1. Summary of Findings

Case SH/095/001 was included in the research scope by the Discovering of Lost Ways Project as the route is shown on the Ordnance Survey Explorer Mapping as an "Other Route with Public Access". The route is not currently recorded on the Definitive Map and Statement, but is recorded on the List of Streets with the reference U1951/10.

From the documents examined it is possible to establish that the case file route is part shown on the Finance Act Survey maps uncoloured and excluded from hereditaments. This suggests that the route was considered to be a public highway at the time of the Finance Act survey, but does not in itself provide evidence about the class of rights that existed over it. On Greenwood's Non-Ordnance Survey Commercial map the route is described under the heading "Cross Roads" in the map key. For the purposes of Discovering Lost Ways research, the identification of a route as a cross road is taken as evidence of reputation of the route as a highway, but is not taken in itself to provide evidence of the class of these rights above that of a bridleway.

The Ordnance Survey 1" Revised New Series map demonstrates evidence for the route. The route is shown on the map and is described in the key under the heading "3rd class metalled road". For the purpose of the Discovering Lost Ways Project research it has been agreed that the showing of routes as 1st, 2nd and 3rd class metalled roads on Ordnance Survey 1" New Series maps will be taken as evidence of public vehicular rights. It is considered therefore that a public vehicular right of way existed over the route at the time of the survey. The class of public carriageway is therefore considered to be appropriate.

The evidence found meets the standards set out in Section 53 of the Wildlife & Countryside Act, 1981 that a public right of way subsists or is reasonably alleged to subsist and has therefore been categorised as "Strong", supporting the making of a definitive map modification order application to add the route to the definitive map.

