:

- it is probable that the future economic benefits or service potential associated with the item will flow to the organisation;
- the cost of the item can be measured reliably; and
- has a value in excess of £500.

Costs that meet the recognition principle include initial costs of acquisition and construction, and costs incurred subsequently to enhance, replace part of, or service the asset. Subsequent costs arising from day-to-day servicing of an asset (ie labour costs and consumables), commonly referred to as 'repairs and maintenance', are not capitalised if they do not meet the recognition principle because the expenditure does not add to the future economic benefits or service potential of the asset and is charged to revenue, when it is incurred.

Right of use assets are recognised on the Balance Sheet at the commencement date of the lease, measured initially at cost and subsequently measured at cost less accumulated depreciation, impairment losses and any remeasurement adjustments.

Initial Measurement

Expenditure on the acquisition, creation and enhancement of plant and equipment, with a value in excess of £500, that qualifies for recognition is capitalised on an accruals basis in the accounts. To be capitalised, the expenditure must be for assets yielding benefits to the Joint Committee for a period of greater than one year.

Measurement After Recognition

Plant and equipment are valued on the basis recommended by CIPFA and in accordance with the Statement of Asset Valuation Principles and Guidance Notes issued by The Royal Institution of Chartered Surveyors (RICS). Plant and equipment are classified into the groupings required by the Local Authority Code and are included in the Balance Sheet net of depreciation.

Derecognition

The carrying amount of an item of plant and equipment shall be derecognised:

- on disposal; or
- when no future economic benefits or service potential are expected from its use or disposal.

The gain or loss arising from derecognition of an asset shall be the difference between the net disposal proceeds, if any, and the carrying amount of the asset. The gain or loss arising from derecognition of an asset shall be included in the Surplus or Deficit on the Provision of Services when the item is derecognised.

If the asset derecognised was carried at a revalued amount an additional entry is required; the balance of the Revaluation Reserve in respect of asset derecognised is written off to the Joint Committee Capital Adjustment Account and reported in the Movement in Reserves Statement.

Depreciation

Depreciation is provided on tangible fixed assets calculated by using the straight-line method where appropriate.

Depreciation and amortisation are charged over the finite useful life of each asset, based on their value, these lives, and methods of valuation, being as follows:

Asset and Method of Valuation	Depreciation/Amortisation Period
Computer Equipment (Historical Cost)	3 years
Office Equipment (Historical Cost)	3 years
Fixtures & Fittings (Historical Cost)	3 years
Motor Vehicles (Historical Cost)	3 years
Property (Lease Cost)	5 years (term of the lease)

Impairment

At the end of each reporting period an assessment takes place as to whether there is any indication that an asset may be impaired. Examples of events and changes in circumstances that indicate an impairment may have incurred include:

- a significant decline (i.e. more than expected as a result of the passage of time or normal use) in an asset's carrying amount during the period, that is specific to the asset;
- evidence of obsolescence or physical damage of an asset;
- a commitment by the organisation to undertake a significant reorganisation; or
- a significant adverse change in the statutory or other regulatory environment in which the organisation operates.

1.7 Cash and Cash Equivalents

Cash is represented by cash in hand and deposits with financial institutions repayable without penalty on notice of not more than 24 hours. Cash equivalents are investments that are readily convertible to known amounts of cash with insignificant risk of change in value. The Joint Committee holds no cash equivalents.

1.8 Debtors and Creditors

Revenue and capital transactions are accounted for on an accruals basis and where revenue and expenditure have been recognised but cash has not been received or paid, a debtor or creditor for the relevant amount is recorded in the Balance Sheet. Where debts may not be settled, the balance of debtors is written down and a charge made to revenue for the income that might not be collected.

Revenue from contracts with service recipients, whether for services or the provision of goods, is recognised when (or as) the goods or services are transferred to the service recipient in accordance with the obligations in the contract or transfer of economic benefits.

1.9 Financial Assets

Financial assets are classified based on a classification and measurement approach that reflects the business model for holding the financial assets and their cash flow characteristics. There are three main classes of financial assets measured at;

- amortised cost
- fair value through profit or loss (FVPL), and
- fair value through other comprehensive income (FVOCI)

The Joint Committee's business model is to hold investments to collect contractual cash flows ie payments of interest and principal. Most of the Joint Committee's financial assets are therefore classified as amortised cost, except for those whose contractual payments are not solely payment of principal and interest i.e. where the cash flows do not take the form of a basic debt instrument.

Financial Assets Measured at Fair Value through Profit and Loss

These are financial assets in the form of loans and receivables. These are assets that have fixed or determinable payments but are not quoted in an active market. The loans and receivables are initially measured at fair value and carried at their amortised cost.

Financial assets that are measured at FVPL are recognised on the Balance Sheet when the Joint Committee becomes a party to the contractual provisions of a financial instrument and are initially measured and carried at fair value. Fair value gains and losses are recognised as they arrive in the Surplus or Deficit on the Provision of Services.

The fair value measurements of the financial assets are based on the following techniques:

Instruments with quoted market prices – the market price

Other instruments with fixed and determinable payments – discounted cash flow analysis.

The inputs to the measurement techniques are categorised in accordance with the following three levels:

Level 1 inputs – quoted prices (unadjusted) in active markets for identical assets that the authority can access at the measurement date.

