Dear Sir/ Madam,

RE: Shropshire Council Local Plan - Regulation 19: pre-submission draft of the Shropshire Local Plan Consultation – WEF002 & WEF032. Land North of Grimpo Road, West Felton.

I am writing in response to the consultation for the pre-submission draft of the Shropshire Local Plan, with regards to land on Grimpo Road, West Felton, Oswestry belonging to our client Mr. J Millington. This site is currently an agricultural field located to the North of Grimpo Road, West Felton, ref. WEF002 & WEF032.

The site has no significant constraints but has future potential. I am writing as we believe this land can be considered for short term potential due to the following:

Availability

Mr Millington has the benefit of full title to the land and is willing to make it immediately available for development. The adjoining land has recently been developed for residential use and this site has received interest from developers. The primary school has been in contact with our client concerning a potential playing/amenity field and car park as this site is opposite the primary school. An area could be provided for the primary school amenity/playing field/car park, which could be incorporated into a small residential scheme.

Deliverability and Sustainability

We can confirm this is a well located and fully deliverable site with an area of 0.33 ha or 2.00ha. We believe this site is suitably placed to provide development in West Felton towards the target of dwellings by 2038, being situated with an established access to the former A5 and adjoining recently developed land.

Our proposed site WEF002/WEF032 has achieved a sustainability rating of **GOOD**, which is one of the better ratings compared to the other sites in West Felton. The land is well positioned with access to the highway on the southern boundary and is adjoining land that has recently gained planning permission and has already been developed for caravan storage.

Access

The land benefits from direct access onto Grimpo Road. This access will require upgrading, but this can be achieved within Mr Millington's ownership.

Surveys

Our client is very keen to provide this site for residential development, therefore is happy to provide any information the Council deems as necessary as further evidence of the site being available and sustainable such as; environmental, habitat, flood or highways reports. In addition to this we would be happy to provide indicative layout plans to show how the development could be implemented.

Please do not hesitate to contact me should you have any questions with regards to WEF002 & WEF032 and I would be delighted to help.

Yours sincerely,
