23	I used to bike to the pool. Now I have had multiple replacement joints and have also rheumatoid arthritis. I need to have steps into the pool that are not vertical and wide apart up the side of the pool. A graded entry, of sloping, more shallow steps would make getting into the pool easier and enable me to swim, gaining much benefit from the exercise for me and my joints/muscles.	8/18/2015 1:31 PM
24	I have replacement hip, knee and shoulder joints. It would be good therapy to swim but I have previously found the steps at the side of the Quarry too difficult to go up or down because they are vertical down the side or with safety.