Level 2 inputs – inputs other than quoted prices included within Level 1 that are observable for the asset, either directly or indirectly.

Level 3 inputs – unobservable inputs for the asset.

Any gains and losses that arise on the derecognition of the asset are credited or debited to the Financing and Investment Income and Expenditure line in the Comprehensive Income and Expenditure Statement.

Expected Credit Loss Model

The Joint Committee recognises expected credit losses on all of its financial assets held at amortised cost (or where relevant FVOCI), either on a 12-month or lifetime basis. The expected credit loss model also applies to lease receivables and contract assets. Only lifetime losses are recognised for trade receivables (debtors) held by the Joint Committee.

Impairment losses are calculated to reflect the expectation that the future cash flows might not take place because the borrower could default on their obligations. Credit risk plays a crucial part in assessing losses. Where risk has increased significantly since an instrument was initially recognised, losses are assessed on a lifetime basis. Where risk has not increased significantly or remains low, losses are assessed on the basis of 12-month expected losses

1.10 Financial Liabilities

Financial liabilities are initially measured at fair value and carried at their amortised cost. Annual charges to the Comprehensive Income and Expenditure Statement for interest payable are based on the carrying amount of the liability, multiplied by the effective rate of interest for the instrument.

1.11 Leases

Leases are recognised as right-of-use assets with a corresponding liability at the date from which the leased asset is available for.

The lease liability is measured at the present value of lease payments, discounting by applying the incremental borrowing rate wherever the interest rate implicit in the lease cannot be determined. The lease liability is subsequently measured at amortised cost, using the effective interest method.

Short-term leases and leases of low-value assets are exempt from recognition under IFRS 16 and the associated payments are charged to revenue on a straight-line basis over the lease term.

1.12 Reserves

General Fund Balance

The Balance Sheet includes a sum for the General Fund Balance. This shows the total unused accumulated net surplus for the Joint Committee carried forward to 2026/27.

Pensions Reserve

The Pensions Reserve represents the difference between the value of the pension fund assets and the present value of the actuarially calculated scheme liabilities, after applying any restriction on the recognition of a pension surplus.

Joint Committee Capital Adjustment Account

This represents the difference between the costs of fixed assets consumed and the financing set aside to pay for them.

1.13 Employee Benefits

The accounting policy relating to the treatment of benefits payable during employment and post-employment benefits is consistent with IAS 19 Employee Benefits.

Benefits Payable During Employment

Where the accumulating short-term absences (e.g. annual leave and flexi time earned by employees but not taken at 31st March) are not material, these are not accrued for in the accounts.

Post-Employment Benefits

As part of the terms and conditions of employment of its employees, the Joint Committee offers retirement benefits. These benefits will not be payable until retirement but the Joint Committee has a commitment to make payments that need to be disclosed at the time that the employees earn their future entitlement.

The Joint Committee participates in the Shropshire County Pension Fund, which is a funded Defined Benefit scheme.

The liabilities of the Pension Fund attributable to the Joint Committee are included in the Balance Sheet on an actuarial basis using the project unit method – i.e. an assessment of the future payments that will be made in relation to retirement benefits earned to date by employees, based on assumptions about mortality rates, employee turnover rates etc and projections of projected warnings for current employees.

Liabilities are discounted to their value at current prices, using a discount rate of 6.4 % (2024/25: 5.9%) based on the indicative rate of return on high quality corporate bonds of appropriate duration.

The assets of Shropshire County Pension Fund attributable to the Joint Committee are included in the Balance Sheet at their fair value:

- quoted securities – current bid price
- unquoted securities – professional estimate
- unitised securities – current bid price
- property – market value.

The change in the net pensions liability is analysed into the following components:

- Service cost comprising:
 - Current service cost – the increase in liabilities as a result of years of service earned this year – allocated in the Comprehensive Income and Expenditure Statement to the service expenditure
 - Past service cost – the increase in liabilities as a result of a scheme amendment or curtailment whose effect relates to years of service earned in earlier years – debited to the Surplus or Deficit on Services in the Comprehensive Income and Expenditure Statement
 - Net interest on the net defined benefit liability (asset), i.e. net interest expense for West Mercia Energy Joint Committee – the change during the period in the net defined benefit liability (asset) that arises from the passage of time charged to the Financing and Investment Income and Expenditure line of the Comprehensive Income and Expenditure Statement – this is calculated by applying the discount rate used to measure the defined benefit obligation at the beginning of the period to the net defined benefit liability (asset) at the beginning of the period – taking into account any changes in the net defined benefit liability (asset) during the period as a result of contribution and benefit payments.
- Remeasurements comprising:
 - The return on plan assets – excluding amounts included in net interest on the net defined benefit liability (asset) – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
 - actuarial gains and losses – changes in the net pensions liability that arise because events have not coincided with assumptions made at the last actuarial valuation or because the actuaries have updated their assumptions – charged to the Pensions Reserve as Other Comprehensive Income and Expenditure
- Contributions paid to the Shropshire County Pension Fund – cash paid as employer's contributions to the pension fund in settlement of liabilities; not accounted for as an expense.

