01743860228	PCO PCO1 LONGDEN SHREWSBURY	SY5 8EX	K6		0 Longden PC	No comments made	Longden Parish Council would strongly object to the removal of the BT public telephone located at Longden. The kiosk is located in a relatively isolated rural area with poor mobile coverage so has a value as an emergency service, particularly for tourists. The Parish Council wishes the line to remain operational even if usage is relatively low. The kiosk is a traditional K6 design and stands in a prominent position in the village centre. It is a heritage asset which the Council wishes to retain, even in the event the line cannot be retained. Whilst every effort should be made to retain operational use, the Council would consider adoption of the kiosk should that prove impossible. 01952541311	PCO PCO1 EATON-ON-TERN MARKET DRAYTON	TF9 2BX	K6			0 Stoke-Upon-Tern PC	Object. Needs to be used in an emergency in conjunction with the defib within the settlement poor mobile signal.	The Parish Council sustained their objection for the reasons previously stated.	Member of public - I read with concern that BT are proposing the removal of the telephone box in Eaton-on-Tern. I would like to register my objection to this. As a village with no other community facilities other than a post box and defibrillator, and with a poor mobile signal throughout the village, I can imagine nothing worse than an emergency arising and not having the use of the telephone, particularly being sited opposite the defibrillator. The telephone box also provides a vital village centre landmark (in the absence of anything else) for visitors, in particular delivery drivers. One further comment was received which commented that the reason for no call usage was because it was not working, and recently a new phone has been installed.		SC Interim view to object to removal of telephony and kiosk on the following grounds: emergency usage; concerns over mobile phone coverage; local community views received in support of its retention.
