

Cherry Lodge - The Farm Project

As part of our ongoing development of services, there will be an exciting new location in the nearby Shropshire countryside, coming in Autumn. Cherry Lodge - The Farm.

The aim is to provide safe and educational outdoor activities such as an understanding of the environment, growing crops, vegetables and flowers, produce that can be sold, animal husbandry, practical workshops and projects and other opportunities as we dream them up. All whilst providing support, promoting independence and developing new life skills.

Your input will help us determine the best use of this facility, in conjunction with our purpose built facility and commercial kitchen already operating in Sutton Farm.
