If you are objecting, you should make clear why the document is unsound having regard to the issues of 'legal compliance' or whether the document is not positively prepared, justified, effective or not consistent with national policy.**

In general, I support the Plan to use the site designated Bisho 13 for a major housing development in the town as it is close to the main trunk road (the A488) and will provide relatively easy access to the GPs' Surgery and the Community College. Any windfall housing developments on greenfield sites in other areas in and around the town should be restricted to a minimum number of units to reduce the impact of additional vehicular movements on the town's narrow roads which have few passing places and inadequate parking facilities. However, consideration should be given to using some of the areas in Bishop's Castle which have been hitherto designated for use to create employment – many of these brownfield sites have remained un-used for sometime with little sign of the situation changing . Maybe the time has come to encourage them to be used for housing.

Q9: Explain the changes you think should be made to the SAMdev Plan in order to make it legally compliant or sound. You should explain your suggested revisions to the policy, paragraph or section of the policies map and why this change would make the plan legally compliant or sound. Please be as precise as possible. Respondent skipped this question**Q10: Do you wish to make another representation?** No
