

Thank you for your recent call with regard to the above, I am fully aware that people need houses and homes, but does it have to blight the lives of the people already living in the small Towns and Villages within the County.

Shifnal has already had more than it's share of expansion, the Roads are inadequate to cope now never mind perhaps another 10 Thousand vehicles, and in desperate need of URGENT repairs. You have great difficulty parking, so Shifnal is a dormitory Town and does not benefit financially from the New Development as people spent their money else where.

We have been promised a bigger better Surgery for years, nothing happens except to add even more people to its list it was difficult to get in before almost impossible with Covid. The schools are at breaking point.

Did you see all the lorries parked up in Dover prior to Christmas, if they has been coming from France laden with food what a poor Christmas we would have had, we are and Island we need the land to be able to grow crops to feed the Nation you saw for for selves how easy it would be to cut us off from the supply chain.

I am sure there are plenty of brown field sights within the West Midlands without overwhelming Shifnal.

We were a lovely place to live now not so much, we have people complain about Shifnal having the Fair and the Christmas Market and the moaners really having a go about the Tractors, did they not investigate the place before they came here we were a truly Rural small Town, and it cannot take anymore.

My Family have lived here for over 200 years, I went to school here, worked here all my working life and have lived back her for the last 25 years, it has now lost most of it's identity.