In relation to retirement benefits, the General Fund Balance is to be charged with the amount payable by the Joint Committee to the pension fund or directly to pensioners in the year, not the amount calculated according to the relevant accounting standards. In the Movement in Reserves Statement, this means that there are transfers to and from the Pensions Reserve to remove the notional debits and credits for retirement benefits and replace them with debits for the cash paid to the pension fund and pensioners and any such amounts payable but unpaid at the year-end. The negative balance that arises on the Pensions Reserve thereby measures the beneficial impact to the General Fund of being required to account for retirement benefits on the basis of cash flows rather than as benefits are earned by employees.

Pension Surplus (net Pension Asset)

Pension surplus is the fair value of plan assets less the fair value of the defined benefit obligation, less any associated costs. Where a net pension asset would otherwise arise, recognition is restricted to the extent that the organisation could have an unconditional right either to a reduction in future contributions or a refund assuming the gradual settlement of the schemes liabilities over its life. Where a surplus is shown, the surplus is on the basis the pensions scheme continues until final payment is made to the final member in the scheme and is restricted to the reduction in future contribution or refund receivable. There is no pension surplus recognised as at 31 March 2026.

1.14 Interest

Interest receivable from investments is recognised in the financial statements during the period in which it became due to the Joint Committee.

Interest payable to Member Authorities is recognised in the financial statements during the period in which it became due by Joint Committee.

1.15 Foreign Currency

Foreign currency transactions are converted to sterling at the exchange rate applicable on the date of the transaction. There were no foreign currency transactions during the year.

1.16 Events After the Balance Sheet Date

Events after the Balance Sheet date are those events, both favourable and unfavourable, that occur between the end of the reporting period and the date when the Statement of Accounts is authorised for issue. Two types of events can be identified:

- those that provide evidence of conditions that existed at the end of the reporting period - the Statement of Accounts is adjusted to reflect such events;
- those that are indicative of conditions that arose after the reporting period – the Statement of Accounts is not adjusted to reflect such events, but where a category of events would have a material effect, disclosure is made in the notes of the nature of the events and their estimated financial effect.

Events taking place after the date of authorisation for issue are not reflected in the Statement of Accounts.

1.17 Provisions

Provisions are made where an event has taken place that gives the Joint Committee a legal or constructive obligation that requires settlement by a transfer of economic benefits or service potential, and a reliable estimate can be made of the amount of the obligation. Provisions are charged as an expense to the appropriate line in the Comprehensive Income and Expenditure Statement in the year that the Joint Committee becomes aware of the obligation, and measured at the best estimate at the Balance Sheet date of the expenditure required to settle the obligation. When payments are made they are charged to the provision carried in the Balance Sheet.

Expected credit loss from 2025/26 is accounted for as a provision on debt at the year end. Prior to 2024/25, the credit loss was accounted for as a provision for all debts over 12 months old plus any debts which were less than 12 months old.

1.18 Value Added Tax (VAT)

VAT payable is included as an expense only to the extent that it is not recoverable from His Majesty's Revenue and Customs. VAT receivable is excluded from income.

1.19 Distribution of Surplus to Member Authorities

The Joint Agreement requires the Joint Committee to determine the level of accumulated surplus that shall be retained for various reserve purposes. In practice the Joint Committee typically takes its decision in October. The decision is taken in the light of known accumulated surplus, a view at that point of the amount to be retained for contingency, future investment or other reserve purposes, including a consideration of performance, risks and development proposals at that time. The distribution made to Member Authorities is then charged to the Comprehensive Income and Expenditure Statement in the year that it is agreed by the Joint Committee.

2. Accounting standards that have been issued but have not yet been adopted

The Code of Practice on Local Authority Accounting in the United Kingdom (the Code) requires the disclosure of information relating to the expected impact of an accounting change that will be required by a new standard that has been issued but not yet adopted. The standards introduced by the 2026/27 Code where disclosures are required in the 2025/26 financial statements, are:

- Amendments to FRS 102 The Financial Reporting Standard applicable in the UK and Republic of Ireland (Amendments to Heritage assets) issued in March 2024
- Amendments to the Classification and Measurement of Financial Instruments (Amendments to IFRS 9 and IFRS 7) issued in May 2024
- Annual improvements to IFRS accounting standards – Volume 11 issued in July 2024
- Contracts Referencing Nature-dependent Electricity (Amendments to IFRS 9 and IFRS 7) issued in December 2024.

These changes are not expected to have a material impact on the accounts

3. Critical judgements in applying accounting policies

We've generally complied with the Code of Practice on Local Authority Accounting in the United Kingdom (the Code). In instances where code is not relevant, we would make a critical judgement.

In applying the accounting policies set out in Note 1, the Joint Committee has had to consider certain judgements about complex transactions or those involving uncertainty about future events.

There are no other critical judgements made in the Statement of Accounts.

4. Expenditure and funding analysis

The Expenditure and Funding Analysis shows how annual expenditure is used and funded from resources in comparison with those resources consumed or earned in accordance with generally accepted accounting practices. It also shows how this expenditure is allocated for decision making purposes. Income and expenditure accounted for under generally accepted accounting practices is presented more fully in the Comprehensive Income and Expenditure Statement.

