Subject: RE: SP19424_Land at M54 Junction 3, Tong, Shifnal, Shropshire, TF11 8QE. Plant Location request.

Please Note: Our search criteria has changed. We previously searched for Colt Network which was within 200 metres, this has now changed to 50 metres. The negative response will be for all enquiries that the network is 50 metres or more away from the place of enquiry.

Dear Sir/Madam,

Thank you for your enquiry for the above reference.

We can confirm that Colt Technology Services do not have apparatus near the above location as presented on your submitted plan, if any development or scheme amendments fall outside the 50 metre perimeter new plans must be submitted for review.

Search is based on Overseeing Organisation Agent data supplied; we do not accept responsibility for O.O. Agent inaccurate data.

If we can be of any further assistance please do not hesitate to contact us.

Kind regards,

Plant Enquiry Team

Utility Reports (Technics Group)

From: Milne Gareth <Gareth.Milne@networkrail.co.uk> on behalf of OP Buried Services Enquiries <OPBuriedServicesEnquiries@networkrail.co.uk>
Sent: 24 July 2019 09:46
To: Utility Reports (Technics Group)
Subject: RE: SP19424_Land at M54 Junction 3, Tong, Shifnal, Shropshire, TF11 8QE. Plant Location request.

Dear Sir/Madam,

With regards to your enquiry, Network Rail does not believe there is any Network Rail owned apparatus or underground services within the area you have defined. As there is always the possibility that new works could be planned and undertaken in this area by Network Rail this information is valid as at today's date and is supplied for general guidance only.

Please be aware that this response is based on Network Rail's records and knowledge and no guarantee can be given regarding accuracy or completeness. CAT scans, safe digging practices (as contained in HSE publications) and other appropriate investigative techniques should always be carried out.

There may be other apparatus or underground services owned or operated by Utility Companies and accordingly you should contact individual utilities for information.

If, in connection with your investigations and/or work, you become aware of Network Rail apparatus or underground services within your area of work, please ensure these are notified to our Asset Protection team via the following link as a matter of urgency so that appropriate measures for avoidance of risk and damage can be put in place.

RE: Land at M54 Junction 3, Tong, Shifnal, Shropshire, TF11 8QE
OS Grid: 377864,308865
Our Reference: SP19424

Our Company is currently undertaking a utility survey of the site indicated by the co-ordinates detailed above and the areas highlighted on the attached plan/map.

As part of this survey we are required to indicate positions and descriptions of all main statutory services and wayleaves on site and in the adjoining roads where applicable.

We therefore request that you supply us with relevant plan information at your earliest convenience.

Thanking you in advance of your co-operation.

Yours faithfully

If any details of the enquiry change, particularly including, but not limited to, the location of the work, then a further enquiry must be made.

Asset Owners & Responses. Please note the enquiry results include the following:

1. "LSBUD Members" who are asset owners who have registered their assets on the LSBUD service.
2. "Non LSBUD Members" are asset owners who have not registered their assets on the LSBUD service but LSBUD is aware of their existence. Please note that there could be other asset owners within your search area.

Below are three lists of asset owners:

1. **LSBUD Members who have assets registered within your search area. ("Affected")**
 - a. **These LSBUD Members will either:**
 - i. **Ask for further information ("Email Additional Info" noted in status).** The additional information includes: Site contact name and number, Location plan, Detailed plan (minimum scale 1:2500), Cross sectional drawings (if available), Work Specification.
 - ii. **Respond directly to you ("Await Response").** In this response they may either send plans directly to you or ask for further information before being able to do so, particularly if any payments or authorisations are required.
2. **LSBUD Members who do not have assets registered within your search area. ("Not Affected")**
3. **Non LSBUD Members who may have assets within your search area.** Please note that this list is not exhaustive and all details are provided as a guide only. It is your responsibility to identify and consult with all asset owners before proceeding.

National Grid. Please note that the LSBUD service only contains information on National Grid's Gas above 7 bar asset, all National Grid Electricity Transmission assets and National Grid's Gas Distribution Limited above 2 bar asset.

For National Grid Gas Distribution Ltd below 2 bar asset information please go to www.beforeyoudig.nationalgrid.com

RE: 3459704 - J3, Shifnal - 31.78MVA B

To Smith, Andy

Cc Alexander, Emma L.