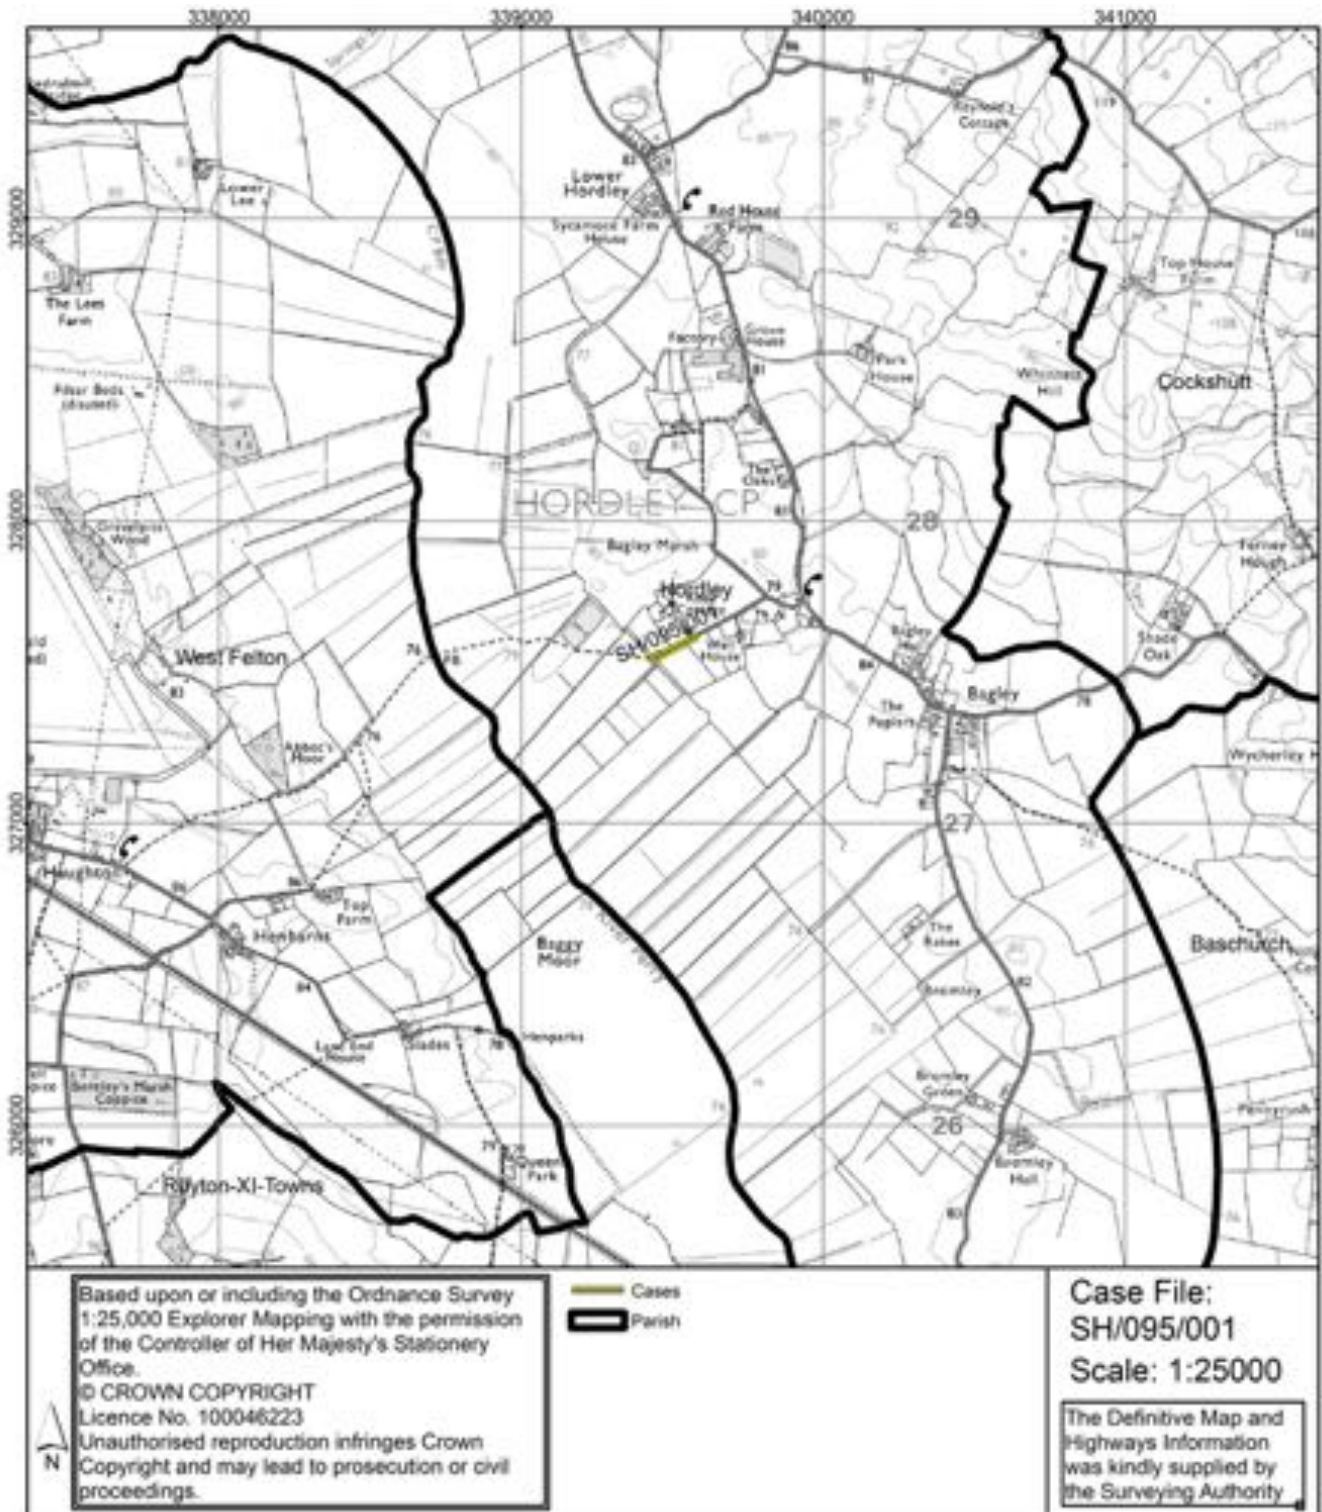

2. Description of Route

The route begins at a junction with public footpath 0214/1-0/FP at coordinate SJ3942 2754 (point A on the Case File Route Map). The route then heads in a north easterly direction, to where it terminates at a junction with Bagley Marsh Road (which has been given the reference U1314/20 on Shropshire County Council's List of Streets) at coordinate SJ3958 2761 (point B on the Case File Route Map).

