Garden Waste Charging and Household Recycling Centres Consultation

Shropshire Council continues to face significant financial pressures and it is therefore essential that the council looks at alternative sources of revenue generation. The alternative would be to cut essential frontline services.

The collection of garden waste is not a statutory duty and therefore not a service the council have to provide if they choose not to do so. Under the Control of Waste Regulations, the council can charge for garden waste collections. The fees for garden waste are set on each council's individual circumstances, such as the cost of providing the service, local budget constraints and demand. The revenue generated can be used to offset other budget pressures and support the delivery of existing services.

We believe that garden waste collection is a service that the majority of residents who have the service would prefer to continue. But to continue providing this service in the current financial climate, it is fairer to introduce a charge to fund the garden waste service only for those that use it.

If a chargeable garden waste service is implemented, how would you be most likely to deal with your garden waste going forward?

- Take more garden waste to a Household Recycling Centre
- Pay the annual fee for 1 bin
- Pay the annual fee for more than 1 bin
- Compost at home
- Don't know
- Other (please specify)

We have undertaken some benchmarking against other local Authorities that statistically have similar characteristics as Shropshire. Below is a table giving details of how these councils currently provide for garden waste collection (all are for 240L bins):

Authorities	Frequency	Cost
Central Bedfordshire	Fortnightly	Free
South Gloucestershire	Fortnightly	£30
East Riding of Yorkshire	Fortnightly	£42 (proposed)
Warrington	Fortnightly	£42
Cheshire West & Chester	Fortnightly	£50
Northumberland	Fortnightly	£52
Bath & North East Somerset	Fortnightly	£52
North Somerset	Fortnightly	£55
Cheshire East	Fortnightly	£56
Cornwall	Fortnightly	£65
Wiltshire	Fortnightly	£66
Solihull	Fortnightly	£91
Isle of Wight	Fortnightly	£102
Average	Fortnightly	£55

Would you consider for example a charge of £52 per year to be a fair charge?

- Yes
 No
 Don't know

What impact (positive or negative) would it have on you if we charged for collection of garden waste?

Food Waste Collections

A charge cannot be made for the collection of food waste, **therefore all the properties where food waste is presently collected with garden waste (approximately 75% of all Shropshire properties) will have the service suspended even if they subscribe to the garden waste service.**

As set out within the Environmental Act 2021, there is now a statutory requirement for all Local Authorities in England to provide a weekly food waste collection to all households from the 1 April 2026. We have been working with the DEFRA food waste programme and have now developed several collection options.

The proposed suspension of food waste collections will therefore only be until **April 2026 when all properties in Shropshire will receive a new weekly food waste collection service.**

* Do you put food waste in your garden waste bin.

Household Recycling Centres (HRC)

The council has a statutory duty to provide sites at which residents can deposit their household waste free of charge and that are reasonably accessible to residents. The legislation does not specify how many sites an authority should provide and therefore the responsible authority is able to determine what is reasonably accessible based on local circumstances.

Do you use your local HRC?

- Yes
 No

Which HRC do you use most frequently?

How often do you use the HRC on average?

- Daily
 Weekly

Possible Closures to Household Recycling Centres

As outlined in the [Medium Term Financial Strategy](#), Shropshire Council is proposing to close two of the five [Household Recycling Centres](#) in the county as part of necessary cost saving measures. However, we would like to get your views on some possible alternative options to this proposal. The next questions are designed to see what you think about other possible options we are exploring.

If your nearest site was permanently closed what would you do with your waste?

- Take to the another site that is open
- Reuse and give more items to charity
- Put more in my household bins
- Use the council's [bulky waste collection service](#) to get rid of larger items
- Use a 'man with a van' to get rid of my waste
- Don't know
- Other
- Other (please specify)

If your local HRC were to close, which HRC would you go to instead?

If your local HRC were to close for two days per week, please rank which days of the week you would prefer for them to stay open, with 1 being the day you most want the HRC to stay open and 7 being the day you feel is least important for it to stay open.

- Sunday
- Monday
- Tuesday
- Wednesday
- Thursday
- Friday
- Saturday

What impact (positive or negative) would it have on you if your nearest HRC closed?

* Would you consider paying a higher rate for garden waste collection (e.g., £60 per year) if it supported keeping all the Household Recycling Centres (HRC) open?

- Yes
- No
- Don't know

Garden Waste Charging and Household Recycling Centres Consultation

You said that you might be willing to pay a bit more for garden waste collection if it helps to keep all of the Household Recycling Centres open.

Can you tell us how much more extra would you be prepared to pay per year?

- up to £5 more (or £57 per year)
- up to £10 more (or £62 per year)
- up to £15 more (or £67 per year)
- More than £67 per year
- Other (please specify)

Garden Waste Charging and Household Recycling Centres Consultation

Please rank the following possible options for the future of the Household Recycling Centres, with 1 being your most preferred option and 3 being your least preferred option.

-   Closing two HRCs in Shropshire in accordance with the council's target to achieve £62m in savings
-   Reducing the operating hours of all 5 HRCs in Shropshire instead of closing two centres permanently
-   Pay a higher annual subscription for garden waste collection and keep all HRCs open seven days a week

Booking System for Household Recycling Centre (HRC)

Many councils have a booking system for their HRC where local residents who register can book slots, times and date to visit the HRC usually the next day. This reduces queues and improves the customer experience as staff on site have more time to help and saves the council money.

Do you support the introduction of a booking system at the HRC in Shropshire?

- Yes
- No
- Don't know

Please add any comments here if you would like to explain your answer:

How would you prefer to book a slot?

- Smart phone app
- On-line - Website
- Telephone - customer Call centre
- Other (please specify)