You forwarded this message on 12/09/2019 08:27.

I have revisited this scheme based on 31.78MVA and can advise as follows:

- We will still need to take the connection back to Bushbury, but should be able to provide a connection at 33kV rather than 132kV. There is still an issue with voltage drop due to the distances involved and we would need three 33kV circuits (approx. 20km) to circumvent this (with consideration of N-1 conditions). We would also need to take a close look at some of the technical detail as the cable charging currents might be beyond the capability of our approved switchgear.
- I have for the purpose of this budget estimate assumed a new primary substation at a suitable location within the development boundary consisting of an indoor (GIS) 33kV switchboard, 3 x 33/11kV transformers and a 12 panel 11kV switchboard.
- Reinforcement works would be required at Bushbury where we would need to replace 132/33kV Grid Transformer GT2B.
- An estimate cost for this scheme is as follows:

non contestable works cost	£	402,948.58
contestable works cost	£	23,650,488.37
Total Connection Cost	£	24,053,436.95
Reinforcement	£	423,150.00
VAT at 20%	£	4,895,317.39
Total	£	29,371,904.34

Dear Andrew,

Re: Land Enquiry for Proposed Development Site at NEW SUPPLY, LAND OFF LIZARD LANE, SHIFNAL, TF11 8QE.

Thank you for your enquiry which we received on 5th August 2019. I enclose details of Cadent Gas plant in the vicinity of your proposed supply.

The nearest main with sufficient capacity is 6900 metres from the site boundary and it is a Intermediate Pressure main.

This Developer Enquiry response is a reflection of the network at the time delivered and is not a guarantee of gas flow or capacity due to the changing dynamics of the gas distribution network. If you wish to secure capacity and connect to the network please submit quotation Connections Request via the official connections route allowing for further analysis to verify the capability of the network again.

Plans attached: Yes

A copy of the Cadent Connections Charging Statement referenced in this letter can be found on Cadent's website:

<http://cadentgas.com/Get-connected>

If you require a printed version please contact us on the details provided above.

I trust this meets with your requirements at this stage. If you have any queries please do not hesitate to contact Performance and Support on the above number.

