Positively prepared	YES
Justified YES	
Effective YES	
Consistent with National Policy	YES

In the box below please specify your reason for supporting or objecting.

If you are objecting, you should make clear why the document is unsound having regard to the issues of 'legal compliance' or whether the document is not positively prepared, justified, effective or not consistent with national policy (Continue on a separate sheet if necessary).

The concept of identifying Community Hubs and Clusters is supported.

Allocating Hinstock as a Community Hub is supported. It is a sustainable settlement with a good range of local services and facilities including a school and shop.

However, the village has been given a housing guideline of just 60 dwellings. This will fail to take full advantage of the available services and will not make the village more sustainable.

The figure of 60 dwellings has been derived from representations made by the Parish Council and is not the result of any objective assessment of the capacity of the village to accept further development.

In order to secure a sensible level of development that will genuinely assist the settlement to become more viable and perhaps achieve a critical mass of persons sufficient to re-instate its bus service, further sites for development need to be added to the list of allocations. OS 5073 lies just outside the current built up area of the village, and its development would not therefore have an adverse effect on any existing residential property. It is nevertheless within easy walking distance of all the village amenities, including the school and shop.

Please use the box below to explain the changes you think should be made to the SAMDev Plan in order to make it legally compliant or sound? You should explain your suggested revisions to the policy, paragraph or section of the Policies Map, and why this change would make the plan legally compliant or sound. Please be as precise as possible (Continue on a separate sheet if necessary)

The potential for extra development in the village should be examined in a dispassionate and objective manner to accurately assess the settlement's capacity to accommodate further development.

OS 5073 , which has both good access to the village's amenities as well as having excellent access to the A49 trunk road (which can be accessed without having to drive through the village) should be allocated for housing development. This would bring greater choice to the, market in terms of location and house type, and will make the village more sustainable.

Please be sure that you have provided all the information necessary to support your representations and any changes you are proposing. After this stage you will not be able to make any further representations about the SAMDev Plan to Shropshire Council. Any further submissions will only be possible at the invitation of the Inspector conducting the examination, who may seek additional information about the issues he/she has identified.

Do you consider it necessary to attend and give evidence at the examination?

Yes, I wish to give evidence about my representation at the examination.

YES

No, I wish to pursue my representations through this written representation.

If you wish to attend the examination, please explain why you think this is necessary in the box below:

The issues that are objected to need to be explored with a wide range of other interested parties having a wide range of opinions both in terms of the problems themselves and the possible solutions.