2025/26					
	As Reported to Management	Adjustment to arrive at the net amount chargeable to the General Fund	Net Expenditure in the Comprehensive Income and Expenditure Statement	Adjustments between the Funding and Accounting Basis	Net Expenditure Chargeable to the General Fund Balance
	£'000	£'000	£'000	£'000	£'000
Energy	1,501	68	1,569	-	1,569
Services/Support services	766	-143	623	109	732
Net cost of Services	2,267	-75	2,192	109	2,301
Other Income and Expenditure			-15		-15
Distribution of Surplus to Member Authorities			-2,183		-2,183
Surplus or (Deficit)			-6	109	103
Opening General Fund					3,885
Capital Purchases funded from General Fund					-109
Add surplus on General Fund					103
Minimum Revenue Provision charged on finance lease					-2
Closing General Fund					3,877

2024/25					
	As Reported to Management	Adjustment to arrive at the net amount chargeable to the General Fund	Net Expenditure in the Comprehensive Income and Expenditure Statement	Adjustments between the Funding and Accounting Basis	Net Expenditure Chargeable to the General Fund Balance
	£'000	£'000	£'000	£'000	£'000
Energy	1,602	72	1,674	-	1,674
Services/Support services	487	-192	295	98	393
Net cost of Services	2,089	-120	1,969	98	2,067

4a. Note to the expenditure and funding analysis

Adjustments from General Fund to arrive at the Comprehensive Income and Expenditure Statement amounts

2025/26				
	Adjustments for Capital Purposes	Net change for the Pensions Adjustments	Other Differences	Total Adjustments
	£000	£000	£000	£000
Net Cost of Services	11	98		109
Other income and expenditure from the Expenditure and Funding Analysis		-15		-15
Capital Purchases funded from General Fund	-109			-109
Difference between General Fund surplus or deficit and Comprehensive Income and Expenditure Statement Surplus or Deficit on the Provision of Services	-98	83	-	-15

2024/25				
	Adjustments for Capital Purposes	Net change for the Pensions Adjustments	Other Differences	Total Adjustments
	£000	£000	£000	£000
Net Cost of Services	4	94		98
Other income and expenditure from the Expenditure and Funding Analysis		17		17
Capital Purchases funded from General Fund	-4			-4
Difference between General Fund surplus or deficit and Comprehensive Income and Expenditure Statement Surplus or Deficit on the Provision of Services	-	111	-	111

4b. Analysis of income and expenditure by nature

Income received on a segmental basis is analysed below:

	2025/26	2024/25
	Income from Services	Income from Services
	£000	£000
Energy Sales	160,403	177,984
Other Income	227	277
Total income analysed on a segmental basis	160,630	178,261

An analysis of Expenditure is shown on the face of the Comprehensive Income and Expenditure Statement

5. Assumptions Made About the Future and Other Major Sources of Estimation Uncertainty

The Statement of Accounts contains estimated figures based on assumptions made by the Joint Committee. Estimates are made taking into account historical experience, current trends and other relevant factors. There is, however, a risk that actual results could be materially different from the assumptions and estimates.

There are no items in the Joint Committee's Balance Sheet at 31 March 2026 for which there is a risk of material adjustment in the forthcoming year.

6. Turnover and other income

Turnover is the VAT exclusive total of invoiced sales for energy and related income.

7. Financing and Investment Income and Expenditure

Interest and Investment Income

The Joint Committee's daily bank balances are invested with Shropshire Council balances. Interest is debited or credited to the Joint Committee because of the level of daily bank balances invested.

	2025/26	2024/25
	£000	£000
Net interest on pension scheme assets and liabilities	-6	-9
Interest receivable and similar income	-563	-710
Interest payable and similar on property lease	4	-
Total	-565	-719

8. Staff Remuneration

In 2025/26 the number of employees who received remuneration in excess of £50,000 fell into the following bands:

Band	Number of Employees	
	2025/26	2024/25
£ 60,000 to £ 64,999	-	1
£ 65,000 to £ 69,999	2	2
£ 70,000 to £ 74,999	2	1
£ 105,000 to £ 109,999	-	1
£ 110,000 to £ 114,999	1	-

Remuneration for these purposes includes all sums paid to an employee by way of salary, expenses, profit related pay and the money value of any other benefits received other than cash.

There are no staff members receiving remuneration between £50,000 and £59,999 or £75,000 to £104,999, so the staff remuneration table above has been adjusted accordingly.

Disclosure of Remuneration for Senior Employees

2025/26

Post Title	Salary (inc fees & allowances) £	Bonuses (PRP) £	Pension Contributions £	Total Remuneration (inc pension contribution) £
Director	100,076	12,209	-	112,285
	100,076	12,209	-	112,285

2024/25

Post Title	Salary (inc fees & allowances) £	Bonuses (PRP) £	Pension Contributions £	Total Remuneration (inc pension contribution) £
Director	97,673	11,980	-	109,653
	97,673	11,980	-	109,653

9. Audit Costs

During 2025/26 the Joint Committee incurred the following fees in respect of external audit and inspection.

	2025/26 £000	2024/25 £000
Fees payable to External Auditors with regard to external audit services	16	16

10. Related Party Transactions

The Joint Committee is required to disclose material transactions with related parties - bodies or individuals that have the potential to control or influence the Joint Committee or to be controlled or influenced by the Joint Committee. Disclosure of these transactions allows readers to assess the extent to which the organisation might have been constrained in its ability to operate independently or might have secured the ability to limit another party's ability to bargain freely with the organisation.

Members and Officers

Members of the Joint Committee have direct control over the Joint Committee's financial and operating policies. Certain senior officers may also be in a position to influence policies, particularly those who form the organisation's management team. All members and senior officers have been written to, advising them of their obligations and asking for any declarations of related party transactions to be disclosed.