The route has a length of 180 metres.

During the research process, the whole of the case file reference number SH/095/001 was identified with the case route number T000640. Both references are used in section 6 of this report. Where documents are considered to contain relevant evidence the case route number is used (in bold). Where there is no evidence the case file reference number is used (plain text).

6. Details of Documentary Evidence

Records were examined at the locations detailed in the following table. A reference code has been allocated to each archive.

Archive	Address	Reference code
British Library	The British Library, St Pancras, 96 Euston Road, London, NW1 2DB	BL
Shropshire Record Office	Castle Gates, Shrewsbury, SY1 2AQ.	SHR
House of Lords Records Office	Parliamentary Archives, HLRO, London, SW1A 0PW, United Kingdom	HLRO
LandAspects	LandAspects, Rowan House, Lloyd Drive. Ellesmere Port, Cheshire, CH65 9HQ	LA
The National Archives	The National Archives, Kew, Richmond, Surrey, TW9 4DU	TNA

The following records were examined as part of the research programme. The documents are listed in chronological order. Those documents that are considered to contain relevant evidence for case SH/095/001 are shown in **bold**. This information is arranged in a standard format as follows:

Document Type, the Archive Reference Code, followed by the Document Reference Code, the Title and Date.

Where a document was researched at the British Library (with an archive reference code BL) no digital image was captured.

The Ordnance Survey 25" 1st and 2nd Edition image tiles (© And database right "Crown copyright and Landmark Information Group Ltd" all rights reserved 2007) included within each case file may not, on occasions, exactly reflect the original versions that have been used for research purposes. The original maps held at the British Library may not always be identical in extent and content to the image tiles

