Shire Hall
Shrewsbury

Dear Adrian ,

7/10/14

Gonsal Quarry Extension

I can confirm that Gonsal Quarry sand and gravel reserve is a viable mineral resource despite the need for a new road access . Gonsal Quarry has been part of Salop sand and Gravels business since the 1950's and there still remains a substantial reserve over which to write off the costs of a road much of which is over farmland and can be constructed with on site materials .
