Percentage of footways which should be considered for maintenance	Good	Exceeding
Percentage of nights in which sufficient street lighting is working	Good	Improve
Percentage of time that traffic signals are working	Good	Acceptable
Delivering priority drainage improvements	Good	Acceptable

The dashboard shows the progress of the service is helping achieve the asset management mission. The performance measures are grouped into measures of what we are doing and what we are achieving. Our progress is presented as a rating of where we currently are today compared to an assessment of where we aspire to be. The overall progress in achieving the two elements of our mission is calculated as an aggregate of what we are achieving. Our aims may be reviewed from time to time in light of our progress and changes in resources. The dashboard will be updated on a quarterly basis.

Legend

Exceeding means the service provided is better than planned

Acceptable means the service provided is as planned

Improve means the service provided is not as planned