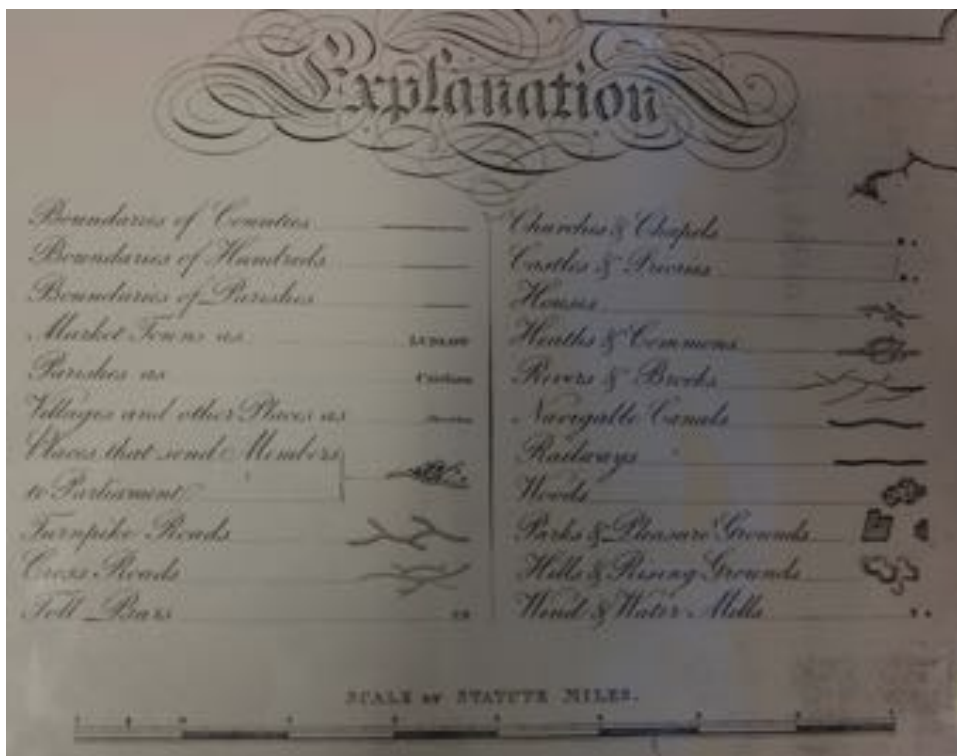

provided by Landmark. The image tiles can therefore only be used as a guide as to what the original document held at the British Library depicted. If the reader of the case files wishes to qualify any statements that have been in the file then they should consult versions held at the British Library.

1. Non-Ordnance Survey Commercial Map, SHR R BAUGH 1808 sheet 1, entitled "To the Right Honourable EDWARD EARL OF POWIS Lord Lieutenant and Custos Rotulorum of the Counties of SALOP AND MONTGOMERY This MAP of SHROPSHIRE is humbly and respectfully dedicated by his LORDSHIPS obliged and obedient Servant ROBERT BAUGH", dated 1808, covers the area but demonstrates no evidence for case SH/095/001.

2. Non-Ordnance Survey Commercial Map, SHR GREENWOODS 1827, entitled "Map of the County of SALOP FROM AN ACTUAL SURVEY Made in the Years 1826 & 1827 BY C. & J. GREENWOOD, Most Respectfully Dedicated To The NOBILITY, CLERGY & GENTRY OF Shropshire, By THE PROPRIETORS GREENWOOD, PRINGLE & Co. Regent Street. Pall Mall.... ", dated 1827, demonstrates evidence for all of route T00640. The route is observed to commence north west of the "B" of "Bagley" on the map. The route is shown on the map and described under the heading "Cross Roads" in the map key. The route is depicted as consisting of two parallel solid black lines. The route

is observed to terminate north of the "B" of "Bagley" on the map.

3. Ordnance Survey Surveyors Drawings, BL 320 (E), entitled "PART of SHROPSHIRE", dated 1827, demonstrates evidence for all of route T000640. The route is observed to commence west of "Bagley" on the map. The route is

shown uncoloured on the Ordnance Surveyor's Drawings and is depicted as consisting of two parallel solid black lines. The route is shown un-named on the Ordnance Surveyor's Drawing. The route is observed to terminate at a point north east of the commencement point.

4. Ordnance Survey 1" Old Series, SHR Ordnance Survey Old Series 1": 1mile, entitled "Folder 1 1833 - 1835", dated 1833 - 1835, demonstrates evidence for all of route T000640. The route is observed to commence north of the "B" of "Bagley Moors" on the map. The route is shown on the map and is depicted as consisting of two parallel solid black lines. The route is observed to terminate north of the "I" of "Bagley Moors" on the map.

5. Tithe Map, TNA IR 30/29/169, entitled "Map of the PARISH of HORDLEY in the COUNTY of Salop", dated 1847, demonstrates evidence for all of route T000640. The route is observed to commence at a junction with another route at the south west corner of parcel "B.84" on the map. The route is shown but is un-numbered and not within a numbered parcel and is depicted as consisting of two parallel solid black lines. The route is observed to terminate at a junction with another route at the south east corner of parcel "B.83" on the map.

6. Tithe Apportionment, TNA IR 29/29/169, entitled "APPORTIONMENT of the RENT-CHARGE in lieu of TITHES in the Parish of Hordley in the County of Salop", dated 30th December 1848, covers the area but demonstrates no evidence for case SH/095/001.

7. Ordnance Survey 25" 1st Edition, BL Vol. 689 (8), entitled "SHROPSHIRE SHEET XX.6 - PARISHES OF WEST FELTON, HORDLEY & RUYTON XI TOWNS", dated 1875, demonstrates evidence for all of route T000640. The route is observed to commence at a junction with another route at the north west corner of parcel "239" on the map. The route is shown specifically numbered on the map as "240" and is depicted as consisting of two parallel solid black lines. The route is shown on the map but is un-named. The route is observed to terminate at a junction with another route at the south west corner of parcel "211" on the map.