The Joint Committee Members are also members of other local organisations (for example county councils). No other personal or prejudicial interest in the material transactions of the Joint Committee has been disclosed by any of the Joint Committee Members or by any of the senior management. The Joint Committee is owned by four Member Authorities. Membership entitles the authorities to a share of any surplus generated by the Joint Committee. For clarity, the turnover with each Member Authority was:

	2025/26 £000	2024/25 £000
Herefordshire Council	2,763	3,207
Shropshire Council	4,528	6,118
Telford & Wrekin Council	4,730	5,712
Worcestershire County Council	3,246	4,276

Included within Central Departmental Costs are the following amounts for services provided by Shropshire Council during the year:

	2025/26	2024/25
	£000	£000
Human Resources Support Services	3	3
Payroll Services	2	2
Treasury Services	6	5
Committee Services	8	8
Financial Advice	19	18
Internal Audit	10	8
ICT support	12	26
Procurement	9	8

11. Net Surplus Adjustment for PRP/ Distribution Purposes

The Comprehensive Income and Expenditure Statement shows the net surplus for the year. For internal memorandum purposes, this figure requires adjustment to provide a net surplus that is used to calculate profit related pay and member authority distributions.

First, the employee's expenses line in the Income and Expenditure Statement accrues for the profit related pay due to employees. Second, adjustment is made for the distribution of retained surplus that has been charged to the Income and Expenditure Statement.

Additionally, the effects of IAS19 pension adjustments (See Note 19) have to be neutralised by adjusting for the Earmarked Pension Reserve movement.

The calculation is shown in the table below:

	2025/26	2024/25
	£000	£000
Net Loss / (Profit) for the Year – Per Comprehensive Income and Expenditure Statement	-9	469
Profit Related Pay accrual	-102	-105
Distribution of Surplus to Member Authorities	-2,183	-2,438
Pensions Movement included in Operating Expenses	-83	-111
Accruals written back	291	-
Net Surplus for PRP/Distribution Purposes	-2,086	-2,185

The employees are set an annual surplus target level which is compared to the final result to determine the level of PRP.

These statements include the distribution from the General Fund to Member Authorities of £2.183million. This payment distributes part of the General Fund brought forward at the end of 2024/25 between Member Authorities.

12. Property, Plant & Equipment and Motor Vehicles

	Property, Plant, Equipment and Motor Vehicles 2025/26 £000	Property, Plant, Equipment and Motor Vehicles 2024/25 £000
Cost / Valuation		
As at 1 April	92	88
Additions	109	4
Disposals	-14	-
As at 31 March	187	92
Accumulated Depreciation		
As at 1 April	87	83
Charge	11	4
Relating to disposals	-14	-
As at 31 March	84	87
Net Book Value		
As at 31 March	103	5

All property, plant & equipment and motor vehicles are valued at cost depreciated over their anticipated useful life, commencing in the year of acquisition.

13. Right of Use Assets and Lease Liabilities

Property, Plant & Equipment and Motor Vehicles include a right of use asset relating to a lease agreement on the business premises, as follows:

	Property 2025/26	Property 2024/25
	£000	£000
Cost / Valuation		
As at 1 April	-	-
Additions	96	-
As at 31 March	96	-
Accumulated Depreciation		
As at 1 April	-	-
Charge	6	-
As at 31 March	6	-
Net Book Value		
As at 31 March	90	-

The lease liability in relation to the right of use asset on the business premises is as follows:

	2025/26 £000	2024/25 £000
Lease liability at 1 April	-	-
Addition	96	-
Lease interest	4	-
Lease payments made	-6	-
Lease liability at 31 March	94	-
Current liability at 31 March	19	-
Non-current liability at 31 March	75	-
Lease liability at 31 March	94	-

14. Contractual Commitments

With the exception of the property lease, there were no capital commitments for the year ended 31st March 2026.

15. Financial Instruments

Categories of Financial Instruments

The Joint Committee has the following categories of financial instruments carried in the Balance Sheet. These categories are all classified as having insignificant risk.

Financial Assets

	Long Term				Current				Total	
	Investments		Debtors		Investments		Debtors		31-3-26	31-3-25
	31-3-26	31-3-25	31-3-26	31-3-25	31-3-26	31-3-25	31-3-26	31-3-25		
	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000	£'000
Fair Value through profit or loss										
Long term Equity Instruments	-	-	-	-	-	-	-	-	-	-
Amortised Cost										
Debtors	-	-	-	-	-	-	31,252	35,989	31,252	35,989
Cash & Cash Equivalents	-	-	-	-	-	-	15,723	16,520	15,723	16,520
Total Financial Assets	-	-	-	-	-	-	46,975	52,509	46,975	52,509
Non- Financial Assets	-	-	-	-	-	-	67	256	67	256
Total	-	-	-	-	-	-	47,042	52,765	47,042	52,765

Financial Liabilities

	Long Term				Current				Total	
	Borrowings		Creditors		Borrowings		Creditors			
	31-3-26 £'000	31-3-25 £'000	31-3-26 £'000	31-3-25 £'000	31-3-26 £'000	31-3-25 £'000	31-3-26 £'000	31-3-25 £'000	31-3-26 £'000	31-3-25 £'000
Amortised Cost										
Principal	-	-	75	-	-	-	43,088	48,880	43,163	48,880
Loans Accrued interest	-	-	-	-	-	-	-	-	-	-