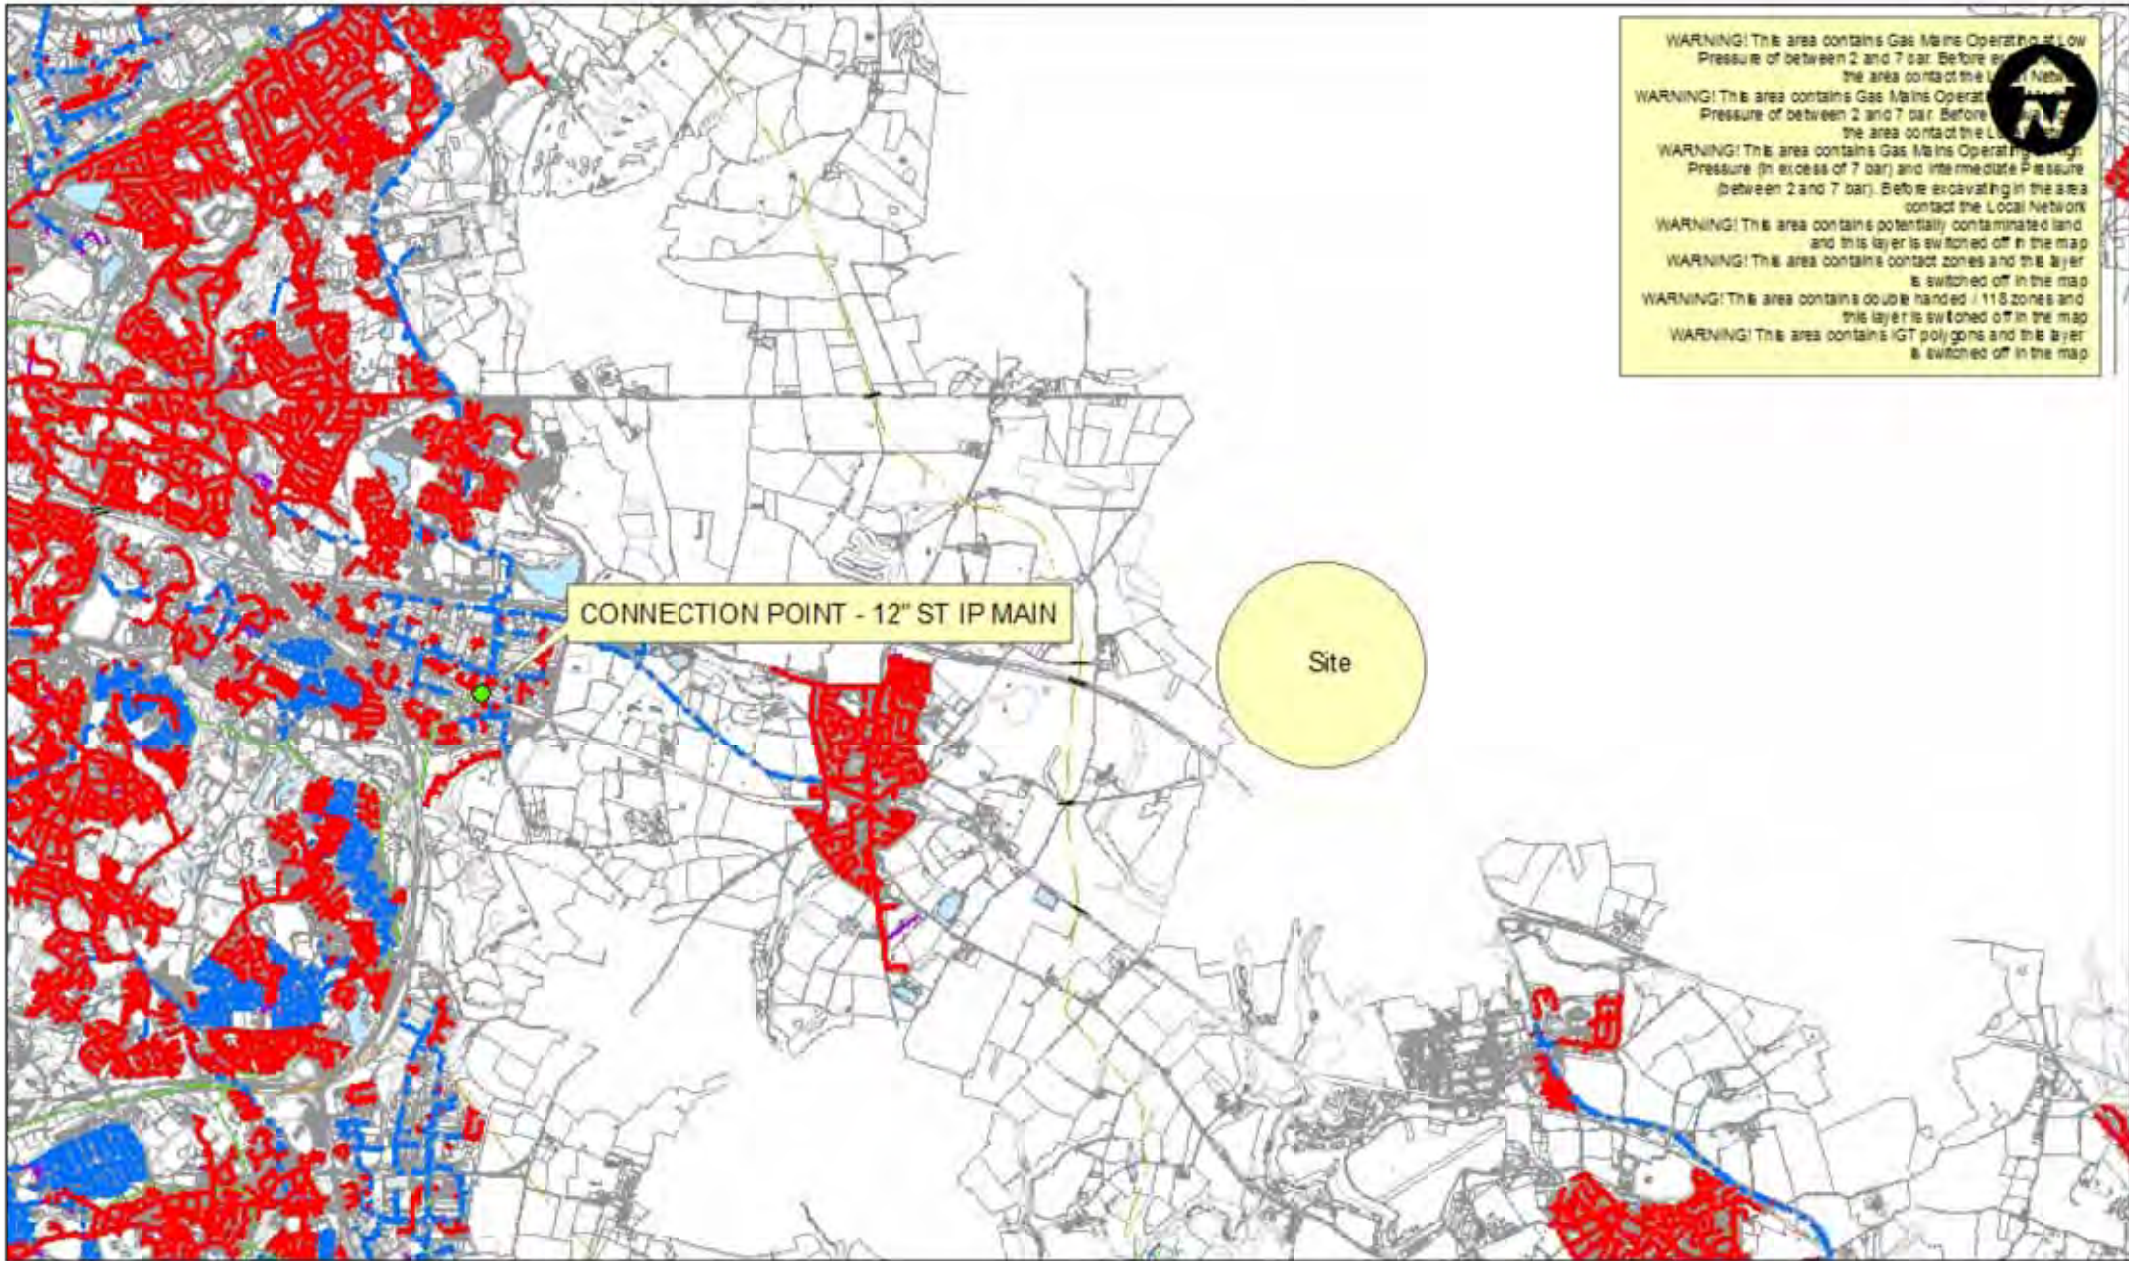

Yours sincerely,

Claire Wilcox

This plan shows those pipes owned by Cadent in its role as a Licensed Gas Transporter (GT). Gas pipes owned by other GTs, or otherwise privately owned, may be present in this area. Information with regard to such pipes should be obtained from the relevant owners. The information shown on this plan given without warranty, the accuracy thereof cannot be guaranteed. Service pipes, valves, syphons, stub connections, etc., are not shown but their presence should be established. No liability of any kind whatsoever is accepted by Cadent Gas Limited or their agents, servants or contractors for any error or omission. Safe digging practices, in accordance with HSE(D)47, must be used to verify and establish the actual position of mains, pipes, services and any other apparatus on site before any mechanical plant is used. It is our responsibility to ensure that this information is provided to all persons (either direct labour or contractors) working for you on or near gas apparatus. The information included on this plan should not be referred to beyond a period of 28 days from the date of issue.

Dear Andrew,

Your indicative quotation

Further to your recent request, we are pleased to provide you with an indicative quotation for gas infrastructure for the following site:

J3 Scheme, Land off Lizard Lane, Shifnal, TF11 8QE

We can confirm that indicative the price to undertake the works set out in this quotation letter will be: **£3,089,423.00**

This quotation has been put together using the information supplied and is valid only on condition that all assumptions made in this quotation are correct.

The indicative price shown assumes:

- Gas mains and services to supply a combined load of 72324kW
- Gas meter supply and installation (incl. terminations).
- Provision of all plant and materials.
- Design and submission of plans to relevant network for approval.
- Connection to the existing gas infrastructure in the highway.
- Local Authority permits and road opening notices.
- Excavation, backfill & reinstatement on public land.
- Mobilisation of Contractors/Service Providers appointed by Complete Utility Solutions Ltd.
- ABOVE PRICE EXCLUDES ANY ASSET VALUE DISCOUNTS/REBATES THAT MAY BECOME AVAILABLE UPON A FIRM REQUEST.

