There is a common law duty to take the results of a consultation "conscientiously into account". Therefore the inspector must investigate the fact that building more houses than the required amount in Shropshire is incompatible with the government's legally binding commitments to tackle the climate emergency.

The additional proposed number of houses breaches the government's legally binding commitment to hit net zero carbon by 2050.

It is important that decisions of local authorities that have significant ramifications for the environment for years to come be taken in a free and fair manner, not dictated by central government as appears to have happened here.

To confirm, there is a common law duty to take the results of a consultation "conscientiously into account". Therefore the inspector must investigate the fact that building more houses than the required amount in Shropshire is incompatible with the government's legally binding commitments to tackle the climate emergency.

There is a common law duty to take the results of a consultation "conscientiously into account". I do not believe Shropshire Council have met this requirement considering they have not taken into account how Covid 19 restrictions have impacted people's ability to have their say and have not stopped this process due to Covid19.

The consultation has not taken into account the restrictions on public involvement because of Covid19 restrictions and it is therefore against government guidelines. One of the stated consultations means for people without internet access is through public libraries. Much Wenlock library is now closed, as are all libraries throughout Shropshire, resulting in those without internet access not being able to participate in the consultation process. The demographics of Shropshire on the 2011 census states that 24% of the population in the county is over 65 and are more likely to rely on libraries for internet access. As you can see, the consultation process has not been sound as these demographics have had no access to the resources they need to respond.

Within appendix B.13 Much Wenlock Place Plan Area Consultation Response Summary you can see the responses of local residents to the previous round of consultation.

The breakdown of views were as follows –

A.8. Question 32 (a) Question 32 (a) sought views on whether respondents agreed with the identification of Cressage as a Community Hub.

Of the unique respondents that completed this question: • 5% agreed with the identification of Cressage as a Community Hub; • 82% did not agree with the identification of Cressage as a Community Hub; and • 12% responded don't know/ no opinion on the identification of Cressage as a Community Hub

A.9. Question 32 (b) Question 32 (b) asked respondents if they agreed with the preferred housing guideline for Cressage.

Of the unique respondents that completed this question: • 5% agreed with the preferred housing guideline for Cressage; • 84% disagreed with the preferred housing guideline for Cressage; and • 11% responded don't know/ no opinion on preferred housing guideline for Cressage.

A.10. Question 32 (c) Question 31 (c) asked respondents if they agreed with the proposed development boundary for Cressage.

Of the unique respondents that completed this question: • 6% agreed with the proposed development boundary for Cressage; • 82% did not agreed with the proposed development boundary for Cressage; and • 12% responded don't know/ no opinion to the proposed development boundary for Cressage.

A.11. Question 32 (d) Question 32 (d) asked respondents if they agreed with the preferred housing allocation CES005 in Cressage.

Of the unique respondents that completed this question: • 5% agreed with preferred housing allocation CES005; • 83% did not agreed with preferred housing allocation CES005; and • 12% responded don't know/ no opinion on preferred housing allocation CES005.

It is very clear that the well over 82% of residents opposed the identification of Cressage as a community hub.

It is also clear the Shropshire Council have made a serious error in their calculations of the totals because they have classed identical responses as a single response. They only classed unique responses as singular responses. Over 300 people replied using pre filled forms!

This is totally undemocratic and needs urgent investigation. Is it legal to group together identical responses as one when they have come from individual people? They have silenced the voices of hundreds of residents who responded using the same answer. Their voices should still be heard.

There is a common law duty to take the results of a consultation "conscientiously into account".

I do not believe Shropshire Council have met this requirement considering the extremely strong opposition to community hub status from within the community that has been ignored.

I also believe they have broken the law and/or rules of consultation by classing identical individual responses as one response.

These issues need urgent investigation and reconsideration.

I ask that Shropshire Council and the Inspector disclose the numbers of people in support of Cressage becoming a Community hub status compared to those who opposed it. I ask this as a formal request for information under the Environmental Information Regulations 2004.

I request that the Inspector comes and inspects the village facilities to determine if the points scoring assessment by Shropshire Council is appropriate. Should it be found that a deduction of points is required to be made I believe that Cressage would remain as Open Countryside status which will last for at least 20 years and will mean that no further large scale housing developments will occur within or around the village over this period of time.

There is a common law duty to take the results of a consultation "conscientiously into account". Therefore the inspector must investigate the responses of nearly 300 residents from Cressage opposing becoming a Community hub in the previous round of consultation and why feedback was not given and changes were not made considering the strong response from the community about the way in which Cressage has been selected for Community Hub status being incorrect. There are several areas of contention in the scoring of services, facilities and employment for Cressage and it is clear the scoring system that determined Cressage as a hub is incorrect, unfair and unjust.

I request that the Inspector at the forthcoming Public Inquiry comes and inspects the village facilities to determine if the points scoring assessment by Shropshire Council is appropriate. Should it be found that a deduction of points is required to be made I believe that Cressage would remain as Open Countryside status which will last for at least 20 years.

One of the stated consultations means for people without internet access is through public libraries. Much Wenlock library is now closed, as are all libraries throughout Shropshire, resulting in those without internet access not being able to participate in the consultation process. The demographics of Shropshire on the 2011 census states that 24% of the population in the county is over 65 and are more likely to rely on libraries for internet access. As you can see, the consultation process has not been sound as these demographics have had no access to the resources they need to respond.