Net gain for the year	-	559	-	-	559	-	710	-	-	710

Fair Values of Assets and Liabilities

Financial liabilities, financial assets represented by loans and receivables and long term debtors and creditors are carried in the Balance Sheet at amortised cost. Their fair value can be assessed by calculating the present value of the cash flows that will take place over the remaining term of the instruments, using the following assumptions:

- No early repayment or impairment is recognised;
- Where an instrument will mature in the next 12 months, carrying amount is assumed to approximate to fair value;
- The fair value of trade and other receivables is taken to be the invoiced or billed amount;
- The fair value of Creditors is taken to be the invoiced or billed amount.

Short term debtors and creditors are carried at cost as this is a fair approximation of their value.

Nature and Extent of Risks Arising from Financial Instruments

The organisation's activities expose it to a variety of financial risks:

- Credit risk – the possibility that other parties might fail to pay amounts due to the Joint Committee.
- Liquidity risk – the possibility that the Joint Committee might not have funds available to meet its commitments to make payments
- Market risk – the possibility that financial losses might arise from changes in such measures as interest rates.

Credit Risk

Credit risks arise from deposits with banks and from credit exposures to the organisation's customers. Deposits are made managed by Shropshire Council and are made with banks which satisfy criteria as outlined in Shropshire Council's creditworthiness policy.

Customer debt is managed in accordance with the Joint Committee Credit Management Policy. The level of debt written off each financial year in previous years is negligible, with the net position of write offs over the last three financial years being less 0.03% of turnover.

The Joint Committee generally allows its customers 28 days credit. Of the £31.319m outstanding (2024/25 - £36.245m) from customers, £1.384m (2024/25 - £0.585m) is past its due date for payment. The amount past due date is analysed by age as follows:

	2025/26	2024/25
	£'000	£'000
Less than 3 months overdue	1,503	709
3 to 6 months overdue	-	26
6 months to 1 year overdue	-19	-52
More than 1 year overdue	-100	-98
Total	1,384	585

Older credit balances represent credit notes or payments on account which arise in the normal course of business and may be offset by outstanding debt in the less than 3 months overdue category.

Liquidity Risk

In order to support seasonal trade variations, the Joint Committee has a treasury arrangement with Shropshire Council that provides ready access to liquid funds for short-term borrowing at market interest rates.

Market Risk

The Joint Committee is exposed to interest rate risk in terms of its exposure to rate movements on its bank deposits and short-term borrowings. The impact on the Income and Expenditure Statement for rate changes on interest receivable and payable on such transactions is nominal in relation to the Joint Committee's turnover.

16. Short Term Debtors

	31 March 2026 £000	31 March 2025 £000
Member Authorities	3,278	4,095
Other Local Authorities	27,913	31,849
Bodies external to general government	128	301
	31,319	36,245

The amounts due from "Member Authorities" referred to in the above table also include the amounts due from related parties, as follows:

	31 March 2026 £000	31 March 2025 £000
Herefordshire Council	352	394
Shropshire Council	1,521	1,975
Telford & Wrekin Council	622	626
Worcestershire County Council	783	1,100
	3,278	4,095

17. Cash and Cash Equivalents

	Opening Balance 1 st April 2025	Movement During the Year	Closing Balance 31 st March 2026
	£000	£000	£000
Bank current accounts	16,520	-797	15,723

18. Short Term Creditors

	31 March 2026 £000	31 March 2025 £000
Member Authorities	197	1,017
Other Local Authorities	6,595	6,808
Bodies external to general government – lease liabilities	19	-
Bodies external to general government - other	36,277	41,055
	43,088	48,880

The amounts due to “Member Authorities” referred to in the above table also include the amounts due from related parties, as follows:

	31 March 2026 £000	31 March 2025 £000
Herefordshire Council	8	234
Shropshire Council	166	447
Telford & Wrekin Council	14	17
Worcestershire County Council	9	319
	197	1,017

19. Defined Benefits Pension Scheme

As part of the terms and conditions of employment of its employees, the Joint Committee offers retirement benefits. These benefits will not be payable until retirement but the Joint Committee has a commitment to make payments that need to be disclosed at the time that the employees earn their future entitlement.

The Joint Committee participates in the Shropshire County Pension Fund, which is a funded Defined Benefit scheme. This means that retirement benefits are determined independently of the investments of the fund and the Joint Committee has an obligation to make contributions where assets are insufficient to meet employee benefits. The Joint Committee and its employees pay contributions into the fund which is calculated at a level intended to balance pension liabilities with investment assets. The Joint Committee recognises the cost of retirement benefits in the cost of employees when they are earned rather than when the benefits are paid as pensions.

The principal risks to the Joint Committee of the scheme are the longevity assumptions, statutory changes to the scheme, structural changes to the scheme (ie large-scale withdrawals from the scheme), changes to inflation, bond yields and the performance of the equity investments held by the scheme.

The following transactions have been made in the Comprehensive Income and Expenditure Statement and the Movement in Reserves Statement during 2025/26.

