Policy MD5: Sites for sand and gravel working – paragraph 3

This policy sets out the strategy for the provision of sand and gravel up to 2026 and based on a level of provision of 0.82Mtpa, identifies the need to allocate three sites.

Policy CS20 of Shropshire's core strategy provides opportunity for higher levels of production where evidence is available. The explanation of this policy refers to the need for flexibility and that there is potential for sites within the broad locations shown on figure 11 of the strategy, to supply markets outside Shropshire.

The pattern of sand and gravel supply is anticipated to change in south west Staffordshire with the cessation of mineral extraction at two quarries and this could

influence demand from quarries particularly in south east Shropshire.

**Please use the box below to explain the changes you think should be made to the SAMDev Plan in order to make it legally compliant or sound?** You should explain your suggested revisions to the policy, paragraph or section of the Policies Map, and why this change would make the plan legally compliant or sound. Please be as precise as possible (Continue on a separate sheet if necessary)

To accommodate the flexibility required by Policy CS20, paragraph 3 of Policy MD5 should be amended to ensure that the Plan is effective so that proposals for mineral working falling outside the allocated areas are not unduly restricted. Therefore, point (iii) copied below of paragraph 3, should be deleted from the plan as it has the potential to limit additional provision overall in its present form.

~~iii. significant environmental benefits would be obtained as a result of the exchange or surrender of existing permissions or the site might be significantly more acceptable overall than the allocated sites, and would offer significant environmental benefits.~~

Please be sure that you have provided all the information necessary to support your representations and any changes you are proposing. After this stage you will not be able to make any further representations about the SAMDev Plan to Shropshire Council.