We trust that this indicative price will meet with your requirements, but if we can assist you any way to move your project forward then please don't hesitate to contact us on 01709 540544.

Dear Mr. Smith

Clean Water Development Enquiry For: J3 Scheme, Shifnal. TF11 8QE

Thank you for your recent enquiry regarding the above site. Please find enclosed a copy of our records which show the approximate position of our existing water mains. The water mains shown would normally be laid to a cover of 900mm and our services (which are not shown on the plan are normally laid at right angles to the main) must be laid to a minimum of 750mm. When excavating, care should be taken to accurately locate our mains and services, as they may be found at shallower or deeper depths than indicated. There may also be private pipework crossing the site.

About Your Application

Based on the details provided in your application, I am pleased to confirm that we can supply your proposed development of 3,415 dwellings and 10 commercial units. As there is currently no infrastructure in the area to support any of the required flows, new trunk main will need to be installed to bring water from the nearest Distribution Reservoir. It is important that you notify us as soon as possible when the layout plan is being put together to ensure that Severn Trent Water can complete the installation of the water main before and or in line with the construction. This may take some time and as such this should be taken into account when considering programme of works. Therefore the below estimate budget cost does not include off-site works.

Please note there is an existing water mains within site boundary and may require diversion. The large trunk main provides source of water to our reservoir and moving it could take longer period. If you wish to retain the water main in its existing location it should be remembered that this is only possible if left at the current level with the correct easement. If it is preferred to retain the main in its existing location it would be necessary to establish line and level to ensure the easement can be marked up. Diversion Application may be necessary to establish whether the water main will be effected and impacted by the construction activity. Before any construction for the site starts the development proposals will need to be

assessed, in detail, to confirm any diversionary requirements. No permanent structures are to be built within the protective easement of the existing main and there will be restrictions on tree planting/hedgelaying (please see the attached 'General Conditions' leaflet for further information).

As the length of main to be diverted will be dependent on the layout progressing to construction and the depths/methods of construction, costs cannot be estimated for these works at this time. The price of the work will be provided alongside your formal application and design. The true line and level of the existing main will need to be determined via surveys or trial holes. It is recommended that your diversion application is submitted ahead of your mains application to avoid any delays during design and build. No construction is to take place within the area of the existing main until the diversion works have been agreed to avoid the risk of damaging the asset.

Due to the size of your development this will need to be applied for in phases. Phases should be designed to allow for no more than 250 properties per phase where possible, with an aim to occupy these properties within a 5 year period.

Cost Estimates

When the site is developed, your contribution to the new water main(s) will be reduced by the anticipated income we will receive from the connected properties, this is known as the Developer Contribution. If you choose to install a spine main initially through the main access road(s) for the site, this mains construction will be at full contribution under our current policies and processes. If a phase exceeds more than 250 properties costs for the onsite mains will be at a bespoke cost.

Please note that the following is a **budget** estimate only, based on a desktop assessment of your site and the information provided by yourselves. These costs will be subject to change upon receipt, assessment and design of your formal application.

As you have not provided a build profile or phasing plan with your application we have based on the following cost estimates on the assumption that each phase will be no greater than 250 plots. Based on this estimate we have provided a budget cost based on 13 phases of 250 plots and a remaining phase of 165 plots.

As the source of water is over 22m from your site boundary this will need to be priced as a bespoke cost upon receipt of your formal application and is excluded from the below estimate

As you have stated that your site history is greenfield it has been assumed that all pipework will be suitable in MDPE. If there are sections of your site that are not greenfield, have had imported ground or are within 50m of a contamination issue a ground investigation report will be required as part of your formal application for assessment to confirm MDPE is suitable.

Where your site includes buildings for commercial use, a full fittings list would be required for these units onsite to enable us to calculate the anticipated income for this section of the site and your contribution. If fittings lists for these units are not available we would only be in a position to commute the domestic properties within that phase.

The **budget** cost (exclusive of VAT for Severn Trent constructing the new water main(s)) is:

13 Phases x 250 plots = 3,250 plots

New Water Mains (inclusive of connection cost)	£4,217,000.00
Developer Contribution	£421,700.00

1 Phase x 165 plots = 165 plots

New Water Mains (inclusive of connection cost)	£214,000.00
Developer Contribution	£21,400.00

If preferred, you may instead elect a Water Industry Regulation Scheme (WIRS) accredited contractor to self-construct the new water mains and services (in accordance with Severn Trent's published scheme). Further details and a list of registered contractors can be found at <http://www.lr.org/en/utilities-building-assurance-schemes/uk-schemes/water-industry-registration-scheme/>

Severn Trent is prepared to give an Asset payment for the constructed water mains laid by a WIRS accredited company. This will be paid to the developer or SLO for the work they complete. Your Developer Contribution will remain the same as it would if you elected for STW to install the main. The estimated asset value payment for this site is:

13 Phases x 250 plots = 3,250 plots

Estimated Asset Payment	£3,795,300.00
--------------------------------	----------------------

1 Phase x 165 plots = 165 plots

Estimated Asset Payment	£192,600.00
--------------------------------	--------------------

For more details on our self lay process please visit our website at <https://www.stwater.co.uk/building-and-developing/new-site-developments/self-lay/> or contact us on 0800 707 6600.

Service connection charges are not included in the cost of mains laying or your agreement and would be issued under separate cover once your mains terms have been accepted. The charges will vary depending on the work being carried out for each connection.

The following estimate has been provided based on the number of properties on your site and the infrastructure charges they would incur. This estimate **does not** include the cost of this individual service connection work or take into account any infrastructure credits or

discounts that may be applicable. For further details please refer to our Developer Charges which can be found on our website.

13 Phases x 250 plots = 3,250 plots

Infrastructure Charges Water	£1,426,392.50
Infrastructure Charges Waste	£861,510.00

1 Phase x 165 plots = 165 plots

Infrastructure Charges Water	£72,416.85
Infrastructure Charges Waste	£43,738.20

What Happens Next

When you wish to proceed with obtaining water infrastructure for the development, you will need to submit a formal water mains application form for design and quotation. The application can either be downloaded from our website at www.stwater.co.uk/developers or a copy emailed or posted from our new connections office. If you would like a copy by email or post, or wish to discuss the scheme further before submitting your form please contact myself on the details below or our New Connections Team line on 0800 707 6600 / new.connections@severntrent.co.uk

When you submit your application form please include a copy of the overall phasing layout for the site, showing entry/exit points between phases so that each phase can be designed to cater for any future demand where shared between parcels. Each submission should also be cross referenced with the scheme it is linked to throughout the construction/development period.

Each application will need to be clearly marked with the phase number/name with a site layout in AutoCad DWG format showing the parcel's details for design. As above it will need to include the entry/exit points to future parcels for reference but will not need to show outside the boundary(s)

Yours sincerely

To  Smith, AndyCc  geoffrey.bell@openreach.co.uk You forwarded this message on 13/08/2019 08:55.

openreach

Thank you for your Land Enquiry.

Openreach will deploy FTTP, free of charge, into all new housing developments of 30 or more homes.

Openreach can provide your development with Fibre to the Premises, free of charge.

Fibre to the Premises provides estimated speeds of up to 1Gbps enabling your home owners to stream HDTV, play computer games and write emails simultaneously providing the best communications experience

Commercial

We can confirm that all commercial only sites will now be provided with FTTP (Fibre To The Premises) with Openreach contributing £1000/plot of the cost. Any costs over and above this will be payable by the developer.

Any additional charges will be confirmed in an offer letter when the site is registered with us.

At this time your site has not been registered, if you would like to proceed to register your site with Openreach, please use the appropriate form on our website.

Re: HSE Check

To: Smith, Andy

You forwarded this message on 11/07/2019 15:05.

Dear Andy

Thank you for your email.

I have checked your site using the map that you provided. The proposed development site which you have identified does not currently lie within the consultation distance (CD) of a major hazard site of major accident hazard pipeline; therefore at present HSE does not need to be consulted on any developments on this site. However, should there be a delay submitting a planning application for the proposed development on this site, you may wish to approach HSE again to ensure that there have been no changes to CD's in this area in the intervening period.