	2025/26 £000	2024/25 £000
Comprehensive Income & Expenditure Statement		
Operating Expense (Employees):		
• Current Service Cost	80	114
• Past Service Cost	-	-
• Administration Expenses	9	6
• Employers Contributions	-	-
• Settlements and Transfer	-	-
Pension Impact (IAS19)	89	120
Financing and Investment Income and Expenditure:		
• Net Interest Cost	-6	-9
Total Post-employment benefits contained within Net Operating Surplus	83	111
Other Comprehensive Income & Expenditure:		
Remeasurement of the net defined benefit liability comprising;		
Return on plan assets (excluding the amount included in the net interest expense)	-	-10
Actuarial gains arising on changes in financial assumptions	-7	-473
Movement in pension surplus recognition	22	466
Total Post-employment Benefits contained within the Other Comprehensive Income and Expenditure	15	-17
Net (income) / charge to Comprehensive Income & Expenditure Statement	98	94

As part of the terms and conditions of employment of its employees, the Joint Committee offers retirement benefits. These benefits will not be payable until retirement but the Joint Committee has a commitment to make payments that need to be disclosed at the time that the employees earn their future entitlement.

	2025/26 £000	2024/25 £000
Movement in Reserves Statement:		
Reversal of net charges made for retirement benefits in accordance with IAS19	-83	-111
Actual Amount Charged against the General Fund Balance for Pensions in the Year:		
• Employers contributions payable to the Scheme	-	-
Remeasurement of the net defined liabilities	7	483
Movement in pension surplus recognition	-22	-466
Movement on Pensions Reserve	-98	-94

Pensions Assets and Liabilities Recognised in the Balance Sheet

The amount included in the Balance Sheet arising from the Joint Committee's obligation in respect of its defined benefit plans is as follows;

	2025/26 £000	2024/25 £000
Present Value of the defined benefit obligation	1,831	1,649
Fair Value of plan assets	-3,315	-3,128
Movement in pension surplus recognition	1,484	1,381
Net asset arising from defined benefit obligation	-	-98

Reconciliation of the Movements in the Fair Value of the Scheme (Plan) Assets:

	2025/26	2024/25
	£000	£000
Opening fair value of scheme assets	-3,128	-2,931
Interest income	-185	-145
Remeasurement gain		
The return on Plan assets	-	-10
Employer contributions	-	-
Contributions by scheme participants	-65	-56
Benefits paid	54	8
Administration Expenses	9	6
Settlements	-	-
Transfer to another employer	-	-
At 31 March	-3,315	-3,128

Reconciliation of Present Value of the Scheme Liabilities (Defined Benefit Obligation):

	Funded	Liabilities
	2025/26	2024/25
	£000	£000
At 1 April	1,649	1,867
Current service cost	80	114
Interest cost	98	93
Contributions by scheme participants	65	56
Past service cost (gain)	-	-
Remeasurement (Liabilities)		
• Experience loss	84	-
• Actuarial gains on financial assumptions	-80	-467
• Gain on demographic assumptions	-11	-6
Benefits paid	-54	-8
Lump sum deficit repayment	-	-
At 31 March	1,831	1,649

Basis for Estimating Assets and Liabilities

The liabilities of the scheme have been assessed on an actuarial basis using the projected unit method, an estimate of the pensions that will be payable in future years dependent upon assumptions including mortality rates and salary levels.

The Pension Fund liabilities/assets have been assessed by Mercer Limited who are independent actuaries.

The significant assumptions used by the actuary have been:

	2025/26	2024/25
Mortality assumptions:		
Longevity at 65 for current pensioners (years):		
Men	21.6	21.8
Women	24.2	24.3
Longevity at 65 for future pensioners (years):		
Men	22.9	23.1
Women	25.7	26.0
Rate of CPI Inflation	2.9%	2.6%
Rate of Increase in Salaries	4.15%	3.85%
Rate of Increase in Pensions	3.0%	2.7%
Rate for Discounting Scheme Liabilities	6.4%	5.9%

The estimation of the defined benefit obligations is sensitive to the actuarial assumptions set out in the table above. The sensitivity analyses below have been determined based on reasonably possible changes of the assumptions occurring at the end of the reporting period and assumes for each change that the assumption analysed changes while all the other assumptions remain constant. The assumptions in longevity, for example, assume that life expectancy increases or decreases for men and women. In practice, this is unlikely to occur, and changes in some of the assumptions may be interrelated. The estimations in the sensitivity analysis have followed the accounting policies for the scheme, ie on an actuarial basis using the projected unit credit method. The methods and types of assumptions used in preparing the sensitivity analysis below did not change from those used in the previous period.

Impact on the Defined Benefit Obligation in the Scheme*	
	Increase in assumption £000
Longevity (increase in 1 year)	1,860
Rate of inflation (increase by 0.25%)	1,930
Rate of increase in salaries (increase by 0.25%)	1,866
Rate of increase in pensions (increase by 0.25%)	1,930
Rate for discounting scheme liabilities (increase by 0.5%)	1,648

*The current Defined Benefit Obligation as at 31st March 2026 is £1.831 million

Techniques Employed to Manage Risk

The Shropshire County Pension Fund does not hold an Asset & Liability Matching Strategy however does use other techniques to manage risks within the Fund. The Fund's primary long term risk is that the Fund's assets will fall short of its liabilities (i.e promised benefits to pay members). Therefore the aim of investment risk management is to minimise the risk of an overall reduction in the value of the Fund and to maximise the opportunity for gains across the whole fund portfolio. The Fund achieves this through asset diversification to reduce exposure to market risk (price, currency and interest rate risk) and credit risk to an acceptable level. In addition, the Fund manages its liquidity risk to ensure there is sufficient liquidity to meet the Fund's forecast cash flows.