8. Ordnance Survey 25" 1st Edition Book of Reference, BL, entitled "Book of Reference to the Plan of the Parish of Hordley (Hundred of Pimhill), Shropshire", dated 1876, demonstrates evidence for all of route T000640. The

route is described in a manner which fails to confer any indication of status, i.e. as "Road" on page "3", in parcel number "240".

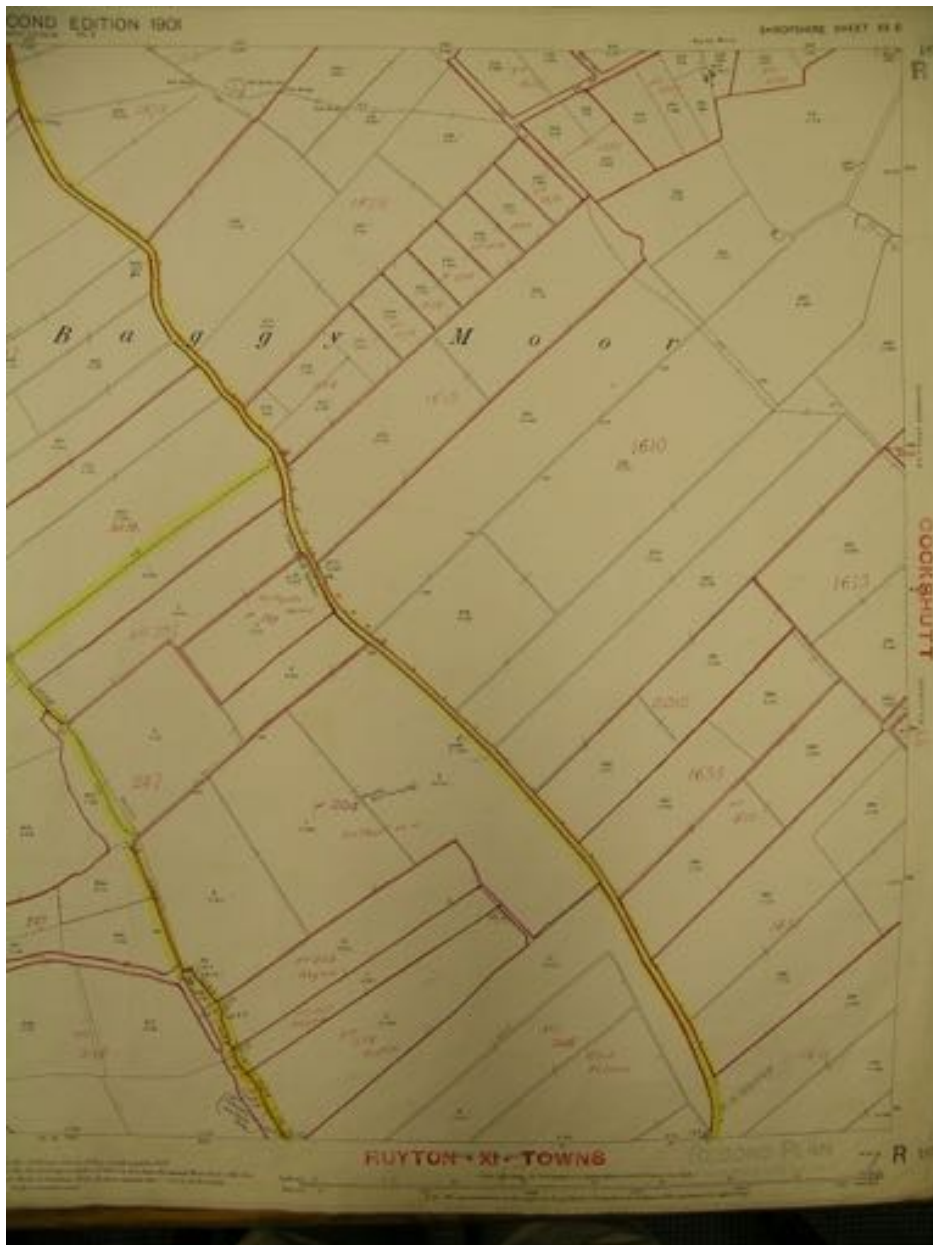

9. Ordnance Survey 25" 2nd Edition, BL 1600 (46), entitled "SECOND EDITION 1901 SHROPSHIRE SHEET XX. 6", dated 1900, demonstrates evidence for all of route T000640. The route is observed to commence at a junction with another route to the south west corner of parcel "239" on the map. The route is shown un-named on the map and is depicted as consisting of two parallel solid black lines. The route is observed to terminate at a junction with another route at the south west corner of parcel "237" on the map.

10. Ordnance Survey 1" New Series, BL Maps 1175 (134.) sheet 138, entitled "OS of England WEM", dated 1902, demonstrates evidence for all of route T000640. The route is observed to commence south of the "r" of "Marsh" on

the map. The route is shown on the map and is depicted as consisting of two parallel solid black lines and is described in the map key under the heading "3rd class metalled road". The route is observed to terminate south of the "s" of "Marsh" on the map.

11. Finance Act Survey Map, TNA IR 132/4/196, entitled "Shropshire Sheet XX.6 - Second Edition 1901", dated 1909/1910, demonstrates evidence for all of route T000640. The route is observed to commence at a junction with another route to the south west corner of parcel "239" on the map. The route is shown uncoloured and excluded from hereditaments. The route is observed to terminate at a junction with another route at the south west corner of parcel "237" on the map.

7. Interpretation of Evidence from Individual Records

Evidence of status:

This evidence concerns the existence of a public right of way. The ARU's research establishes whether a way is described as "public" or "private" and whether public rights can be inferred from other information provided within the documentary source.

Evidence of status is categorised as follows:

Category	Name	Significance
A	Express Dedication	Supporting evidence
B(i)	Surveyor's Opinion / Strong Reputation	
B(ii)	Inferred Dedication / Reputation	
C	Neutral	Status neutral