I ask the Independent inspector to review Shropshire Councils consultation process during Covid19 and the obvious impacts that has had on preventing people from replying.

There is a common law duty to take the results of a consultation "conscientiously into account". I do not believe Shropshire Council have met this requirement considering they have not taken into account how Covid 19 restrictions have impacted people's ability to have their say and have not stopped this process due to Covid19.

This response from CPRE Shropshire expands on the high-level points, made in earlier submissions, that the local plan:

- i) is suffused with a model for growth well in excess of demographic need, which is not truly sustainable, because it is at odds with both the climate emergency and the ecological emergency;
- ii) has targets for both housing and employment land that are too high, based on figures that are questionable;
- iii) won't get the right sort of houses, particularly affordable houses, built in the right places; and
- iv) has a flawed consultation process, which is undemocratic.

I ask the Independent inspector to review Shropshire Councils consultation process and answer the following questions which is common law duty to take the results and questions of a consultation "conscientiously into account".

- 1) Why the local plan is suffused with a model for growth well in excess of demographic need? (This is at odds with the climate emergency).

There is a common law duty to take the results of a consultation "conscientiously into account". Therefore the inspector must investigate the responses of nearly 300 residents from Cressage opposing becoming a Community hub in the previous round of consultation and why feedback was not given and changes were not made considering the strong response from the community about the way in which Cressage has been selected for Community Hub status being incorrect. There are several areas of contention in the scoring of services, facilities and employment for Cressage and it is clear the scoring system that determined Cressage as a hub is incorrect, unfair and unjust.

I request that the Inspector at the forthcoming Public Inquiry comes and inspects the village facilities to determine if the points scoring assessment by Shropshire Council is appropriate. Should it be found that a deduction of points is required to be made I believe that Cressage would remain as Open Countryside status which will last for at least 20 years.

I ask that Shropshire Council and the Inspector disclose the numbers of people in support of Cressage becoming a Community hub status compared to those who opposed it. I ask this as a formal request for information under the Environmental Information Regulations 2004.

I request that the Inspector comes and inspects the village facilities to determine if the points scoring assessment by Shropshire Council is appropriate. Should it be found that a deduction of points is required to be made I believe that Cressage would remain as Open Countryside status which will last for at least 20 years and will mean that no further large scale housing developments will occur within or around the village over this period of time.

Within the preferred sites consultation document it clearly states that Cressage is a 'proposed hub'.

However, the Local plan says that Cressage has been a hub since 2015.

This is totally inaccurate, erroneous and misleading.

It means that the Local plan is not legally binding because of misinformation and error.

There is a common law duty to take the results of a consultation "conscientiously into account".

I do not believe Shropshire Council have met this requirement considering these serious errors and misinformation within the Local Plan document.

This major error will have mis-informed respondents and therefore means the process isn't legally binding, sound or compliant with the Councils duty to co-operate.

I ask that the inspector urgently reviews these errors and restarts the consultation process.

There is a common law duty to take the results of a consultation "conscientiously into account". Therefore the inspector must investigate the fact that building more houses than the required amount in Shropshire is incompatible with the government's legally binding commitments to tackle the climate emergency.

The additional proposed number of houses breaches the government's legally binding commitment to hit net zero carbon by 2050.

It is important that decisions of local authorities that have significant ramifications for the environment for years to come be taken in a free and fair manner, not dictated by central government as appears to have happened here.

Responses of nearly 300 residents from Cressage opposing becoming a Community hub in the previous rounds of consultation were submitted because the village believe the scoring system to be incorrect. They have been totally ignored.

The Parish Council have also ignored the majority view of the Cressage population and continued to support the Community Hub status, this is despite the overwhelming responses in previous rounds of consultations and also residents calling an extraordinary meeting to ask the Parish Council to change their position to reject the Local Plan.

In their response, The Parish Council said that although there was clearly a strong feeling to reject the Local Plan in Cressage, they believed there was an ever larger 'silent majority' who support it.

I have never heard such undemocratic nonsense in my entire life and this needs urgent attention because they are clearly abusing their position of power and have misrepresented the village on this important issue.

**Please note:** *In your representation you should provide succinctly all the evidence and supporting information necessary to support your representation and your suggested modification(s). You should not assume that you will have a further opportunity to make submissions.*

**After this stage, further submissions may only be made if invited by the Inspector, based on the matters and issues he or she identifies for examination.**

**Q6. If your representation is seeking a modification to the Regulation 19: Pre-Submission Draft of the Shropshire Local Plan, do you consider it necessary to participate in examination hearing session(s)?**

*Please note that while this will provide an initial indication of your wish to participate in hearing session(s), you may be asked at a later point to confirm your request to participate.*

No, I do not wish to participate in hearing session(s)

Yes, I wish to participate in hearing session(s)

*(Please tick one box)*

**Q7. If you wish to participate in the hearing session(s), please outline why you consider this to be necessary:**

*(Please continue on a separate sheet if necessary)*

**Please note:** *The Inspector will determine the most appropriate procedure to adopt to hear those who have indicated that they wish to participate in hearing session(s). You may be asked to confirm your wish to participate when the Inspector has identified the matters and issues for examination.*