Impact on the Joint Committee's Cash Flows

The objectives of the scheme are to keep employers' contributions at as constant a rate as possible. The Lead Council has agreed a strategy with the scheme's actuary to achieve a funding level of 100% over the next 19 years. Funding levels are monitored on an annual basis. A triennial valuation was completed as at 31 March 2025. Revised contribution rates from the 2025 actuarial valuation took effect on 1st April 2026

The Joint Committee anticipates to pay £0.007 million expected contributions to the scheme in 2026/27.

The weighted average duration of the defined benefit obligation for scheme members is 23 years, 2025/2026 (28 years 2024/2025).

20. Reserves

An analysis of the reserves is shown below:

	Opening Balance 1st April 2025 £000	Contributions		Closing Balance 31 st March 2026 £000
		To £000	From £000	
General Fund	3,885	2,488	-2,496	3,877
Pensions reserve	98	192	-290	-
Joint Committee capital adjustment account	5	111	-11	105
Total reserves	3,988	2,791	-2,797	3,982

Comparative Analysis in 2024/25

	Opening Balance 1st April 2024 £000	Contributions		Closing Balance 31 st March 2025 £000
		To £000	From £000	
General Fund	4,243	2,081	-2,439	3,885
Pensions reserve	192	628	-722	98
Joint Committee capital adjustment account	5	4	-4	5
Total reserves	4,440	2,713	-3,165	3,988

21. Pensions Reserve

The Pensions Reserve absorbs the timing differences arising from the different arrangements for accounting for post-employment benefits and for funding benefits as if in accordance with statutory provisions. The Joint Committee accounts for post-employment benefits in the Comprehensive Income & Expenditure Statement as the benefits earned by employees accruing years of service, updating the liabilities recognised to reflect inflation, changing assumptions and investment returns on any resources set aside to meet the costs. Statutory arrangements, however, require benefits earned to be financed as the Joint Committee makes employer's contributions to pension funds or pays any pension for which it is directly responsible.

Where the balance on the Pensions Reserve shows a surplus, this could result in a right to a refund of surplus assets assuming the full settlement of plan liabilities in the event of a plan wind-up. The Joint Committee, in the ordinary course of business has no right to unilaterally wind up the scheme, or otherwise augment the benefits due to scheme members. There is no balance on the Pensions Reserve as at 31 March 2026.

	2025/26 £000	2024/25 £000
Opening Balance at 1 April	98	192
Remeasurement (Liabilities & Assets)	7	483
Movement in pension surplus recognition	-22	-466
Reversal of items relating to retirement benefits debited or credited to the Surplus or Deficit on the Provision of Services in the Comprehensive Income & Expenditure Statement	-83	-111
Closing Balance at 31 March	-	98

22. Joint Committee Capital Adjustment Account

The Joint Committee Capital Adjustment Account absorbs the timing differences arising from the different arrangements for accounting for the consumption of non-current assets and for financing the acquisition, construction or enhancement of those assets as if under statutory provisions. The Account is debited with the cost of acquisition, construction or enhancement as depreciation, impairment losses and amortisations are charged to the Comprehensive Income and Expenditure Statement. The Account is credited with the amounts set aside by the Joint Committee as finance for the costs of acquisition, construction and enhancement.

	31 March 2026 £000	31 March 2025 £000
Opening balance at 1 April	5	5
Fixed assets purchased from revenue resources	109	4
Depreciation of fixed assets	-11	-4
Minimum Revenue Provision charged on finance lease	2	-
Closing Balance at 31 March	105	5

23. Note to the Cash Flow Statement

23.1 Reconciliation of Income and Expenditure Statement to Net Cashflow

2024/25 £000	2025/26 £000
1,969 Net Operating Surplus on Comprehensive I&E Statement	2,192
Adjust net surplus on the provision of services for non cash movements	
4 Depreciation	11
111 Movements on Pension	83
1,975 Increase in debtors	4,926
-3,060 Increase in creditors	-5,811
Adjust for items included in the net surplus on the provision of services	
-710 Interest and investment income	-563
289 Net cash inflow from operating activities	838

23.2 Cash Flow Statement – Investing Activities

	31 March 2026 £000	31 March 2025 £000
Interest and investment income	-563	-710
Purchase of plant and equipment	13	4
TOTAL	-550	-706

23.3 Cash Flow Statement – Financing Activities

	31 March 2026 £000	31 March 2025 £000
Distribution to Member Authorities	2,183	2,438
Payments for the reduction of a finance lease liability	2	-
TOTAL	2,185	2,438

23.4 Movement in Cash and Cash Equivalents

	Balance 31/03/25 £000	Balance 31/03/26 £000	Movement In Year £000
Cash in hand	16,520	15,723	-797

24. Purchase of Non-current Assets

Non-current assets to the value of £109,000 relating to property, computer and office equipment were financed from the General Fund Balance in 2025/26 (£4,000 2024/25).

As the purchase of assets is a charge to the General Fund Balance, the expenditure did not constitute a cash outflow from the Income and Expenditure Statement.