D	Private	Contradictory evidence
E	Stopping Up	

The individual pieces of evidence which singly or together lead to a particular categorisation vary depending on the particular source being considered and are described in detail in Section 5 of the relevant Research Standard for that source.

The following items of evidence were found to relate to the status of the case file route:

Evidence of class:

This evidence refers to the type of rights enjoyed over the case file route. Evidence is recorded according to the traditional classes of public right of way recorded in documentary evidence: i.e. footpath, bridleway or carriageway. The status and class together may be identified clearly in a document (e.g. public footpath, private carriageway, etc.), but in other cases information on class may not be specified (e.g. “highway”).

The following items of evidence were found to relate to the class of the case file route:

Evidence of physical characteristics:

This evidence relates to the physical appearance of the case file route as recorded in documentary sources, even if these sources do not themselves contain evidence of the route's status or class.

Items of evidence relating to physical characteristics are recorded using a series of 'physical appearance' codes.

The following items of evidence were found to relate to the physical characteristics of the case file route:

Evidence of width:

This evidence relates to the legal width of the case file route – for example, legally defined widths (e.g. in Inclosure Awards).

There is no evidence to support a legal width for the route.

8. Overall Evaluation of Evidence

The evaluation of the evidence has been carried out in accordance with the Discovering Lost Ways Project's series of Research Standards (for specific references see Appendix A below).

Findings from the main documentary sources:

1. Tithe Survey Records

The Tithe Survey map demonstrates evidence for the route. The route is shown but is un-numbered and not within a numbered parcel therefore there is no evidence in the associated apportionment.

2. Finance Act Survey Records

The Finance Act Survey map demonstrates evidence for the route. It is shown uncoloured and excluded from hereditaments. This suggests that the route was considered to be a public highway at the time of the Finance Act Survey, but does not in itself provide evidence about the class of rights that existed over it.

3. Non-Ordnance Survey Commercial Mapping

One Non-Ordnance Survey Commercial map (Greenwood's map) demonstrates evidence part of route on the map. The route is described under the heading "Cross Roads" in the map key. For the purposes of Discovering Lost Ways research the identification of a route as a cross road is taken as evidence of reputation of the route as a highway, but is not taken in itself to provide evidence of the class of these rights above that of a bridleway.

4. Ordnance Survey Records

a. Ordnance Survey Surveyor's Drawings

The route is shown on the Ordnance Survey Surveyor's Drawing as a physical feature only.

b. Ordnance Survey 1" Old Series

The Ordnance Survey 1" Old Series map demonstrates evidence for the route as a physical feature only.

c. Ordnance Survey 25" 1st Edition

The Ordnance Survey 25" 1st Edition map demonstrates evidence for the route. The route is shown specifically numbered on the map and with the corresponding entry in the book of reference describing the route in a manner which fails to confer any indication of status, in this case. as a "Road".

d. Ordnance Survey 25" 2nd Edition

The Ordnance Survey 25" 2nd Edition map demonstrates evidence for the route as a physical feature only. The route is shown un-named on the map therefore the object name book has not been examined.

e. Ordnance Survey 1" Revised New Series Map

The Ordnance Survey 1" Revised New Series map demonstrates evidence for the route. The route is shown on the map and is described in the key under the heading "3rd class metalled road". For the purpose of the Discovering Lost Ways Project research it has been agreed that the showing of routes as 1st, 2nd and 3rd class metalled roads on OS 1" New Series maps will be taken as evidence of public vehicular rights. It is considered therefore that a public vehicular right of way existed over the route at the time of the survey.

Alignment of the case file route:

From the analysis of the Tithe Survey map and modern Ordnance Survey maps the route does not appear to have changed alignment.

Evidence of Width:

There is no evidence to support a legal width for the route.

Contradictory evidence:

No contradictory evidence was found for the route.

Outcome of the evaluation:

Case SH/095/001 was included in the research scope by the Discovering of Lost Ways Project as the route is shown on the Ordnance Survey Explorer Mapping as an "Other Route with Public Access". The route is not currently recorded on the Definitive Map and Statement, but is recorded on the List of Streets with the reference U1951/10.

From the documents examined it is possible to establish that the case file route is part shown on the Finance Act Survey maps uncoloured and excluded from hereditaments. This suggests that the route was considered to be a public highway at the time of the Finance Act survey, but does not in itself provide evidence about the class of rights that existed over it. On Greenwood's Non-Ordnance Survey Commercial map the route is described under the heading "Cross Roads" in the map key. For the purposes of Discovering Lost Ways research, the identification of a route as a cross road is taken as evidence of reputation of the route as a highway, but is not taken in itself to provide evidence of the class of these rights above that of a bridleway.

The Ordnance Survey 1" Revised New Series map demonstrates evidence for the route. The route is shown on the map and is described in the key under the heading "3rd class metalled road". For the purpose of the Discovering Lost Ways Project research it has been agreed that the showing of routes as 1st, 2nd and 3rd class metalled roads on OS 1" New Series maps will be taken as evidence of public vehicular rights. It is considered therefore that a public vehicular right of way existed over the route at the time of the survey. The class of public carriageway is therefore considered to be appropriate.

The evidence found meets the standards set out in Section 53 of the Wildlife & Countryside Act, 1981 that a public right of way subsists or is reasonably alleged to subsist and has therefore been categorised as "Strong", supporting the making of a definitive map modification order application to add the route to the definitive map.

Appendix A - Methodological Statement

A series of technical papers describing the standard for research carried out by the Archive Research Unit have been developed. The DLW Research Standards provide a basis for quality assurance of evidence reports produced by the ARU and the accreditation of any lost ways claims made by Natural England.

The following Research Standard technical papers were used to develop this evidence report:
